How generous to respond after a complaint was filed, again.

Even though I disagree with the amount and it is extortion, I would like an agreement in writing with signed signatures of all parties. Draft up a piece of paper, have your legal counsel sign it and I will sign off on it.

I don't believe there is any intent and Ameren will bolt with my money.

Plus there is no agreement on paper with the amount.

I would think you would understand, especially since you are telling me to pay a big sum of money.

I want assurance.

Draft it up with the down payment amount, installments and deferred monthly and sign off on it.
