GENERAL EXCHANGE SERVICE TARIFFS

APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION

These tariffs apply to the General Telephone Exchange Services of the Chariton Valley Telephone Corporation, hereinafter, referred to as the Telephone Company, in exchanges of the Telephone Company in Missouri. In the event of any conflict between any rate, rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule, or regulation contained in the Local Exchange Service Tariff shall apply.

The provision of services and facilities, as provided herein is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment, or regulation.
- (I) Signifies an increased rate or new treatment, resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rates.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

SERVICE CONNECTION CHARGES

MO. PUBLIC SERVICE COMM.

A. GENERAL:

1. The term "Service Connection Charge" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.
2. All charges in subscribers' equipment or service from one premise to another are treated as new service connections with Service Connection Charges applying.
3. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of mileage charges, installation charges, or construction charges made because of unusual cost in establishing service.
4. Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the Service for Departments, Administrations and Agencies of the Federal, State, County, Township, or Municipality Governments.
5. Service connection charges do not apply to service re-established, once, after the destruction or partial destruction of the customer's premises by means beyond the control of the customer, i.e., fire, flood or other acts of God, whether at the same or another location.
6. For customers displaced by the major flooding in the summer of 1993, service connection charges do not apply to the establishment of service at an interim location nor to the later re-establishment of service at the same or another location. This latter special flooding provision expires on December 31, 1993.

B. CHARGES:

1. Service Connection Charges apply as follows:

(a) Service Order Processing Charge

\$4.40

(b) Line Connection Charge

4.10

SERVICE CONNECTION CHARGES

NOV 24 1986

A. GENERAL:

1. The term "Service Connection Charge" is used to define a non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.
2. All charges in subscribers' equipment or service from one premise to another are treated as new service connections with Service Connection Charges applying.
3. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of mileage charges, installation charges, or construction charges made because of unusual cost in establishing service.
4. Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the Service for Departments, Administrations and Agencies of the Federal, State, County, Township, or Municipal Governments.

B. CHARGES:

1. Service Connection Charges apply as follows:
 - (a) Service Order Processing Charge \$4.40
 - (b) Line Connection Charge 4.10

The above apply to all Business and Residential Phones.

A charge of \$10.00 will be applied after non-payment disconnects after renewal of service.

DEMARCATIION POINT - The point of connection, provided and maintained by the telephone utility to which the inside station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling, this point of connection will generally be immediately adjacent to the protector or the customer's side of the protector. The drop and block, including the protector, will continue to be provided by and remain the property of telephone utility.

SERVICE CONNECTION CHARGES

MISSOURI
Public Service Comm.

A. GENERAL:

1. The term "Service Connection Charge" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.
2. No distinction is made between a "New Installation" and an "Outside Move". All changes in subscribers' equipment or service from one premise to another (except as otherwise provided under "Inside Moves and Changes") are treated as new service connections with Service Connection Charges applying.
3. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual cost in establishing service.
4. Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service for Departments, Administrations, and Agencies of the Federal, State, County, Township or Municipal Governments.
5. When Multiple Services are installed at the same time such as main station and two extensions, the installation will be the maximum installation charge for only one service.

Lifeline (Low-Income) Program

A. General Regulations

1. Lifeline service is a discounted voice telephony service available to qualifying residential subscribers.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. A Lifeline subscriber's voice telephony service will not be disconnected for non-payment of charges unless the subscriber fails to pay charges directly related to voice telephony service.
4. Lifeline service is available with optional toll blocking or toll limitation service restricting access to 1+, 0+ and 0- dialed calls at no charge.
5. A household is limited to one discount. A Lifeline subscriber cannot receive additional discounts for Lifeline service from another provider or through the Missouri Disabled program.

