Brett Felber
Vs
Ameren Missouri

One last thing, if the Respondent claims to utilize www2.ameren.com as their email address, then they are in big trouble, as I own the email address www2@ameren.com and www2@2ameren.com,

Yep, bought them from Godaddy, therefore Ameren Missouri can't try to snag the email address now, especially with the .com

I also have the receipt from GoDaddy and proof of ownership of the email address.

Decided to take advantage as they were still for sale to purchase with my domain.

Don't worry, I have no interest in publishing or using the email. It is for resell purposes, if Ameren would legally like to buy it from someone.
