**RE: The Empire District Electric Company d/b/a Liberty
Case No. ER-2021-0312 / Renewable Energy Purchase Program (“Schedule REP”)**

Dear Judge Dippell:

On February 1, 2024, and in accordance with Liberty’s Renewable Energy Purchase Program, Liberty filed a revised Schedule REP tariff sheet (first Revised Sheet No. 7a) with a proposed effective date of April 1, 2024.

Since the initial submission, it was discovered that the calculations incorrectly included Renewable Energy Credit (“REC”) revenue from forward transactions outside of the operating year. To correct this error, the calculations were re-run with forwards removed, and a substitute tariff sheet is being submitted at this time. This lowers the weighted average price and better aligns that price with the current market. As a substitute, the tariff sheet continues to bear an issue date of February 1, 2024, and a requested effective date of April 1, 2024.

Please bring this substitute REP tariff filing to the attention of the Commissioners and the appropriate Commission personnel, and please do not hesitate to contact me with any questions or concerns.

Sincerely,

Diana C. Carter
