Rules Governing Rendering of Sewer Service

PREFACE

The following Tariff governing sewer service is published as a convenient source of answers to basic questions asked by Customers or Applicants of Confluence Rivers Utility Operating Company, LLC (“Confluence Rivers” or “Company”). This Tariff is established to provide uniform standards and policies for the rendering of sewer service and to the extent applicable by their provisions, to prescribe terms and conditions for all sewer service rendered or to be rendered by Confluence Rivers. To the extent there is a conflict between the terms of this Tariff (or any contract with a Customer entered pursuant to this Tariff) and the Commission’s Service Rules, Procedural Rules and/or Orders, the terms of the Commission’s Service Rules, Procedural Rules and/or Orders shall control. This Tariff is on file with the Missouri Public Service Commission. Failure of Confluence Rivers to insist on any one or more occasions upon the strict compliance with this Tariff governing sewer utility service shall not constitute a permanent waiver or modification of the Tariff, but Confluence Rivers at any time may insist upon strict compliance herewith regardless of any previous waivers or Customer’s reliance thereon.

Copies of this Tariff are available at the Missouri Public Service Commission in Jefferson City, Missouri and at the offices of Confluence Rivers, presently maintained at:

Main Administrative Office
1630 Des Peres Rd., Suite 140
St. Louis, MO 63131

as well as at the following website:

<https://www.centralstateswaterresources.com/confluence-rivers/community-tariff-information/>

Customer may contact Confluence Rivers 24 hours per day / 7 days a week for any issues regarding billing, new service, reconnection of existing service, disconnection of existing service, maintenance issues and emergency issues at 1-866-945-3920.

Rules Governing Rendering of Sewer Service

Rule 1 – Definitions

An "APPLICANT" is a person, firm, corporation, governmental body, or other entity that has applied for sewer service and/or an extension of collecting sewers along with additional plant facilities; two or more such entities may make one application for a sewer extension, and be considered one APPLICANT. An "ORIGINAL APPLICANT" is an APPLICANT who entered into any contract or agreement with the Company for an extension of collecting sewers and/or additional plant facilities, contributed funds or utility plant assets to the Company under the terms of the contract or agreement, and is eligible for refunds under the terms of the contract or agreement as additional Applicants connect to such extensions or plant facilities.

An "ASSOCIATION" is an organization consisting of members who are owners or renters of living units, which may be single-family structures or divisions of multi-family structures. If the Association is the Customer, then the owners or renters who are members of the Association are not considered to be the Company's Customers.

"B.O.D" denotes Biochemical Oxygen Demand. It is the quantity of oxygen utilized in the biochemical oxidation of waste matter under standard laboratory conditions expressed in milligrams per liter.

"C.O.D" denotes Chemical Oxygen Demand. It is the quantity of oxygen utilized in the chemical oxidation of waste matter under standard laboratory conditions, expressed in milligrams per liter.

A "COLLECTING SEWER" is a pipeline, including force pipelines, gravity sewers, interceptors, laterals, trunk sewers, manholes, lampholes, and necessary appurtenances, including service tees, wyes and saddles, which is owned and maintained by the Company, located on public property or on private easements, and used to transport sewage waste from the Customer's service connection to the point of disposal.

Rules Governing Rendering of Sewer Service

Rule 1 – Definitions (continued)

A "PRESSURE COLLECTING SEWER" is a collecting sewer pipeline, including tees, wyes, and saddles, operated under pressure from pump and connected to the pipeline, and is sometimes referred to generically as Collecting Sewer. Such pump units are owned and operated by customers, except in Terre du Lac where they are owned and operated by the Company.

The "COMMISSION" means the Missouri Public Service Commission.

The "COMPANY" is Confluence Rivers Utility Operating Company, LLC.

A "CUSTOMER" is any person, firm, corporation or governmental body which has contracted with the Company for sewer service, or is receiving service from the Company, or whose facilities are connected for utilizing such service, and except for a guarantor is responsible for payment for service.

The "DATE OF CONNECTION" shall be the date the permit for a service connection is issued by the Company. In the event no permit is taken and a service connection is made, the date of connection shall be determined based on available information, such as construction/occupancy permits, or water or electric service turn-on dates, or may be the date of commencement of construction of the building upon the property.

A "DEVELOPER" is any person, firm, corporation, partnership or any entity that, directly or indirectly, holds title to, or sells or leases, or offers to sell or lease, or advertises for sale or lease, any lots in a subdivision.

"DISCONTINUANCE OF SERVICE" is intentional cessation of the use of sewer service by action of the Company not at the request of the Customer. Such DISCONTINUANCE OF SERVICE may be accomplished by methods including, but not limited to: (1) physical

Rule 1 – Definitions (continued)

disconnection of the Service Sewer; (2) turn-off of water service by the water utility at the request of the Company; or (3) through a Physical Disconnect device.

"DOMESTIC SEWAGE" is sewage, excluding storm and surface water, resulting from normal household activities; and "NON-DOMESTIC SEWAGE" is all sewage other than DOMESTIC SEWAGE including, but not limited to, commercial or industrial wastes. See Rule 6 - Improper or Excessive Use.

An "EFFLUENT PUMP" is a self-contained device which pumps liquid waste under pressure to Collecting Sewers or a recirculating sand filter or other treatment facility. The device when appropriate will include a septic tank for the purpose of storing solid waste separated from liquid effluent. The device also contains level controls, appropriate malfunction alarms, pressure controls, and check valves to insure cooperative operation with similar units.

A "FOUNDATION DRAIN" is a pipe installed inside or outside the foundation of a structure for the purpose of draining ground or subsurface water away from the foundation.

A "GRINDER PUMP" is a wastewater conveyance device, owned, maintained, repaired and replaced by the Customer, in which waste from water-using household appliances flows into the Customer's holding Tank, then through the Grinder Pump, where it is ground into a fine slurry, then pumped into the central sewer system. In the Terre du Lac system, the grinder pump associated with the pressurized system is owned, maintained, repaired and replaced by the Company.

