NOTICE OF CORRECTION

Issue Date: June 4, 2008

On May 12, 2008, the Commission filed its Order of Rulemaking regarding 4 CSR 240-23.010 Electric Utility Operational Standards with the Office of the Missouri Secretary of State. In the course of editing that Order of Rulemaking and the rule text for publication in the *Missouri Register* and the *Code of State Regulations*, certain errors and omissions were brought to the attention of the Commission. The Commission hereby corrects those inadvertent errors as follows:

1. In the second comment, the word “industry” should be inserted in the seventh line of the third paragraph so that the line begins, “comparison across the industry.”
2. The revised fiscal note referenced in the response to the last comment was omitted from the filing that was submitted to the Secretary of State. That revised fiscal note is also attached to this notice.
3. The last sentence of section (8) of the rule will have a comma inserted after the word “density” so that the sentence ends, “other local conditions, customer density, and cost considerations”
4. The last sentence of section (10) of the rule will have the word “than” inserted after the word “larger” so that the sentence reads in part, “lots no larger than 0.5 acres”

In addition, the editors of the *Missouri Register* and the *Code of State Regulations* will make various other style changes during publication including the addition of commas in a sequence and the addition of numbers in parentheses.
