

EO-2024-0244
Change of Supplier

Your Honor, I have one favor to ask from you and from Staff Counsel who is investigating this matter. I would respectfully like to ask Mr. Graham and Mr. Keevil to file a response with about the counterfeit document I have brought to everyone's attention.

I simply ask for them to tell the Commission that Exhibit D NO MPSC 0027 contains an invalid email address that Ameren Missouri put forward of www2.ameren.com. In addition I was them to admit that the PAG terms listed on the document aren't valid either.

I am not asking for any other information . In addition, Your Honor, I respectfully ask that you bring that to the attention of Ameren Missouri as well and ask Ameren Missouri if www2.ameren.com is a valid email address or an email address.

Maybe Ameren's undersigned counsel would further elaborate and file a response to it with the filing she has to make on March 28th.

Also, the only reason I dismissed the matter EC-2024-0217, is because I got tired of excuses and after giving Ameren's legal counsel a generous amount of time to respond, I filed a police report about the document, as the document was forged and used to deceive me out of money. However, that isn't for the Commission's territory it investigate.

This document will be used to suffice proof that Ameren Missouri conned me out of money and that no email with the language or input values would have ever gone to my email, as www2.ameren.com is not an email address or a valid email address.

It would be greatly appreciated if Staff would respond to that as well. All I want is the truth and a yes or no to it. Nothing further they have to elaborate on.