B. Eligibility and Subscriber Requirements

1. An applicant must submit a completed application form along with proof of meeting one of the following eligibility criteria:
 1. Missouri HealthNet (Medicaid)
 2. Food Stamps
 3. Supplemental Security Income (SSI)
 4. Federal public housing assistance (Section 8)
 5. Low Income Home Energy Assistance Program
 6. Temporary Assistance for Needy Families
 7. National School Free Lunch Program;
 8. The customer's income, as defined in 47 CFR Section 54.400(f), is at or below 135% of the Federal Poverty Guidelines, effective June 1, 2012.

RECEIVED

2. Service Connections - Link Up Missouri¹

NOV 19 1997

A. Applicability of Link Up Missouri Service Connection Program

1. The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to and designed to promote subscribership to the telephone network among low income residential households.

- a. Service Connection Charges, as set forth in this tariff, for initial installation of the main residential service access line, will be discounted at a rate of 50 percent, or \$30.00, whichever is less². These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principle place of residence. +
- b. The customer may defer payment on up to \$200 of the above charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. Payments shall be equally paid over a twelve month period. *
- c. A qualifying low-income customer may choose with a or b, or both a and b as described above.
- d. Link Up assistance is available for a second or subsequent time only for a principal place of residence with an address different from the residence address where assistance was previously provided.
- e. The premises at which the residence service is requested must be the applicant's principal place of residence.
- f. There is only one telephone line serving the residence premises. The residence premises household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic establishment.
- g. Link Up will not be furnished on a Foreign Exchange service. *

¹ The rates for service connections are not subject to the jurisdiction of the Missouri Public Service Commission.

² The discount established herein does not apply to other charges that may be required at the initiation of service such as security deposit, contributions in aid of construction, customer advances, etc.

2. Service Connections - Link Up Missouri¹

SEP 9 1988

A. Applicability of Link Up Missouri Service Connection Program

MISSOURI
Public Service Commission

1. The Link Up Missouri Service Connection Program is a Federal Lifeline assistance program applicable to eligible residential subscribers, as defined below, and designed to promote subscribership to the telephone network among low income residential households.

a. Service Connection Charges, as set forth in this tariff, for initial installation of the main residential service access line, will be discounted at a rate of fifty percent (50%), not to exceed thirty dollars (\$30.00).² These reduced charges shall be assessed only for a single residential telephone line per eligible household at the principal place of residence.

2. Eligibility Requirements

The following requirements shall be used by the company to determine the eligibility of a subscriber for Link Up Missouri assistance.

a. Subscribers must have lived at an address where there has been no telephone service for at least three (3) months prior to the date that assistance is requested.

b. Eligible subscribers must not have received this assistance within the last two (2) years.

Lifeline (Low-Income) Program

B. Eligibility and Subscriber Requirements

2. A Lifeline subscriber must agree to notify the company within 30 days if:
 - i. The subscriber's household receives multiple discounts through either the Lifeline program and/or the Missouri Disabled program.
 - ii. The subscriber fails to meet eligibility criteria.
3. A Lifeline subscriber agrees to respond in a timely manner to annual requests to verify continued eligibility.
4. False statements made by a Lifeline subscriber or failure to comply with Lifeline service subscriber obligations will result in de-enrollment from the program.
5. The Lifeline subscriber's address must be the subscriber's permanent address. If the Lifeline subscriber's address is temporary then the subscriber must verify the subscriber's address every 90 days.

Missouri Disabled Program

A. General Regulations

1. The Missouri Disabled program offers a \$3.50 discount for voice telephony service to qualifying residential subscribers.
2. A household is limited to one discount. A subscriber cannot receive additional discounts from the Missouri Disabled program or through the Lifeline program.

B. Eligibility and Subscriber Requirements

1. An applicant must submit a completed application form along with proof of meeting one of the following eligibility criteria:
 - 1) Federal Social Security Disability benefits.
 - 2) Federal Supplemental Security income.
 - 3) Veterans Administration Disability benefits.
 - 4) State blind pension pursuant to Section 209.010 to 209.160 RSMo
 - 5) State aid to blind persons pursuant to Section 209.240 RSMo
 - 6) State supplemental payments pursuant to Section 208.030, RSMo Section 660.100.2 RSMo 2000.

