**File No. EO-2014-0283**

## ORDER GRANTING THE APPLICATION TO INTERVENE OF RENEW MISSOURI

Issue Date: June 3, 2014

Effective Date: June 3, 2014

This file was created on April 10, 2014, when KCP&L Greater Missouri Operations Company (GMO) filed its Annual Progress Report for Program Year 2013. That report describes GMO's savings and expenditures from energy efficiency and demand response programs.

Commission rule 4 CSR 240-20.093(8) provides that interested parties may file comments about the report within sixty days of its filing. On May 20, Earth Island Institute d/b/a Renew Missouri filed an application to intervene. More than 10 days have passed since Renew Missouri applied to intervene and no party has opposed that application.

Commission rule 4 CSR 240-2.075(3) provides that the Commission may grant intervention if the proposed intervenor has an interest in the case that is different from that of the general public, and that may be adversely affected by a final order arising from the case. Alternatively, the Commission may grant intervention if "granting the proposed intervention would serve the public interest". This is not a contested case, and the Commission is unlikely to issue a final order that could affect the interest of Renew Missouri. For that reason, Renew Missouri cannot qualify for intervention under the

adverse-effect prong of the regulation. But intervention under the public-interest prong of the regulation is another matter.

As a non-party, Renew Missouri is unable to view proprietary or highly confidential information in the file. Renew Missouri should be allowed a full opportunity to comment on GMO's report and it cannot do so unless it can see all of that report. Therefore, the public interest will be served by allowing Renew Missouri to intervene. In accordance with Commission Rule 4 CSR 240-2.075(3), the Commission will grant the application to intervene.

**THE COMMISSION ORDERS THAT:**

1. The Application to Intervene of Renew Missouri is granted.
2. This order shall become effective when issued.
