

BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

File No. EF-2024-0021

In the Matter of the Petition of Union Electric Company d/b/a Ameren Missouri for a Financing Order Authorizing the Issue of Securitized Utility Tariff Bonds for Energy Transitions Costs related to Rush Island Energy Center

MOTION TO INTERVENE OF MARK EDWARD KREBS

I, Mark Edward Krebs, pursuant to the Commission’s November 22, 2023 Order Giving Notice, Setting a Deadline to Intervene, and Directing a Proposed Procedural Schedule, and 20 CSR 4240-2.075, and for its Motion to Intervene, states as follows:

I, Mark Edward Krebs, have been a residential customer of Ameren Missouri for nearly three decades. Furthermore, I am recently retired, on a fixed income (SSI) and am visually handicapped. I strongly contend that the most likely results of this unfolding travesty will be serious additional economic harm (at best) to me and consumers like me. Additionally, the premature retirement of Ameren’s Rush Island plant in conjunction with a “transition” to relatively unreliable renewable generation creates significant risks to grid stability during extreme weather (e.g., “polar vortex”) events.

I am also a principal with [MasterResource](#), a 501(c)(3) organization advocating free market energy policies.

I am also the principal of a consumer-focused consulting start-up, the “Gas Analytics & Advisory Services” (GAAS).

The Commission’s duty to serve public interests would be advanced by granting this motion to intervene.

All related correspondence, communications, orders and decisions (etc.) should be sent to:

Due to my visual handicap, electronic transmission, would be appreciated.
