ACCESS SERVICES TARIFF**

Southwestern Bell Telephone
Company d/b/a AT&T Missouri

Section 3
5th Revised Sheet 1
Replacing 4th Revised Sheet 1

ACCESS SERVICES

3. CARRIER COMMON LINE ACCESS SERVICE

The Telephone Company will provide Carrier Common Line Access Service (Carrier Common Line Access) to ICs in conjunction with line side and trunk side Switched Access Service.

3.1 General Description

Carrier Common Line Access provides for the use of Telephone Company common lines by ICs for access to End Users to furnish IC intrastate telecommunications service.

Carrier Common Line Access is provided where the IC obtains Telephone Company line side or trunk side Switched Access Service under this Tariff.

Premium Access is Switched Access Service other than the DNAL BSA provided to IC's under this Tariff which furnish intrastate MTS/WATS.

(RT) Nonpremium Access is Switched Access Service other than the DNAL BSA provided to IC's under this
(RT) Tariff that do not furnish intrastate MTS/WATS.

3.2 Limitations

- A. A telephone number is not provided with Carrier Common Line Access.
- B. Detail billing is not provided for Carrier Common Line Access.
- C. Directory listings are not included in the rates and charges for Carrier Common Line Access.
- D. Intercept arrangements are not included in the rates and charges for Carrier Common Line Access.
- E. All trunk side connections provided in the same combined access group or BSA will be limited to the same features and operating characteristics.
- F. All line side connections provided in the same combined access group or BSA will be limited to the same features and operating characteristics.
- G. WATS Access Line Service minutes switched at Telephone Company WATS Serving Offices (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges.
- H. Minutes of use associated with the closed end of WATS/800 service are not subject to Carrier Common Line charges. However, when common lines are utilized for the termination of 800 NPAS, Carrier Common Line charges are applicable.

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

- (MT) A. Where the IC is provided with Switched Access Service, under other sections of this Tariff, the Telephone Company will provide the use of Telephone Company common lines by an IC for access to End Users at rates and charges as specified in Paragraph 3.8, following.
- (CP) B. Where the customer is reselling intrastate MTS/WATS, MTS-type and/or WATS-type service(s), the customer may, at the option of the customer, employ ordinary local business exchange service at generally applicable local business exchange rates under the Telephone Company General and/or Local Exchange Tariffs. Switched Access or Carrier Common Line Access charges under this Tariff will not apply for such access except as set forth in Section 6.7, and Paragraph 3.7, D., following, provided the underlying carrier that provides the MTS/WATS and/or MTS/WATS-type service(s) which are resold pays Switched Access Services charges including Carrier Common Line Access charges for the services which are resold. Such Switched Access Service and Carrier Common Line Access charges paid shall include charges for origination and termination of calls on both ends of the services which are resold. If the customer wishes to obtain special arrangements such as trunk side service connections for such resale, the customer may, at the option of the customer, obtain Switched Access Service under this Tariff as set forth in Section 6, following. Carrier Common Line Access charges will apply for such access as set forth in Paragraph 3.7, D., following.
- (CT) C. When access to the local exchange is required to provide an MTS/WATS-type service using a resold Private Line Service, Switched Access Service Rates and Regulations, as set forth in Section 6, following, will apply. Carrier Common Line Access rates and charges as set forth in paragraph 3.8, following, apply in accordance with the regulations as set forth in Paragraph 3.7, F., following.
- (CT) D. Where a multiline hunt group or trunk group arrangement is made up of (1) Feature Group A, B or D Switched Access Service and (2) local exchange business lines or other access arrangements associated with MTS/WATS, MTS-type or WATS-type services as provided in Paragraph 3.3, B., preceding, Carrier Common Line Access Charges for such combined access arrangements are calculated in accordance with the regulations in Paragraph 3.7, D., following.

