

EC-2023-0395

Brett Felber
VS
Ameren Missouri

Your Honor, i respectfully ask for the correct information of the appeal process since the Consumer Department of the Public Service Commission does not have the correct information.

I reached out the the Eastern Missouri-Court of Appeals and they specficially stated twice that the Missouri Public Service Commission's Secretary files the paperwork and takes the fee for the appeal.

The Consumer Department states different.

If I'm not going to get the correct information please either A) grant me a re-hearing for this matter, or B) have the correct department email me the correct paperwork and accurate information to start the process.

I am starting to believe that the Missouri Public Service Commission doesn't want the truth about the counterfeit document that Ameren was able to utilize with bogus email addresses and counterfeit PAG terms .

I just want the truth, that is it. No more excuses.
