

EO-2024-0244
Change of Supplier

To the Commission and Regulatory Judge. I understand that any cost of build is usually the responsibility of the party usually wanting to change utility providers and that is understandable. Money or cost isn't a problem. I can secure the available resources to pave the way for a change of Supplier.

However, my biggest problem is Ameren Missouri's lack of response and knowing publishing, crafting and distributing a counterfeit payment agreement. Ameren's legal counsel is aware of the document and through electronic correspondence of communication was supposed to reach out to me by 5 pm today March 14, 2024.

I didn't expect Ameren Missouri to reach out, as they are habitual liars when it comes down to things.

I have no interest in engaging in a conversation with Ameren Missouri or any of their counsel. I have prepared a Jurat Affidavit of Facts and a Statement Declaration to not only give to the Commission, but also the Prosecuting Attorney's Office for distribution and passing of a counterfeit document to defraud and deceive and extort me out of numerous monies.

At this point, Ameren's conduct is criminal, not civil. Stating words like "we are trying to do better" is just a figure of speech. Nothing that they have done implicates that they are "trying to do better." If anything, they will continue to have the same pattern of behavior.

Personally, I think they need their Articles of Incorporation revoked in addition to their business license. Sorry, they are a business that practices bad morals, ethics and they are con artists and master of passing counterfeit documents.

While this is a unique situation, I'm asking that Ameren Missouri be held responsible for any and all cost in any transition process if the Change of Supplier is approved and granted by the Commission.

Sorry, but I shouldn't be subjected to a business's bad behavior and criminal conduct and engaging in illegal practices to deceive people.

It's apparent Ameren's newest representation is no different than the last representation they had. Practicing con artist methods and knowing that their representatives are passing counterfeit documents. What is even worse they are electronically producing these counterfeit documents.

While Ameren will send an email back to make it look like they have interest, they don't care and they habitually lie. I wouldn't put it past them that their legal counsel responds and makes a counterfeit document stating she replied back to me.

They have already admitted to altering documents in a prior matter. This document they prepared as a "so called" "payment agreement" is the worst coding index that I've seen in my life. If Ameren wants to believe that www2.ameren.com is an email address, so be it. You've seen the proof given

Therefore as I have been subjected to Ameren Missouri's illegal behaviors, I respectfully ask that Ameren Missouri as a result of producing counterfeit documents and engaging in criminal acts be responsible for any and all fees related to any part of the change of supplier process and additional applications that might be needed, along with any fees.

I invite Mrs. Hernandez to engage in a civil talk about this document again, but I won't hold my breath. Or then again, maybe her and Ameren's esteemed regulatory division are trying

to mastermind their way to figuring out a way to alter the PAG terms and remove the table border, cellpadding, cellspacing,color and wutable.

Better yet, they are the reason I'm probably not getting a reply back is they are still trying to figure out how to make www2.ameren.com a valid email address. While we all have problems, I believe Ameren Missouri has severe mental problems if they actually believe that www2.ameren.com is an email address. There was no software engineer that typed this document, it was a document crafted by their Regulatory Liasion who admitted to altering documents, Mrs. Krcmar.

I shouldn't be subjected to Ameren's con artist methods, the relationship of a business and consumer is severly severed and I would rather be a homeless person, than have to deal anymore than them.

If they honestly just told the truth it would go away. At this point. I want to ensure and I'm going to continue to expose the trail of lies until they admit the truth. Instead they would rather force me to bring the clearly obvious to the Prosecuting Attorney's Office.