A "MONTH" means an interval of approximately thirty (30) calendar days between successive billing dates, except when the calendar month is specified.

Rules Governing Rendering of Sewer Service

Rule 1 – Definitions (continued)

"pH" is the relative degree of acidity or alkalinity of water as indicated by the hydrogen ion concentration. pH is indicated on a scale reading from 1-14, with 7.0 being neutral, below 7.0 acid, and above 7.0 alkaline; more technically defined as the logarithm of the reciprocal of the hydrogen ion concentration.

A "PHYSICAL DISCONNECT" involves a valve, such as an Elder Valve® used to disconnect the Customer's Service Sewer from the Company's Connecting Sewer.

A "PUMP UNIT" is a self-contained facility consisting generally of a tank and an electric pump and may include liquid level controls, an alarm, and check valves; the Pump Unit may either separate solid from liquid waste retaining the solid waste in the tank and pumping the liquid waste under pressure to collecting sewer pipelines (septic tank effluent pump or STEP), or may pump waste water including solids to a collecting sewer or a pressure collecting sewer (grinder pump). The PUMP UNIT is installed, owned and maintained by the Customer.

A "RETURNED CHECK" is a check that is returned to the Company from any bank unpaid for any reason.

A "SADDLE" is a fitting that connects the Customer's Service Sewer to the collecting sewer whether it be a gravity collecting sewer or a pressure collecting sewer; the saddle clamps around the collecting sewer pipeline into which pipeline a hole is cut, and the Service Sewer is connected to the Saddle thereby connecting it to the collecting sewer.

A "SEASONAL CUSTOMER" is a Customer who is absent from the premises and may turn off, or request the Company turn off, water service temporarily. All Rates, Rules and Regulations within this tariff continue to apply to "Seasonal Customers" during periods of seasonal absence or turn-off.

Rules Governing Rendering of Sewer Service

Rule 1 – Definitions (continued)

“TANK OR SEPTIC TANK” is a watertight vessel, owned and maintained by the Customer, which holds wastewater from the Customer’s premises, and in which a Grinder Pump may be installed, and includes associated electrical connections. Customer shall be responsible for the construction, replacement and maintenance of the Tank, including any cost associated with pumping sludge out of the Tank.

A "SERVICE CONNECTION" is the connection of a service sewer to the Company’s collecting sewer either at the bell of a tee branch or wye branch, or the bell of a saddle placed on the barrel of the collecting sewer. The installation of a Service Connection shall include the installation of a Physical Disconnect.

A "SERVICE SEWER" or “CUSTOMER’S SERVICE SEWER” is a pipe with appurtenances installed, owned and maintained by the Customer, used to conduct sewage from the Customer's premises to the collecting sewer, excluding service tees, wyes or saddles. For Customers connected to a pressure collecting sewer and utilizing a pump unit, the portion of the Service Sewer between the pump unit and the collecting sewer is a pressurized portion of the Service Sewer. In addition to other parts and fittings this shall include a stop cock accessible to the Company for turn-off of sewage flow and a check valve to prevent backflow of waste-water under pressure in the pressure collecting sewer. The SERVICE SEWER is constructed, owned and maintained by the Customer.

A "SUBDIVISION" is any land in the state of Missouri which is divided or proposed to be divided into two or more lots or other divisions of land, whether contiguous or not, or uniform in size or not, for the purpose of sale or lease, and includes re-subdivision thereof.

Rules Governing Rendering of Sewer Service

Rule 1 – Definitions (continued)

A "TEE" is a three-way one-piece pipe fitting in the shape of the letter "T" that is a part of the Collecting Sewer pipeline and to which the Customer's Service Sewer is connected. The installation of a Tee shall include the installation of a Physical Disconnect.

"TERMINATION OF SERVICE" is, in contrast to the Discontinuance of Service, the cessation of the use of sewer service requested by the Customer. Such TERMINATION OF SERVICE shall be accomplished by a method verified and recognized by the Company and may include physical disconnection of the service sewer; termination or disconnection of water service by the water utility; a physical disconnect device; or the Company's observation of non-occupancy of the unit served.

The word "UNIT" or "LIVING UNIT" shall be used herein to define the premises or property of a single sewer user, whether or not that sewer user is the Customer. It shall pertain to any building whether multi-tenant or single occupancy, residential or commercial, owned or leased. Each mobile home in a mobile home park and each rental Unit of a multi-tenant rental property shall be considered as separate units for each single family or firm occupying same as a residence or place of business.

A "WYE" or "WYE BRANCH" or "Y" or "Y BRANCH" is a three-way one-piece pipe fitting in the shape of the letter "y" that is a part of the collecting sewer pipeline, and to which the Customer's service sewer is connected. The installation of a Wye shall include the installation of a Physical Disconnect.

Rules Governing Rendering of Sewer Service

Rule 2 - General Matters

- A. Every Applicant, upon signing an application for sewer service or any Customer accepting service rendered by the Company, shall be considered to have expressed consent to be bound by these Rates, Rules and Regulations.
B. The Company's Rules and Regulations governing rendering of service are set forth in the numbered sheets of this tariff. The rates applicable to appropriate class of service in particular service areas are set forth in rate schedules and constitute a part of this Tariff.
C. The Company reserves the right, subject to approval from the Missouri Public Service Commission, to prescribe additional Rates, Rules or Regulations or to alter existing Rates, Rules or Regulations as it may from time-to-time deem necessary or proper.
D. After the effective date of these rules, all new facilities, construction contracts and written agreements shall conform to these Rules and Regulations, in accordance with the statutes of the State of Missouri, and the Rules and Regulations of the Missouri Public Service Commission. Pre-existing facilities that do not conform with these Rules and Regulations may remain, if said facilities do not cause any service problems or improper use, and reconstruction is impractical.
E. The point of sewer service provided by the Company shall be at the service connection.
F. Upon provision of reasonable notice, the Company shall have the right to enter upon the Customer's premises for the purpose of inspecting for compliance with these rules. Company personnel shall identify themselves and such inspections shall be conducted during reasonable hours.

