ORDER APPROVING STIPULATION AND AGREEMENT

Issue Date: February 27, 2019

Effective Date: March 17, 2019

Background

On November 29, 2018, Kansas City Power & Light Company ("KCP&L") and KCP&L Greater Missouri Operations Company ("GMO")(collectively, "the Company") applied to the Commission for approval of certain demand-side programs, a Technical Resource Manual, and a Demand-Side Investment Mechanism, as contemplated by the Missouri Energy Efficiency Investment Act ("MEEIA") and the Commission's implementing regulations. Contemporaneously therewith, the Company filed implementing tariffs bearing an effective date of April 1, 2019.¹ This filing is the Company's 2019-2022 MEEIA filing, otherwise known as Cycle 3.

On December 27, 2018, the Commission granted intervention requests from: West Side Housing Organization; National Housing Trust; Spire, Missouri, Inc.; The Missouri

¹ Tariff Nos. YE-2019-0103 and JE-2019-0104.

Department of Economic Development - Division of Energy; Midwest Energy Consumers Group; Renew Missouri Advocates d/b/a Renew Missouri; and Natural Resources Defense Council.

Stipulation

On February 15, 2019, the Company, the Staff of the Commission, the Office of the Public Counsel, the Missouri Department of Economic Development – Division of Energy, and Renew Missouri Advocates d/b/a Renew Missouri filed a Stipulation and Agreement Regarding Extension of MEEIA 2 Programs During Pendency of MEEIA 3 Case (“Stipulation”).² Contemporaneously therewith, the Company filed tariffs to implement the Stipulation. The tariffs bear an effective date of March 17, 2019.³

The Stipulation provides:

- MEEIA Cycle 2 will be extended for up to nine months, with a new end date of not later than December 31, 2019;
- With some exceptions, the total cycle budget, Plan Energy (kWh) and Demand (kW) savings targets, and Earnings Opportunity (EO) targets and caps will increase by 25%;
- The Company will work with Staff to determine avoided costs, and the parties will make a filing no later than May 1, 2019 stating whether they agree to the avoided costs, indicating that further negotiations will continue, or that the parties cannot agree and will ask for a procedural schedule

Decision

Commission Rule 4 CSR 240-2.115 allows the Commission to treat a non-unanimous stipulation as if it were unanimous if no party objects within seven days of the stipulation’s filing. No party objected; indeed, the Stipulation stated that the non-

² The Commission approved the Company’s Cycle 2 MEEIA plan on March 2, 2016 in File Nos. EO-2015-0240 and EO-2015-0241.

³ Tariff Nos. YE-2019-0157, YE-2019-0158, and YE-2019-0159.

signatories did not object. The Commission will treat the Stipulation as unanimous because no party objects.

Under MEEIA, and with Commission approval, electric utilities may offer demand-side programs and special incentives to participating customers designed to put demand-side initiatives on equal footing with traditional supply-side resources. In order to accomplish that equal footing, the law requires the Commission to do three things:

- (1) Provide timely cost recovery for utilities;
- (2) Ensure that utility financial incentives are aligned with helping customers to use energy more efficiently and in a manner that sustains or enhances utility customers' incentives to use energy more efficiently; and
- (3) Provides timely earnings opportunities associated with cost-effective measurable and verifiable savings⁴

Commission Rule 4 CSR 240-20.094(4)(H) states that the Commission shall approve, approve with modification acceptable to the Company, or reject MEEIA applications within 120 days of their filing. Based on these rules, the MEEIA statute, and the Commission's review of the Stipulation, the Commission finds that the Stipulation meets the aforementioned MEEIA standards. Therefore, the Commission will approve the Stipulation.

THE COMMISSION ORDERS THAT:

1. The Stipulation and Agreement Regarding Extension of MEEIA 2 Programs During Pendency of MEEIA 3 Case filed on February 1, 2019, which is Exhibit 1 to this order, is approved, and its signatories shall comply with its terms.

2. Tariffs No. YE-2019-0103 and JE-2019-0104 are rejected.

3. Tariffs No. YE-2019-0157, YE-2019-0158, and YE-2019-0159 are approved effective March 17, 2019.

⁴ Section 393.1075.3 RSMo.

4. This order shall become effective on March 17, 2019.

**STIPULATION AND AGREEMENT REGARDING EXTENSION OF MEEIA 2
PROGRAMS DURING PENDENCY OF MEEIA 3 CASE**

COME NOW Kansas City Power & Light Company (“KCP&L”) for its Missouri operations, KCP&L Greater Missouri Operations Company (“GMO”) (collectively, the “Company”), the Staff of the Missouri Public Service Commission (“Staff”), the Office of the Public Counsel (“OPC”), the Missouri Department of Economic Development – Division of Energy (“DE”), and Renew Missouri Advocates d/b/a Renew Missouri (“Renew MO”) (collectively, “Signatories”) by and through their respective counsel, and for their Stipulation and Agreement (“Stipulation”), respectfully state to the Missouri Public Service Commission (“Commission”).

BACKGROUND

1. On November 29, 2018, KCP&L and GMO applied to the Commission for approval of certain demand-side programs, a Technical Resource Manual (TRM), and a Demand-Side Investment Mechanism (DSIM) as contemplated by the Missouri Energy Efficiency Investment Act (MEEIA) and the Commission’s implementing regulations.

