

EC-2024-0217

Your honor, I want this matter reopened for further investigation. While Ameren stated in their report to Staff that the deposit was cleared and taken off my account, they are at it again, trying to add another deposit onto my account.

They are con artists, their legal counsel is a con artist as well and they need to be fined, punished and prosecuted by not only the Prosecuting Attorney's Office, but the Commission.

At this point it is pure harassment what Ameren Missouri is doing and they are trying to extort money that I don't owe them.

Their legal counsel lied about getting back to me with the counterfeit document they forged to the Commission and that needs to be investigated.

I respectfully ask the Commission to order Ameren Missouri to cease and desist from any further deposits, as they lied to the Commission and Staff.

I have never seen a Corporation ever conduct this much bad business. It is illegal what the Commission is allowing them to do and it is purely illegal.

This amount should be immediately suspended and the Commission should order Ameren Missouri to cease of any collection, as they specifically stated to Staff in a report by the Staff that they removed it.

They are mad because I filed a BBB Complaint showing the forged document.

Maybe if Ameren Missouri admitted the truth I wouldn't keep publicly blasting them and filing report after report.

In addition, I want an exact answer from Ameren's legal counsel as to why they further produced a counterfeit document and have still failed to answer to it.

Giving Ameren 30 days to respond gave them more time to alter and produce more forged documents.

They are a con artist business, they are personally harassing me and it needs to stop, period. I respectfully ask Judge Fewell to order a hearing to discuss this.