Rules Governing Rendering of Sewer Service

Rule 3 – Limited Authority Of Company Employees

- A. Employees or agents of the Company are expressly forbidden to demand or accept any compensation for any service rendered to its Customers except as covered in the Company's Rules and Regulations.
- B. No employee or agent of the Company shall have the right or authority to bind it by any promise, agreement or representation contrary to the letter or intent of these Rules and Regulations.
- C. The Company shall not be responsible for damages due to any failure to remove wastewater from the premises, or for interruption if such failure or interruption is without willful default or negligence on its part.
- D. The Company shall not be liable for damages because of any interruption of sewer service, or for damages caused by defective piping, fittings, fixtures or appliances on the Customer's premises and not owned by the Company.
- E. The Company shall not be liable for damages due to damages from Acts of God, civil disturbances, war, government actions, and other uncontrollable occurrences.

Rules Governing Rendering of Sewer Service

Rule 4 – Applications For Sewer Service

- A. A written application for service, signed by the Customer, and accompanied by the appropriate fees as provided in the Schedule of Rates, the Schedule of Service Charges, Rule 11 - Extension of Collecting Sewers, and other information required by these Rules, must be received from each Customer. Said application must be filed in writing three (3) business days in advance stating the street, house number, name of the applicant, name of the property owner, and the time, at which connection is to be made.
B. The Company shall have the right to refuse service for failure to comply with the rules herein, or if the Customer owes a past due bill not in dispute for sewer service at any location within the Company's service area.
C. In any case where a collecting sewer extension or unusual construction or equipment expense is necessary to furnish the service, the Company may require a contract for service specifying a reasonable period of time for the Company to provide the service.
D. If the Customer is a tenant, the Company shall notify the owner of the property or owner's property manager or other agent, if known to the Company, that such owner or property manager may be responsible for payment of the sewer service bill associated with the application.
E. A prospective Commercial or Industrial Customer shall, upon request of the Company, present in writing to the Company a list of devices that will discharge to the collecting sewers, the amount and specifications of any discharge, and the location of any buildings. The Company will then advise the Customer of the form and the character of the wastewater collection facilities available. If a sewer extension as provided for in Rule 11 - Extension of Collecting Sewers will be

necessary, or if the Customer will be required to own, operate, and maintain a pretreatment facility, the Customer will also be so advised.

G. When sewer charges are based on water usage, the Company reserves the right to refuse sewer service to any applicant unless said applicant agrees to install a water meter accessible by the Company, so that there will be a basis for sewer charges. The Company and Customer may agree to an estimated water use amount, on an interim basis for a period not to exceed six (6) months, to allow time to install suitable metering equipment.

H. New service connections shall be authorized when the service inspection fee is paid to the Company based on the charges listed within these Rules and Regulations and all conditions of these Rules and Regulations pertaining to the service connection are met.

I. The Company will determine or approve the location of the service connection. Service sewers will not be extended along public streets or roadways or through property of others in connecting with collecting sewers. If a service connection is requested at a point not already served by a collecting sewer of adequate capacity, the collecting sewer shall be extended in accordance with Rule 11 - Extension of Collecting Sewers, unless in the Company's judgment such a collecting sewer would serve no other future purpose and a service sewer may be constructed to serve the Customer's premises in a reasonable manner.

J. A new service connection shall be authorized when all conditions in the above paragraphs, and Rule 5 – Inside Piping and Customer Service Sewer, regarding application, construction and inspection provisions, are met.

Rules Governing Rendering of Sewer Service

Rule 5 – Inside Piping And Customer Service Sewer

- A. The Customer will provide the service sewer at own expense and risk. As a condition of service, inside requirements of all governmental units having jurisdiction and the Company’s Rules and Regulations must be met at the time of connection to the system. The Company may deny service or may discontinue service where footing drains, downspouts, sump pumps, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
- B. The Customer is obligated to construct, repair, and maintain the service sewer from the collecting sewer to the building, and make the connection to the collecting sewer, with the approval of the Company. The Customer shall notify the Company prior to cleaning or repairing the service sewer.
- C. When a service sewer is to be connected to the collecting sewer, the plumber shall advise the Company seventy-two (72) hours in advance of when the connection is expected to be made so a representative of the Company can inspect the installation and connection. All excavations required for the installation of a Customer’s service sewer and connection to the collecting sewer shall be open trench work unless otherwise approved by the Company. No backfill shall be placed until the work has been inspected by the Company. If backfill is placed prior to inspection, customer may incur charges. Pipe laying and backfill shall be performed in accordance with the latest published engineering specifications of the manufacturer of the materials used, these Rules, and all applicable local plumbing codes. In the event the Customer or the Customer's agent shall damage a tee branch, wye branch or saddle, or cause damage to the collecting sewer, then the Customer shall be responsible for the cost to repair any such damage, including replacement of pipe or appurtenances as necessary.

Rules Governing Rendering of Sewer Service

Rule 5 – Inside Piping And Customer Service Sewer (continued)

- D. Plumbing specifications of all governmental agencies having jurisdiction, and these Rules and Regulations, in effect at the time of connection, must be met. The Company may deny service or may discontinue service where foundation drains, downspouts, or other sources of surface or storm water are permitted to enter the sewer system through either the inside piping or through the building sewer.
E. A separate and independent service sewer shall generally be required for every building. Exceptions are:
1. When one building stands at the rear of another building on an interior lot where a proper service sewer cannot be constructed through an adjoining easement. In that situation, the service sewer from the front building may be extended to the rear building and it will be considered as one service sewer.
2. When two or more buildings are a part of a complex that cannot be subdivided.
F. The gravity service sewer shall be constructed using ductile iron pipe, polyvinyl chloride pipe (PVC), ASTM specification or equal; or other suitable material approved by the Company. Only those jointing materials and methods that are approved by the Company may be used. Joints shall be tight and waterproof. Any part of the service sewer that is located within ten (10) feet of a water main or water service pipe shall be constructed of ductile iron or PVC pressure pipe. The pipe shall be bedded according to the manufacturer's specifications and on undisturbed earth or fill compacted to at least ninety-five percent (95%) proctor density. Fill may be non-organic soil or aggregate.