LIFELINE SERVICE

Service Commission

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single party residence service.
2. Lifeline service is a reduction in the monthly local service charges normally paid by qualifying low-income consumers. Eligible Lifeline subscribers will receive a total reduction of their basic local rate for residential one party service of \$6.75. The components (T) of the reduction to basic residential one-party rates are as follows:

State reduction in local rate:	\$1.75	
Federal baseline Lifeline reduction:	\$5.00	(I)

The Federal baseline lifeline reduction shall be used to waive the consumers Federal End-User Common Line Charge.

3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.

C. Missouri USF Low-Income Assistance

1. General- A low-income customer is any customer who requests or receives residential essential local telecommunications service and who has been certified by the Department of Social Services (DSS) as economically disadvantaged. Qualified individuals will receive discounted services under either the low-income assistance or the disabled assistance program.
2. Regulations- Low income assistance is available to all residential customers who demonstrate, by self certifying with the company under penalty of perjury, that they are eligible for support by participation in:
 - a. Medicaid
 - b. Food stamps
 - c. Supplementary Security Income (SSI)
 - d. Federal Public Housing Assistance or section 8
 - e. Low Income Home Energy Assistance Program (LIHEAP)
 - f. Temporary Assistance to Needy Families (TANF) (N)
 - g. National Free Lunch Program (N)
3. Eligible Services- Essential local telecommunications service is defined as two (2) way switched voice residential service within a local calling scope as determined by the commission, comprised of the following services and their recurring charges:
 - a. Single line residential service, including touch-tone dialing and any applicable mileage or zone charges
 - b. Access to local emergency services, including, but not limited to, 911 service established by local authorities
 - c. Access to basic local operator services
 - d. Access to basic local directory assistance
 - e. Standard intercept service
 - f. Equal access to Inter-Exchange Carriers consistent with rules and regulations of the FCC
 - g. One (1) standard white pages directory listing
 - h. Toll blocking or toll control for qualifying low-income customers
4. Support Amount- Customers eligible under the established criteria can receive a discount from their bill for essential local telecommunications service equal to the amounts approved by the Missouri Public Service Commission and the Federal Communications Commission. The amount of combined federal and state lifeline support for any customer will not exceed the sum of the federal Subscriber Line Charge (SLC) and the recurring charges for essential local telecommunications services (including the basic service rate, Touch-Tone calling charge, extended area service additive, and mileage additives, if any).

MISSOURI
Public Service Comm.

B. CHARGES: (continued)

(b) (continued)

Note: "Instrumentalities in Place" shall mean that the telephone instruments and inside wire, necessary in the subscriber's premises to furnish the subscriber the service applied for are in place.

If all instrumentalities are in place but the service applied for be a different class of service than that in place, and no change, alteration, or addition is required except that necessary to change the class of service, the service will be deemed to be established by means of instrumentalities in place.

(c) Restoral of Service Charge:

Where service has been discontinued for non-payment of any charges due or for failure of the subscriber to establish credit in accordance with regulations, the following charges apply for reconnecting all services and facilities being provided to a subscriber at one location.

Business \$5.00
Residence \$5.00

C. SERVICE CONNECTION CHARGES DO NOT APPLY TO: (Continued)

2. Private Branch Exchange Switchboards.
3. Service Stations.
4. Battery and Ringing Supply Circuits.
5. Directory Listings or joint user Service.
6. The following cases, provided service and facilities are assumed prior to their discontinuance and without lapse in rendition of service or billing for service.:
 - (a) A change of name without change of ownership.
 - (b) A change of ownership without a change of name.
 - (c) When one member of a family applies for the service previously contracted for by another member of the same family residing in the same household.
7. When a receivership for an existing subscriber is established or terminated.
8. Service changed from a residence to a business classification, or vice versa, without change in the identity of the subscriber, except when the original classification is known to have been erroneously established.
9. Changes in the grade of service, i.e., changes from individual line to party line service or vice versa.
10. Service re-established after the obstruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location. However, if service is established at a new location and the subscriber later moves back to the old location, the Service Connection Charge is applied.

