Issue Date: December 28, 2018

Effective Date: December 28, 2018

On December 18, Missouri-American Water Company (“Missouri-American” or “the Company”) filed an application with the Missouri Public Service Commission requesting a Certificate of Convenience and Necessity (“CCN”) to install, own, acquire, construct, operate, control, manage, and maintain a sewer system in the Timber Springs Estates subdivision in Clinton County, Missouri.

The requested CCN would allow the company to provide wastewater treatment and collection system operation and maintenance for the approximately 61 customers currently receiving service by the Timber Springs Estates Homeowners Association (“Sellers”). Missouri-American states it does not anticipate the need for external financing in order to purchase Seller’s distribution system. Missouri-American also states that no franchises or permits from municipalities, counties, or other authorities will be required.

MAWC proposes to provide sewer service pursuant to the existing rules and regulations currently found in P.S.C. MO NO. 26; and pursuant to the rates found on Sheet RT 3.1 of that tariff.

Missouri-American also requests a waiver of the notice requirement in Commission Rule 4 CSR 240-4.017(1), MAWC states that it has had no communication with the office of the Commission within the prior 150 days regarding any substantive issue likely to be in this case.

The Commission will direct notice be given and set a deadline for intervention requests. The Commission will also direct its Staff to file a status report on its review of Missouri-American's application.