Rules Governing Rendering of Sewer Service

Rule 5 – Inside Piping And Customer Service Sewer (continued)

- G. The size and slope of the gravity service sewer shall be subject to the approval of the Company, but in no event shall the diameter be less than four (4) inches. The slope of such four (4) inch gravity sewer pipe shall not be less than one-eighth (1/8) inch per foot.
- H. Whenever possible, the service sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall except where the service sewer enters the building area. The depth shall be sufficient to afford protection from frost. The service sewer shall be laid at a uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipes and fittings.
- I. Existing service sewers may be used in connection with new buildings only when they are found on examination and test to meet all requirements of the Company.
- J. In any building in which a building drain is too low to permit the required slope of the service sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the service sewer. No water operated sewage ejector shall be used.
- K. All excavations required for the installation of a service sewer and connection to the collecting sewer shall be open trench work unless otherwise approved by the Company. Pipe laying and backfill shall be performed in accordance with the latest published engineering specifications of the manufacturer of the materials used, and all applicable local plumbing codes.

Rules Governing Rendering of Sewer Service

Rule 5 – Inside Piping And Customer Service Sewer (continued)

- L. The connection of the service sewer to the collecting sewer shall be made at the tee branch or wye branch if such branch is available at a suitable location. If the collecting sewer is vitrified clay pipe of twelve-inch (12”) diameter or less and there is no properly located tee branch or wye branch at a suitable location, such a branch shall be furnished and installed by the Customer’s Professional contractor or plumber at a location specified by the Company and by an installation method approved by the Company. If the collecting sewer is greater than twelve inches (12”) in diameter, or is PVC of any size, a neat hole may be cut at a location specified by the Company, and a saddle shall be furnished installed by the Customer to which the service sewer will be connected. The invert of the service sewer at the point of connection shall be at the centerline or higher elevation of the collecting sewer. The connection shall be secure and watertight. The wye branch, tee branch, or saddle shall become a part of the Company’s collecting sewer and owned by the Company after installation.
M. A sewer disconnection device, stop cock, gate valve, or other device approved by the Company, may be required, at the discretion of the Company, to be installed by the Customer on all new Customer service sewers, or on an existing Customer service sewer if a replacement or repair near the property line is necessary. A disconnection device shall be installed by the Company on the Customer service sewer, if no such valve exists and if the Customer’s sewer service must be discontinued by physical disconnection or turnoff for any reason.
N. Any change in the location of an existing service connection and/or service sewer requested by the Customer shall be made at the Customer's expense.

Rule 5 – Inside Piping And Customer Service Sewer (continued)

- O. Company personnel may not work on piping or facilities not owned by the Company, unless authorized by the Customer. Except, the Company will work on Customer-owned Pump Units as provided for within these Rules and Regulations.
- P. The Company shall have the right to enter the Customer's premises, after reasonable notice, for the purposes of inspection to ensure compliance with these Rules and Regulations. Company personnel shall identify themselves and make these inspections only at reasonable hours.
- Q. Customer Service Sewers may not be extended along public streets or roadways or through property of others in connecting with the Company's collecting sewers. The service sewer may, however, extend through the collecting sewer easement and roadway easement as necessary in order to be connected to a collecting sewer located across and adjacent to a street in front of the Customer's living unit. The service sewer must be laid in a straight line and at right angles to the collecting sewer and the face of the structure or as nearly so as possible. Any deviation from this because of physical obstruction will be at the discretion of the Company.

Rules Governing Rendering of Sewer Service

Rule 5A – Pressure Collecting Sewers – (applicable to non-Terre du Lac systems)

- A. This rule applies to customers on pressure collecting sewers, other than the Terre du Lac system, and is not applicable to customers on a gravity collecting sewer. Other rules elsewhere herein not applicable specifically to gravity collecting sewers or gravity service sewers also apply, in addition to this rule.
B. Any customer proposing to discharge domestic sewage, and to be connected to a pressure collecting sewer, shall install at his own expense within the lot, a pump unit of suitable capacity. All pump units and components utilized in a pump unit must be approved by the Company prior to installation. Installation costs of the pump unit, electrical wiring and components, and service sewers between the dwelling and the pump unit and between the pump unit and the Company’s collecting sewers shall be the responsibility of the Customer. Electricity costs for pump operation shall be the responsibility of the Customer.
C. The Company will locate the point to which the service connection to the pressure collecting sewer will be made, and the Customer shall furnish materials for the connection. All taps to the pressure collecting sewer shall be done by the Customer’s Professional contractor or plumber, and subject to inspection by the Company. One connection shall not service more than one property.
D. The pressurized portion of the service sewer shall be constructed of materials that meet state and local regulations.
E. A stop cock shall be installed on the pressurized portion of the service sewer near the service connection. Said stop cock shall be in a location accessible to the Company so that it may be operated by either the Company or the Customer, and shall include a provision for locking by the Company. A check valve near the stop

cock may be required by the Company, depending upon the type of pump utilized. The stop cock and check valve will be furnished, owned and maintained by the Company.

