**COST ALLOCATION MANUAL
FOR MPSC AND KCC**

- Prepared by: Philip Burright
- Account No.: 255520 Accum Def Inv Tx Cr-WC-1985
- Business Unit: POWER
- Allocation Basis:

This account reflects the normalized investment tax credits associated with the constructin of the Wolf Creek Nuclear Power Plant. This account is being amortized into income over the remaining book lives of the assets on which ITC was taken at Wolf Creek. (See account 255634 for non-nuclear investment tax credit amortization)

**COST ALLOCATION MANUAL
FOR MPSC AND KCC**

- Prepared by: Philip M. Burright
- Account No.: 255600 Def Investment Tax Credit – Wf Cr Sales
- Business Unit: POWER
- Allocation Basis:

This account tracks the amortization of normalized investment tax credits relating to the sale of KCP&L's 3% interest in Wolf Creek to Kepco. The investment tax credit is amortized over the projected book lives of the Wolf Creek assets eligible for ITC.

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Philip Burright
- Account No.: 255601 Def Investment Tax Credit – Iatan Sales
- Business Unit: HOLDING CO
- Allocation Basis:

This account tracks the amortization of investment tax credits relating to the sale of excess capacity of the Iatan plant. This credit is being amortized over the life of the specified assets eligible for ITC in relation to capacity sold. Allocation to operating divisions will be based upon Tax Sharing Agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred investment tax credit.

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Philip M. Burrigh
- Account No.: 255634 Def Investment Tax Credit - Elec All Years
- Business Unit: HOLDING CO
- Allocation Basis:

This account reflects the normalized investment tax credits associated with construction or assets acquired with the power plants (non-nuclear). This account is being amortized into income over the remaining book lives of the assets on which ITC was taken. Allocation to operating divisions will be based upon tax sharing agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred tax asset or deferred tax liability. Current tax expense will be allocated based upon the projected taxable income of each operating division. Amortization of credits relating to Wolf Creek are separately accounted for in account #255520.

**COST ALLOCATION MANUAL
FOR MPSC AND KCC**

- Prepared by: Gregg Clizer
- Account No.: 257201 Unamort Gain Reacq – 5 $\frac{3}{4}$ -03
- Business Unit: POWER
- Allocation Basis:

This unamortized gain on reacquired debt relates to Guaranty Pollution Control Bonds issued 3-1-73 and due 3-1-03 that were replaced with bonds pledged in support of pollution control bonds. Since this relates to a Pollution Control Bond it should be assigned to the GENCO operating division.

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Philip M. Burright
- Account No.: 282300 Deferred Income Tax – Prop Sales All
- Business Unit: HOLDING CO
- Allocation Basis:

This account reflects the book tax differences of sales of assets and the normalization of the gain for regulatory purposes. Basis differences exist due to accelerated methods of depreciation for tax versus financial accounting. When the assets are sold, the basis difference is usually reconciled and the deferred tax balance is zeroed out. However, this account tracks the deferred tax liability normalized through the original asset life. Allocation to operating divisions will be based upon Tax Sharing Agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred tax asset or deferred tax liability. Current tax expense will be allocated based upon the projected taxable income of each operating division.

**COST ALLOCATION MANUAL
FOR MPSC AND KCC**

- Prepared by: Philip Burright
- Account No.: 282610 – Def Income Tax – Liberalized Depr – Elect.
- Business Unit: HOLDING CO
- Allocation Basis:

Not used at this time

**COST ALLOCATION MANUAL
FOR MPSC AND KCC**

- Prepared by: Philip M. Burright
- Account No.: 282611 Def Income Tax – Liberalized Depr – Accufile
- Business Unit: HOLDING CO
- Allocation Basis:

This account tracks the book/tax difference due to different depreciation methods used for financial accounting vs tax return filing. The accelerated method of depreciation for tax purposes creates a deferred tax liability. This account reconciles the tax that is deferred based until turnaround of depreciation deductions. Allocation to operating divisions will be based upon Tax Sharing Agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred tax asset or deferred tax liability. Current tax expense will be allocated based upon the projected taxable income of each operating division.

**COST ALLOCATION MANUAL

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Philip M. Burright
- Account No.: 283300 Def Income Tax - Misc
- Business Unit: HOLDING CO
- Allocation Basis:

This account captures all timing differences for non-regulated transactions. Book/tax differences resulting in deferred taxes are recorded in this account, mainly relating to KCP & L's investment in KLT and Subsidiaries. Allocation to operating divisions will be based upon Tax Sharing Agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred tax asset or deferred tax liability. Current tax expense will be allocated based upon the projected taxable income of each operating division.

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Philip M. Burright
- Account No.: 283601 Deferred Income Tax – FASB 109 Adjustment
- Business Unit: HOLDING CO
- Allocation Basis:

This account reflects the deferred tax liability relating to the adoption of FASB 109. This liability account is offset by the regulatory asset, account number 182395. The balance is primarily due to the reduction in federal income tax rates for items that had been deducted for tax but were subject to normalization for rate base purposes. Allocation to operating divisions will be based upon Tax Sharing Agreements between the holding company and the operating companies. Current allocations are made upon asset based factors which closely represent the deferred tax asset or deferred tax liability.

COST ALLOCATION MANUAL FOR MPSC AND KCC

- Prepared by: Sandra Milton
- Account No: 283800-283801 Def Inc Tax Fedl & State-Extraord Item
- Business Unit: HOLDING CO
