Replacing 2nd Revised Sheet I

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

For the proposes of Section 13 of the Southwestern Bell Telephone
Access Tariff P.S.C. Mo.-No. 36 the terms "Basic Time", "Overtime" and
"Premium Time" are defined as follows:

(CT)

Basic Time - Work related efforts of the Telephone Company
performed during normal business day, 8:00 a.m. – 5:00 p.m., Monday through Friday.

Overtime - Work related efforts of the Telephone Company
performed outside of a normal business day (Monday through Friday), and on Saturdays.

(CT)

Premium Time - Work related efforts of the Telephone Company
performed on Sundays and/or holidays (i.e., New Year's Day, Memorial Day, Independence Day,
Labor Day, Thanksgiving Day, the day after Thanksgiving Day and Christmas Day)

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the
request of the customer only when:

- A. A customer requests additional technical information after the Telephone
Company has already provided the technical information normally included
on the Design Layout Report (DLR) as set forth in 6.I.4 and 7.I.6, preceding.
- B. Additional engineering time is incurred by the Telephone Company to engineer a customer's request
for a customized service as set forth in 7.2, preceding.

The Telephone Company will notify the customer that additional
engineering charges, as set forth in 13.I.1 following, will apply before any additional
engineering is undertaken.

If more than one engineer is involved in the same additional engineering
project, the total amount of time for all engineers involved will be
aggregated prior to the distribution of time between the "First Half Hour
or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof"
rate categories.

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

13.1 Additional Engineering

DEC 29 1983

Additional Engineering is that engineering or engineering consultation requested by the IC as set forth in Paragraphs 13.1.1 through Paragraph 13.1.3, following. The Telephone Company will notify the IC that additional engineering charges as set forth in Paragraph 13.1.4, following, will apply before any additional engineering is undertaken.

13.1.1 Engineering Consultation

Engineering Consultation involves technical advice from the Telephone Company to the IC not in connection with a specific order. Engineering Consultation also includes situations in which the IC requests the Telephone Company to provide information or to perform a function which will entail additional engineering by the Telephone Company. Inquiries of a short duration in which no significant engineering time is required and inquiries associated with IC service forecasts are not included.

13.1.2 Engineering of Connections with Other Telephone Companies

Engineering of connections with other telephone companies, if not Concurring Carriers, is the engineering activity of contacting, coordinating and designing with another telephone company, portions of facilities which connect to facilities provided by the other telephone company.

13.3.3 Easy Access Dialing

A. GENERAL DESCRIPTION

Easy Access Dialing is an arrangement whereby an end user customer (herein referred to as customer) of the Telephone Company or a local service provider that resells services of the Telephone Company for Telephone Exchange Service (either lines or trunks), FGA and BSA-A lines, WATS Access Lines and Plexar lines may select and designate to the Telephone Company an Interexchange Carrier (IC) to access, without dialing an access code. These are referred to as the customer's Primary Interexchange Carrier (PIC) for interLATA toll calls and the intraLATA Primary Interexchange Carrier (LPIC) for intraLATA toll calls. The customer may designate an IC for PIC and a different IC for LPIC.

(AT) | The end user or customer is identified as the person on the account who is responsible for payment of the account or any person contractually or otherwise lawfully authorized to change

(AT) telecommunications services and/or represent the end user customer.

Each IC will have one or more access codes assigned to it for its various types of service. When a customer or agent selects an IC as its PIC and/or LPIC, only one access code of that IC may be incorporated into the switching system of the Telephone Company permitting access to that IC by the customer or agent without dialing an access code except "1+" or "0+".

Should a customer or agent wish to use other services of the same IC or services of a different IC it will be necessary for the customer or agent to dial the necessary access code(s) to reach that IC's other service(s).

At the time a customer or agent advises the Telephone Company of its PIC and/or LPIC, the Telephone Company will use the IC access code for that IC from the designated carrier list unless the customer at that time directs the Telephone Company to use a different IC access code assigned to the customer's chosen IC. The PIC and LPIC may either be the same IC or a different IC.

Interstate intraLATA toll calls, service between points in different states which are in the same

Local Access and Transport Area, will be routed to the LPIC selected by the customer.