3. CARRIER COMMON LINE ACCESS SERVICE--(Continued)

3.4 Obligations of the IC

- A. The Switched Access Service associated with Carrier Common Line Access shall be ordered by the IC under other sections of this Tariff.
- B. The IC facilities at the IC terminal location shall provide the necessary on-hook and off-hook supervision.
- C. Unless the IC reports interstate use as set forth in Paragraph 3.4, D., following, trunk side Switched Access Service for use in association with the resale of IC services as set forth in Paragraph 3.4, F., following, line side Switched Access Service as set forth in Paragraph 6.7.3, following or exchange use as set forth in Paragraph 3.4, G., following, all Switched Access Service provided under this Tariff ordered by the IC will be subject to Carrier Common Line Access charges.
- D. When the IC reports interstate use of Switched Access Service, the associated Carrier Common Line Access used by the IC for both interstate and intra-state will be apportioned as set forth in Paragraph 3.7, F., following.
- E. Where Feature Group C end office switching is provided without Telephone Company recording and the IC records minutes of use which will be used to determine Carrier Common Line Access Charges (i.e., Feature Group C operator and TSPS calls such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit-card, third-number and/or other like calls), the IC shall furnish such minutes of use detail to the Telephone Company in a timely manner. If the IC does not furnish the data to the Telephone Company, the IC shall identify all Switched Access Services which could carry such calls in order for the Telephone Company to accumulate the minutes of use through the use of special Telephone Company measuring and recording equipment.

ACCESS SERVICES

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

3.4 Obligations of the IC-(Continued)

- F. When the IC uses a line side or trunk side Switched Access Service provided under this Tariff in association with the resale of an IC service that is provided through the use of Dedicated Access Line Service provided under this Tariff (i.e., resale of WATS), the IC will be charged the Carrier Common Line Access Charges in accordance with the regulations as set forth in Paragraph 3.7, D., following, if it reports the following data. The IC shall report the line side or trunk side Switched Access Services involved, the number of resold Dedicated Access Line Services with 2,500 access minutes or more per month, and the IC terminal locations involved as set forth in Section 6, Paragraph 6.7.3, A., B. and C., following.
- G. When the IC uses a Switched Access Service to furnish a service which is defined by the appropriate Regulatory Commission to be an exchange service, the IC may apply for credit to its monthly transitional charges in accordance with the regulations as set forth in Paragraph 3.7, E., following, by reporting the originating and terminating access minutes that both originate and terminate in the same local calling area. The local calling area is determined as set forth in Telephone Company General and/or Local Exchange Service Tariffs and is a geographical area associated with an exchange within which calls may be made without MTS charges. The IC shall report the access minutes for credit on a calendar-month basis, the name of the service and the Regulatory Commission which defines the service as an exchange service.
- H. When the IC notifies the Telephone Company that Switched Access Service is to be used as set forth in Paragraphs 3.4, D., F. and G., preceding, and Paragraph 6.7.3, following, the notification automatically authorizes the Telephone Company the right to audit the IC terminal locations to verify the use of facilities as the IC has reported in Paragraphs 3.4, D., F. or G., preceding, or Paragraph 6.7.3, following, and all of the records, workpapers and backup documentation for each report as set forth in Paragraphs 3.4, D., F. or G., preceding, or Paragraph 6.7.3, following, and contact and review the records of other entities involved to verify the data the IC reports is accurate. All of the records, workpapers and backup documentation for each report furnished to the Telephone Company as set forth in Paragraphs 3.4, D., F. or G., preceding, or Paragraph 6.7.3, following, shall be available for one year from the date of the report and shall be made available during normal business hours at an IC location in the involved LATA upon reasonable request by the Telephone Company in order to permit a review by the Telephone Company, its auditor or outside auditor under contract to the Telephone Company. 3.5 Payment Arrangements

- A. The Telephone Company will bill the Carrier Common Line Access. The bill day (i.e., the billing date of the bill) in a month for each IC account will be established by the Telephone Company. Payment is due from the IC 31 days after the bill day date (payment date) or by the next bill date (i.e., same date in the following month as the bill date), whichever is the shortest interval, and is payable in immediately available funds. If such payment date is a Saturday, Sunday or holiday (i.e., New Year's Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, the second Tuesday in November, and a day when Washington's Birthday, Memorial Day or Veteran's Day is legally observed), payment will be due from the IC as follows: If the payment date falls on a Saturday, Sunday or on a holiday which is observed on a Monday, the payment date shall be the first non-holiday day following such Saturday, Sunday or holiday.
- B. Further, if any portion of the Carrier Common Line Access payment is received by the Telephone Company after the payment date as set forth in Paragraph 3.5, A., preceding, or if any portion of the Carrier Common Line Access payment is received by the Telephone Company in funds which are not immediately available to the Telephone Company, then a late-payment penalty shall be due to the Telephone Company. The late-payment penalty shall be the portion of the Carrier Common Line Access payment not received by the payment date times a late factor. The late factor shall be the lesser of:
 - 1. The highest interest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily for the number of days from the payment date to and including the date that the IC actually makes the payment to the Telephone Company, or
 - 2. 0.000590 per day, compounded daily for the number of days from the payment date to and including the date that the IC actually makes the payment to the Telephone Company.
- C. In the event a billing dispute concerning a month's Carrier Common Line Access billed to the IC by the Telephone Company is resolved in favor of the Telephone Company, any payments withheld pending settlement of the dispute shall be subject to the late-payment penalty set forth in Paragraph 3.5, B., preceding. If the customer disputes the bill on or before the payment date, and pays the undisputed amount on or before

