SECTION 2 - RULES AND REGULATIONS

2.14 Timing of Calls

2.14.1 On Prepaid Calling Card calls, billing begins only when a starting and ending event both occur. Timing is calculated at the starting event and ends at the terminating event. If there is no terminating event, there is no charge. Time between the starting event and the terminating event is the call duration. The starting event occurs when the Platform experiences an incoming signaling protocol successfully, i.e., upon seizure of an inbound trunk. The terminating event occurs when the Platform receives a signal from the LEC that the calling party has terminated the call or when the special audio text and interactive voice response features of the Platform such as news, weather, voice mail, etc. have been accessed by the End User and completed. If the called party hangs up and the Customer re-originates one or more calls utilizing the interactive Platform program features without re-dialing the toll-free access number, the terminating event occurs when the Platform receives a signal from the LEC that calling party hangs up. If the End User of a Prepaid Calling Card call uses the conference feature, the third leg of the call is timed separately. Timing of the third leg of the call begins when the called station answers and terminates when the called station hangs up.

2.14.2 On direct-dialed calls, chargeable time begins when the called station answers and the connection is established between the calling station and the called station, miscellaneous common carrier, mobile radio system, or PBX system. Answer detection is determined on standard industry answer detection methods, including hardware and software answer detection. Chargeable times ends when the calling station hangs up thereby releasing the network connection. If the called station hangs up but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telecommunications network.

SECTION 2 - RULES AND REGULATIONS

2.15 Application of Charges

2.15.1 Timing Increments

Calls are billed in various timing increments depending on the Service subscribed to by the Customer. Each Service has its own specific initial period and additional period. Unless the length of the initial period and the additional period is otherwise specified in Section 3 of this Tariff, the initial period is one (1) minute or fraction thereof, and the additional period is each one (1) minute or fraction thereof. Fractions of a timing increment are rounded up to the next highest increment.

2.15.2 Rounding

(A) Payphone Surcharge

If the payphone surcharge includes a fraction of a cent, the fraction is rounded up to the next higher whole cent.

These obligations include all outstanding indebtedness for the use of Service(s). Consent to such assignment or transfer will not be unreasonably withheld.

Any permitted assignment or transfer of Company' Service will not relieve or discharge any Customer from remaining jointly and severally liable with the new Customer for any obligations existing at the time of transfer or assignment.

SECTION 2 - RULES AND REGULATIONS

2.17 Agreements, Proposals, and Warranties

2.17.1 The applicable terms, rates, and conditions specified in this Tariff, before or after subscription, constitute the only agreement between the parties with respect to Service(s) to which the Customer has subscribed, or desires to subscribe. Such statements, however, do not constitute warranties, shall not be relied upon by the Customer, and are not part of the parties relationship. All prior agreements, proposals, representations, or understandings concerning the Service(s) are also deemed superseded upon the Customer's subscription. The applicable Tariff sections constitute the complete and exclusive expression of the parties' relationship. These Tariff provisions may only be modified by: (1) a subsequent Tariff filing; or (2) a written agreement, signed by an authorized Company representative, which identifies both the Tariff provisions being modified or superseded, if applicable, and the specific nature of the change.

2.17.2 All implied warranties, including the implied warranty of merchantability, are disclaimed. The Company does not warrant that the Service(s) are fit for the particular purpose of the Customer. The Company makes no warranties with respect to the Service(s) other than that the Service(s) will conform to the description contained in the Tariff. Further Company liability will be such as described in Section 2.3 of this Tariff.

2.18 Lost Or Stolen Travel Card or PIN

Upon knowledge of facts which would alert a reasonable person to the possibility of unauthorized use of the Customer's travel card or PIN, the Customer will alert and give notice to the Company of such facts. Upon receipt of notice, the Company will deactivate the PIN associated with the card. If requested by the Customer, a new PIN will be issued to the Customer. The Cardholder is verbally informed of the available balance of the Prepaid Calling Card account.

Calls are real-time rated during call progression. The total price of each call, including applicable taxes, is calculated on the basis of usage and is deducted from the available account balance associated with each Prepaid Calling Card.