- F. In addition to other methods outlined elsewhere within these Rules, specifically Rule 7, for discontinuance of sewer service, sewer service may be disconnected by the Company by locking the stop cock in the closed position. Service shall not be resumed again except upon payment of all delinquent charges, plus any applicable approved service charge to cover the costs of resuming service, in accordance with these Rules.
G. The gravity service sewer from the building to the pump unit and the pressurized portion of the service sewer from the pump unit to the collecting sewer shall be owned and maintained by the Customer.
H. The pump unit shall be owned by the Customer. The Customer shall be responsible for repair, or replacement if necessary, of the tank portion of a pump unit. The Customer shall be responsible for the cost of mechanical and electrical parts, miscellaneous material, and labor, necessary for the repair of a pump unit including emergency repairs.
I. If a Customer does not timely undertake necessary repairs to a pump unit for which the Customer is responsible, and a failure of a pump unit is causing, or is reasonably expected to cause, a discharge of untreated sewage, then the Company may, at its option, discontinue sewer service as per Rule 7 – Discontinuance of Service, including exercising the provision of Rule 7 G. where thirty (30) day notice may be

Rule 6 – Improper Waste or Excessive Use

- A. In the event that the Customer to be served proposes to discharge, or actually consistently discharges, an abnormally high volume or strength of waste, the Company may require:
1. The Customer’s professional contractor or plumber to install a pretreatment facility, grease trap or other device on the premises, to prevent the exceeding of discharge limits, or other adverse impacts upon the Company's system.
2. The Customer to enter into a special contract with the Company for treatment of the Customer’s discharge, that could require an enlargement of the Company's existing sewage treatment plant or the construction of a temporary sewage treatment plant, and/or the construction or reconstruction of sewer lines or pump facilities, in a form approved by the Missouri Public Service Commission with a rate applicable to the Customer to be included within this Schedule of Rates, Rules, and Regulations, that is fair and reasonable to both parties and so as not to constitute a burden upon the Company or the existing Customers of the Company.
B. No Customer shall discharge or cause to be discharged any storm water, surface water, ground water, swimming pool water, roof runoff, sub-surface drainage, or cooling water into the collecting sewers.
C. The Customer shall not tamper with, by-pass, remove, or willfully damage a water meter that is used for calculation of sewer bills, or allow any such action.
D. The Customer shall not attempt to discharge sewage either by an unauthorized service connection or direct unauthorized connection to a service sewer.

Rules Governing Rendering of Sewer Service

Rule 6 – Improper Waste or Excessive Use (continued)

- E. Customers will not be permitted to allow discharge in any way from premises other than the service address, nor to permit the use of their drains or connections to the service sewer for waste discharge by others, without permission from the Company.
F. No Customer shall discharge wastewater which contains pollutants of such a character that would cause the treatment facility to violate its National Pollutant Discharge Elimination System ("NPDES") permit. Except as may be provided in paragraph A.2., above, the Customer shall be required to take any action necessary to meet the following described wastewater limits before the wastewater is discharged into the collection sewer:
1. Maximum temperature of 150 degrees Fahrenheit.
2. Maximum strength of four-hundred (400) parts per million Biological Oxygen Demand (B.O.D.), three-hundred (300) parts per million by weight of suspended solids, or six-hundred (600) parts per million Chemical Oxygen Demand (C.O.D.).
3. A maximum of one hundred (100) parts per million, by weight, any fat, oil or grease.
4. A maximum of twenty-five (25) parts per million, by weight, any soluble oils.
5. No gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid or gas.
6. No garbage that has not been properly shredded.

Rules Governing Rendering of Sewer Service

Rule 6 – Improper Waste or Excessive Use (continued)

- 7. No ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewer system.
 - 8. No wastewater having a pH less than 5.0 or greater than 9.0, or having any other corrosive property, capable of causing damage or hazard to structures, equipment or personnel of the Company.
 - 9. No wastewater containing heavy metals, toxic material, or Chemical Oxygen Demand (C.O.D.), in sufficient quantity to disrupt the operation of treatment facilities, or exceeding any limits which may be specified in a service contract for any such substance.
- G. When required by the Company, the Customer service sewer carrying industrial wastes shall include a suitable control manhole in the Customer service sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessible and safely located and shall be constructed in accordance with plans approved by the Company. The manhole shall be installed by the Customer at their expense, and shall be maintained by them so as to be safe and accessible at all times.
- H. All measurements, tests and analysis of the characteristics of wastes and waters to which reference is made herein, shall be determined in accordance with “Standard Methods of Analysis of Water, Sewage and Industrial Wastes” as published by the American Public Health Association and shall be determined at the control manhole provided for herein, or upon suitable samples taken at said control manhole.

Rule 7 – Discontinuance of Service

A. The Company may discontinue service for any of the following reasons:

- 1. Non-payment of a delinquent account not in dispute; or
2. Resale of sewer service; or
3. Failure to post a security deposit or guarantee acceptable to the utility; or
4. Unauthorized interference, diversion or use of the utility service situated or delivered on or about the Customer's premises; or
5. Misrepresentation of identity in obtaining utility service; or
6. Enclosing or obstructing any meter so as to make reading or repairs unreasonably difficult, or
7. Failure to comply with the terms and conditions of a settlement agreement.
8. Refusal after reasonable notice to grant access at reasonable times to equipment installed upon the premises of the Customer for the purpose of inspection, meter reading, maintenance or replacement; or
9. To protect the Company against fraud or abuse; or
10. Violation of any of these Rules and Regulations on file with and approved by the Missouri Public Service Commission, for unauthorized resale of sewer service, or for any condition which adversely affects the safety of the Customer or other persons, or the integrity of the utility's sewer system; or

Rules Governing Rendering of Sewer Service

Rule 7 – Discontinuance of Service (continued)

11. Non-payment of a sewer bill issued by the Company or by a sewer utility requesting discontinuance of water service by an agreement between the Company and such sewer utility. When water service is discontinued for non-payment of a sewer bill and if the sewer bill is not issued by the Company, any service charges for turn on/off or disconnection/reconnection within these Rules and Regulations shall not apply, and notice to the Customer shall be provided by rules and procedure applicable to the Customer's sewer service in lieu of notification required by these Rules and Regulations.