GENERAL EXCHANGE SERVICE TARIFFS

INSIDE MOVES AND CHANGES

A. GENERAL

1. Charges for Inside Moves and Changes are in no case to exceed the sum of the Service Connection Charges (and any Installation Charges) which would apply if all the facilities for service involved in the move or change were installed anew.
2. The charges specified herein for inside moves and changes do not contemplate work being performed by the Telephone Company involved at a time when overtime wages apply, due to the request of the subscriber, nor does it contemplate work once begun being interrupted by the subscriber. If the subscriber requests that overtime labor be performed or interrupts work once begun an additional charge, based on the additional cost involved, applies.
3. Discontinuance of telephone service and equipment at one premises and their installation at another premises is not considered as a move and is provided for subject to the regular service connection charges and/or any installation charges that may be applicable.
4. Charges for Inside Moves and Changes are payable upon installation of a bill.

B. APPLICATION OF CHARGES:

1. Inside Moves.

- (a) An inside move is a transfer of telephone service equipment from one location to another location within the same building or that portion of the same building occupied by the same subscriber, where there is no interruption of the service other than is incident to the work involved.

DIRECTORY ASSISTANCE SERVICE

A. GENERAL

Directory Assistance service is defined as furnishing aid in obtaining telephone numbers. The Directory Assistance charges specified in this tariff apply when a customer within Missouri requests the telephone numbers of other customers within the same LATA.

B. CONDITIONS

1. All accounts are entitled to three free direct dialed calls per month to Directory Assistance service for each individual access line.
2. Call allowances are not transferable between accounts.
3. For the purposes of administering this tariff the full allowance will apply for service on record as of the customer's billing date.
4. Rates specified in C.1. below are not applicable to:
 - Calls placed from hotels and motels.
 - Calls placed from hospitals.
 - Calls placed from residence telephones where a member of the customer's household has been certified by a qualified authority as unable to use a directory or from the business telephone of a certified customer where other assistance is not available. A qualified authority is defined as including doctors of medicine, ophthalmologists, optometrists, registered nurses, therapists, professional staff of hospitals, institutions and public welfare agencies. Certification of physical disability sufficiently severe to prevent reading or using conventional reading or using conventional reading materials may also be made by professional librarians or by any person whose competence in this area is acceptable to the Librarian of Congress of the United States.
 - Calls from certified exempt customers and charged to their Calling Card.

C. CHARGES

1. Residence and Business Customer originated calls (maximum of two requests per call), each.....\$.75

F. JACK AND PLUG EQUIPMENT (continued)

- The maximum number of jacks permitted for any one main station or P.B.X. is eight. The number of portable and permanently connected telephones allowed on any one line shall not exceed the number of permanently connected telephones permitted for the class of service involved. (See Section II, Extension Stations).
- Portable telephones (equipped with plugs) are connected only as extension stations, the main station being permanently connected with the line.
- One bell permanently connected to the line is provided without additional charge for each portable telephone. Bells in excess of the allowance and other than those associated with stations permanently installed, are bridged to the line at the regular rate for extension bells. Not more than four bells are permitted on any one line.
- Mounted spring jacks of flush or non-flush type and associated wiring will be furnished at an installation charge of \$7.50 each, . . .

G. JOINT USERS

Joint user service, including one listing in the directory, is furnished at the following rates for each joint user.

