

**STATE OF MISSOURI  
PUBLIC SERVICE COMMISSION**

At a session of the Public Service  
Commission held at its office in  
Jefferson City on the 2<sup>nd</sup> day of  
February, 2022.

In the Matter of the Application of Evergy )  
Metro, Inc. d/b/a Evergy Missouri Metro )  
and Evergy Missouri West d/b/a Evergy )  
Missouri West for Approval of a )  
Transportation Electrification Portfolio )

**File No. ET-2021-0151**

**ORDER GRANTING MOTION FOR CLARIFICATION**

Issue Date: February 2, 2022

Effective Date: February 12, 2022

On January 12, 2022, the Commission issued a report and order that established the parameters of a Transportation Electrification Portfolio for Evergy Metro, Inc. d/b/a Evergy Missouri Metro and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (jointly Evergy). That report and order became effective on January 24, 2022. No party has requested rehearing, but Evergy filed a motion for clarification or reconsideration on January 21, 2022.

The motion for clarification asks about two provisions of the report and order. The first concerns the portion of the report and order that authorized Evergy Missouri Metro and Evergy Missouri West to expand the number of charging stations in their Clean Charge Network. Evergy Missouri Metro sought 100 additional charging stations, with 50 of those additional charging stations to be used in connection with the Kansas City Streetlight Charging Project, four to be used to encourage use by ride share providers, and the remaining 46 to be used to provide operational flexibility. Evergy Missouri West sought 50 additional charging stations, with 24 of the additional charging stations to be

used as additional highway corridor charging stations, while the other 26 additional charging stations would be used to provide operational flexibility.

The report and order approved the expansion of the Clean Charge Network in general terms, and in resolving subsequent sub-issues, specifically approved the addition of 26 additional charging stations in Evergy Missouri West's service territory to provide operational flexibility, while denying a request to add 24 additional highway corridor charging stations in that service territory. Other provisions of the report and order specifically authorized the additional 50 charging stations in the Evergy Missouri Metro service area to be used in connection with the Kansas City Streetlight Charging Project, and the additional four charging stations to encourage their use by rideshare providers. The report and order did not, however, specifically approve or disapprove the addition of 46 charging stations in the Evergy Missouri Metro service area to provide operational flexibility. Evergy asks the Commission to confirm that the additional 46 charging stations in the Evergy Missouri Metro service area are authorized.

The Commission clarifies that the 46 additional charging stations intended for operational flexibility in the Evergy Missouri Metro Service area are authorized.

The second request for clarification concerns the Residential Customer EV Outlet Rebate Program. Evergy asks the Commission to confirm its understanding that the report and order authorizes the provision of a rebate for either (1) the installation of a hardwired charger, or (2) installation of a 240V outlet that could be used to plug in an EV charger.

The Commission confirms that Evergy's understanding of that provision of the report and order is correct.

So that this matter can be promptly resolved, the Commission finds it reasonable to make this order effective in less than 30 days.

**THE COMMISSION ORDERS THAT:**

1. Evergy's motion for clarification is granted and the report and order of January 12, 2022 is clarified as described in the body of this order.
2. This order shall be effective on February 12, 2022.