1st Revised Sheet 7
Replacing Original Sheet 7

ACCESS SERVICES

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

3.6 Payment of Coin Sent-Paid Monies

The Telephone Company will collect the monies from coin pay telephone stations and will determine and remit amounts due to an IC which is provided Operator Trunk-Coin or Combined Coin and Non-Operator Trunk-Full Feature Optional Features for sent-paid-pay-telephone-access as set forth in Section 6, following.

A. Bill Period Coin Revenue

The Telephone Company will establish a collection schedule for each coin pay telephone station and will collect the monies from the coin pay stations based on this collection schedule. The monies collected based on this schedule during each bill period established by the Telephone Company will be identified by coin pay telephone station and summed to develop the Bill Period Coin Revenue for each coin record day (i.e., the day a record is prepared and dated to show the amount due the IC).

B. Total IC Coin Revenue

The intrastate total IC Coin Revenue will be determined by the Telephone Company based on the IC message call detail received from the IC for each bill period and the IC's schedule of charges for sent-paid coin calls. Such total IC Coin Revenue will be developed each coin record day.

C. Recourse Adjustments

For each coin record day, the Telephone Company will subtract from the total IC Coin Revenue an amount for coin station shortages. Coin station shortages are amounts resulting from unauthorized calling at coin pay telephone stations, use of unauthorized coins (i.e., foreign coins, slugs and improper use of U.S. pennies), unauthorized removal of coins from coin pay telephone stations and coin refunds beyond the Telephone Company's control. Such amount for coin station shortages will be developed by the Telephone Company by multiplying the total IC Coin Revenue for each coin record day by a shortage factor. Such amount will be rounded to the nearest penny. The shortage factor will be determined by dividing the yearly total coin shortage amount by the yearly total coin revenue amount (i.e., total coin revenue equals the coin revenue due under exchange tariffs, state toll tariffs, and interstate toll tariffs). The total coin shortage amount and the total revenue amount will be determined by the Telephone Company through an annual special study.

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

3.6 Payment of Coin Sent-Paid Monies

The Telephone Company will collect the monies from coin pay telephone stations and will determine and remit amounts due to an IC which is provided Operator Trunk-Coin or Combined Coin and Non-Coin or Operator Trunk-Full Feature Optional Features for sent-paid pay telephone access as set forth in Section 6, following.

A. Bill Period Coin Revenue

The Telephone Company will establish a collection schedule for each coin pay telephone station and will collect the monies from the coin pay stations based on this collection schedule. The monies collected based on this schedule during each bill period established by the Telephone Company will be identified by coin pay telephone station and summed to develop the Bill Period Coin Revenue for each coin record day (i.e., the day a record is prepared and dated to show the amount due the IC).

B. Total IC Coin Revenue

The intrastate total IC Coin Revenue will be determined by the Telephone Company based on the IC message call detail received from the IC for each bill period and the IC's schedule of charges for sent-paid coin calls. Such total IC Coin Revenue will be developed each coin record day.

C. Recourse Adjustments

For each coin record day, the Telephone Company will subtract from the total IC Coin Revenue an amount for coin station shortages. Coin station shortages are amounts resulting from unauthorized calling at coin pay telephone stations, use of unauthorized coins (i.e., foreign coins, slugs and improper use of U.S. pennies), unauthorized removal of coins from coin pay telephone stations and coin refunds beyond the Telephone Company's control. Such amount for coin station shortages will be developed by the Telephone Company by multiplying the total IC Coin Revenue for each coin record day by a shortage factor. Such amount will be rounded to the nearest cent. The shortage factor will be determined by the Telephone Company through an annual special study.

