February 18, 2014

As one of the sub-grantees who administer the Missouri Gas Energy (MGE) Low-Income Weatherization Program, the Ozarks Area Community Action Corporation (OACAC) Weatherization Program is requesting that Missouri Gas Energy continue to allow the maximum amount of dollars spent per home average to continue to be the same as the Department of Economic Development/Division of Energy (DED/DE). OACAC Weatherization Program is also requesting that all rules and regulations in the performance of the MGE Weatherization Program also be the same as DED/DE rules and regulations in the implementation of the Department of Energy (DOE) Weatherization Program in the State of Missouri. OACAC would also like to thank MGE for all the MGE customers that these funds have helped over the years by reducing their utility bill and helping to ensure the safety of their gas appliances through the Weatherization Program.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Steinmann", is written over a horizontal line.

Todd Steinmann, OACAC Weatherization Director
