

EC-2024-0244

Change of Supplier

Since this matter is still open and my Motions have gone unattended for the reference as to why my Ameren Missouri to be required for any certificates, buildout and allow my change of Supplier that rests in pages 3,62,73,83,91,134,148,153,154,165,166,167 of the October 10, 2023, evidentiary hearing.

This will substantiate the burden of proof as to why the Commission should grant the form of relief in allowing Complainants Change of Supplier.

Especially when Ameren's Star witness admitted during a cross examination that the audio tape specifically stated there was no agreed payment date of May 18, 2023, then went on to elaborate in another part that the agreed date of was May 18, 2023, according to "audio" records.

Folks I have been deceived, duped, extorted from and stolen from because of the Commission and Ameren Missouri. These pages will further conclude that.

My recommendation is to go back through this and read more carefully and you will see the contradictions right in front of you and the real manipulators or Con Artists at the helm were Ameren Missouri.