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

(CP) 3.7 Rate Regulations-(Continued)

D. When the customer orders a combined access group to be used in conjunction with the resale of MTS/WATS and/or MTS/WATS-type services as set forth in Paragraph 3.3, D., preceding, subject to the limitations of Carrier Common Line as set forth in Paragraph 3.2, preceding, and the Telephone Company receives the usage information required to calculate the proration of Carrier Common Line as set forth in Paragraph 3.4, F., preceding, the customer will be billed as set forth in Paragraph 1., following. When more than one combined access group is provided in a LATA, the Telephone Company will apportion the resold MTS/WATS and/or MTS/WATS-type services and originating minutes of use among the combined access groups. Such apportionment will be based on the relationship of the originating usage for each combined access group to the total originating usage for all combined access groups in the LATA. The involved resold minutes shall be only intrastate outward MTS, MTS-type, WATS and WATS-type minutes and shall not include collect, third number, credit card or interstate minutes of use.

In order for the rate regulations to apply as set forth in Paragraph 1, following, the combined access group and the resold MTS/WATS and/or MTS/WATS-type services must be provided in the same state in the same LATA, provided by the same Telephone Company and connected directly or indirectly. For those LATAs that have more than one state, the customer shall report the information by state within the LATA.

Each of the combined access groups arranged in a multiline hunt group or trunk group arrangement used by the customer in association with the resold MTS/WATS and/or MTS/WATS-type services must be connected either directly or indirectly to the customers' designated premises at which the resold MTS/WATS and/or MTS/WATS-type services are terminated. Direct connections are those arrangements where the combined access groups and resold MTS/WATS and/or MTS/WATS-type services are terminated at the same customers' designated premises. Indirect connections are those arrangements where the combined access groups and resold MTS/WATS and/or MTS/WATS-type services are terminated at different customer designated premises in the same LATA. Such different customer designated premises are connected by facilities that permit a call to flow from combined access groups to resold MTS/WATS and/or MTS/WATS-type services.

ACCESS SERVICES

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

3.7 Rate Regulations-(Continued)

D. Resold Services-(Continued)

3. Resale Documentation Provided By the Customer

When the customer utilizes Switched Access Service as set forth in Paragraph 2, preceding, the Telephone Company may request a certified copy of the customer's resold MTS or MTS-type usage billing from either the customer or the provider of the MTS and/or MTS-type Service. Requests for billing will relate back no more than 12 months prior to the current billing period.

4. Regulations Concerning the Resale of MTS and MTS-type Services

When the customer is provided an access group or BSA to be used in conjunction with the resale of MTS and/or MTS-type services as set forth in Paragraph 1, preceding, subject to the limitations as set forth in Paragraph 3.2, preceding, and the Telephone Company receives the usage information required as set forth in Paragraph 2, preceding, to calculate the adjustment of Carrier Common Line Access charges, the customer will be billed as set forth following.

a. Apportionment and Adjustment of Resold Minutes of Use

When the customer is provided with more than one access group or BSA in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

1. Originating Services

The Telephone Company will apportion the resold originating MTS and/or MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups and BSAs. Such apportionment will be based on the relationship of the originating usage for each access group and BSA to the total originating usage for all access groups and BSAs in the LATA. For purposes of administering this provision:

Resold originating MTS and/or MTS-type services minutes shall be only those attributable to intrastate originating MTS and/or MTS-type minutes and shall not include collect, third number, credit card or interstate minutes of use.

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

D. (Continued)

The adjustments as set forth following will be computed separately for each combined access group.

1. Combined Access Groups

When combined access groups are provided in a LATA, the following regulations apply:

- a. One intrastate MTS/WATS-type Feature Group A Switched Access Service for each resold intrastate WATS and WATS-type service reported as set forth in Paragraph 3.4, F., preceding, and Paragraphs d. and e., following, will be billed local business exchange service rates as set forth in Paragraph 6.7.3, B.1.a., following.
- b. For MTS/WATS-type Feature Group A provided in a combined access group, the minutes billed will be all the terminating intrastate access minutes and any adjusted originating intrastate access minutes for such combined access groups. The adjusted originating minutes billed will be the originating intrastate access minutes less the reported resold service(s) originating minutes of use.

