DIRECT TESTIMONY
OF
RUSSELL W. TRIPPENSEE

Submitted on Behalf of
the Office of the Public Counsel

UtiliCorp United, Inc.

Case No. ER-2001-672

FILED³

DEC 6 2001

Missouri Public
Service Commission

December 6, 2001

DIRECT TESTIMONY

OF

RUSSELL W. TRIPPENSEE

UTILICORP UNITED INC.

CASE NO. ER-2001-672

1 **Q. PLEASE STATE YOUR NAME AND ADDRESS.**

2 A. Russell W. Trippensee. I reside at 1020 Satinwood Court, Jefferson City, Missouri 65109, and my
3 business address is P.O. Box 7800, Jefferson City, Missouri 65102.

4 **Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?**

5 A. I am the Chief Utility Accountant for the Missouri Office of the Public Counsel (OPC or Public
6 Counsel).

7 **Q. PLEASE DESCRIBE YOUR EDUCATIONAL BACKGROUND.**

8 A. I attended the University of Missouri at Columbia, from which I received a BSBA degree, major in
9 Accounting, in December 1977. I attended the 1981 NARUC Annual Regulatory Studies Program
10 at Michigan State University.

11 **Q. HAVE YOU PASSED THE UNIFORM CPA EXAM?**

12 A. Yes, I hold certificate number 14255 in the State of Missouri. I have not met the two-year
13 experience requirement necessary to hold a license to practice as a CPA.

14 **Q. PLEASE DESCRIBE YOUR WORK EXPERIENCE.**

15 A. From May through August, 1977, I was employed as an Accounting Intern by the Missouri Public
16 Service Commission (MPSC or Commission). In January 1978 I was employed by the MPSC as a

1 Public Utility Accountant I. I left the MPSC staff in June 1984 as a Public Utility Accountant III
2 and assumed my present position.

3 **Q. PLEASE DESCRIBE YOUR PROFESSIONAL AFFILIATIONS.**

4 A. I served as the chairman of the Accounting and Tax Committee for the National Association of State
5 Utility Consumer Advocates from 1990-1992 and am currently a member of the committee. I am a
6 member of the Missouri Society of Certified Public Accountants.

7 **Q. PLEASE DESCRIBE YOUR WORK WHILE YOU WERE EMPLOYED BY THE MPSC
8 STAFF.**

9 A. Under the direction of the Chief Accountant, I supervised and assisted with audits and examinations
10 of the books and records of public utility companies operating within the State of Missouri with
11 regard to proposed rate increases.

12 **Q. WHAT IS THE NATURE OF YOUR CURRENT DUTIES WITH THE OFFICE OF
13 THE PUBLIC COUNSEL?**

14 A. I am responsible for the Accounting and Financial Analysis sections of the Office of the Public
15 Counsel and coordinating their activities with the rest of our office and other parties in rate
16 proceedings. I am also responsible for performing audits and examinations of public utilities and
17 presenting the findings to the MPSC on behalf of the public of the State of Missouri.

18 **Q. HAVE YOU PREVIOUSLY FILED TESTIMONY BEFORE THE MPSC?**

19 A. Yes. I filed testimony in the cases listed on Schedule RWT-1 of my testimony on behalf of the
20 Missouri Office of the Public Counsel or MPSC Staff.

1 **Q. WHAT IS THE PURPOSE OF YOUR DIRECT TESTIMONY?**

2 A. To outline Public Counsel's findings regarding integration of the Missouri operations of UtiliCorp
3 United Inc. (UCU or Company) commonly referred to as the Missouri Public Service Company
4 (MoPub) service area and the St. Joseph Light & Power Company (SJLP) service area. I will also
5 outline Public Counsel's policy concerns with looking at the gross revenue requirement of a utility
6 on a basis other than a total Missouri jurisdictional basis.

