

EC-2024-0217

Brett Felber  
Vs  
Ameren Missouri

Motion to Dismiss

Complainant wishes to file their Motion to Dismiss this matter. I unfortunately no longer want to pursue this matter, as I'm never going to get the truth from Ameren Missouri or the Commissioner, or the Staff of the Commission.

Unfortunately, the Commission has given the perpetrator the fuel and ammo to continue their predatory system of taking advantage of the system.

All I wanted was the truth and instead of the truth I've been fed more cow manure. I've been fed more cow manure and excuses from the Staff of the Commission and Ameren Missouri than any other company in the world.

As a person I am proud of how far I have brought this matter. It is not me giving up, but I have found my inner peace within myself that I shouldn't expect a predatory company or a Commission or Commissioners to give the truth of in the matter.

I'm not going to continue to subject my health or subject the time I have throughout the day to continuously post the truth about the matter.

My Motion to Dismiss, is not a matter in which I am choosing to give up, but it is because of the broken system within the Commission that they need to fix and the Commission and the Commissioners fail to see it. Therefore, I do not have the continued time to waste or worry about the next excuse Ameren Missouri is going to be able to use.

All I wanted was the truth and instead I've been fed more cow manure and further the Commission has further allowed more cow manure to be fed.

I know the truth, outside of the Missouri Public Service Commission everyone knows the truth, Staff of the Commission know the truth, more importantly Ameren Missouri knows the truth and Jesusw Christ himself knows the truth. (Usually don't throw religion in there, but it is the truth)

Its a forged document. Clearly the Commission wants to cover that up, Ameren wants to cover that up and the Staff want to coverup the mistakes of the last Staffs mistakes. I was denied several motions, unfortunately because of lobbying and kickback monies given.

I don't engage in conversations with Con Artists, more importantly a crooked system that is protecting the Con Artist doing to. If the Commission, Staff of the Commission and Ameren Missouri ever feel the need to apologize for their actions, then maybe we can engage it further communications down the road , maybe, but that has yet to be seen.

However more importantly, until the Commission, Commissioners and Ameren Missouri come to their senses and admit this is a counterfeit document used for defrauding me, there is no point in me continue, as the Missouri Public Service Commission is a broken product of the State of Missouri.

I repsectfully ask that Ameren Missouri and the Missouri Public Service Commission, Commissioners and Staff leave me alone. I'm not interested in hearing more excuses from Ameren Missouri or the Missouri Public Service Commission, so I would rather not hear anymore excuses from either party come the 8<sup>th</sup> and 23<sup>nd</sup> of April.

I would rather Ameren Missouri and the Missouri Public Service Commission save their excuses for someone else, as I am tired of them. Therefore I wish to dismiss this complaint as I have no further interest in listening or hearing to Ameren's fraudulent document or counterfeit documents and excuses.

Best of luck to everyone. I apologize for wasting everyone's time. Furthermore I apologize for wasting my own time waiting for the actual truth of the matter and expecting the truth.