(CP) 13.3.3 Easy Access Dialing

- A. Easy Access Dialing is an arrangement whereby an End User may select and designate to the Telephone Company an IC to access, without an access code, for interLATA intrastate calls. This IC is referred to as the End User's primary IC and must be the same for both interLATA interstate and interLATA intrastate calls.
- B. Prior to the introduction of Easy Access Dialing in a serving end office, the existing End Users have Access Service to AT&T as their primary IC. With the introduction of Easy Access Dialing in a serving end office, End Users will be asked to select one of the following options at no charge:
 - Designate an IC as their primary IC from a list of ICs offering service in the End Users serving end office and dial 10XXX or other access codes to reach other ICs.
 - Designate that they do not want to have a primary IC and choose to dial 10XXX or other access codes for all calls for all ICs.

If the End User does not choose one of the preceding options prior to the Easy Access conversion date, an IC will be randomly assigned to them using the allocation process mandated by the Federal Communications Commission in the Interstate Access Tariff, FCC No. 68. The End User will then have (6) months after the conversion date in which they can choose one of the preceding options at no charge. Thereafter, a nonrecurring charge as set forth in Paragraph 13.3.3, D., following, applies for any change in Easy Access Dialing.

Easy Access Dialing for agents of public and semipublic pay telephones is furnished using guidelines as detailed in the Federal Communications Commission's Allocation Plan set forth above, except the six month notification provided to interexchange carriers of end offices converting to equal access prior to June 1, 1989.

(MT)

C. Principal Provisions of the Allocation Plan:

- 1. The Telephone Company will notify customers and agents of the availability of equal access and Easy Access Dialing in their particular areas through the mailing of an Equal Access Ballot. The mailing of initial ballots will occur no later than 85 days prior to the conversion of the end office serving the customers and agents. Customers and agents will be asked to return their respective ballot within 30 days of its receipt.

Customers and agents may select one of the following options at no charge:

- indicate a primary IC for all of its lines
- indicate a different IC for each of its lines

Only one carrier may be selected for each particular line.

- 2. The Telephone Company will accept IC provided lists of customers and agents that have made individual arrangements with a specific IC to designate that IC as their primary long distance carrier. However, an IC must also submit a Limited Blanket Agency Agreement affirming that it does have authorization to act on behalf of the customer or agent to establish Easy Access Dialing Service. When customer or agent choice discrepancies occur, it may be necessary for the IC to furnish evidence of proper authorization upon request by the Telephone Company.

- 3. The Telephone Company will tabulate the initial ballots and the lists of customers and agents provided by ICs to determine the percentage of customers and agents that selected each IC. ICs that wish to receive allocated traffic must meet and maintain the ordered allocation eligibility criteria for the two year period following the equal access conversion date. If an IC wishes to change any of the agreed upon criteria within the two year period,

it must notify the Telephone Company and its allocated customers and agents, of those changes 30 days before the changes are to take place. ICs participating in the allocation process will have customers and agents that have not selected a primary IC assigned, at random, in proportion to the results of the first ballot response for a particular serving end office.

Customers and agents not responding to the initial ballot will be sent a second ballot for the selection of a primary IC no earlier than 40 days prior to end office conversion. This second ballot will indicate the primary IC that has been assigned to them if they fail to respond to the second ballot.

When an IC listed on the initial ballot elects not to participate in the allocation process, the nonresponding customers' and agents' lines will be allocated to the remaining ICs in relative proportion to their initial results.

Separate allocation processes will be used for residence and business lines, and public and semipublic pay telephone lines.

4. When a discrepancy is determined regarding a customer's or agent's designation of a primary IC, the following conditions apply depending upon the situation encountered:

- When a customer or agent indicates more than one IC choice per line on a ballot, or returns an illegible ballot, the Telephone Company will contact the customer or agent for clarification.
- When both a ballot and an entry on an IC provided customer and agent list are received for one customer or agent and the designated primary IC does not match on both documents, the Telephone Company will process the ballot as the customer's or agent's choice.
- When two or more ICs provide customer and agent lists to the Telephone Company indicating that a particular customer or agent has designated them as its primary IC, the customer or agent

C. Rate Regulation

1. Unless otherwise specified, Easy Access Dialing Change charges apply to each PIC and LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and Plexar lines, including changes to or from a No-PIC and No-LPIC designation.

Easy Access Dialing PIC and LPIC Change charges are set forth in Section 13.4.3 following. Since Easy Access Dialing PIC Change charges exist in the Telephone Company Intrastate Access Service Tariff and the Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge.

