

EC-2024-0217

Brett Felber  
VS  
Ameren Missouri

Also, the Respondent has taken no proactive or remote process of steps in resolving this matter. Instead they've allowed to continue further which unfortunately costs me more money out of pocket at my expense.

I would honestly be happy if the Respondents Counsel openly admitted today that www2.ameren.com is NOT a valid email address. In fact, I would most likely file a motion to dismiss the matter if Respondent made a filing between now and 5 pm admitting the document is a counterfeit and doesn't contain a valid email address.

Instead respondents counsel has asked for additional time twice now to elaborate the position of an invalid email address. What kind of Attorney files for additional time to answer if www2.ameren.com is a valid or invalid email address? If it takes as long as Ameren has asked, it shows the severity in question.

All I want is closure honestly, which comes in the form of an admittance from Ameren Missouri. Otherwise, I will continue exposing the truth and further show the corrupt practices Ameren Missouri engages in. Plus the \$ [REDACTED] they owe me.