2. On December 4, 2018, the Commission issued its *Order Directing Notice of Application and Order Setting Hearing* which provided an intervention deadline and a procedural

schedule for the proceeding. Numerous parties were granted intervention, and various technical and settlement conferences were held to discuss the issues in the case. On January 28, 2019, the Company, on behalf of itself and various parties, filed a Motion To Suspend Procedural Schedule. In the motion, the Company stated that the parties were continuing negotiating and were considering extending the Company's current MEEIA Cycle 2 plan another year. The Commission granted the Motion to Suspend Procedural Schedule on January 28, 2019.

3. This Stipulation reflects the results of settlement discussions, and presents the Commission with a joint recommendation with regard to the Company's MEEIA Cycle 2 programs that will allow the Company to continue to promote and deliver demand-side programs, including energy efficiency and demand response programs, while the Signatory Parties conduct additional discussions regarding a potential MEEIA Cycle 3. The Signatory Parties recommend that the Commission approve the following MEEIA Cycle 2 Extension Plan to allow MEEIA Cycle 2 to continue beyond the scheduled expiration date of March 31, 2019, and the procedures for a path forward for further discussions and resolution of the MEEIA Cycle 3 Program as described below.

4. In light of the foregoing, the Signatories agree to the following terms and conditions.

AGREEMENTS

5. The primary objective of the Company and DE, for this MEEIA Cycle 2 extension is to provide continuity (no gap) for customers of demand side programs while Signatories continue to evaluate how to best proceed for MEEIA Cycle 3. KCP&L and GMO MEEIA Cycle 2 will be extended for up to nine months with a new end date of not later than 12/31/2019 and the extended period will be deemed Program Year 4 (PY4). All current tariff dates will be extended

to remain in effect through no later than 12/31/2019, which includes the throughput disincentive (“TD”) language in DSIM Rider. Exhibit A contains the tariffs that will be changed as a result of this Stipulation.

6. With the following exceptions, the total cycle program budgets for both jurisdictions will be increased 25% from the Cycle 2 Stipulation budget ¹(see attached Exhibit B).

- a. Demand Response Incentive (“DRI”) budget will be similar to PY3 for GMO.
- b. Income-Eligible Multi-Family (“IEMF”) budget will be similar to PY3 for both jurisdictions.
- c. Income -Eligible Weatherization in GMO will not have budget added since the program is now recovered in base rates on a go forward basis.

7. With the following exceptions, the total MEEIA 2 Plan Energy (kWh) and Demand (kW) savings targets will increase 25%² (see Exhibit B)

- a. Demand Response Incentive targets will not be increased and remain at PY3 levels.
- b. For the Programmable Thermostat Program, The Company will call five demand response events per jurisdiction during the summer of 2019 (Jun-Sept). Company will present data to the DSM advisory group following the 2019 season detailing the customer participation rates (e.g. opt-out percentage, participation duration) during each demand response event conducted in 2019.

¹ The Signatories acknowledge that the PY4 budget will be scaled accordingly if PY4 does not extend through 12/31/2019.

² The Signatories acknowledge that the PY4 targets will be scaled accordingly if PY4 does not extend through 12/31/2019.

c. Home Energy Report and Income-Eligible Home Energy Report targets will not be increased and will remain at PY3 levels.

8. With the following exceptions, the total cycle Earnings Opportunity (“EO”) targets (MW/MWh and spend) and caps will increase by 25% for each jurisdiction and category³ (see Exhibit B).

a. No increase in EO target and cap for Demand Response Incentive. Since the EO for PY1-PY3 will already be calculated, the metric will be the cumulative MW reduced at the end of PY4 compared to the end of PY3 but not increase the total MW target.

9. For the MEEIA Cycle 2 Income Eligible Multi-Family program, the Company will spend the PY 4 budget on multi-family buildings and no budget will be spent for LED food bank distribution.

10. A new Long Lead Project period will be established with this MEEIA Cycle 2 extension. The Long Lead Project period will end 12 months from the completion date of MEEIA Cycle 2’s extension.

11. MEEIA Cycle 2 Earnings Opportunity earned through PY3 of Cycle 2 will be eligible for inclusion in the DSIM Rider effective with the February 2020 DSIM update.

12. MEEIA Cycle 2 EM&V will be conducted on PY4 in the same process as PY1-PY3 of MEEIA Cycle 2 and EM&V for PY4 will be used to determine EO for PY4.

³ The Signatories acknowledge that the PY4 targets will be scaled accordingly if PY4 does not extend through 12/31/2019.

KCP&L AND GMO MEEIA CYCLE 3 PATHS FORWARD

13. The Company will work with Staff to determine the appropriate avoided costs with 4/30/2019 as the deadline to finalize annual values of MEEIA Cycle 3 avoided costs to be used for program screening and cost effectiveness testing. The Company and Staff will provide periodic touch point to other interested parties of their progress and will explain any proposed settlement to interested parties.

14. The parties will make a filing on or before 5/1/2019 either indicating agreement has been reached on avoided costs, indicating that further negotiations will continue or that no agreement was reached and that the following procedural schedule should be adopted:

Rebuttal Testimony	May 3, 2019
Surrebuttal Testimony	June 3, 2019
List of Issues, etc.	June 10, 2019
Hearings – 2 days	as Commission’s June/July schedule allows
Initial Brief	2 weeks following hearing
Reply Brief	2 weeks following initial brief
Expected Order	September 2019

15. The Company will submit a separate request to the Commission for an extension of the annual IRP analysis and documentation including an adopted Preferred Resource Plan to be completed by 8/31/2019.