7 **Q. HAVE YOU REVIEWED THE MPSC REPORT AND ORDER, ENTITLED "ORDER**
8 **REGARDING MOTION TO REJECT TARIFF AND MOTION TO DISMISS",**
9 **DATED OCTOBER 2, 2001 IN THIS CASE?**

10 A. Yes, I have.

11 **Q. IS RETURN ON EQUITY TO THE STOCKHOLDER THE CORNERSTONE IN**
12 **DETERMINING THE GROSS REVENUE REQUIREMENT?**

13 A. Yes. It is Public Counsel's understanding that the Commission is required to approve tariffed rates
14 that give the utility an opportunity to earn a reasonable rate of return on equity. The primary
15 measurement of a business financial performance is earnings either in absolute dollars or as a
16 percentage, which is Return on Equity investment.

17 **Q. IS THE COMMISSION'S DEVELOPMENT OF RATES PREMISED ON A PRIOR**
18 **DETERMINATION?**

19 A. Yes. The Commission must first determine a Gross Revenue Requirement (GRR) that matches all
20 activities, inputs, outputs, and customer demands, etc. over a period of time normally referred to a

1 test year. The GRR would determine what necessary expenses and investments the utility would
2 incur to meet the demands of the customers. These customer demands include multiple items and
3 the measurement of these demands in aggregate is referred to as billing determinants. Example of
4 billing determinates in a test year would include but not be limited to; sales units, customer counts,
5 number of service connections, number of service disconnects, and other factors for which tariffed
6 charges exist.

7 **Q. IS THERE A FUNDAMENTAL DIFFERENCE BETWEEN "RATES" AND "GROSS**
8 **REVENUE REQUIREMENT"?**

9 A. Yes, most definitely. Gross Revenue Requirement is easily defined by the following formula;

10
$$\text{GRR} = \text{Expenses} + (\text{Rate Base} * \text{Overall Rate of Return as a \%})$$

11 Only after GRR is determined, can rates be developed for tariff purposes. The Commission should
12 ensure that the utility's tariffed rates are not expected to produce greater revenues than the GRR
13 (assuming the various billing determinants, sales units, customer numbers, etc. are used to test the
14 validity of the proposed tariff rates).

15 Historically the cost of debt (i.e. interest expense on debt) has been included in the cost of capital
16 (overall rate of return) necessary to support Rate Base in the testimony and schedules presented to
17 this Commission with respect to recommendations regarding Gross Revenue Requirement. The
18 Return on Equity is mathematically combined with the interest expense of debt in determining the
19 overall cost of capital, which is referred to as the Overall Rate of Return. It is however, possible
20 and just as appropriate to restate the GRR formula to remove the interest expense from the Overall

1 Rate of Return and simply include it as an expense similar to the presentation of interest expense in
2 the financial statements issued to the general public under Generally Accepted Accounting
3 Principles.

4 $GRR = \text{Expenses} + \text{Interest Expense} + (\text{Equity supported Rate Base} * \text{Return on}$
5 $\text{Equity as a \%})$

6 $\text{Interest Expense} = \text{Debt supporting Rate Base} * \text{interest rate on debt}$

7 $\text{Equity Supported Rate Base} = \text{Rate Base} - \text{Debt supporting Rate Base}$

8 **Q. PLEASE EXPLAIN THE IMPORTANCE OF DETERMINING THE RETURN ON**
9 **EQUITY TO INCLUDE IN THE DEVELOPMENT OF RATES.**

10 A. The calculation of the return on equity incorporates the recognition of all factors associated with the
11 operation of the utility. A review of the Gross Revenue Requirement formula sets out the
12 interdependency of revenues and expenses and the resulting earnings. Failure to recognize the
13 financial effect of any regulated jurisdictional activity of a utility means that the resulting return on
14 equity to be used in the development of rates is not reflective of the utility's jurisdictional
15 operations. If the appropriate rate of return is therefore not reflected in the development of rates,
16 those rates create two distinct situations. Either the utility is not given a reasonable opportunity to
17 earn its authorized rate of return or the ratepayers' rates will result in a utility earning an excessive
18 rate of return (assuming everything else remains equal in both scenarios).