2. Initial and Subsequent Selection

Existing customers may select an LPIC within six months from the implementation of intraLATA Dialing Parity in Missouri July 22, 1999 – January 22, 2000 without charge (No-LPIC is also a valid selection). Selection of an LPIC after the six-month period or any change to the customer’s initial LPIC selection will result in LPIC Change Charges as set forth in 13.4.3, following.

5. Pay Telephone SmartCoinSM Access Lines

If the customer's PIC and/or LPIC elects not to submit an order for its 1+ interLATA or intraLATA sent paid traffic from SmartCoin Access Lines or fails to select a designated subcontractor (secondary service provider) for such traffic, the 1+ interLATA or intraLATA carrier sent paid traffic will be routed to the existing default 1+ interLATA or intraLATA carrier (provided such carrier continues to accept the traffic) until the customers' PIC and/or LPIC is ready to handle the 1+ interLATA or intraLATA sent paid traffic, or makes arrangements with another IC to handle the traffic, as set forth in Section 21 Coin Services, following.

6. Discontinuance of FGD or BSA-D Service

If an IC discontinues its FGD or BSA-D service in an end office, Easy Access Dialing Change charges as set forth in Section 13.4.3, following, will apply to the IC discontinuing the FGD or BSA-D service. These charges will be assessed to the IC for each end user that is presubscribed to that IC.

The IC must contact in writing all affected customers for whom it serves as their PIC and/or LPIC. The IC must notify these customers that they must select a new PIC and LPIC and the IC will pay all related Easy Access Dialing Change Charges.

7. PIC and LPIC Disputes

If a PIC and/or LPIC dispute occurs, Easy Access Dialing Change charges will be assessed as follows:

a. Unauthorized PIC and/or LPIC Option

The following applies to ICs not participating in the Switchback Option set forth in 13.3.3.C.7.b (following): If the IC provides the Telephone Company with a LOA or other valid forms of authorization based on Missouri and/or Federal regulations, signed by the customer and dated no more than 45 days prior to the date the PIC or LPIC change was submitted to the Telephone Company, authorizing the change, the Telephone Company will bill the customer for each PIC and LPIC change. When multiple PIC and LPIC changes are required, first and supplemental charges, as set forth in 13.4.3.B., will apply.

The Interexchange Carrier Pays (IC Pays) Billing Option is an option that permits an IC to be charged by the Company for their end user's LPIC change charge when the Company changes an end user's IC assignment.

The LPIC change may either be requested via an IC provided end user or agent list submitted in the Customer Account Record Exchange format (IC Pays – Carrier Initiated) or by the end user customer directly to the Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the LPIC change charge on a case-by-case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all end user LPIC changes to the IC's CIC (and at the IC's option, changes from the IC's CIC to "No LPIC") initiated through the Telephone Company will be redirected to the IC. (AT)

The IC submitting the LPIC change must sign an IC Pays Billing Option agreement with the Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the charge for the LPIC change. The IC participating in the IC Pays Billing Option will be charged the change charge as set forth in Section 13.3.3(D) following.

If an IC that does not participate in the Switchback option set forth in (b) below does not provide the Telephone Company with an appropriately signed and dated LOA (as described above) or other valid forms of authorization based on Missouri and/or Federal regulations, authorizing the change, the Telephone Company will credit the customer's account for the disputed PIC or LPIC change charge. The IC will be held liable for 90 days. The IC will be billed for each change in the PIC and LPIC designation (i.e., two PIC and LPIC changes for each line) plus an Unauthorized PIC and LPIC change charge for each PIC and LPIC change. When multiple PIC and LPIC changes are required as a result of an Unauthorized PIC and LPIC Change, first and supplemental charges, as set forth in Section 1.3.4.3.B., will apply.

b. PIC and LPIC Switchback Option

The PIC and LPIC Switchback option is available to any IC that has a Limited Blanket Agency Agreement for submitting PIC and LPIC orders on file with the Telephone Company and that notifies the Telephone Company in writing of that IC's desire to participate in PIC and LPIC Switchback. Under this option, the Telephone Company neither requests, nor accepts, LOAs from the IC.

If the Telephone Company is notified that a customer disputes a PIC and/or LPIC change within 90 days from when the PIC and/or LPIC change was made, the Telephone Company will restore the customer's previous PIC and/or LPIC without charge. Additionally, the customer will be credited the PIC and/or LPIC change charge(s) assessed by the Telephone Company.

