

ACCESS SERVICE

(N)

6. Switched Access Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(B) Switched Transport (Cont'd)

(5) Residual Interconnection Charge

The Residual Interconnection Charge recovers the costs associated with Local Transport that are not recovered by the Entrance Facility, Direct Trunked Transport, Tandem Switched Transport, Multiplexing or dedicated signaling (i.e., SS7) rates. The Residual Interconnection Charge specified in Section 6.8.2(D) following applies to both Tandem Switched and Direct Trunked access minutes of use.

The Residual Interconnection Charge does not apply when the Telephone Company has identified in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4, Wire Center Information, that it has not received a bona fide request for Direct Trunked Transport and is therefore applying Switched Transport Facility and Switched Transport Termination rates and charges instead of Tandem Switched Facility, Tandem Switched Termination, and Tandem Switching rates and charges.