19 **Q. IS IT NORMAL TO DETERMINE A GROSS REVENUE REQUIRMENT FOR A**
20 **UTILITY THAT REQUIRES A CHANGE IN SPECIFIC TARIFFED RATES BUT**

1 **NOT A CHANGE ALL OF THE TARIFFED RATES OF THAT UTILITY IN**
2 **ORDER TO REFLECT THE NEW GROSS REVENUE REQUIREMENT?**

3 A. Yes, most definitely. The development of the GRR is sometimes referred to as an overall cost of
4 service study. In contrast, the development of rates is referred to as a "class cost of service study".
5 A "class cost of service study" application in the development of tariffed rates can only be
6 performed after the Gross Revenue Requirement has been determined.

7 A simple analogy may help clarify this point. The Gross Revenue Requirement is like baking a pie.
8 You must determine how big the pie needs to be and ensure that all the ingredients are included.
9 Once the pie is finished, it is appropriate to determine who is going to eat the pie, i.e. the
10 development of rates. The question of whether or not one class of customers may be responsible for
11 the same portion of the pie as was determined in a prior rate case or if other classes of customer may
12 get more or less of the pie must be answered. Regardless of how the pie (i.e. revenue requirement
13 responsibility) is divided, the fact remains that development of the revenue requirement is the
14 necessary precursor to the formulation of rates.

15 **Q. WHAT IS YOUR UNDERSTANDING OF HOW UCU PROVIDES ELECTRIC**
16 **SERVICE UNDER THE JURISDICTION OF THE COMMISSION?**

17 A. The Company currently provides retail electric service to a contiguous service area within Missouri.
18 UCU's original service area centered in and around Kansas City, Missouri with a geographically
19 segregated service area for Harrison county and portions of four other counties around Harrison
20 county. UCU operated these areas under the fictitious business name of Missouri Public Service
21 Company. UCU acquired St. Joseph Light & Power Company, effective December 29, 2001 and

1 provides service to these customers under the fictitious business name of St. Joseph Light & Power.
2 The service area of SJLP had common borders with each of the geographically segregated service
3 territories of MoPub service territory thus providing UCU with a newly contiguous service area in
4 Missouri.

5 **Q. DOES UCU CURRENTLY OPERATE THE TWO SERVICE AREAS AS A**
6 **COMBINED CONTROL AREA?**

7 A. Yes. UCU responded to OPC Data Request 1503 that its "Systems Operators – Generation
8 currently cover both MPS and SJLP service territory as a combine control area." The attached
9 organizational chart indicates the responsibility for power supply to these areas in under the control
10 of UCU employee John Browning. (OPC Data Request 1503 attached as Schedule RWT-2)

11 **Q. DOES A SEPARATE GENERAL OFFICE OR CORPORATE HEADQUARTERS**
12 **EXIST FOR ST. JOSEPH LIGHT & POWER AND/OR MOPUB?**

13 A. No. Corporate operations for UCU's contiguous Missouri service area are located at 20W. Ninth,
14 Kansas City, Missouri. (Response to OPC DR # 1504 attached as Schedule RWT-3). In fact, the
15 old corporate headquarters for St. Joseph Light & Power has been placed on the market for sale by
16 UCU. (Response to OPC DR # 1505 attached as Schedule RWT-4)

17 **Q. DOES UCU MAINTAIN A SEPARATE ACCOUNTING SYSTEM FOR THE TWO**
18 **AREAS THAT ARE PROVIDED ELECTRICAL SERVICE UNDER SEPARATE**
19 **FICTITIOUS NAMES?**

1 A. No. It is the Public Counsel's understanding that UCU maintains one basic accounting system
2 utilizing the PeopleSoft software as the platform. The flexibility of this software does allow for the
3 production of reports in various formats and cost centers (such as service areas or state
4 jurisdictions) other than only on a UCU total company basis. This flexibility is common to all
5 accounting systems I have seen during the twenty-plus years I have audited utilities' financial
6 records. In fact, UCU maintains Missouri data not only on a MoPub and SJLP basis, but also
7 broken down between it's generation business group and its distribution business group. This
8 flexibility does not mean that separate accounting systems exist. This flexibility allows
9 management to accumulate and analyze common data in multiple report formats in order to meet
10 management goals or measure performance of various business functions.

