

EC-2024-0217

Brett Felber

VS

Ameren Missouri

Oh, and if Ameren Missouri, The Missouri Public Service Commission, Commissioners and Regulatory Judge want to know why I am being so persistent in this matter they can reference page 3,62,73,83,91,134,148,153,154,165,166,167 of the October 10, 2023's evidentiary hearing the clues are all there for everyone to see.

Lots of admitting by both Ameren Missouri, the Regulatory Judge, Staff of the Commission. You'll be surprised by the admittance of Ameren's Star witness that she openly admitted the audio tape didn't include a payment date of May 18, 2023.

Pretty sure there are couple items that would have also determined a Summary Determination against Ameren Missouri, along with violations being admitted and so forth.

This holds the key to if the document we are talking about is actually discussed or if it is really brushed off and gone unanswered or discussed.

These documents hold the actual key to showing I was extorted, taken advantage of and further the Public Service Commission and Ameren were allowed to further collude or infringe me of any rights.