	<u>Monthly Rate</u>
Business	\$2.25
Residence	\$1.25

6. Optional Services and Features

JAN 15 1997

6.1 Class Service

MISSOURI
Public Service Commission

Custom Local Area Signaling Services (CLASS) are a set of advanced call management features which will only be offered on one-party service and will not be activated on multi-party lines, certain FX lines and Payphone Services. CLASS features may be offered in conjunction with Enhanced Business Service (EBS)* and consist of one or more of the following features:

A. Feature Descriptions:

1. Automatic Call Return

Automatic Call Return permits the subscriber to place a call to the telephone number associated with the most recent incoming call whether or not the call was answered or the telephone number is known by the subscriber. If the called line is available, the call is immediately completed. If the called line is not available, a queuing process, which may last up to thirty minutes, takes place. When both lines are available, the calling subscriber is notified via a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed.

2. Automatic Redial

Automatic Redial allows the subscriber to automatically redial the last number dialed from the subscriber's telephone regardless of the completion status of the last number dialed. If the called line is available, the call will be placed immediately. If the redialed line is busy, the network will queue the request for thirty minutes and process the call when both the called and calling party lines are idle. When the call can be completed, a distinctive ring will be provided to the caller's line to alert the subscriber that the requested callback is ready. When the subscriber picks up the telephone, the call is automatically placed.

This feature cannot be activated for calls originating from a line that is forwarded.

* Enhanced Business Service, also known as Centrex Service, is a package of enhanced features offered to business customers with two or more touchtone access lines.

3. Caller ID by Number

Caller ID by Number allows the subscriber, with the use of a display phone or adjunct display device, to view the directory number of an incoming call before answering. During the time that the incoming call is placed, the calling number is forwarded from the central office to a compatible customer provided Customer Premises Equipment (CPE) Display Unit associated with the customer's local exchange service. The calling telephone number is then delivered to the display device during the first silent interval of ringing.

The calling number is not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originating from a PBX will display the main PBX number only. If the caller's number is not part of the CLASS network, is a multi-party line, or is blocked, the number will not be displayed.

Subscription to Calling number delivery on EBS access lines is only available on the customer group level and not on a per line basis. Rates and charges, however, will apply on a per line bases.

Telephone numbers transmitted via Caller ID by Number may not be sold or given to another party without the caller's consent. Caller ID by Number information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to

the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. Calling Number Delivery customers failing to comply with any of these conditions will have their service terminated.

The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-published or Non-Listed Service.

4. Caller ID by Number/Name Delivery Blocking

Caller ID by Number/Name Delivery Blocking allows the subscriber to prevent the delivery of the subscriber's directory number/name on a per call basis (per call block) or per line basis (per line block.) There is no charge for this service.

Per call block will block the delivery of the subscriber's number/name for one call only and may be activated by dialing an activation code (*67 from a Touch-Tone telephone or 1167 from a rotary telephone) immediately prior to placing a call.

A. Feature Descriptions: (Cont'd)

4. Caller ID by Number/Name Delivery Blocking (Cont'd)

If the calling party activates blocking, the directory number/name will not be transmitted across the line. Instead, Calling Number/Name Delivery customers will receive an anonymous indicator. This anonymous indicator notifies the Calling Number/Name Delivery customer that the calling party has elected to block the delivery of the telephone number/name.

Per line block will automatically block delivery of the subscriber's telephone number/name on all calls. Line blocking for the delivery of the calling number/name is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with the Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence enforcement agencies and (b) federal, state and local law enforcement agencies. The calling number/name will not be transmitted from a line equipped with this capability.

The blocking of the directory number/name will not be provided on calls originating from Payphone Service. +

5. Customer Originated Trace

Customer Originated Trace enables the customer to initiate an automatic trace of the incoming call received, regardless of the time lapse since that call, providing there have been no intervening outgoing calls. To initiate the trace, the customer must dial an activation code, then dial a "1". Upon activation by the customer, the network automatically sends a message to the Telephone Company indicating the calling number, the time the call was received, and the time the trace was activated.

