Case No. EO-2011-0090

**STAFF RECOMMENDATION TO APPROVE  
APPLICATION, WITH CONDITION, AS AMENDED**

**COMES NOW**, the Staff (“Staff”) of the Missouri Public Service Commission (“Commission”) and for its *Recommendation to Approve Application, with Condition, as Amended* (“*Recommendation*”) states as follows:

1. On September 24, 2010 Kansas City Power & Light Company filed its *Application* requesting authority from the Missouri Public Service Commission to encumber certain alternative fuel infrastructure equipment used for charging electric vehicles (“Clean Cities Equipment”).
2. The total amount of equipment to be subject to the encumbrance is *approximately* \$40,000.00 to \$90,000.00.
3. The requested encumbrance would allow for KCP&L to receive reimbursement of up to \$150,000.00, in consideration for services performed under its agreement with Midwest Energy Center (MEC) in conjunction with the Department of Energy’s Midwest Regional Alternative Fuels Project, for all invoices submitted to MEC during the agreement term.
4. Staff has reviewed KCP&L’s September 24, 2010 *Application* and finds the information in the *Application* to be consistent with the information KCP&L presented and discussed in previous stakeholder meetings.

5. Staff recommends that the Commission approve KCP&L's request to encumber the Clean Cities equipment, subject to the condition in the following proposed ordered paragraph:

That nothing in the Commission's order shall be considered a finding by the Commission of the value of this transaction for rate making purposes, and that the Commission reserves the right to consider the rate making treatment to be afforded this transaction in any future proceedings.

**WHEREFORE,** Staff respectfully requests that the Commission grant KCP&L the authority to encumber certain Clean Cities equipment, conditioned as specified above.

Respectfully submitted,
