

Exhibit 3 – Officers

Joseph Fernandez: President

Joseph has been in the Telecom industry for over 20 years and acquired Easy Telephone Services Company in 2009. Under his leadership, Easy Wireless has become a well-known and trusted Lifeline provider in 4 states, Missouri included, has become one of the largest Lifeline and ACP providers in Oklahoma, and has become an ACP provider in 47 states and territories. Joseph Fernandez is heavily involved in strategic planning for Easy Wireless and is recognized for always emphasizing Easy Wireless' vision of education, cooperation, and advocacy through community outreach and affordable telecommunications for all. Before telecom, Joe was a Corporal in the US Marine Corp and was stationed in the Mediterranean as part of a Marine Expeditionary Unit/Special Operations Capable MEUSOC. Joe had the distinction of participating in the Honor Guard for the 50th anniversary of the D-Day landing in Normandy, attended by then President Bill Clinton and Queen Elizabeth. After his military service, Joe worked in retail, rising through the ranks to a management position.

Tina Allen: Secretary

Tina Allen is the Compliance Officer of Easy Telephone Services Company dba Easy Wireless. Tina has worked in the telecommunications industry since 2001 and has a vast knowledge of Universal Service Fund requirements, working closely with regulatory advisers on Federal and State Commission regulatory matters. Prior to Easy Wireless, Tina worked with Affordable Phone Services, a landline and wireless Lifeline service provider. Tina came on board with Easy Wireless in 2009 first as Operations Manager, helping to integrate the company's BSS/OSS software and overseeing their integration as a Sprint reseller. Tina became the company's Compliance Officer in 2012. In this position, she is responsible for all compliance and regulatory-related aspects of the organizations at both the State and Federal levels. She develops company processes and procedures and training relating to the same. Easy Wireless has been offering Lifeline for over a decade and has shown compliance with FCC and USAC rules and guidance, having undergone – and successfully passed - dozens of audits over the last decade.