D. Change Charges-(Continued)

1. Easy Access Dialing change charges, as set forth in Paragraph 13.3.3.,F. will be applied as follows:-(Continued)

e. (Continued)

If new customers are unable to make a selection when they place their orders for Telephone Exchange Service, Feature Group A Switched Access Service, or Centrex Service, they will be allowed a six-month period from installation of their service to select a primary IC at no charge. New agents are required to make a selection when they place their order for public or semipublic pay telephone service. An Easy Access Dialing change charge will apply for any subsequent selection.

An Easy Access Dialing change charge will apply for any change made to the customer's or agent's primary IC after the six-month period has expired.

- f. The Easy Access Dialing change charge will not apply to customers or agents who select a primary IC as part of the retro-active balloting process referred to in Paragraph 13.3.3., C.5 preceding.
- g. Single line customers, agents or multiline customers requesting an Easy Access Dialing change to only one line will incur the per line change charge. Multiline customers who request an Easy Access Dialing change to more than one line in a single request will incur the per line change charge for the first line and the supplemental line change charge for each additional line as set forth in Paragraph 13.3.3.,F., following.
- h. Centrex customers have the capability to change their primary IC for a single Centrex line, multiple Centrex lines or the Centrex Group. A Centrex Group defines a group of Centrex facilities (i.e., lines, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Centrex Groups.

I. PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when a business or residence end user customer denies requesting a PIC change previously submitted by an IC participating in PIC Switchback.

PIC Switchback is available to all ICs who participate in the Equal Access subscription process and have a Limited Blanket Agency Agreement for submitting PIC orders on file with the Telephone Company. In addition, ICs must provide written notification to the Telephone Company of their desire to participate in PIC Switchback.

When the Telephone Company is notified by a business or residence end user who denies requesting a PIC change within 90 days from when the PIC change was made and provided the IC participates in this option, the Telephone Company will restore the end user to their previous IC at no charge. Additionally, the end user will be credited the PIC change charge(s) assessed by the Telephone Company for the disputed PIC change.

The participating IC who initiated the disputed PIC change will be billed the PIC change charge(s) credited to the end user's account, as well as the PIC change charge(s) to change the end user back to their previous IC. A Letter of Authorization (LOA) will not be requested from the IC nor accepted at a later date under the PIC Switchback option. ICs participating in the PIC Switchback option will be assessed the applicable Easy Access Dialing Change Charge(s).

CANCELLED

Easy Access Dialing Unauthorized PIC Change regulations and rates will continue to apply to ICs choosing not to participate in PIC Switchback.

This option does not relieve the IC of the F.C.C.'s requirements for verifying all PIC orders obtained by telemarketing prior to submitting orders to the Telephone Company and for instituting steps to obtain LOAs on all PIC orders submitted to the Telephone Company. In addition, the end user has the option of initiating a complaint to the F.C.C. concerning unauthorized PIC changes.

13.3.4 Standard Jacks - Registration Program

Registered jacks are provided by the Telephone Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. Registered jacks are used to terminate services provided by the Telephone Company. For each service provided by the Telephone Company, a specific registered jack has been selected as the standard for the service. This jack will be provided and installed at no additional charge. Other services or facilities, provided either by the Telephone Company or by others, may also be terminated in any spare capacity of the standard jack. There is no charge for the use of spare capacity of the jack.

The customer may procure an additional jack (or jacks) from either the Telephone Company or another vendor for installation on the customer's side of the demarcation point.

The use of Jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the F.C.C. entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations described in Subpart F of Part 68 of the F.C.C.'s Rules and Regulations".

13.3.5 Testing Services

(CT)

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.5, C., following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in Paragraphs 6.1.4 and 7.1.7, preceding.

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in 13.3.5, A.5 and B.2, following for a customer to request Telephone Company personnel to perform testing services at the IC terminal location or End User's premises.

The offering of Testing Services under this section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in Paragraphs 13.3.5, A., B. and C., following:

A. Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which performed during the installation of a Switched Access Service and (b) tests which are performed after acceptance of such access services by an IC, i.e., inservice tests. These inservice tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (no

13.3.5 Testing Services

The Telephone Company will, in addition to any IC-requested acceptance testing, perform such tests as it believes necessary to insure that the access services ordered by an IC are functioning properly prior to turning over such access services to the IC. In addition, the Telephone Company as part of the ongoing work to maintain the continued satisfactory performance of the access services ordered by the IC, may perform periodic tests.

