**Joint Request for Extension**

Come now Lake Region Water & Sewer Co. ("Lake Region"), and Intervenor Four Seasons Racquet and Country Club Condominium Property Owners Association, Inc. ("Intervenor") hereby jointly request an extension of time for the installation of flow meters called for by an approved Stipulation and Agreement from May 31, 2010. In Support of this Joint Request for Extension, Lake Region and Intervenor state as follows:

1. On or about October 7, 2009, this rate case proceeding was initiated.
2. On or about February 22, 2010, Intervenor, Lake Region, and Staff executed and filed a Partial Non-Unanimous Stipulation Respecting Adjustments to Sewer Charges Applicable to Intervenor Four Seasons Racquet and Country Club Condominium Property Owners Association, Inc. (Stipulation). This Stipulation resolved the issue and concern for which Intervenor intervened in this proceeding.
5. By Order of April 14, 2010 the Commission approved the Stipulation.

6. Numbered paragraph 4 of the Stipulation provides that flow meters were to be installed by May 31, 2010, “unless this date needs to be postponed for good cause appearing”.

7. After a meeting at the premises of Intevenor and the Country Club Hotel, it was determined that the May 31, 2010 deadline was not feasible, so a request for extension until August 31, 2010 made on May 27, 2010. The Commission granted this request on June 1, 2010.

8. On August 19, 2010, the interested parties met to discuss the status of the installation of flow meters. Staff and Lake Region have concerns as to the type of flow meter installations required, and the efficacy of the flow meter installations. It was agreed that the current August 31, 2010 deadline is not feasible. Lake Region and Staff desire to first proceed with modifying the existing flow meter installation, and monitor its performance over a sufficient length of time to include both wet and dry periods. Then, assuming this flow meter performs adequately, Lake Region and Staff believe it is desirable to repeat this process sequentially for the additional flow meters that will be required to accurately measure the separate usage of Lake Region and the Country Club Hotel. It is expected that this process will take many months to complete.

9. Intevenor and Lake Region request an extension of the August 31, 2010 deadline. Intervenor and Lake Region will report to the Commission when the flow meter installations are completed, or report to the Commission as to the progress of the flow meter installations by June 1, 2011, whichever first occurs.

10. The Parties to the Stipulation agree to meet on a quarterly basis beginning September 15, 2010 in order to remain informed on the status of installation of flow meters.

11. Additionally, on August 19, 2010, the Commission entered a Report and Order in this matter, therefore it is likely that the individuals involved in this Stipulation will request this item be placed on a separate docket until completed, as Lake Region and Intervenor remain committed to the Stipulation.

12. Staff has advised the undersigned that it is not opposed to this extension request.

WHEREFORE, on the basis of the foregoing Lake Region and Intervenor Four Seasons Racquet and Country Club Condominium Property Owners Association, Inc. respectfully requests that the Commission grant an extension of the May 31, 2010 date set forth in paragraph 4 of the Stipulation, as previously extended through August 31, 2010, until the earlier of successful installation of flow meters, or June 1, 2011.
