JUL 19 2022

Missouri Public
Service Commission

Statement:

- My name is Jerry Countryman. Address 451 N, Countryman Rd., Ozark MO 65721
- Both utility companies have denied change of service request.
- Fact: White River Valley Elect Coop has provided service to family farm since the installation of electricity to the area back in 1940's.
- Fact: Empire District (now liberty) provided service to 451 N. Countryman Rd. Ozark MO in 1977.
- Fact: The family farm was dispersed to us kids in 2010, after passing of my mother.
- Fact: 451 N. Countryman Rd was platted in 1977, house with 5 acres in Jerry L Countryman's name.
- Fact: The additional 22 1/4 acres I inherited are and adjoin the house and five acres. The barn and shed on the 22 1/4 acres is serviced by White River.
- My application for change is for "the option to go to one utility provider." Right now I am paying base for two utility providers.

- Fact; Service Commission has "elements"
- They go by for change of service request.
- = When I looked at "elements" guide,
- My request really is not defined in those "guidelines";
- = Sometimes you have to look outside the "box", i.e. "elements", "guidelines" to what the real situation is.
- = SO: At this time I still request for option to go to ~~the~~ utility (electric) provider for my needs.
- I have always paid my electric bills
- I feel as the landowner I should be allowed to go to who I want.
- My choice would be White River Valley Elect Coop.
- Hope this clarifies my position.
