Rebuttal Testimony Of Barbara Meisenheimer

Ameren UE

ER-2011-0028

1	Q.	PLEASE STATE YOUR NAME, TITLE, AND BUSINESS ADDRESS.
2	A.	Barbara A. Meisenheimer, Chief Utility Economist, Office of the Public Counsel,
3		P. O. 2230, Jefferson City, Missouri 65102. I am also an adjunct instructor for
4		William Woods University.
5	Q.	HAVE YOU TESTIFIED PREVIOUSLY IN THIS CASE?
6	A.	Yes. I filed direct testimony on February 10, 2011.
7	Q.	WHAT IS THE PURPOSE OF YOUR REBUTTAL TESTIMONY?
8	A.	My rebuttal testimony responds to portions of the direct testimony of Union Electric
9		Company d/b/a AmerenUE (AmerenUE or the Company) witness Warner Baxter
10		regarding economic and public policy considerations that Public Counsel encourages
11		the Commission to consider in resolving the issues in this case.
12	Q.	ON PAGE 14, OF HIS DIRECT TESTIMONY, AMERENUE WITNESS MR. BAXTER
13		DESCRIBES THIS AS ONE OF THE MOST CHALLENGING PERIODS EVER FACED BY
14		AMERENUE. HE GOES ON TO EXPLAIN THAT THE NORMAL COSTS OF "KEEPING
15		THE LIGHTS ON," FOR THE COMPANY, CONTINUE TO BE SUBJECT TO STEADY

INFLATIONARY PRESSURE YEAR AFTER YEAR. ARE AMERENUE'S CUSTOMERS FACING ECONOMIC CHALLENGES AND INFLATIONARY PRESSURES?

A. Yes. In recent years, AmerenUE's customers have faced significant economic challenges. For example, every county in AmerenUE's service area experienced an increase in unemployment between 2006, and 2010. For a number of counties the unemployment rate has more than doubled since 2006. AmerenUE's customers have faced substantial increases in the cost of "keeping the lights on." As described later in this testimony, since 2006, AmerenUE has increased base rates for electric service by about \$431M. Depending on a customer's other utility service providers, the customer may have also experienced substantial increases in the cost of keeping the heat, water and sewer service on.

Q. PLEASE DESCRIBE AMERENUE'S SERVICE AREA.

A. According to information submitted as part of the Company's minimum filing requirements, AmerenUE serves the City of St. Louis and portions of 58 counties throughout Missouri.

Q. PLEASE COMMENT ON RECENT RATE INCREASES THAT HAVE IMPACTED AMERENUE'S SERVICE AREA.

A. From 2006 to 2010, investor owned utility customers in portions of AmerenUE's service area have faced significant increases. In rate cases, AmerenUE increased companywide electric rates three times for a total of almost \$431M and increased natural gas distribution rates by about \$6M. In addition, AmerenUE sought and received approval for a rate mechanism that has collected millions of dollars in additional electric fuel cost recovery outside of the normal rate case proceedings. Missouri American Water increased companywide water rates three times for a total of almost \$91M. Laclede Gas increased natural gas distribution rates by \$38.6M. Missouri Gas Energy increased natural gas distribution rates twice for a total of about \$43.4M. Other investor owned utilities including the Empire District, Missouri Gas Utility and Aqua Missouri have also increased rates.

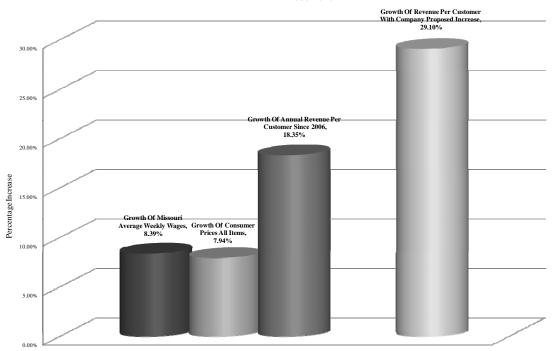

Q. PLEASE COMMENT ON WAGES AND PRICES.

A. Based on data obtained from the US Bureau of Labor Statistics, between June 2006, and June 2010, for counties served by AmerenUE, the growth in average weekly wages ranged from an increase of about 25.11% in Carroll County to a low of no change in Dunklin County. Over the same period the average weekly wages in the City of St. Louis grew by 7.97%.

Q. HOW DOES THE GROWTH IN WAGES COMPARE TO THE GROWTH IN COMPANY REVENUE?

A. Overall, Missouri workers' weekly wages have grown about 8.39% since 2006, which is less than half the 18.35% growth in AmerenUE's revenue per customer since 2006, and less than one third of the 29.1% growth in revenue AmerenUE could receive if the \$263.3M proposed increase is granted. The diagram shown below illustrates these comparisons.

Cumulative Growth in Weekly Wages, Consumer Prices and Company Revenue Per Customer 2006-2010

The diagram illustrates a 8.39% increase in weekly wages for the period 2006-2010, while the increases granted in ER-2007-0002, ER-2008-0318 and ER-

1		2010-0036, combined with the proposed increase in this case will equate to more
2		than a 29% increase in revenue per customer for AmerenUE's service area.
3	Q.	HAVE CONSUMERS EXPRESSED CONCERNS ABOUT THEIR ABILITY TO AFFORD
4		UTILITY RATE INCREASES?
5	A.	Yes. Customers testifying in the recent public hearings have regularly voiced
6		frustration and concerns about the burden of additional rate increases given the
7		current state of the economy. Some customers have testified that they must work
8		extra hours or two jobs just to make ends meet. Some have testified that they must
9		choose between paying utility bills and buying food and medicine.
10	Q.	WHAT DO YOU BELIEVE SHOULD BE THE COMMISSION'S FOCUS IN RESOLVING THIS
11		CASE?
12	A.	In this case, Public Counsel urges the Commission to decide issues in a manner that
13		recognizes the economic challenges faced by households in AmerenUE's service
14		area and reasonably minimizes the rate impact on consumers. The Commission
15		should also focus on allowing customers greater control over their electric bills.
16	Q.	IS IT THE COMMISSION'S JOB TO SET JUST AND REASONABLE RATES?
17	A.	Yes.
18	Q.	SHOULD THE COMMISSION CONSIDER THE ECONOMIC CLIMATE AND FACTS SUCH
19		AS UNEMPLOYMENT RATES AND PREVIOUS RATE INCREASES WHEN DETERMINING
20		WHAT RATES ARE JUST AND REASONABLE?
21	A.	Yes. Public Counsel has argued and the Commission has recognized that in
22		addition to cost of service other relevant factors to consider in setting rates

Rebuttal Testimony of Barbara Meisenheimer Case No. ER-2011-0028

- include the value of a service, the affordability of service, rate impacts, and rate continuity.
- 3 Q. DOES THIS CONCLUDE YOUR REBUTTAL TESTIMONY?
- 4 A. Yes.