4. Regulations Concerning the Resale of MTS and MTS-type Services-(Continued)

a. Apportionment and Adjustment of Resold Minutes of Use-(Continued)

1. Originating Services-(Continued)

The resale credit adjustment shall apply for resold originating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

2. Terminating Services

The Telephone Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which the resale credit adjustment applies, among the access groups and BSAs. Such apportionment will be based on the relationship of the terminating usage for each access group or BSA to the total terminating usage for all access groups and BSAs in the LATA. For purposes of administering this provision:

Resold terminating MTS and/or MTS-type services minutes shall be only those attributable to intrastate terminating MTS/MTS-type (i.e., collect calls, third number calls, and credit card calls) and shall not include interstate minutes of use or MTS/MTS-type minutes of use paid for by another party.¹

The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

b. Same State/Telephone Company/LATA Limitation

In order for the rate regulations to apply as set forth in Paragraph d, following, the access groups and BSAs and the resold MTS and/or MTS-type services must be provided in the same state in the same LATA, provided by the same Telephone Company and connected directly or indirectly. For those LATA's that encompass more than one state, the customer shall report the information by state within the LATA.

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

CP) 3.7 Rate Regulations-(Continued)

D. (Continued)

1. Combined Access Groups-(Continued)

c. Any trunk side Switched Access Service provided on Switched Access Service charges as set forth in Paragraph 6.7.3; B.1.b., following. Carrier Common Line charges will be billed on all the terminating intrastate access minutes and any adjusted originating minutes (i.e., originating minutes less the reported resold service(s) minutes of use).

d. For the first month a combined access group is in service, each associated resold WATS and WATS-type service will be assumed to have 2500 or more originating intrastate minutes of use.

e. After the first month that both the combined access group and the associated resold WATS and WATS-type services are in service, each resold WATS and WATS-type service shall have 2500 or more originating intrastate minutes of use per month on average. If the average originating intrastate usage per service for each resold WATS or WATS-type service group does not equal 2500 originating minutes of use in any month, then for combined access billing purposes, the number of WATS and WATS-type services for which local business exchange service rates will be applicable will be reduced until the average originating intrastate usage per month for the remaining services equals or exceeds 2500 originating intrastate minutes. The number of originating minutes per month per resold WATS and WATS-type service will be developed by adding the resold outward MTS and MTS-type minutes to the resold originating WATS and WATS-type minutes and dividing the resulting sum per service group by the number of services in the group.

2. The adjustment as set forth in Paragraph 1., preceding, will be made to the involved customer account no later than either the next bill date, or the one subsequent to that, depending on when the usage report is obtained.

3. When the resold service(s) usage is shown in hours, the number of hours shall be multiplied by 60 to develop the associated WATS-type and WATS minutes of use. If the resold service(s) usage is shown in a unit that does not show hours or minutes, the customer shall provide a factor to convert the shown units to minutes.

Public Service Commission

ACCESS SERVICES

3. CARRIER COMMON LINE ACCESS SERVICE-(Continued)

3.7 Rate Regulations-(Continued)

E. (Continued)

Common Line Access access minutes developed by the Telephone Company for the IC account involved will be reduced by the exchange minutes of use reported by the IC. If the Telephone Company determines the reported exchange minutes are not accurate, no adjustment will be made until a new report properly stating the exchange minutes is delivered to the Telephone Company by the IC. The access minutes, adjusted as set forth in this paragraph or any other section of this Tariff, that are billed to the IC in a monthly period shall not be less than zero.

This adjustment will be made to the involved IC account prior to making the adjustments to the IC account as set forth in Paragraphs 3.7, D., preceding, and Paragraph 3.7, F., following.

F. When the IC reports interstate and intrastate use of in-service Switched Access Service, the Carrier Common Line Access access minutes will be adjusted as follows. The Carrier Common Line Access access minutes developed by the Telephone Company will, after adjustment as set forth in Paragraph 3.7, E., preceding, when necessary, be multiplied by the intrastate percentage reported by the IC as set forth in Section 2, Paragraph 2.3.14. The result will, after adjustment as set forth in Paragraph 3.7, D., preceding, when necessary, be used to determine the Carrier Common Line Charges as set forth in Paragraph 3.7, G., following.

G. After the adjustments as set forth in Paragraphs 3.7, D., E. and F., preceding, have been applied, when necessary, to the Carrier Common Line Access access minutes, the charges for the involved IC account will be determined as follows:

1. The access minutes for a Premium Access Carrier will be multiplied by the transitional charge as set forth in Paragraph 3.8, following, to determine the charges.