16. The MEEIA Cycle 2 extension will end consistent with a Commission order on MEEIA Cycle 3 in Case Nos. EO-2019-0132 and 0133 but not before 10/1/ 2019 and no later than 12/31/2019.

GENERAL PROVISIONS

17. Contingent upon Commission approval of this Stipulation without modification, the Signatories hereby stipulate to the admission into the evidentiary record of the testimony of their witnesses, and the witnesses of the parties who do not oppose this Stipulation, on the issues that are resolved by this Stipulation.

18. This Stipulation is being entered into solely for the purpose of settling the issues/adjustments in this case explicitly set forth above. Unless otherwise explicitly provided herein, none of the Signatories to this Stipulation shall be deemed to have approved or acquiesced in any ratemaking or procedural principle, including, without limitation, any cost of service methodology or determination, method of cost determination or cost allocation or revenue-related methodology.

19. This Stipulation is a negotiated settlement. Except as specified herein, the Signatories to this Stipulation shall not be prejudiced, bound by, or in any way affected by the terms of this Stipulation: (a) in any future proceeding; (b) in any proceeding currently pending under a separate docket; and/or (c) in this proceeding should the Commission decide not to approve this Stipulation, or in any way condition its approval of same. No Signatory shall assert the terms of this agreement as a precedent in any future proceeding.

20. This Stipulation has resulted from extensive negotiations among the Signatories, and the terms hereof are interdependent. If the Commission does not approve this Stipulation unconditionally and without modification, then this Stipulation shall be void and no Signatory shall be bound by any of the agreements or provisions hereof.

21. This Stipulation embodies the entirety of the agreements between the Signatories in this case on the issues addressed herein, and may be modified by the Signatories only by a written amendment executed by all of the Signatories.

22. If approved and adopted by the Commission, this Stipulation shall constitute a binding agreement among the Signatories. The Signatories shall cooperate in defending the validity and enforceability of this Stipulation and the operation of this Stipulation according to its terms.

23. If the Commission does not approve this Stipulation without condition or modification, and notwithstanding the provision herein that it shall become void, (1) neither this Stipulation nor any matters associated with its consideration by the Commission shall be considered or argued to be a waiver of the rights that any Signatory has for a decision in accordance with RSMo. §536.080 or Article V, Section 18 of the Missouri Constitution, and (2) the Signatories shall retain all procedural and due process rights as fully as though this Stipulation had not been presented for approval, and any suggestions, memoranda, testimony, or exhibits that have been offered or received in support of this Stipulation shall become privileged as reflecting the substantive content of settlement discussions and shall be stricken from and not be considered as part of the administrative or evidentiary record before the Commission for any purpose whatsoever.

24. If the Commission accepts the specific terms of this Stipulation without condition or modification, only as to the issues in these cases explicitly set forth above, the Signatories each waive their respective rights to present oral argument and written briefs pursuant to RSMo. §536.080.1, their respective rights to the reading of the transcript by the Commission pursuant to §536.080.2, their respective rights to seek rehearing pursuant to §536.500, and their respective

rights to judicial review pursuant to §386.510. This waiver applies only to a Commission order approving this Stipulation without condition or modification issued in this proceeding and only to the issues that are resolved hereby. It does not apply to any matters raised in any prior or subsequent Commission proceeding nor any matters not explicitly addressed by this Stipulation.

NON-SIGNATORY PARTIES DO NOT OPPOSE STIPULATION

The Signatories have been authorized to represent that the following parties, who have not executed this Stipulation, do not oppose Commission approval of this Stipulation:

- Midwest Energy Consumers Group (“MECG”);
- City of St. Joseph, Missouri (“St. Joe”);
- National Housing Trust (“NHT”);
- Westside Housing Organization (“WHO”);
- Natural Resources Defense Council (“NRDC”); and
- Spire Missouri, Inc. (“Spire”).

WHEREFORE, the Signatories respectfully request the Commission to issue an order in this case approving the Stipulation subject to the specific terms and conditions contained therein.

Respectfully submitted,

RULES AND REGULATIONS ELECTRIC

15.01 BUSINESS DEMAND-SIDE MANAGEMENT**(continued)****DEFINITIONS:**

Unless otherwise defined, terms used in tariff sheets or schedules in Section 15 have the following meanings:

Applicant – A customer who has submitted a program application or has had a program application submitted on their behalf by an agent or trade ally.

Demand-Side Program Investment Mechanism (DSIM) – A mechanism approved by the Commission in KCP&L Greater Missouri Operations Company's filing for demand-side programs approval in Case No. EO-2015-0241.

Energy Efficiency - Measures that reduce the amount of electricity required to achieve a given end use.

Incentive – Any consideration provided by Company directly or through the Program Administrator, including in the form of cash, bill credit, payment to third party, or public education programs, which encourages the adoption of Measures.

Long-Lead Project- A project committed to by a Customer, accepted by the Company, and a signed commitment offer received by the program administrator by the end of the Program Period, according to the terms and implementation of the MEEIA 2016-2018 Energy Efficiency Plan that will require until a date 12 months from the end of the Program Period to certify completion.