11 **Q. ARE YOU GENERALLY FAMILIAR WITH REGULATED ELECTRIC UTILITIES**
12 **IN MISSOURI AND THE COMMISSION'S RATEMAKING PRACTICES FOR**
13 **ELECTRIC UTILITIES OVER THE LAST TWENTY-FIVE YEARS?**

14 A. Yes.

15 **Q. ARE YOU AWARE OF ANY INSTANCE IN WHICH THE REVENUE**
16 **REQUIREMENT FOR THESE ELECTRIC UTILITIES HAS BEEN DETERMINED**
17 **BY THE COMMISSION ON A BASIS OTHER THAN A TOTAL MISSOURI**
18 **JURISDICTIONAL BASIS?**

19 A. No.

1 | **Q. DURING THIS PERIOD ARE YOU AWARE OF ANY REGULATED ELECTIC**
2 | **UTILITY WHICH HAD GEOGRAPHICALLY SEGREGATED SERVICE AREAS**
3 | **WITHIN MISSOURI?**

4 | A. Yes, I am. AmerenUE currently has four distinct, non-contiguous service areas within our state.
5 | Prior to 1984, AmerenUE (then known as Union Electric Company) had three wholly owned
6 | subsidiaries; Missouri Power & Light Company (MPL), Missouri Edison Company, and Missouri
7 | Utilities Company. Missouri Power & Light Company had eight operating districts, one of which
8 | was its Excelsior Springs district. The Excelsior Springs district was geographically segregated
9 | from the balance of the MPL system and was not interconnected on a transmission system basis.
10 | Therefore, the Excelsior Springs district service area received its electricity primarily from a
11 | purchase power contract with Kansas City Power & Light. The balance of the service areas of
12 | Union Electric subsidiaries received power via an integrated transmission system from Union
13 | Electric.

14 | **Q. WITH RESPECT TO MISSOURI POWER & LIGHT OR AMERENUE, HAS THIS**
15 | **COMMISSION CONSISTENTLY LOOKED AT MISSOURI JURISDICTIONAL**
16 | **OPERATIONS IN TOTAL WHEN DETERMINING THE APPROPRIATE REVENUE**
17 | **REQUIREMENT?**

18 | A. Yes.

19 | **Q. IS IT ESSENTIAL TO LOOK AT TOTAL MISSOURI JURISDICTIONAL**
20 | **ELECTRIC OPERATIONS WHEN DETERMINING REVENUE REQUIREMENT FOR**

1 **AN ELECTRICAL CORPORATION INSTEAD OF INDEPENDENTLY DEVELOPING**
2 **TWO SETS OF TARIFFED RATES FOR THE SAME COMPANY?**

3 A. Yes. Otherwise it is a virtual certainty, that the rate of return the utility would have an opportunity
4 to earn on its Missouri jurisdictional operations would be different than the rate of return used in the
5 development of rates for one service area within the state.

6 **Q. PLEASE EXPLAIN WHAT YOU MEAN.**

7 A. If a utility has its rates set at separate times for two different service areas, the authorized rate of
8 return used in the development of the revenue requirement for service area #1 and service area #2
9 will probably be different simply because of changes in either the financial markets or changes in
10 the capital structure of the utility because the passage of time between the measurement of these two
11 factors used in the development of an authorized rate of return. In addition, the failure to recognize
12 changes in actual operations, customer levels and usage, or the multitude of other similar factors in
13 the service area #2 (for which a revenue requirement is not being determined at the same time as
14 service area #1) will result in a rate of return for service area #2 being different than the rate of
15 return used in the revenue requirement for service area #1. Therefore when taken together, the rate
16 of return for the utility on a total Missouri jurisdictional basis will not be equal to the rate of return
17 found appropriate in a proceeding involving only service area #1.

