File No. LO-2019-0093

**ORDER GRANTING APPLICATION FOR DESIGNATION
AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER**

Issue Date: November 7, 2018

Effective Date: December 7, 2018

On September 28, 2018, Mid-States Services, LLC, (“Mid-States”) filed its application for designation as a wireless Eligible Telecommunications Carrier (“ETC”). Mid-States later supplemented its application to request designation for wireline instead of wireless service, and to include a request for low-income support. Mid-States filed this application due to a recent award in a reverse auction for the Connect America Fund II (“CAF II”) held by the Federal Communications Commission (“FCC”).

The CAF II program is part of the FCC’s reform and modernization of its universal service fund support programs designed to accelerate the expansion of broadband services to rural areas, and to any areas which presently lack the infrastructure capable to support at least 10/1 Mbps of fixed broadband services. The FCC held an auction to allocate funds to various companies which could further the goals of the CAF II program. The FCC requires each winning company to obtain ETC designation from its respective public utilities commission prior to receiving the allocated funds.

The Commission issued notice and set a deadline for intervention. No person or entity sought intervention in this matter, and no party has requested a hearing. On October 19, 2018, the Commission's Staff filed a *Staff Recommendation*, which recommends that the Commission grant the application.

The application is within the Commission's jurisdiction to decide.¹ Since no law requires a hearing, this is a non-contested case.² Non-contested cases do not require formal proceedings or hearings before the Commission, and as such, there is no evidentiary record.³ Consequently, the Commission bases its decision on the verified filings.

The federal Universal Service Fund was established in the Telecommunications Act of 1996 ("Act"). The stated purpose of the fund is to ensure that telephone customers in rural and high cost areas, as well as low-income customers, have access to quality telecommunications services at reasonable and affordable rates.⁴ To meet that goal, the Universal Service Fund redistributes money paid into the fund by telecommunications customers to telecommunications service providers who serve low-income customers or rural and high cost areas.

Before a telecommunications service provider is eligible to receive funding from the Universal Service Fund, it must be designated as an Eligible Telecommunications Company ("ETC"). Section 214(e)(6) of the Act provides, in pertinent part:

In the case of a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission, the Commission shall upon request designate such a common carrier that

¹ 47 U.S.C. § 214(e)(2); Commission Rule 4 CSR 240-31.130(1).

² Section 536.010(4), RSMo, defines a "contested case" as "a proceeding before an agency in which legal rights, duties or privileges of specific parties are required by law to be determined after hearing."

³ *Sapp v. City of St. Louis*, 320 S.W.3d 159, 163 (Mo. App. 2010).

⁴ 47 U.S.C. 254(b).

meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the Commission consistent with applicable Federal and State law.

The Commission finds the assertions in the application and the *Staff Recommendation* to be true. The Commission must grant Mid-States ETC designation if it satisfies all federal and state requirements.⁵ Based upon its independent and impartial review of the verified application and staff recommendation, the Commission finds that Mid-States has met all federal and state requirements and that it is in the public interest to grant the ETC application. Therefore, the Commission will designate Mid-States as an ETC for the purpose of receiving federal high-cost and low-income support for the service area identified in Mid-States initial application.⁶

THE COMMISSION ORDERS THAT:

1. Mid-States Services, LLC, is designated as an eligible telecommunications carrier to receive federal high-cost and low-income support for the service area identified in Exhibit 1 of its initial application.
2. This order shall become effective on December 7, 2018.
3. This case shall be closed on December 8, 2018.

BY THE COMMISSION

A handwritten signature in black ink that reads "Morris L. Woodruff".