Measure – An end-use measure, energy efficiency measure, and energy management measure as defined in 4 CSR 240-22.020(18), (20), and (21).

Participant – End-use customer and/or manufacturer, installer, or retailer providing qualifying products or services to end-use customers.

Program Administrator – The entity selected by Company to provide program design, promotion, administration, implementation, and delivery of services.

Program Partner – A retailer, distributor or other service provider that Company or the Program Administrator has approved to provide specific program services through execution of a Company approved service agreement.

Program Period – The period from April 1, 2016 through December 31, 2019 unless earlier terminated under the TERM provision of this tariff. Programs may have slightly earlier termination dates for certain activities, as noted on the Company website – www.kcpl.com.

Project – One or more Measures proposed by an Applicant in a single application.

KCP&L Greater Missouri Operations Company
KANSAS CITY, MO 64106

For Missouri Retail Service Area

RULES AND REGULATIONS
ELECTRIC**15.01 BUSINESS DEMAND-SIDE MANAGEMENT****(continued)**

Total Resource Cost (TRC) Test – A test of the cost-effectiveness of demand-side programs that compares the avoided utility costs to the sum of all incremental costs of end-use measures that are implemented due to the program (including both Company and Participant contributions), plus utility costs to administer, deliver and evaluate each demand-side program.

TERM:

These tariff sheets and the tariff sheets reflecting each specific Business DSM program shall be effective from the effective date of the tariff sheets to December 31, 2019, unless an earlier termination date is ordered or approved by the Commission.

If the Programs are terminated prior to the end of the Program Period, only Incentives for qualifying Measures that have been installed prior to the Programs' termination will be provided to the customer.

DESCRIPTION:

The reduction in energy consumption or shift in peak demand will be accomplished through the following Programs:

- Business Energy Efficiency Rebates - Custom
- Business Energy Efficiency Rebates - Standard
- Business Programmable Thermostat
- Strategic Energy Management
- Block Bidding
- Small Business Direct Install
- Demand Response Incentive

In addition, KCP&L customers also have access to the Online Business Energy Audit

Program details regarding the interaction between Company or Program Administrators and Participants, such as Incentives paid directly to Participants, available Measures, availability of the Program, eligibility, and application and completion requirements may be adjusted through the change process as presented below. Those details, additional details on each Program, and other details such as process flows, application instructions, and application forms will be provided by the Company website, www.kcpl.com.

CHANGE PROCESS:

The change process is applicable to changes in program detail regarding the interaction between Company or Program Administrators and Participants, and excludes changes to the ranges of Incentive amounts for each Measure.

- 1) Identify need for program detail change regarding the interaction between Company or Program Administrators and Participants;
- 2) Discuss proposed change with Program Administrator;
- 3) Discuss proposed change with Evaluator;
- 4) Analyze impact on program and portfolio (cost-effectiveness, goal achievement, etc.);
- 5) Inform the Staff, Office of the Public Counsel and the Department of Economic Development, Division of Energy, of the proposed change, the time within which it needs to be implemented, provide them the analysis that was done and consider recommendations from them that are received within the implementation timeline (the implementation timeline shall be no less than five business days from the

- time that the Staff, Office of the Public Counsel and the Department of Economic Development, Division of Energy, are informed and provided the above-referenced analysis);
- 6) Take timely received recommendations into account and incorporate them where Company believes it is appropriate to do so;
 - 7) Notify and train customer contact personnel (Customer Service Representatives, Energy Consultants, Business Center) of the changes;
 - 8) Make changes to forms and promotional materials;
 - 9) Update program website;
 - 10) File updated web pages and, if appropriate, updated list of Measures and Incentives amounts in Case No. EO-2015-0241; and
 - 11) Inform Customer, trade allies, etc.

KCP&L Greater Missouri Operations Company will also continue to discuss and provide information on ongoing Program and Portfolio progress at quarterly regulatory advisory group update meetings.

PROGRAMS' ANNUAL ENERGY AND DEMAND SAVINGS TARGETS:

Note that targeted energy and demand savings may be shifted between Programs depending on market response, changes in technology, or similar factors. These targets are based on savings at customer meters (excluding transmission and distribution line losses).

	<i>Incremental Annual kWh Savings Targets at Customer Side of Meter</i>					<i>Cumulative Incremental Annual Targets by Program</i>

PROGRAM COSTS AND INCENTIVES:

Costs of and Incentives for the Business DSM Programs reflected herein shall be identified in a charge titled "DSIM Charge" appearing as a separate line item on customers' bills and applied to customers' bills as a per kilowatt-hour charge as specified in the GS, SGS, LGS or LPS rate schedules. All customers taking service under said rate schedules shall pay the charge regardless of whether a particular customer utilizes a demand-side program available hereunder, unless they have opted-out as provided for previously.

PROGRAM DESCRIPTIONS:

The following pages contain other descriptions and terms for the Programs being offered under this tariff.

****CHANGES IN MEASURES OR INCENTIVES:**

KCP&L Greater Missouri Operations Company may offer the Measures contained in Company's filing approved in Case No. EO-2015-0241. The offering of Measures not contained within the aforesaid filing must be approved by the Commission. Measures being offered and Incentives available to customers will be listed on Company's website, www.kcpl.com. The Measures and Incentives being offered are subject to change. Customers must consult www.kcpl.com for the list of currently available Measures. Should a Measure or Incentive offering shown on Company's website differ from the corresponding Measure or Incentive offering shown in the currently effective notice filed in Case No. EO-2015-0241, the stated Measure or Incentive offering as shown in the currently effective notice shall govern.