B. Discontinuance of service may be accomplished by, but not limited to, physical disconnection or turn-off of the Customer's service sewer from the Company's collecting sewer. Discontinuance of sewer service for non-payment of a sewer bill may be accomplished by physical disconnection or turn-off, or discontinuance by turn-off of water service by the Customer's water utility at the request of the Company. In such cases where discontinuance is accomplished by turn-off of water service:

- 1. If sewer billing is combined with water billing, Customers will be notified by the water utility by the terms of its rules normally practiced for discontinuance of water service; or
2. If sewer billing is not combined with water billing, Customers will be notified by the terms of paragraphs F. and H., below, and not by those of any water utility.

C. Reconnection of any Customer after discontinuance of service by authority of this rule will be made subject to payment of the cost of reconnection.

Rule 7 – Discontinuance of Service (continued)

- D. Where the owner of rental property is the Customer and has been notified of the intent of disconnection, the tenants shall be given the opportunity in a reasonable and timely manner to pay delinquent bills in lieu of disconnection of service.
E. None of the following shall constitute sufficient cause for the Company to discontinue service:
1. The failure of the Customer to pay for merchandise, appliances, or service not subject to Commission jurisdiction as an integral part of the utility service provided by the Company; or
2. The failure of the Customer to pay for service received at a separate point of service, residence, or location. In the event of discontinuance or termination of service at a separate residential point of service, residence, or location in accordance with these rules, the Company may transfer and bill any unpaid balance to any other residential service account of the Customer and may discontinue service after twenty-one (21) days after rendition of the combined bill, for nonpayment, in accordance with this rule; or
3. The failure of the customer to pay for a different class of service received at the same or different location. The placing of more than one (1) service connection at the same location for the purpose of billing the usage of specific devices under operational rate schedules or provisions is not construed as a different class of service for the purpose of this rule; or
4. The failure to pay the bill of another customer, unless the customer whose service is sought to be discontinued received substantial benefit and use of the service billed to the other customer; or

Rule 7 – Discontinuance of Service (continued)

- 5. The failure of a previous owner or occupant of the premises to pay an unpaid or delinquent bill except where the previous occupant remains an occupant of the living unit; or
6. The failure to pay a bill correcting a previous underbilling, whenever the customer claims an inability to pay the corrected amount, unless a utility has offered the customer a payment arrangement equal to the period of underbilling.
F. Unless discontinuance is accomplished by turn-off of water service and discontinuance notice is provided by the water utility, then at least thirty (30) days prior to discontinuance of service, the Company shall mail a written notice to the Customer by certified mail, return receipt requested or by electronic verification, with a copy of the notice sent to the Public Service Commission and a copy to the property owner if different than the Customer and if known by the Company.
G. A discontinuance notice provided to a customer shall include:

Rule 7 – Discontinuance of Service (continued)

- 1. The name and address of the Customer, the service address if different than the Customer’s address; and
2. A statement of the reason for the proposed discontinuance of service and the cost for reconnection; and
3. How the customer may avoid the discontinuance; and
4. The possibility of a payment agreement if the claim is for a charge not in dispute and the Customer is unable to pay the charge in full at one time; and
5. A telephone number the Customer may call from the service location without incurring toll charges and the address and any available electronic contact information of the utility prominently displayed where the customer may make an inquiry.

H. The Company shall make reasonable efforts to contact the Customer, at least twenty-four (24) hours prior to any discontinuance, regarding the reason(s) for discontinuance of service, and the resolution. If discontinuance of service would affect an occupant who is not the Company's Customer, or is not responsible for payment of the bill, then the Company shall make reasonable efforts to inform such occupant(s).

I. The Company shall postpone the discontinuance if personnel will not be available to restore service the same day, or if personnel will not be available to restore service the following day. The Company also shall postpone discontinuance if a medical emergency exists on the premises, however the postponement may be limited to twenty-one (21) days, and the Company may require proof of a medical emergency.

Rules Governing Rendering of Sewer Service

Rule 7 – Discontinuance of Service (continued)

- J. The Company shall have the right to enter the Customer's premises for purposes of discontinuance of service in compliance with these Rules and Regulations. Discontinuance of service will be made during reasonable hours. Company personnel shall identify themselves and announce the intention to discontinue service, or leave a conspicuous notice of the discontinuance. The Company shall have the right to communicate with the owner of the Customer's Unit for purposes of gaining access to the property for discontinuance of service in accordance with the Missouri Public Service Commission's billing practices, but any extra costs for arranging such access shall not be charged to the Customer's account.
- K. The provisions of paragraphs I. and K., above, may be waived if safety of Company personnel while at the premises is a consideration.
- L. Discontinuance of service to a unit for any reason shall not prevent the Company from pursuing any lawful remedy by action at law or otherwise for the collection of monies due from the Customer.
- M. In case the Company discontinues its service for any violation of these Rules and Regulations, then any monies due the Company shall become immediately due and payable.
- N. The Company has the right to refuse or to discontinue service to any unit to protect itself against fraud or abuse.
- O. The Company shall deal with Customers and handle Customer accounts in accordance with the Missouri Public Service Commission's Utility Billing Practices.
- P. Applicable Turn-off and turn-on charges are specified in the Schedule of Service Charges.

Rule 8 – TERMINATION OF SERVICE

- A. Termination of service at the Customer's request may be accomplished at the expense of the Customer. If termination of service must be accomplished by physical disconnection, the Customer shall notify the Company of the date and time of the disconnection in writing at least five (5) days prior to the disconnection. If termination is accomplished by turn-off of water service, such notice shall be on or before the date of the water turn-off. Service may not be terminated for one unit of a multi-unit building if the building is served by one service sewer, unless accomplished by turnoff of water service to that unit. The method used for termination of service shall be determined by the Company.
- B. A Customer may request temporary turn-off of water service or sewer service by the Company for the Customer’s own convenience; however, the Customer shall still be charged for service at the appropriate rate as specified in the Schedule of Rates during the time the service is turned off.
- C. A Customer who requests termination of sewer service, but returns to the premises and requests sewer service within nine (9) months of such termination, at the Company’s discretion may be deemed to have been a seasonal customer, and applicable charges incurred during the period of absence may apply.

