Ameren Missouri

Memo to Staff and Ameren Missouri

Just as an FYI, an email doesn't start with a www. nor does it have the embedding of www2.ameren.com. There is no @ symbol to correspond to an email address.

Another FYI, web domain or hosting address don't have numerical values either such as www2.ameren.com.

Another FYI, actual domain addresses and email address when typed out correspond in the color of blue, to show they are accurate in a document. Not black as the document shows.

Look above at [REDACTED] above or in this letter and notice how it turned blue. Because that is a correspondent of an email address. The document or exhibit D No MPSC 0027. You will notice that .

Your honor and Commission and , I don't expect Staff to tell the truth or Ameren Missouri to tell the truth. I expect I will get another lame duck excuse , like they have in the past. Staff of the Commission has done nothing but protect the perpetrator and allowed them to further victimize, I the victim.

The Staff of the Commission did a shotty investigation and is covering up Ameren Missouri's violations therefore they get their kickbacks and lobbying money.

I just want the darn truth that is all, but instead the Staff of the Commission and Ameren Missouri would continue with further lies, to coverup the lies they already told.

I believe undersigned counsel of Ameren Missouri already knows the truth that the document is a counterfeit in which is why she failed to respond to me this past Thursday March 14, 2024 and Friday March 15, 2024, like she said she would.

I look forward to Staff of the Commission and Ameren Missouri telling me some more lies and better yet how a "senior software engineer" designed the document. No "senior software engineer" crafted this. It was a counterfeit document crafted by Ameren's Regulatory Liasion, Mrs. Krcmar.

Also if Staff of the Commission and Ameren Missouri can tell me the exact Statute for using a counterfeit document to defraud out of money is? I just want to make sure I write the correct statute down to give to the Prosecuting Attorney's Office, that's all. In addition, the Statute for Extortion of money as well?

I believe it is also criminal, not civil the defrauding party fails to make resitution or reimburse the party they defrauded, but I'm not a lawyer like Staff's Counsel or Ameren Missouri's counsel.

If the document was actually prepared by a "senior software engineer" then he just screwed Ameren Missouri, but it wasn't and we all know that. The truth goes further than the continued lying.