Program Administrator – The entity selected by Company to provide program design, promotion, administration, implementation, and delivery of services.

Program Partner – A retailer, distributor or other service provider that Company or the Program Administrator has approved to provide specific program services through execution of a Company approved service agreement.

Program Period – The period from April 1, 2016 through December 31, 2019, unless earlier terminated under the TERM provision of this tariff. Programs may have slightly earlier deadlines for certain activities, as noted on the Company website – www.kcpl.com.

Total Resource Cost (TRC) Test – A test of the cost-effectiveness of demand-side programs that compares the avoided utility costs to the sum of all incremental costs of end-use measures that are implemented due to the program (including both Company and Participant contributions), plus utility costs to administer, deliver and evaluate each demand-side program.

TERM:

These tariff sheets and the tariff sheets reflecting each specific residential DSM program shall be effective from the effective date of the tariff sheets to December 31, 2019, unless an earlier termination date is ordered or approved by the Commission.

If the Programs are terminated prior to the end of the Program Period, only Incentives for qualifying Measures that have been preapproved or installed prior to the Programs' termination will be provided to the customer.

DESCRIPTION:

The reduction in energy consumption or shift in peak demand will be accomplished through the following Programs:

- Home Appliance Recycling Rebate
- Whole House Efficiency
- Home Energy Report
- Income-Eligible Multi-Family
- Home Lighting Rebate
- Income-Eligible Weatherization
- Residential Programmable Thermostat

DEMAND SIDE INVESTMENT MECHANISM RIDER
Schedule DSIM (Continued)

"Evaluation Measurement & Verification (EM&V) means the performance of studies and activities intended to evaluate the process of the utility's program delivery and oversight and to estimate and/or verify the estimated actual energy and demand savings, utility lost revenue, cost effectiveness, and other effects from demand-side programs.

"Incentive" means any consideration provided by the Company, including buy downs, markdowns, rebates, bill credits, payments to third parties, direct installation, giveaways, and education, which encourages the adoption of program measures.

"MEEIA Cycle 1 Plan" consists of the 12 demand-side programs and the DSIM (including Program Costs, TD-NSB Share, Performance Incentive, etc.) described in the approved MEEIA Cycle 1 Filing in Docket No. EO-2012-0009 and its corresponding tariffs.

"MEEIA Cycle 2 Plan" consists of the 16 demand-side programs and the DSIM described in the MEEIA Cycle 2 Filing, which became effective following Commission order and approval of the MEEIA Cycle 2 Plan under Docket No EO-2015-0241, including the extension of Cycle 2 (Extension) following Commission approval and order granted under Docket No EO-2015-0241.

"Program Costs" means any prudently incurred program expenditures, including such items as program planning, program design; administration; delivery; end-use measures and incentive payments; advertising expense; evaluation, measurement, and verification; market potential studies; and work on a statewide technical resource manual.

"Cycle 2 Earnings Opportunity" (EO) means the incentive ordered by the Commission based on actual performance verified through EM&V against planned targets. The Company's EO will be \$10.4M if 100% achievement of the planned targets are met. EO is capped at \$20.0M, which reflects adjustment for TD verified by EM&V. Potential Earnings Opportunity adjustments are described on Sheet No. 138.6. The Earnings Opportunity Matrix outlining the payout rates, weightings, and caps can be found in 138.8.

"Short term Borrowing Rate" means the daily one month USD LIBOR rate, using the last actual rate for weekends and holidays or dates without an available LIBOR rate, plus (ii) the Applicable Margin for Eurodollar Advances as defined in the Pricing Schedule of the current GMO Revolving Credit Agreement. A simple mathematical average of all the daily rates for the month is then computed.

"AFUDC Rate" means the Allowance for Funds Used During Construction rate computed in accordance with the formula prescribed in the Code of Federal Regulations Title 18, Part 101.

Recovery Period (RP) includes the day the DSIM Rider Tariff becomes effective through July 31, 2016 and each six month period thereafter.

Schedule DSIM (Continued)

Earnings Opportunity Adjustments

The Earnings Opportunity shall be adjusted for the difference between the TD\$ billed and what the TD\$ billed would have been if:

- (1) The ME used in the calculation were the normalized savings for each measure at customer meter per measure determined through EM&V ex-post gross analysis for each program year, and,
- (2) The NTGF used in the calculation was the net-to-gross values determined through EM&V, except that if the NTG value determined through EM&V is less than 0.80, the recalculation shall use 0.80 and if the NTG value determined through EM&V is greater than 1.0, the recalculation shall use 1.0.
- (3) If the above adjustments are greater than the otherwise applicable Earnings Opportunity, these adjustments shall be limited to the value of the otherwise applicable Earnings Opportunity.
- (4) If the above adjustments plus the otherwise applicable Earnings Opportunity, are greater than \$20M, these adjustments shall be limited to the difference between the otherwise applicable Earnings Opportunity and \$20M.

Other DSIM Provisions

COMPANY shall file an update to NMR rates by month by class contemporaneous with filing any compliance tariff sheets in any general rate case reflecting the rates set in that case, and the billing determinants used in setting rates in that case.

