

BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI

In the matter of the application of)
Brett Felber) Case No. _____
(Name of Applicant))
)
for change of electric supplier.)

APPLICATION FOR CHANGE OF ELECTRIC SERVICE PROVIDER

1. Applicant's address is: 2865 Dividend Park Dr
Florissant, Mo 63031

2. The name of Applicant's current electric service provider is: Ameren
Missouri

3. Applicant requests the Missouri Public Service Commission to order a change of electric supplier to the address indicated above.

4. Applicant requested the Commission to order a change of electric supplier from Ameren Missouri (Current) to Energy (Requested)

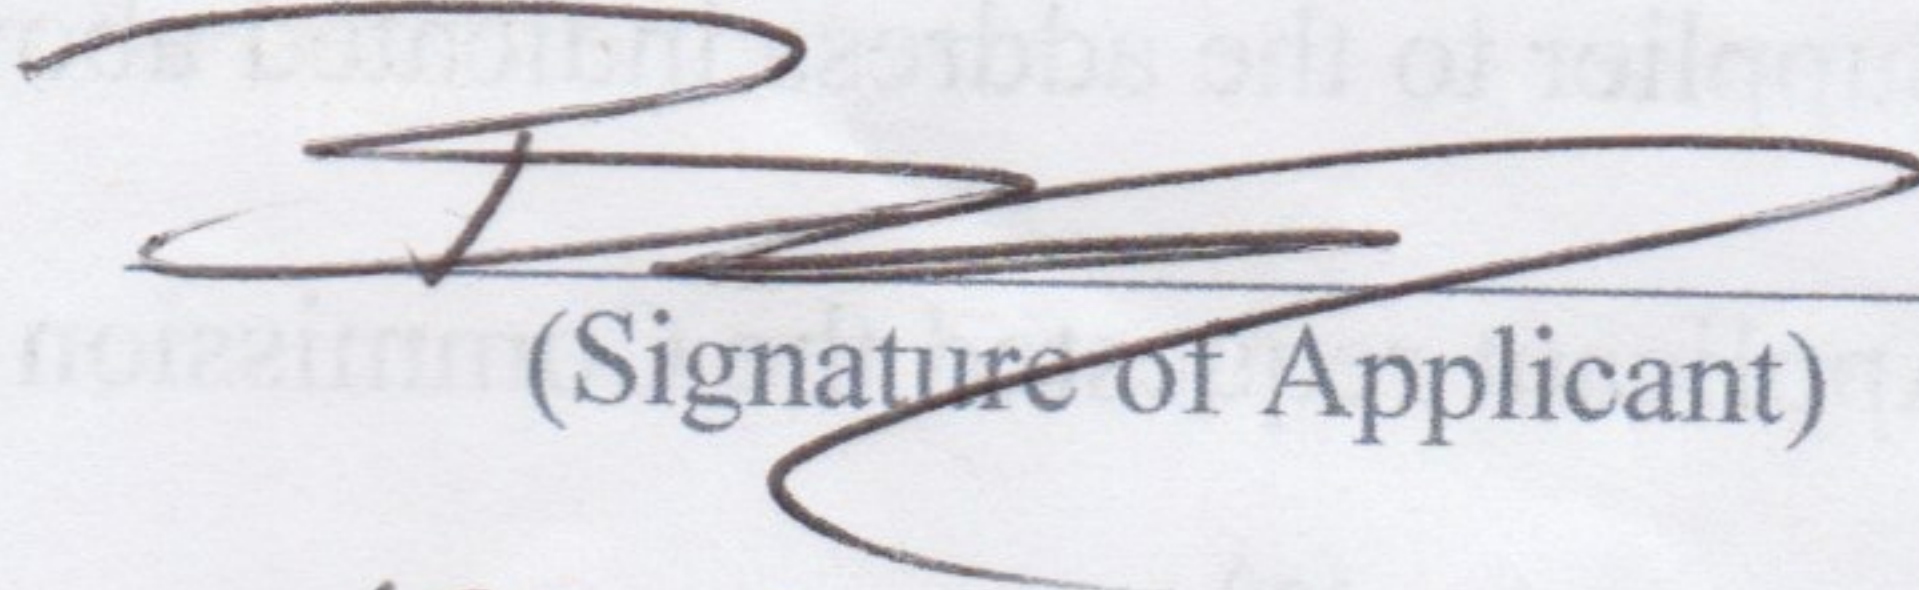

5. Applicant requests the Missouri Public Service Commission to order a change of electric provider for the following reasons.* Ameren has improperly billed me, violated numerous Commission regulation, tariff, rules. Ameren has failed to fix billing issues, failed to honor numerous agreements that have been submitted in matter EC-2023-0395. Ameren is trying to extort me into paying a balance I don't owe and for failing to honor a payment agreement and failing to honor a policy where they would try to collect.

6. Applicant has taken the following steps in an attempt to work out electric service problems with the electric service provider: I've tried every reasoning matter w/ Ameren and despite they continuously use the same deceptive tactics

While every unit in our service are the commission should allow Energy to intercept the line, transformer, meter, padmount and restore utility services asap

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

(Phone Number)

*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)

It is apparent that Ameren is going to always practice their deceptive tactics and behavior. It is unacceptable that a customer is subjected to their shell business practices and illegal tactics.

Their CEO's, Executives, legal counsel and Regulatory Division need to be investigated, fined, punished and criminally charged with crimes.

Allowing Energy to come in and intercept the line to the premises would ensure customer gets proper transparency, billing and reliable services without corrupt practices.

Ameren Missouri committing fraud, extortion, failing to abide by payment agreements, illegally disconnecting utility services and continued extortion, justifies another provider intercepting and tagging the line for use.

It would be the best interest of I, the Commission
and staff to honor this change and allow

Energy to intercept the line
