

EC-2023-0395

Brett Felber  
VS  
Ameren Missouri

### Response to Respondents Filing

Respondents newest filing by far takes the cake of all excuses give on this matter. Not only have they given excuses to every factual piece of paper that has been presented. They continue to pathologically lie. At some point the Respondents are going to have to respond with actual "data". Because they haven't provided any.

Respondents have admitted that they don't have a copy of the payment agreement. In addition the voice recording they submitted that is for May 18, 2023, doesn't elaborate on what date or the date of the agreement at subect.

Now their counsel wants to stoop to the lowest unethical level there is and make even more incredibly absurd statements.

The most I've seen out of the respondents is opinions and opinion related material. Nothing that they've presented to the Commission or to I the Complainant shows any evidence or factual data, unless we are considering blank opinion pages of what they feel and how things are typed up as evidence.

Respondent was supplied a copy of a Jurat Affidavit of conclusive facts, proving the authentication of the email. Since when does a unethical, unprofessional and absurd opinion, supersede a factual Jurat Affidavit of statement of facts?

At this point I don't believe that there is going to believe a "evidentiary" hearing, as if services aren't restored by no later than Monday september 11, 2023 I and the dwelling owner are filing a complaint and presenting this to the St.Louis County Police Department.

Respondent has made not only unethical and patholigcally lie filled excuses that I'm honestly tired of hearing and quite frankly, I shouldn't be subjected to counsels unethical responses.

Respondents have given over 111 days of excuses and pathological lies. In fact in every complaint that has been filed against Ameren, they change their story in each one.

If the Respondents which to keep services inactive after Monday September 11, 2023 and fail to oblige, it won't be my problem after that date. I've given Ameren and each respondent involved in the matter 111 days to rectify the

broad range of illegal activities they've engaged in and they've taken advantage of it.

I'm not going to continue to take time out of my day and life to be subjected to respondents' ludicrous statements, so they can sell their ludicrous and unethical statements to St. Louis County Police Department after Monday.