18 **Q. CAN YOU PROVIDE THE COMMISSION WITH A ACTUAL EXAMPLE OF WHAT**
19 **YOU HAVE EXPLAINED?**

20 A. Yes. Public Counsel has developed alternate revenue requirement calculations based on calendar
21 year 2000 unadjusted data from the FERC Form 1 annual report to the Commission. These

1 calculations are in the same basic format as the what is commonly referred to as the Staff
2 Accounting Schedules. The revenue requirements shown on these calculations clearly reveal how a
3 bifurcation of the process will result in a utility having rates authorized which would result in the
4 Company not being allowed the opportunity to earn the appropriate rate of return on Missouri
5 jurisdictional basis all things else being equal. The first calculation looks at UCU total Missouri
6 jurisdictional operations, that is the combined data of the MoPub service area and the SJLP service
7 area. The second calculation is based solely on the MoPub service area. The set of schedules
8 related to UCU total Missouri jurisdictional operations are labeled OPC Accounting Schedules UCU
9 followed by a schedule number. The set of schedules related to MoPub are labeled OPC
10 Accounting Schedules MPS followed by a schedule number.

11 **Q. IS IT RELEVANT THAT THE DATA USED IN THE TWO REVENUE**
12 **REQUIREMENT CALCULATIONS PERFORMED BY PUBLIC COUNSEL HAVE NOT**
13 **BEEN ADJUSTED THROUGH THE VARIOUS RATEMAKING TECHNIQUES SUCH**
14 **AS NORMALIZATIONS AND ANNUALIZATIONS OR OTHER DISALLOWANCES?**

15 **A.** No. These examples are for illustrative purposes only. The important factor is that the data is
16 treated consistently. In this case, the data used is unadjusted book data taken from a consistent
17 source, the FERC Form 1. If the data was subject to necessary adjustments required to make a
18 revenue requirement recommendation, it would be essential to ensure that these necessary
19 adjustments to the underlying book data were applied consistently. The critical factor illustrated by
20 Public Counsel's testimony, is that rates are based on a gross revenue requirement which in turn is
21 driven by rate of return on equity. Rate of return on equity is directly impacted by the level of

1 expenses and investment along with the expected revenues. Failure to recognize any expenses,
2 investment, or revenues associated with a utility's Missouri operations in the revenue requirement
3 recommendation will result in the rate of return on equity for the partial service area being different
4 (higher or lower) than that level necessary on a total Missouri jurisdictional basis. Such partial
5 ratemaking will not result in just and reasonable rates based upon all relevant factors.

6 **Q. IS PUBLIC COUNSEL MAKING A SPECIFIC REVENUE REQUIREMENT**
7 **RECOMMENDATION WITH THESE CALCULATIONS?**

8 A. No. Public Counsel is addressing the inadequacy of the Company's filing and therefore its failure to
9 meet its burden of proof. This policy issue facing this Commission is crucial to the appropriate
10 determination of the rate of return necessary for UCU Missouri jurisdictional operations and the
11 resulting rates.

12 **Q. PLEASE EXPLAIN WHY PUBLIC COUNSEL ASSERTS THAT A FAILURE TO**
13 **LOOK AT TOTAL MISSOURI JURISDICTIONAL OPERATIONS RESULTS IN**
14 **THE COMPANY NOT BEING ALLOWED THE OPPORTUNITY TO EARN THE**
15 **AUTHORIZED RATE OF RETURN.**

16 A. Attached to my testimony is OPC Accounting Schedule MPS-1, which indicates that UCU needs a
17 \$9,692,317 increase in current revenues in order to earn a 10.25% return on equity if only the
18 MoPub specific data is utilized in the revenue requirement calculation. OPC Accounting Schedule
19 UCU-1, attached to my testimony, indicates that UCU needs a \$17,203,831 increase in current
20 revenues in order to earn a 10.25% return on equity. This calculation looks at all factors that effect
21 UCU's rate of return on equity. In contrast the attachment entitled Accounting Schedule MPS look

1 only at a subset of the UCU Missouri jurisdictional data that affects UCU's rate of return on equity.
2 Setting rates on less than total Missouri jurisdictional revenue requirement would mean that UCU
3 would have a revenue shortfall of \$7,511,514 and therefore not have an reasonable opportunity to
4 earn its rate of return on equity assuming that the revenue/expense/return on rate base relationship
5 remains the same subsequent to the effective date of the new rates.