Rules Governing Rendering of Sewer Service

Rule 10 – Bills for Service

- A. The charges for sewer service shall be at the rates specified in the Schedule of Rates in these Rules and Regulations. Service charges for connection or disconnection are set forth in the Schedule of Service Charges.
B. A Customer who has made application for, or who is or has been taking sewer service at one or more units connected to the collecting sewer, shall be held liable for payment of any applicable charges for service furnished to such units from the date of connection until the date requested by the Customer in writing for service to be terminated, or until service is discontinued by the Company.
C. The owner of the premises, the occupant and the user of the service shall be jointly and severally liable to pay for the sewer service to such premises; and the service is furnished to the premises by the Company only upon the condition that the owner of the premises, occupant and user of the services are jointly and severally liable to the Company. In accordance with 20 CSR 4240-13.050, debts incurred by one tenant will not be conveyed to a successive tenant. This provision is applicable only to new accounts established after the effective date of this tariff sheet.
D. Bills for sewer service will be mailed or delivered to the Customer's last address as shown by the records of the Company, but failure to receive the bill will not relieve the Customer from the obligation to pay the same.
E. Payments shall be made at the office of the Company or at a convenient location designated by the Company, by ordinary mail, or by electronic methods employed by the Company. Payment must be received by the close of business on the date due, unless the date due falls on a non-business day in which case payment must be received by the next business day.

Rules Governing Rendering of Sewer Service

Rule 10 – Bills for Service (continued)

- F. Neither the Company nor the Customer will be bound by bills rendered under mistake of fact as to the quantity of service rendered or as a result of clerical error. Customers will be held responsible for charges based on service provided.
- G. Separate bills shall be rendered monthly for each location at which sewer service is provided, even though one entity may be the Customer at such separate locations. All bills for service under this schedule will be rendered in arrears on a monthly basis.
- H. Bills shall have the due date indicated on the bill. Bills will be rendered net, bearing the last date on which payment will then be considered delinquent. The period after which the payment is considered delinquent is a minimum of 21 days after rendition of the bill. Bills unpaid after the stated due date will be delinquent and the Company shall have the right to discontinue service in accordance with Rule 8. Delinquent bills may be subject to a late charge as provided in the Schedule of Service Charges. The Company shall not be required to restore or connect any new service for such delinquent Customers until the unpaid account due the Company under these Rules and Regulations has been paid in full or arrangements satisfactory to the Company have been made to pay said account.
- I. When bills are rendered for a period of less than a complete billing period due to the connection or termination of service, the billing shall be for the proportionate part of the monthly charge, or where water usage is the basis for the charge, at the appropriate rate for water used.
- J. Customers terminating after taking service for less than one month shall pay not less than the monthly minimum. The owner of the property served will be held responsible for ultimate payment of a bill. If the customer is a tenant of rental property, copies of all notices of violations of the rules, or of disconnection of service shall also be sent to the owner of the property if the owner is known to the Company.

Rules Governing Rendering of Sewer Service

Rule 10 – Bills for Service (continued)

- K. Unless sewer charges are billed in advance, the Company may require a security deposit or other guarantee as a condition of new service if the Applicant:
1. Has a past-due bill which accrued within the last five (5) years and, at the time of the request for service, remains unpaid and not in dispute with a utility for the provision of the same type of service; or,
2. Has, in an unauthorized manner, within the last five (5) years prior to applying for service, interfered with or diverted the service of a utility in the provision of the same type of service; or,
3. Is unable to establish a credit rating with the Company. Adequate credit rating for a residential Customer shall be established if the Customer:
a. Owns or is purchasing a home; or,
b. Is and has been regularly employed full time for at least one (1) year; or,
c. Has an adequate and regular source of income; or
d. Can provide adequate credit references from a commercial credit source.
L. Unless sewer charges are billed in advance, the Company may require a security deposit or other acceptable written guarantee of payment as a condition of continued or re-establishing service if service if:
1. The service of the Customer has been discontinued for non-payment of a delinquent account not in dispute; or,
2. The Customer has interfered with, diverted or, in an unauthorized manner, used utility service delivered to the customer’s premises; or,

Rules Governing Rendering of Sewer Service

Rule 10 – Bills for Service (continued)

3. The Customer has failed to pay undisputed bills before the delinquency date for five (5) billing periods out of twelve (12) consecutive monthly billing periods. Prior to requiring a customer to post a deposit under this subsection, the utility shall send the customer a written notice explaining the utility’s right to require a deposit or include such explanation with each written discontinuance notice.

M. The amount of a security deposit shall not exceed utility charges applicable to two (2) times the highest bill or four (4) times the average bill, computed on estimated or actual annual usage, during the most proximate twelve (12) month period at the service location or, in the case of a new customer, which is assessed a deposit, one-sixth (1/6) of the estimated annual bill for monthly billed customers for utility charges at the requested service location.

N. Interest shall be credited annually on all deposits or paid upon the return of the deposit to the customer whichever occurs first. Interest shall not accrue after the utility has made reasonable effort to return the deposit. Interest will be paid at a per annum rate equal to the prime bank lending rate, as published in the Wall Street Journal for the last business day of the preceding calendar year, plus one (1) percentage point. Interest may be credited to the Customer's account.

O. Upon discontinuance or termination of service, other than for a change of service address, it shall be credited, with accrued interest, to the utility charges stated on the final bill and the balance, if any, shall be returned to the customer within twenty-one (21) days of the rendition of the final bill.