Annual kWh savings per measure will be updated prospectively in KCP&L/GMO's TRM no later than 24 months after the commencement of the Plan based on EM&V ex-post gross adjustments determined for Year 1.

KCP&L/GMO shall each file a general rate case at some point before the end of year 6 of the Cycle 2 period to address the TD through the rebasing of revenues used to establish base rates, and if KCP&L/GMO fails to do so, the accrual and collection of the TD terminates beginning in year 7 of the Cycle 2 period. The Signatories agree that the filing of a rate case by each company utilizing an update or true-up period that ends between 39 months and 69 months after the effective date of the tariffs implementing MEEIA Cycle 2 satisfies this requirement.

FILING:

After the initial DSIM Rider rate adjustment filing, the Company shall make a DSIM Rider rate adjustment filing to take effect each August and February under the Term of this MEEIA Rider. DSIM Rider rate adjustment filings shall be made at least sixty (60) days prior to their effective dates.

PRUDENCE REVIEWS:

A prudence review shall be conducted no less frequently than at twenty-four (24) month intervals in accordance with 4 CSR 240-20.093(10). Any costs, which are determined by the Commission to have been imprudently incurred or incurred in violation of the terms of this DSIM Rider, shall be returned to customers through an adjustment in the next DSIM Rider rate adjustment filing and reflected in factor OA above.

**RULES AND REGULATIONS
ELECTRIC**

23.01 BUSINESS DEMAND-SIDE MANAGEMENT

DEFINITIONS: (continued)

Unless otherwise defined, terms used in tariff sheets or schedules in Section 22 have the following meanings:

Applicant – A customer who has submitted a program application or has had a program application submitted on their behalf by an agent or trade ally.

Demand-Side Program Investment Mechanism (DSIM) – A mechanism approved by the Commission in KCP&L’s filing for demand-side programs approval in Case No. EO-2015-0240.

Energy Efficiency - Measures that reduce the amount of electricity required to achieve a given end use.

Incentive – Any consideration provided by KCP&L directly or through the Program Administrator, including in the form of cash, bill credit, payment to third party, or public education programs, which encourages the adoption of Measures.

Long-Lead Project- A project committed to by a Customer, accepted by the Company, and a signed commitment offer received by the program administrator by the end of the Program Period according to the terms and implementation of the MEEIA 2016-2018 Energy Efficiency Plan that will require until a date 12 months from the end of the Program Period to certify completion.

Measure – An end-use measure, energy efficiency measure, and energy management measure as defined in 4 CSR 240-22.020(18), (20), and (21).

Participant – End-use customer and/or manufacturer, installer, or retailer providing qualifying products or services to end-use customers.

Program Administrator – The entity selected by KCP&L to provide program design, promotion, administration, implementation, and delivery of services.

Program Partner – A retailer, distributor or other service provider that KCP&L or the Program Administrator has approved to provide specific program services through execution of a KCP&L approved service agreement.

Program Period – The period from April 1, 2016 through December 31, 2019, unless earlier terminated under the TERM provision of this tariff. Programs may have slightly earlier termination dates for certain activities, as noted on the KCP&L website – www.kcpl.com.

Project – One or more Measures proposed by an Applicant in a single application.

GENERAL RULES AND REGULATIONS APPLYING TO ELECTRIC SERVICE

23.01 BUSINESS DEMAND-SIDE MANAGEMENT (continued)

Total Resource Cost (TRC) Test – A test of the cost-effectiveness of demand-side programs that compares the avoided utility costs to the sum of all incremental costs of end-use measures that are implemented due to the program (including both KCP&L and Participant contributions), plus utility costs to administer, deliver and evaluate each demand-side program.

TERM:

These tariff sheets and the tariff sheets reflecting each specific Business DSM program shall be effective from the effective date of the tariff sheets to December 31, 2019, unless an earlier termination date is ordered or approved by the Commission.

If the Programs are terminated prior to the end of the Program Period, only Incentives for qualifying Measures that have been preapproved or installed prior to the Programs' termination will be provided to the customer.

DESCRIPTION:

The reduction in energy consumption or shift in peak demand will be accomplished through the following Programs:

- Business Energy Efficiency Rebates - Custom
- Business Energy Efficiency Rebates - Standard
- Business Programmable Thermostat
- Strategic Energy Management
- Block Bidding
- Small Business Direct Install
- Demand Response Incentive

In addition, KCP&L customers have access to the Online Business Energy Audit.

Program details regarding the interaction between KCP&L or Program Administrators and Participants, such as Incentives paid directly to Participants, available Measures, availability of the Program, eligibility, and application and completion requirements may be adjusted through the change process as presented below. Those details, additional details on each Program, and other details such as process flows, application instructions, and application forms will be provided by the KCP&L website, www.kcpl.com.

CHANGE PROCESS:

The change process is applicable to changes in program detail regarding the interaction between KCP&L or Program Administrators and Participants, and excludes changes to the ranges of Incentive amounts for each Measure.