6 **Q. IS PUBLIC COUNSEL ADVOCATING THAT UCU GET ADDITIONAL REVENUE**
7 **IN THIS CASE BASED ON CALENDAR YEAR 2000 DATA?**

8 A. No. Public Counsel is simply advocating that the Commission calculate the revenue requirement
9 for UCU in a manner that anticipates that UCU will have an opportunity to earn its rate of return on
10 equity if the revenue/expense/return on rate base relationship remains unchanged. If the
11 Commission determines a revenue requirement on a mere subset of UCU Missouri jurisdictional
12 data, then on a total Missouri jurisdictional basis, UCU will either fail to have a reasonable
13 opportunity to earn its return (as unadjusted calendar year 2000 data would indicate) or would be
14 able to earn returns in excess of that authorized (if inclusion of the non-MPS data had the effect of
15 decreasing the additional revenues needed above current revenues).

16 In short, Public Counsel is advocating the Commission perform proper ratemaking with regard to
17 UCU's earnings from Missouri jurisdictional operations and not create a situation in which Missouri
18 jurisdictional equity earnings are different than those which would be authorized all things else
19 being equal.

20 **Q. IS PUBLIC COUNSEL RECOMMENDING THAT THE TARIFFED RATES FOR**
21 **THE MOPUB AND SJLP SERVICE AREAS BE THE SAME?**

1 A. No. Public Counsel is not taking a position on whether or not tariff rate equalization is appropriate
2 at this time or in this testimony. There are various reasons rates may differ between service areas
3 or between rate groups.

4 Regardless of any variations in rates between service areas or rate classes, the aggregate revenue
5 generated by those tariffs should equal the revenue requirement and thus generate the appropriate
6 rate of return on equity for the Company's Missouri jurisdictional operations. The practical result is
7 that the customers in the two service areas will have rates based on different rates of return on
8 equity for the same Company.

9 **Q. DO FINANCIAL MARKETS DIFFERENTIATE BETWEEN THE RESPECTIVE**
10 **SERVICE AREAS OF UCU IN MISSOURI WITH RESPECT TO STOCK**
11 **ISSUANCES OR PURCHASE/SALES?**

12 A. No. UCU stock is publicly traded under the stock ticker symbol UCU. Public Counsel is unaware
13 of any stocks issued by UCU that ascribes ownership to only one service area. Public Counsel
14 witness Mark Burdette addresses the capital structure and determination of the appropriate return on
15 equity in his direct testimony in this case.

16 **Q. DOES THIS CONCLUDE YOUR DIRECT TESTIMONY?**

17 A. Yes.

DATE DUE: November 4, 2001
REQUESTOR: Russell W. Trippensee

QUESTION:

Do UtiliCorp employees (i.e. dispatchers) have responsibility for the Missouri service area as a whole or for the former Missouri Public Service Company service territory and former St. Joseph Light & Power Company territory separately? Please explain and provide an organizational chart for the department in which dispatchers are located and also include management responsibility and hierarchy.

RESPONSE:

The System Operators – Generation currently cover both MPS and SJLP service territory as a combine control area. An organization chart is attached which shows the hierarchy.

QUESTION:

What is the current status of the general headquarters building in St. Joseph, Missouri that was previously occupied by St. Joseph Light & Power Company? Please include listing of any business functions currently occupying the building, plans and timetables for the future of the building, and the current original cost and accumulated depreciation reserve for the building.

RESPONSE:

1. The headquarters building is currently being occupied by the System Operations department responsible for monitoring and dispatching the transmission system and providing back-up for distribution outages. System Ops will relocate to the St. Joseph T&D facility by the end of October/early November, 2001. The facility is currently for sale – A local realtor has been hired to market the building in St. Joseph, regionally and nationally. There is no active interest in purchasing the facility at this time.
2. Original cost of the building (excluding improvements) \$257,998
Accumulated depreciation reserve for building \$218,161
