Subject: Schedule Revision

Harper Peaking Facility Team:

Attached is a revised schedule for the annexations and approval of the development plan and use designation for public utilities. As you can see, there is nothing on tomorrow night's agenda for the project. Everything will basically be on Council's October 19 Regular Meeting Agenda and the October 26 Joint Meeting.

I appreciate the effort with the Public Service Commission. I think we can make a lot of progress on the different points on Wednesday.

Michael J. Fisher,

City Administrator

City of Peculiar
