

EC-2024-0217

Brett Felber
VS
Ameren Missouri

Good morning/afternoon. Just a friendly reminder that today is the day I expose Ameren Missouri on their counterfeit document that was used to defraud me. Just remember the following.

- 1) www2.ameren.com is NOT a valid email address
- 2) The PAG terms are invalid as they don't contain the payment amount and additional monthly payment.
- 3) Besides the obvious wrong payment agreement date.
- 4) The document in question would have never been sent to the Complainant or agreed by the Complainant because the Complainant never got it.
- 5) Ameren Missouri is a Con Artist Company that is allowed by the Missouri Public Service Commission to practice corrupt business practices.
- 6) Ameren Missouri is a Registered Company to practice and engage in the fields of fraud, extortion and supplying counterfeit documents by the Secretary of States Office.
- 7) Ameren Missouri is a Con Artist Company that doesn't follow any rules, regulations or tariffs and impose their own rules, regulations, tariffs as what their Con Artist Ownership group allows.
- 8) The Missouri Public Service Commission has allowed the Respondent to continue their glorified grifting and Con the Complainant out of money that should have never had to be paid to the utility provider.

Now, Undersigned Counsel will most likely claim "harassment." Personally, I like calling it exposing the actual truth. The "harassment" claim is what Con Artist Ameren always claims when they are caught in a lie.

No matter what Respondent's Counsel response filing is doesn't change the position of what they have done. They are a Con Artist Company, for all I care their legal counsel is a Con Artist, along with their management group is a bunch of Con Artist. They are no more than glorified grifters and abuse their power.

The definition of a grifter is a scammer in case anyone wants to know.

The glorified grifters should make a plan of how to return the \$ [REDACTED] they extorted me out of.

Just remember www2.ameren.com is NOT an email address and the document in question is a counterfeit and I've exposed the truth about this document!