P. After a Customer has paid proper and undisputed utility bills by the due dates, for a period not to exceed one (1) year, credit shall be established or re-established, and the deposit and any interest due shall be refunded. The utility may withhold full refund of the deposit pending resolution of a disputed matter.

Rule 10 – Bills for Service (continued)

- Q. The utility shall give a receipt for deposits received, but shall also keep accurate records of deposits, including Customer name, service address, amounts, interest, attempts to refund and dates of every activity regarding the deposit.
R. No deposit or guarantee or additional deposit or guarantee shall be required by a utility because of race, sex, creed, national origin, marital status, age, number of dependents, source of income, disability, or geographical area of residence. Further, a utility shall permit an Applicant or Customer to pay the deposit in installments unless the Company can show: (i) Applicant or Customer has in an unauthorized manner, interfered with, or diverted the same type of service within the last five (5) years; or (ii) a likelihood that the Customer does not intend to pay for the service.
S. In lieu of a deposit a utility may accept a written guarantee. The limit of the guarantee shall not exceed the amount of a cash deposit. A guarantor shall be released upon satisfactory payment of all undisputed utility charges during the last twelve (12) billing months. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent, provided it is not in dispute.
T. All billing matters shall be handled in accordance with the Missouri Public Service Commission's Rules and Regulations.

Rules Governing Rendering of Sewer Service

Rule 11 – Extension Of Collecting Sewers

- A. Collecting sewers will be extended within the Company's certificated service area, at the applicant's cost, if service is requested by the applicant at a location where facilities do not exist (the "applicant" is sometimes referred to in this rule as the "original applicant"). The applicant shall enter into a contract with the Company. The applicant may choose to have the Company perform all work under the terms and conditions of Paragraph C, following, or have a private contractor perform the work under the terms and conditions of Paragraph D, following. For purposes of this rule, an extension could include, in addition to a collecting sewer, one or more pump station or treatment plant facilities, as necessary to provide the service.
B. The pipe used in making extensions shall be of a type and size which will be reasonably adequate for the area to be served. Such determination as to size and type of pipe shall be left solely to the judgment of the Company. If the Company desires a pipe size, lift station, treatment plant, or any other facility larger than reasonably required to provide service to the applicant, the additional cost due to larger size shall be borne by the Company.
C. The Company will extend collecting sewers for the applicant under the following terms and conditions:
1. Upon receipt of written application for service as provided in Rule 4, Applications for Service, the Company will provide the applicant an itemized estimate of the cost of the proposed extension. Said estimate shall include the cost of all labor and materials required, including reconstruction of existing facilities if necessary, and the direct costs associated with supervision, engineering, permits, and bookkeeping.
2. The applicant shall enter into a contract with the Company for the installation of said extension and shall tender to the Company a contribution-in-aid-of-construction equal to the amount determined in Paragraph C (1) above, plus any appropriate fees as provided in the Schedule of Rates or the Schedule of Service Charges.

Rules Governing Rendering of Sewer Service

Rule 11 – Extension Of Collecting Sewers (continued)

- 3. If, as a result of reasonably unforeseen circumstances, the actual cost of the extension exceeds the estimated cost of the extension, the applicant shall pay the additional cost.
D. When the applicant elects to construct an extension, the Company will connect said extension to its existing collecting sewers under the following terms and conditions:
1. Applicant shall enter into a contract with the Company which provides that the applicant construct said collecting sewers and/or other facilities to meet the requirements of all governmental agencies and the Company's rules.
2. The Company, or its representative, shall have the right to inspect and test the extension prior to connecting it to the existing collecting sewers and acceptance of ownership.
3. Connection of the extension to existing Company collecting sewers shall be made by, or under direct supervision of, the Company or its representative.
4. The Company shall have the right to refuse ownership and responsibility for the sewer extension until applicant has met the contractual obligations as provided in Paragraph D (1).
E. The cost to additional applicants connecting to the sewer contributed by the original applicant shall be as follows:

Rules Governing Rendering of Sewer Service

Rule 11 – Extension Of Collecting Sewers (continued)

- 1. For a single-family residential applicant applying for service in a platted subdivision, the Company shall divide the actual cost of the extension, including income tax impact if any, by the number of lots abutting said extension to determine the per lot extension cost. When counting lots, corner lots which abut existing sewers shall be excluded.
2. For a single-family residential applicant requesting service to areas that are not platted in subdivision lots, the applicant's cost shall be equal to the total cost of the extension times 100 feet divided by the total length of the extension in feet.
3. For an industrial, commercial, or multi-family residential applicant, the cost will be equal to the amount calculated for a single-family residence in E (1) above or E (2) above, as appropriate, multiplied by a water usage factor. The water usage factor shall be determined by dividing the average monthly usage in gallons by 7,000 gallons, but shall not be less than 1.

F. Refunds of contributions shall be made to the original applicant as follows:

- 1. Should the actual cost of an extension constructed by the Company under Paragraph C, or actual costs for inspection by the Company under Paragraph D, above, be less than the estimated cost, the Company shall refund the difference as soon as the actual cost has been ascertained.
2. During the first ten years after the extension is completed, the Company will refund to the original applicant who paid for the extension monies collected from additional applicants in accordance with Paragraph E above.
3. The sum of all refunds to the applicant shall not exceed the total contribution, including income tax and inspection costs associated with the extension, which the applicant has paid.

Rules Governing Rendering of Sewer Service

Rule 11 – Extension Of Collecting Sewers (continued)

- 4. If two or more entities are considered an original applicant, the refund shall be distributed to each entity based upon the percentage of the actual extension cost contributed by each entity.
- G. Any extension made under this rule shall be and remain the property of the Company in consideration of its perpetual upkeep and maintenance.
- H. The Company reserves the right to connect additional extensions to a collecting sewer contributed by the applicant. The connection of new customers to such additional extensions shall not entitle the applicant to any refund.