- 1) Identify need for program detail change regarding the interaction between KCP&L or Program Administrators and Participants;
- 2) Discuss proposed change with Program Administrator;
- 3) Discuss proposed change with Evaluator;
- 4) Analyze impact on program and portfolio (cost-effectiveness, goal achievement, etc.);
- 5) Inform the Staff, Office of the Public Counsel and the Department of Economic Development, Division of Energy, of the proposed change, the time within which it needs to be implemented, provide them the analysis that was done and consider recommendations from them that are received within the implementation timeline (the implementation timeline shall be no less than five

PROGRAM COSTS AND INCENTIVES:

Costs of and Incentives for the Business DSM Programs reflected herein shall be identified in a charge titled "DSIM Charge" appearing as a separate line item on customers' bills and applied to customers' bills as a per kilowatt-hour charge as specified in the SGS, MGS, LGS, LPS, SGA, MGA, LGA, or TPP rate **schedules**. **All customers taking service under said rate schedules shall pay the charge regardless of** whether a particular customer utilizes a demand-side program available hereunder, unless they have opted-out as provided for previously.

PROGRAM DESCRIPTIONS:

The following pages contain other descriptions and terms for the Programs being offered under this tariff.

****CHANGES IN MEASURES OR INCENTIVES:**

KCP&L may offer the Measures contained in KCP&L's filing approved in Case No. EO-2015-0240. The offering of Measures not contained within the aforesaid filing must be approved by the Commission. Measures being offered and Incentives available to customers will be listed on KCP&L's website, www.kcpl.com. The Measures and Incentives being offered are subject to change. Customers must consult www.kcpl.com for the list of currently available Measures. Should a Measure or Incentive offering shown on KCP&L's website differ from the corresponding Measure or Incentive offering shown in the currently effective notice filed in Case No. EO-2015-0240, the stated Measure or Incentive offering as shown in the currently effective notice shall govern.

If the Programs are terminated prior to the end of the Program Period, only Incentives for qualifying Measures that have been preapproved or installed prior to the Programs' termination will be provided to the customer.

DESCRIPTION:

The reduction in energy consumption or shift in peak demand will be accomplished through the following Programs:

- Home Appliance Recycling Rebate
- Whole House Efficiency
- Home Energy Report
- Income-Eligible Home Energy Report
- Income-Eligible Multi-Family
- Home Lighting Rebate
- Residential Programmable Thermostat

GENERAL RULES AND REGULATIONS APPLYING TO ELECTRIC SERVICE

23.16 RESIDENTIAL DEMAND-SIDE MANAGEMENT

(continued)

PROGRAMS' ANNUAL ENERGY AND DEMAND SAVINGS TARGETS:

Note that targeted energy and demand savings may be shifted between programs depending on market response, changes in technology, or similar factors. These targets are based on savings at customer meters (excluding transmission and distribution line losses).

	<i>Incremental Annual kWh Savings Targets at Customer Side of Meter</i>					<i>Cumulative Incremental Annual Targets by Program to 12/31/2019</i>
	Program Plan Year 1	Program Plan Year 2	Program Plan Year 3	Program Plan Year 4

For Missouri Retail Service Area

DEMAND SIDE INVESTMENT MECHANISM RIDER (CYCLE 2) Schedule DSIM (Continued)

DEFINITIONS: (Cont'd.)

"Effective Period" (EP) means the six (6) months beginning with January of 2016, and each six month period there-after.

"Evaluation Measurement & Verification (EM&V) means the performance of studies and activities intended to evaluate the process of the utility's program delivery and oversight and to estimate and/or verify the estimated actual energy and demand savings, utility lost revenue, cost effectiveness, and other effects from demand-side programs.

"Incentive" means any consideration provided by the Company, including, but not limited to buy downs, markdowns, rebates, bill credits, payments to third parties, direct installation, giveaways, and education, which encourages the adoption of program measures.

"MEEIA Cycle 1 Plan" consists of the 12 demand-side programs and the DSIM (including Program Costs, TD-NSB Share, Performance Incentive, etc.) described in the approved MEEIA Cycle 1 filing in Docket No. EO-2014-0095 & corresponding tariffs.

"MEEIA Cycle 2 Plan" consists of the 16 demand-side programs and the DSIM described in the MEEIA Cycle 2 Filing, following Commission approval and order granted under Docket No EO-2015-0240, including the extension of Cycle 2 (Extension) following Commission approval and order granted under Docket No EO-2015-0240.

"Program Costs" means any prudently incurred program expenditures, including such items as program planning, program design; administration; delivery; end-use measures and incentive payments; advertising expense; evaluation, measurement, and verification; market potential studies; and work on a statewide technical resource manual.

P.S.C. MO. No. 7 First Revised Sheet No. 49M

Cancelling P.S.C. MO. No. 7 Original Sheet No. 49M

For Missouri Retail Service Area

DEMAND SIDE INVESTMENT MECHANISM RIDER (CYCLE 2) Schedule DSIM (Continued)

Earnings Opportunity Determination

The EO shall be calculated using the matrix in tariff Sheet No. 49P. The EO will not go below \$0. The EO target at 100% is \$7.4 million. Before adjustments reflecting TD EM&V including NTG, the EO cannot go above \$10.5 million. The EO including adjustments reflecting TD EM&V including NTG cannot go above \$15.5 million. The cap is based on current program levels. If Commission-approved new programs are added in the years 2017 and 2018, the Company may seek Commission approval to have the targets for the cap of the EO scale proportionately to the increase in savings targets.

