

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of Union Electric Company d/b/a)
Ameren Missouri's Solar Rebate Payment Tariff) **File No. ET-2014-0085**

**ORDER GRANTING THE APPLICATION TO INTERVENE OF
KANSAS CITY POWER & LIGHT COMPANY AND KCP&L GREATER
MISSOURI OPERATIONS COMPANY**

Issue Date: October 22, 2013

Effective Date: October 22, 2013

This file was created on September 30, 2013, to consider possible changes to Ameren Missouri's solar rebate payment tariff regarding the proper calculation of the maximum average retail rate impact and its effect on continued payment of solar rebates by Ameren Missouri. Thereafter, on October 11, Ameren Missouri filed an application and tariff seeking to suspend its payment of solar rebates.

When this file was initially opened, the Commission added certain parties to the case and established October 3 as the deadline for additional entities to apply to intervene. KCP&L and GMO did not initially apply to intervene, but became interested in the case when Ameren Missouri filed to suspend its payment of solar rebates. Hence, on October 17, Kansas City Power & Light Company (KCP&L) and KCP&L Greater Missouri Operations Company (GMO) filed an application to intervene out of time.

On October 17, the Commission ordered that any party wishing to respond to KCP&L and GMO's application to intervene must do so no later than October 21. Ameren Missouri filed a response on October 18 indicating it does not object to the proposed intervention. No other party responded.

The Commission finds that KCP&L and GMO interest in this case is different from that of the general public, and may be adversely affected by a final order arising from this case in that those companies have their own solar rebate programs that could be affected by the resolution of this case. Furthermore, the Commission finds that KCP&L and GMO have shown good cause for their late application to intervene in that their interest in the case was not implicated until Ameren Missouri filed for authority to suspend its solar rebate payments. Therefore, in accordance with Commission Rule 4 CSR 240-2.075(4), the Commission will grant the application to intervene.

THE COMMISSION ORDERS THAT:

1. The Application of Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company for Leave to Intervene Out of Time is granted.
2. This order shall become effective upon issuance.

BY THE COMMISSION
