

A small, rectangular louvered vent located in the gable end of the roof.

A rectangular, yellowish outdoor light fixture mounted on the exterior wall near the roofline.

A tall, dark grey metal cabinet or enclosure mounted on the wall, possibly for a transformer or control panel.

A small, square electrical panel or meter mounted on the wall next to the tall cabinet.

A large, rectangular metal cabinet with two doors, mounted on a concrete base. It has a lock and a small label on the front door.

A white, double-door entrance to the building, set into the stone block wall.

A small, square electrical panel or meter mounted on the wall to the right of the door.

A yellow and black outdoor unit, possibly a generator or a specialized electrical enclosure, located on the far right side of the building.