6. Distinctive Ringing

Distinctive Ringing provides a distinctive ringing pattern to the subscribing customer for specific telephone numbers (a maximum of 12). The customer creates a screening list of telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern. Calls from telephone numbers not included on the screening list will produce a normal ring.

If the called customer subscribes to Call Waiting (described in other sections of this tariff) and the call arrives while the line is busy, the Call Waiting tone has the same distinctive patterns. For calls from a dial tone line with multi-line hunting, the distinctive signal is only produced when the main telephone number has been entered in the screening list.

7. Selective Call Acceptance

FILED

Selective call acceptance provides the customer the ability to select (a maximum of 12) customer telephone numbers from which calls are to be received. Through an interactive dialing sequence, the customer creates a screening list of telephone numbers in the CLASS Network. When a call

is placed to the customer's number from a number on the screening list, the call is completed. When a call is placed to the customer's number that is not on the screening list, the calling party receives an announcement indicating that the call cannot be completed to the called party at this time.

For calls from a line within multi-line hunting, the call is completed only when the main telephone number has been entered in the screening list.

8. Selective Call Forwarding

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of numbers is created by the customer (maximum of 12) and placed in the network memory via an interactive dialing sequence. This list can only be created from CLASS serving area telephone numbers. Only calls from those telephone numbers on the screening list may be forwarded to the designated telephone number.

For calls from a line within multi-line hunting the call is selectively forwarded only when the main telephone has been entered in the screening list.

9. Selective Call Rejection

Selective Call Rejection provides the customer the ability to prevent incoming calls from certain telephone numbers. Through an interactive dialing sequence, the customer creates a screening list of telephone numbers (maximum of 12) in the CLASS network. When a call is placed to the customer's number from a number on the screening list, the calling party receives an announcement indicating that the call cannot be completed to the called party at this time.

- 10. Unidentified Call Rejection (UDR) - UDR automatically blocks any unidentified calls without ever ringing at the called parties telephone number. The calling party will receive a recorded announcement, the called party does not accept unidentified calls and suggest the calling party unblock delivery of the callers telephone and redial.

B. General Regulations:

- 1. CLASS features can be provided on a stand alone basis or may be enhanced by use with Custom Calling service features as described in other sections of this tariff.
- 2. CLASS features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing a specific code on either a rotary-dial or Touch-Tone calling basis.
- 3. The customer of record will be responsible for all rates and charges associated with the CLASS features as described in Rates and Charges. The customer of record will be charged for all features activated on his/her service and charged the applicable monthly subscription rate for each line on which a CLASS feature is provided.
- 4. CLASS features are available to customers who have rotary or Touch-Tone service for calls within the CLASS Calling Service area. Customers with rotary service can access CLASS features by dialing "11" instead of "*".
- 5. A CLASS customer may employ available CLASS features only under the following conditions::
 - When both the CLASS customer and the other party involved in the call are served from the same central office, even if the other party does not subscribe to a CLASS feature.

P. SPECIAL CIRCUITS

1. Local loops used in connection with inter-exchange facilities for such services as Teletypewriters, Radio Broadcasts, etc. will be furnished where facilities are available, at the Business Individual Line Rate:

a. An installation charge equal to the cost of labor required to install such loop applies to each loop in lieu of a Service Connection Charge. The minimum installation charge will be \$7.50.

2. Circuits to meet the special requirements of the subscribers will be furnished at the subscriber's request where in the judgment of the Telephone Company the use to be made of such circuits is not contrary to the regulations and where facilities are available.

Monthly Rate

a. The monthly rate applicable to such circuits is:

For each one-quarter (1/4) mile or fraction thereof, airline measurement \$.70

b. A service connection charge equal to that applicable to Business Main Station lines applies to each terminal point of such Circuits.

3. If any of the Special Circuit requested by the subscriber is outside the Base Rate Area such Circuit is furnished in accordance with the regulations contained under "Construction Charges" in the General Rules and Regulations.

