Re: Case No. ER-2001-672 - Missouri Public Service

Dear Judge Roberts:

Upon re-review of my recently submitted Suggestions in Support of Public Counsel's Motion to Reject Tariff, it was discovered that I had failed to complete an argument on p. 2. It was also discovered that the manner in which I had written the last sentence on p. 1 could be construed as suggesting that the Missouri Supreme Court may be guilty of undue discrimination, rather than stating that the Missouri Supreme Court had determined that the anti-discrimination statute created two offenses.

The purpose of the enclosed filing is to correct these two deficiencies. Although, I have only corrected pages 1 and 2, rather than asking everyone to tear up and discard pages 1 and 2 of my original suggestions and substitute them with new pages 1 and 2, since the entire document is only 4 pages long, I am enclosing for filing an original and (8) copies of the County of Jackson's Revised Suggestions. The only changes to the body of the document are found on pages 1 and 2.

Also enclosed is a self-addressed and stamped envelope for you to return the extra copy with the file stamp thereon.

If you have any questions regarding this filing, please contact me. I apologize for any inconvenience this may have caused anyone.

Very truly yours,

FINNEGAN, CONRAD & PETERSON, L.C.

Case No. ER-2001-672

**COUNTY OF JACKSON'S REVISED**  
**SUGGESTIONS IN SUPPORT OF PUBLIC COUNSEL'S MOTION**  
**TO REJECT TARIFF**

COMES NOW the County of Jackson, Missouri ("Jackson County"), pursuant to the Order and Notice dated August 15, 2001 and files the following additional suggestions in support of Public Counsel's Motion to Reject Tariff:

In addition to the reasons advanced by Public Counsel, Jackson County would add that the tariff filing violates Section 393.130.3, RSMo.<sup>1/</sup>, which provides in pertinent part:

"No ... electrical corporation... shall make or grant any undue or unreasonable preference or advantage to any ...locality ... in any respect whatsoever, or subject any locality ... to any undue or unreasonable prejudice or disadvantage in any respect whatsoever."

A provision with virtually identical language pertaining to common carriers found at Section 387.110.1, was determined by the Missouri Supreme Court *en banc* to create two offenses: 1) giving any undue or unreasonable preference or advantage to any particular locality; and 2) subjecting any particular locality to any undue or unreasonable prejudice or

<sup>1/</sup> All statutory references, unless otherwise specified, are to the Revised Statutes of Missouri (RSMo), revision of 2000.

disadvantage. In *Alexander v. Chicago, Milwaukee & St. Paul Ry. Co.*, 221 S.W.712, 715 (Mo. banc 1920), the Supreme Court stated the following as to the two offenses created by the statute:

"Either act is an offense against the law. Both might be committed at the same time, and conceivably in the same transaction; but, the offenses are not necessarily concomitant, nor in any sense interdependent. It is not necessary for the carrier to violate the law twice in order to be held liable once."

Thus, under Section 393.130.3, it is unlawful for UtiliCorp to: 1) unduly discriminate against its St. Joseph division **in any respect whatsoever**; and 2) for it to give its Missouri Public Service (MPS) division undue preference or advantage **in any respect whatsoever**.

Missouri Public Service (MPS) is not the electrical corporation subject to the jurisdiction of the Commission, it is merely a division of UtiliCorp United, Inc., the electrical corporation regulated by the Commission. The MPS service areas is no more than one locality served by UtiliCorp, the electrical corporation subject to the jurisdiction of the Commission. UtiliCorp, the electrical corporation, serves two such localities, nevertheless, it is only seeking to increase rates in one of the localities it serves and does not seek to increase the rates in the other locality it serves. It can only be assumed by such inaction, that the rates in the St. Joseph locality are too high, otherwise UtiliCorp would be seeking an increase there as well. Because UtiliCorp has not filed to change the tariffs of the St. Joseph locality, the Commission cannot do anything in this proceeding to change such rates even if it is discovered during the investigation of all factors that such rates produce overearnings to UtiliCorp. There has been no notice to the public as to such rates. The Commission will be powerless to do anything about decreasing the rates for the St. Joseph locality except after further notice and hearing.

By the same token, were the Commission to utilize the overearnings in the St. Joseph locality to reduce the increase in UtiliCorp's revenue requirement as a result of a revenue deficiency in the MPS locality, the result will be undue discrimination against the St. Joseph locality and undue advantage given to the MPS locality. Without all of UtiliCorp's electric tariffs on the table, the Commission cannot do its job of regulating UtiliCorp properly. Without the St. Joseph locality rates also on the table, the Commission can only exacerbate the overearnings of UtiliCorp by granting an increase in rates in the MPS locality and not being able to order a decrease in rates in the St. Joseph locality.

At this time, because it is almost three months since UtiliCorp filed these tariffs, the only solution is to reject the tariff as requested by Public Counsel and to start over. Had something been done shortly after the filing, it may have been solved by requiring UtiliCorp to give notice to electrical customers in the St. Joseph locality to the effect that their rates may be impacted by this proceeding and allowing them an adequate time to intervene and participate. The passage of time has made this solution impractical, because they will have lost three months time in preparing to take action. The Commission should reject the tariff filing.

WHEREFORE, for the foregoing reasons, the County of Jackson respectfully requests that the Commission reject UtiliCorp's tariff for only one of the localities it serves with electrical service and not entertain a general increase for this electrical corporation until it puts the rates for both its localities at issue so that the Commission may properly perform its duties in setting just and reasonable rates for all localities served by UtiliCorp.

Respectfully submitted,