Testing Services offered under this Section of the Tariff are in addition to the tests described above and will be provided when requested by the IC, except for scheduled testing of Feature Groups C and D, which is nonoptional. Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in Paragraphs 13.3.5, A.5. and B.2., following, for an IC to request Telephone Company personnel to perform testing services at the IC terminal location or End User's premises. In addition, the Telephone Company will, at the request of the IC, perform Acceptance Testing with the IC in accordance with the provisions set forth in Sections 6 and 7, preceding.

The offering of Testing Services under this Section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in Paragraphs 13.3.5, A., B. and C., following:

2. Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of Switched Access Services (Feature Groups B, C and D), where the IC provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-Message Noise tests and annual balance test. However, the IC may specify a more frequent schedule of tests. In addition to the loss/noise/balance tests, the IC may also order, at additional charges, gain-slope and C-Notched Noise testing.

With Feature Group B Switched Access Service, AST is only provided to IC's who order it, i.e., AST is optional. However, with Feature Groups C and D, AST is nonoptional, and IC's with these Switched Access Services will be required to pay for AST, whether or not they have ordered it. With Feature Group C, where AST is not available in a Telephone Company office, Cooperative Scheduled Testing (CST) will be provided on a nonoptional basis. With Feature Group D, CST or Manual Scheduled Testing (MST) may be specified by the IC in lieu of AST. Trunks from a Telephone Company digital switch (e.g., 4E, 5E or DMS) to an IC digital switch utilizing digital facilities are excluded from mandatory routine testing.

The Telephone Company will provide a monthly AST report that lists the test results from each trunk tested. Trunk test failures requiring IC participation for trouble resolution will be provided to the IC on an as-occurs basis.

- the Telephone Company provides a technician at its office(s), and the IC provides a technician at its terminal location(s) with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s), at IC terminal location(s) or End User's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled tests may consist of any tests, e.g., loss, noise, slope and envelope delay which the IC may require.

6. Obligations of the IC

- a. The IC shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in Paragraph 13.3.5, A.2., preceding, or NST as set forth in Paragraph 13.3.5, A.5., preceding.
- b. The IC shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

13.3.6 Provision of Access Service Billing Information

A. The customer will receive its monthly bills in a standard paper format or if requested by the customer, on magnetic tape in lieu of paper. Once billing has begun, the Company will accept subsequent customer requests for form changes in the primary billing data (e.g., paper to tape or tape to paper). The Access Billing Change charge set forth in Paragraph 13.3.6.D.1, following, will apply for each form change requested by the customer per billing period per Revenue Accounting Office (RAO).

The period of time to implement the changes will be determined by the Company.

B. At the option of the customer, and for an additional charge:

- 1. Billing detail may be sent to the customer's premises by data transmission.
- 2. Additional copies of the customer's monthly bill may be provided in standard paper, magnetic tape, floppy disk(1), CD-ROM, DVD or microfiche(1) format.
- 3. When additional copies of the customer's bill are ordered by the customer, the Access Billing Change charge will apply per billing period per RAO for each form of the bill ordered. For subsequent changes in bill form or number of additional copies, the Access Billing Change charge set forth in Paragraph 13.3.6.D.1., following, will apply per customer request, per billing period per RAO. The period of time to implement these options or make changes will be determined by the Company.

C. On an individual case basis, other forms of the billing data or the preparation of the billing data for data transmission will be provided when the Company has determined that these provisions are economically beneficial and the customer is mutually agreeable to the provisions.

13.3.8 900 Call Restriction

An optional service available, where facilities permit, in Telephone Company electronic end offices. This service provides end office blocking of originating 900 calls by routing such calls to a recorded announcement.

Charges associated with 900 Call Restriction will be waived, on a one-time basis, to subscribers of a new telephone number for a period of 60 days after the new number is effective. For subsequent blocking requests, the Telephone Company will assess a nonrecurring charge to the subscriber on a per line basis. Any request by a subscriber to remove 900 Call Restriction must be submitted in writing to the Telephone Company.

Nonrecurring Charge

(A) FGA/BSA-A (RBVXF)	
Per line - first request	\$25.00
Per line - subsequent request	\$25.00
(B) WATS Access Line Service (RBVXF)	
Per line - first request	\$25.00
Per line - subsequent request	\$25.00

- Any customers of WATS Access Line Service, including end users purchasing WAL Service out of the Telephone Company's general exchange tariff, may be considered a customer of 900 Call Restriction for WAL Service.