(continued)

S. KEY TELEPHONE SYSTEMS *

1. General: A key telephone system is a self contained apparatus cabinet and associated Key Telephone Set which enables the subscriber to pick up on two (2) or more central office lines, which are on automatic trunk hunting; hold on each central office line; and manually or automatically (dial) signal one or more extension stations associated with the Key Telephone System. The Key Telephone System also offers as standard equipment, lamp flash on incoming calls, a steady lamp to indicate a line in use, and a wink signal to indicate a line on hold. The keys or pushbuttons may be included in the base of each telephone, or separately mounted as necessary. The General Exchange rules and regulations hereof apply to Key Telephone Systems, as do the General Exchange charges for installation, (except that the subscriber may select colors of phones at no charges) moves, changes, and other miscellaneous charges. When the labor and material for installation exceeds \$500.00, the subscriber is required to pay an installation charge of \$100.00 plus the standard charges for the main and extension stations involved.

FILED

MAY 22 1965

2. Basic Unit: The basic key telephone system consists of two central office lines on automatic trunk hunting (which entitles the subscriber to two main stations) equipped with lamp flash on incoming calls, steady signal on busy lines holding on central office lines, and a wink signal to indicate a line on hold. Manual Intercom on a common talking and signaling circuit is standard equipment on the basic unit.

PUBLIC SERVICE COMMISSION

3. Additional Central Office Lines (Main Stations): The Basic Unit is capable of being expanded from the minimum of 2 central office lines to a maximum of five (5) central office lines, each of which is equipped with the same lamp and hold equipment as the Basic Unit.

S. KEY TELEPHONE SYSTEMS (cont'd.) *

4. Extension Stations: Extension stations are additional telephones installed and connected to the key telephone system, each of which will have:

- A. Access to all central office lines
- B. Access to manual intercom circuit
- C. Lamp and hold features identical to the basic unit main stations. A maximum of eighteen (18) main and extension stations are permitted on a Key Telephone System.

5. Dial Intercom: Dial intercom enables any main or extension station to selectively signal any other main or extension station by dialing the proper number for the desired station. Four (4) options are available for dial intercom:

- A. Dial Intercom, common talking circuit, nine (9) station maximum.
- * B. Dial Intercom, private talking circuit nine (9) station maximum.
- C. Dial Intercom, common talking circuit eighteen (18) station maximum.
- * D. Dial Intercom Private Talking Circuit eighteen (18) station maximum.

* Two (2) intercom circuits may be furnished so that two (2) Intercom conversations may be transmitted simultaneously.

6. Automatic Tie Line: An automatic tie line provides for one or more pre-selected and wired stations of the Key Telephone System to automatically signal one or more pre-selected and wired station when the handset of the originating station is lifted.

7. Exclusion: Provides for the automatic exclusion of certain stations (pre-selected and wired) from access to the central office line being used by the originating station until the originating station restores the handset.

GENERAL EXCHANGE SERVICE TARIFFS

PRIVATE BRANCH EXCHANGE SERVICE

A. GENERAL

1. The rates quoted herein contemplate the use of Standard equipment and apply to all business and residence locations; Special equipment and arrangements are furnished where practicable at charges, based on costs, determined as outlined under miscellaneous equipment, in this tariff.
2. Regular service connection charges apply for the installation, inside moves or changes of all stations, station equipment and trunks.
3. The period of contract for P.B.X. systems shall be at least three years. The contract period for P.B.X. systems larger or of a different type than those for which specific rates are quoted herein will be determined upon the circumstances of the particular installation.
4. Mileage charges apply on P.B.X. trunks, battery and ringing trunks that extend beyond the limits of the Base Rate Area. Mileage charges also apply to the Circuit required for P.B.X. stations not located on the same premises as and within 250 feet of the P.B.X. switchboard. (see mileage charges.)
5. When, because of the distance from the P.B.X. switchboard to any station or stations connected therewith, additional equipment is required to maintain suitable transmission, such equipment will be furnished at a monthly rate based upon the installed cost of such equipment.
6. All operating at the subscribers premises is performed at the subscriber's expense and must conform with the rules and regulations of the Telephone Company.

