Subject: RE: MoPSC DSM Potential Study

Natelle,

I apologize for the late response.

To the best of my knowledge, KCP&L was not provided any supporting information on KEMA's analyses and can not confirm or comment on any KEMA associated costs and savings levels.

KCP&L is willing to work with KEMA on our measure costs and associated energy savings should that be of any benefit to the work KEMA is performing.

Thank you for the opportunity to comment.

Lois Liechti

Subject: MoPSC DSM Potential Study

Importance: High

The Missouri Public Service Commission retained the services of KEMA, Inc. to conduct a comprehensive and thorough statewide demand-side management market potential study. As part of that process, KEMA is gathering measure data, baseline data and other appropriate data to develop various inputs that are representative of Missouri. The Commissioners have asked that stakeholders provide input on various deliverables throughout the work plan. The work plan and other information related to the Study can be found on the Commission website at: <http://www.psc.mo.gov/electric/>.

Attached you will find the first deliverable – Measure Data Interim Memo. Your input in this process is valued. Please review the attached information and provide any comments or feedback to me. Staff will review the feedback and make recommendations to KEMA or the Commission based on that feedback. The contract with KEMA anticipates a Study by the end of the year, so prompt review is requested. Comments to KEMA are due Monday, October 4, so your input is requested by Friday, October 1, at 3pm.

Thanks in advance for your assistance. Feel free to forward to others as necessary. Let me know if you have any questions.
