**APPLICATION FOR ORDER AUTHORIZING SALE OF CERTAIN ELECTRIC
TRANSMISSION FACILITIES OR, IN THE ALTERNATIVE, AN ORDER
DISMISSING THIS APPLICATION FOR LACK OF JURISDICTION**

COMES NOW Citizens Electric Corporation (Applicant) by and through counsel, and respectfully requests an order of the Missouri Public Service Commission (Commission) finding that it lacks jurisdiction over this matter. Alternatively, pursuant to RSMo. §393.190 and Commission Rules 4 CSR 240-2.060 and 240-10.105, Applicant requests an Order authorizing the sale of certain electric transmission facilities. In support thereof, Applicant states as follows:

The Applicant

1. Applicant is a Missouri corporation operating on a not-for-profit basis as an electric distribution and transmission cooperative, with its customers as member/owners, and with its principal office at 1500 Rand Avenue, Perryville, Missouri 63775. Applicant is duly authorized and in good standing to do business in Missouri. See Applicant's Certificate of Good Standing issued by the Missouri Secretary of State attached hereto as **Appendix A**.
2. Applicant has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer service or rates and is not required to submit annual reports or assessment fees to the Commission.
3. Applicant holds a certificate of public convenience and necessity issued by the Commission, but pursuant to RSMo. §393.110.2, it is not subject to the jurisdiction of the Commission regarding its rates, financing, accounting or management. Applicant, by

filing this Application, is not in any manner waiving the provisions of RSMo. §393.110.2 and is making this filing for the limited purposes set forth herein only.

SALE OF CERTAIN ELECTRIC TRANSMISSION FACILITIES

4. Applicant has entered into a Facility Purchase Agreement (attached as **Appendix B**) with Wabash Valley Power Association, Inc., an Indiana nonprofit corporation with its principal offices located at 722 N. High School Road, Indianapolis, Indiana 46214 (Purchaser) for the sale of those certain 34.5 kV, 69 kV, and 138 kV transmission lines, substation equipment and other related items (Property) set forth within Exhibit “A” in the attached **Appendix B**.

5. The Facility Purchase Agreement was authorized and entered into after passage of a resolution of the board of directors of Applicant. A certified copy of said board resolution is attached hereto as **Appendix C**.

6. The sale of the Property to Purchaser is not detrimental to the public interest due to the unique ownership relationship between Applicant and Purchaser. Applicant is a member of Purchaser and thereby a partial owner of Purchaser. As a partial owner of Purchaser, Applicant has and will continue to have input on the governance of Purchaser, including over such items as the Property at issue herein.

7. Furthermore, the sale of the Property to Purchaser is not detrimental to the public interest because it will have no substantive or negative impact on Applicant’s operations and daily business. This is attributable to several unique and Applicant favorable terms and conditions present within the Facility Purchase Agreement, including, but not limited to:

- a. Applicant will retain its Commission-issued certificate of public convenience and necessity;
- b. Applicant will retain ownership of all underlying real estate associated with the Property;

- c. The Property can only be sold to a third party by Purchaser with the prior written consent of Applicant;
- d. Applicant has an absolute, unconditional right to repurchase the Property upon 180 days written notice to Purchaser;
- e. Applicant retains the right to construct, own and operate future constructed transmission facilities; and
- f. Applicant will, per written agreement with the Purchaser, continue to perform operations, maintenance, planning, and design of the Property to ensure it provides safe and reliable service to the Applicant's members.

8. The sale of the Property to Purchaser will not have any impact on tax revenues of any political subdivisions in Missouri.

GROUND FOR ORDER DISMISSING FOR LACK OF JURISDICTION

9. Pursuant to RSMo. §393.110.2, the Commission expressly does not have jurisdiction over the rates, financing, accounting, or management of any electrical corporation which is required by its bylaws to operate on the not-for-profit cooperative business plan, with its consumers who receive service as the stockholders of such corporation, and which holds a certificate of convenience and necessity to serve a majority of its consumer-owners in counties of the third classification as of August 28, 2003.

10. Applicant is required by its bylaws (Article VI-b, Section 1) to operate on the not-for-profit cooperative business plan, its consumers are stockholders of Applicant, and Applicant holds a certificate of convenience and necessity to serve a majority of its consumer-owners in Perry and Ste. Genevieve counties, both of which were counties of the third classification as of August 28, 2003.

11. In November of 2003, after enactment of RSMo. §393.110.2, Applicant requested in case number ED-2004-0223 that all Commission-approved tariffs be cancelled.

12. During prosecution of case number ED-2004-0223, the Commission directed Applicant and the Staff of the Commission (Staff) to provide further information as to what powers the Commission would have over the Applicant after the then recent enactment of RSMo. §393.110.2.