LOCAL REACH

1.0 GENERAL

A. Service Description

1. Local Reach is an optional one way, outward service where, for a monthly recurring flat rate, customers can place calls within their LATA to other customers in exchanges within the Local Reach calling scope, as defined in sub-section 1.0-C of this section.
2. Qualified usage under this plan is intraLATA customer-dialed, sent-paid, non-coin calls originating at a subscriber's access line and terminating at an access line in an exchange within the Local Reach calling scope as defined in sub-section 1.0-C of this tariff.
3. Calls included in this plan are dialed using a seven-digit local dialing pattern.

B. Service Availability

1. This service is furnished subject to the availability of the required telecommunications facilities. Implementation of Local Reach will be simultaneous in all Chariton Valley Telephone Corporation exchanges; therefore the service will be available in all exchanges during the implementation period.
2. Subject to the restriction in paragraph B.1 above, service is available to Missouri local exchange customers of Chariton Valley Telephone Corporation as listed in the Local Exchange Tariff Section.

C. Local Reach Calling Scope

1. The Local Reach Calling Scope includes exchanges as listed below:
 - Moberly
 - Macon
 - Marceline
 - Brookfield
 - Carrollton
 - Kirksville

(N)

P.S.C. MO. No. 1 CONSOLIDATED

RECEIVED General Exchange Service Tariffs

Chariton Valley Telephone Corp.

Section II

MAY 14 1999

Original Sheet No. 50

2.0 REGULATIONS

MO. PUBLIC SERVICE COMMISSION

A. Rules and Regulations

- 1. Unless otherwise stated, Local Reach is subject to the Rules and Regulations applying to all customer contracts as specified in the General Exchange Tariff.

B. Qualified Customers Accounts

- 1. This service is available to single-party, residence and business customers. The service is available to multi-line customers.
- 2. Local Reach is not offered in conjunction with Customer-Owned Pay Telephone Service.
- 3. Local Reach is not offered in conjunction with Cellular Service.
- 4. Local Reach is not offered in conjunction with Foreign Exchange Service.

C. Use Restrictions

- 1. Local Reach is not offered in conjunction with services designed to forward calls in mass including but not limited to Simultaneous Call Forwarding, Disaster Routing Service and Intelligent Redirect or similar services that might be offered under other names.
- 2. Local Reach is sold in conjunction with and solely for use on Local Exchange Telephone Service access lines and trunks.
- 3. Local Reach may only be used for the communications of a single end user. It may not be used to aggregate the communications of multiple end users for resale (including but not limited to, arrangements using services such as Simultaneous Call Forwarding to aggregate calling capability for resale or to provision communications services for others).
- 4. This tariff shall only be effective as long as the use restrictions and the rules and regulations in this tariff remain in effect for all users (including any exchange telecommunications company reselling this service, and their customers.) In the event any of these use restrictions or rules and regulations are held not to apply to all such users, upon notification by the Telephone Company to the Commission, this tariff shall not be available except to existing subscribers of the service at existing service levels at existing locations. CVTC shall also have the right to withdraw this service offering in its entirety.

D. Multi-line Accounts

With the following exceptions, Local Reach subscribers are not required to purchase Local Reach on all access lines of a multi-line account. Exceptions are as follows:

- 1. In cases where a single working telephone number is used for multiple access lines, if Local Reach is purchased for one line in the arrangement, it must be purchased for all of the lines.
- 2. Within a multi-line hunting arrangement, if one access line is subscribed to Local Reach, all lines must be subscribed to Local Reach.

E. Minimum Service Period

- 1. The minimum service period for subscription to Local Reach is one month.
