

EC-2023-0395

This keeps getting better and better. Attached is an insert from Ameren Missouri in which they suspended disconnections through at least July 1 of this year. I guess Ameren Missouri forgot about this letter that they sent to customers.

Can't make this stuff up.

Illegal disconnection of service. Here you go. Next up if services aren't restored by Friday is a complaint with the police and a court filing in Circuit Civil.