13. The Staff and Applicant, through their respective filings in case number ED-2004-0223, addressed compliance with many items including RSMo. §393.190.1.

14. The Staff filed its Supplemental Response and Recommendation on June 17, 2004 wherein it stated, with regard to §393.190.1, as follows:

“4. Thus, the Staff believes that it would be appropriate for the Commission to order Citizens to provide to the Staff and the Office of the Public Counsel reasonable advance notice of any fundamental change that it intends to effectuate in the operation of Citizens, including engaging in any transaction similar to one or more of the transactions specified in Section 393.190.1 RSMo. The staff believes that such an order of the Commission would be consistent with the following language in paragraph 8 of Citizens Electric Corporation’s Response To Second Order Directing Filing, filed on April 21, 2004:

... Citizens has appreciated Staff’s cooperation and fruitful discussions and believes that any specific issues that may arise in the future with respect to implementation of Section 393.110.2 RSMo. can and should be handled in the same cooperative, informal manner which has the added benefit of being more efficient and cost effective than a formal proceeding before the Commission.”

15. Furthermore, in Staff's Supplemental Response and Recommendation filed on June 17, 2004 in case number ED-2004-0223, Staff sought and suggested that the Commission "(d) order Citizens to provide to the Staff and the Office of the Public Counsel reasonable advance notice of any fundamental change that it intends to effectuate in the operation of Citizens, including any transaction similar to one or more of the transactions specified in Section 393.190.1 RSMo."

16. The Commission agreed with Staff's recommendations and suggestion with regard to future handling of situations involving Section 393.190.1 RSMo. Within the final Order in Case No. ED-2004-0223, the Commission stated: "And as recommended by Staff, the Commission will . . . order Citizens to provide to Staff and to the Office of the Public Counsel reasonable advance notice of any fundamental change that it intends to effectuate in the operations of Citizens, including any transactions specified in Section 393.190.1, RSMo."

17. The Order of the Commission in Case No. ED-2004-0223 has been relied upon by Applicant up to the point of filing this Application, and Applicant believes the Order to be controlling upon the application of Section 393.190 RSMo. to Applicant's sale of the Property as set forth herein in the context of Section 393.110.2 RSMo.

18. No Commission authorization for the sale of the Property is necessary; instead, compliance with the Commission's Order in Case No. ED-2004-0223 is all that should be required of Applicant.

19. Applicant has provided reasonable advance notice of the sale of the Property to the Staff and the Office of Public Counsel. See letter of November 26, 2018 attached hereto as **Appendix D**. Furthermore, as set forth in this letter, Applicant on December 12, 2018 met with numerous individuals from the Staff and the Office of Public Counsel and representatives of Purchaser to discuss the details of the Property sale and purchase and to answer any questions of Staff and the Office of Public Counsel.

WHEREFORE, Applicant respectfully requests an Order of the Commission:

- A. Declining jurisdiction over this matter and dismissing the Application; or
- B. Alternatively authorizing the sale of the Property pursuant to RSMo. §393.190.1 as set forth herein; and
- C. Granting such other relief as may be necessary or appropriate in the circumstances.

Respectfully submitted,

To Whom It May Concern:

Pursuant to the Commission's Order dated October 19, 2004 in Case No. ED-2004-0223, Citizens Electric Corporation is required to provide you with notice of any fundamental change that it intends to effectuate in its operations, including any transactions specified in Section 393.190.1 RSMO. Section 393.190.1 pertains, in part, to the sale, assignment or transfer of any part of an electric corporation that is necessary or useful in the performance of its duties to the public.

Citizens Electric Corporation (Citizens) hereby provides you with notice that it has executed an agreement to sell its 34.5 kV, 69 kV and 138 kV transmission lines and substations to Wabash Valley Power Association, Inc. (WVPA) effective on the closing date of December 31, 2018. WVPA is a generation and transmission cooperative based in Indianapolis, Indiana and serves Citizens and 22 other distribution cooperative members in the states of Missouri, Illinois and Indiana. WVPA ownership of these assets will enable Citizens and its fellow WVPA members to receive MISO network transmission revenues on these assets and any future constructed transmission assets. This financial benefit will offset the increasing cost of transmission and promote rate stability for Citizens. WVPA ownership of these assets will also shift a significant portion of the reliability compliance obligations (NERC, SERC, etc.) from Citizens to WVPA. Citizens will, after the closing date, continue to utilize the transmission assets for its electrical needs and will, pursuant to detailed agreements with WVPA, continue to perform operations, maintenance, planning and design functions for the transmission assets.

We have scheduled a meeting at the offices of the MO PSC on December 12, 2018 at 10:30 a.m. to further discuss this transaction and address any concerns you may have. In the interim, if you have any questions, please contact me at 573.768.3900 or vrobinson@cecmo.com.

Sincerely,

Van Robinson