The Earnings Opportunity shall be adjusted for the difference, with carrying costs at the KCP&L monthly Allowance for Funds Used During Construction (AFUDC) rate compounded semi-annually, between the TD\$ billed and what the TD\$ billed would have been if:

- (1) The ME used in the calculation were the normalized savings for each measure at customer meter per measure determined through EM&V ex-post gross analysis for each program year, and,
- (2) The NTGF used in the calculation was the net-to-gross values determined through EM&V, except that if the NTG value determined through EM&V is less than 0.80, the recalculation shall use 0.80 and if the NTG value determined through EM&V is greater than 1.0, the recalculation shall use 1.0.

Other DSIM Provisions

The Company shall file an update to the NMR rates by Class by month contemporaneous with filing any compliance tariff sheets in any general rate case reflecting the rates set in that case, and the billing determinants used in setting rates in that case.

Annual kWh savings per measure will be updated prospectively in KCP&L/GMO's TRM no later than 24 months after the commencement of the Plan based on EM&V ex-post gross adjustments determined for Year 1.

KCP&L/GMO shall each file a general rate case at some point before the end of year 6 of the Cycle 2 period to address the TD through the rebasing of revenues used to establish base rates, and if KCP&L/GMO fails to do so, the accrual and collection of the TD terminates beginning in year 7 of the Cycle 2 period. The Signatories agree that the filing of a rate case by each company utilizing an update or true-up period that ends between 39 months and 69 months after the effective date of the tariffs implementing MEEIA Cycle 2 satisfies this requirement.

	Income Eligible Multi-Family (IEMF): criteria will be effective, prudent spend of budget	N/A		2.69%	100.00%	\$33,333	\$33,333		\$50,000	\$50,000	
				100%		\$1,257,248	\$1,789,258		\$1,763,545	\$2,501,987	
	Total Cap Including TD Adjustments						\$2,600,000			\$3,700,000	

(a) DRI Incentive for the Extension to 12/31/19 or 09/30/19 will be calculated as the incremental evaluated MW savings for the Extension less the total evaluated MW savings for PY1-PY3 times the DRI Payout Rate. The total EO Payout of PY1-PY3 plus the extension will not exceed the Cap of \$487,500.

Note:

1. Targets based on Cumulative Savings at the meter
2. The payout rate will be multiplied by the payout unit up to the maximum
3. MWh & MW targets are rounded to the nearest kWh & kW
4. Payout rate rounded to the nearest \$0.01

Program Budgets, Targets and Earnings Opportunity

GMO	Proposed Metric	Payout rate	Payout unit	% of Target EO	Cap/100% Multiplier	Cycle 2 - Extension to 09/30/19			Cycle 2 - Extension to 12/31/19		
						GMO 100% payout	GMO Cap	Target @ 100%	GMO 100% payout	GMO Cap	Target @ 100%
	Home Energy Reports: criteria will be effective, prudent spend of budget	N/A		5.06%	100.00%	\$87,500	\$87,500		\$131,250	\$131,250	
	EE, Tstat & R-P MWh (Excl. Home Energy Reports, DRI, & IEMF): criteria will be cumulative 1st yr incremental MWh during the 3 year plan plus extension	\$12.97	\$/MWh	19.17%	130.00%	\$341,603	\$444,084	26,337.942	\$497,144	\$646,287	38,330.287
	EE & R-P Coincident MW (Excl. Home Energy Reports, DRI, & IEMF): criteria will be cumulative 1st yr incremental MW reduction during the 3 year plan, coincident with system peak, plus extension	\$122,507.02	\$/MW	33.40%	150.00%	\$590,116	\$885,174	4.817	\$865,512	\$1,298,268	7.065
	Thermostat MW: criteria will be cumulative 1st yr incremental MW reduction during the 3 year plan, coincident with system peak, plus extension	\$92,799.91	\$/MW	15.17%	150.00%	\$354,403	\$531,604	3.819	\$393,750	\$590,625	4.243
	DR Incentive (DRI) MW of Ramping (growth from year 1 planned to year 3 plus extension actual) (year 1 is 10 MW - KCP&L-MO and 20 MW in GMO)	\$75,000	\$/MW	25.28%	130.00%	(a)	(a)	(a)	(a)	(a)	(a)
	Income Eligible Multi-Family (IEMF): criteria will be effective, prudent spend of budget	N/A		1.93%	100.00%	\$33,333	\$33,333		\$50,000	\$50,000	
				100%		\$1,406,956	\$1,981,696		\$1,937,656	\$2,716,430	
	Total Cap Including TD Adjustments						\$2,800,000			\$3,800,000	

(a) DRI Incentive for the Extension to 12/31/19 or 09/30/19 will be calculated as the incremental evaluated MW savings for the Extension less the total evaluated MW savings for PY1-PY3 times the DRI Payout Rate. The total EO Payout of PY1-PY3 plus the extension will not exceed the Cap of \$3,412,500.

Note:

1. Targets based on Cumulative Savings at the meter
2. The payout rate will be multiplied by the payout unit up to the maximum
3. MWh & MW targets are rounded to the nearest kWh & kW
4. Payout rate rounded to the nearest \$0.01

STATE OF MISSOURI

OFFICE OF THE PUBLIC SERVICE COMMISSION

I have compared the preceding copy with the original on file in this office and I do hereby certify the same to be a true copy therefrom and the whole thereof.

WITNESS my hand and seal of the Public Service Commission,
at Jefferson City, Missouri, this 27th day of February 2019.

Morris L. Woodruff
Secretary
