2. To accomplish the requirements of the order, the parties collaborated to prepare the proposed notice appended hereto, and marked as Attachment A, that succeeds in informing affected customers and members of the purpose of the application sought, provides a personalized account comparison based on historical kWh usage from July 2014 to June 2015, and explains how customers and members may intervene, provide comment, and contact the Parties.

Dear: <Customer/Member>,

Union Electric Company d/b/a Ameren Missouri and Three Rivers Electric Cooperative have asked the Missouri Public Service Commission for authority (1) to transfer to Three Rivers eighteen customers who currently receive electric service from Ameren Missouri, (2) to transfer to Ameren Missouri thirty-nine customers who currently receive electric service from Three Rivers, and (3) to sell or exchange facilities used to provide service to some of the transferred customers. Our records indicate that you are among the customers whose electric supplier may change, and this letter explains the possible effects the transfer will have on your monthly energy costs, and how you can obtain more information about this matter or make your views known, should you choose to do so.

If the Missouri Public Service Commission approves this application, you will receive electric service from <Three Rivers/Ameren Missouri> and will be subject to its rates and charges. Because Ameren Missouri and Three Rivers have different service rates and rate structures, some customers will see their energy costs increase slightly, while other customers will see slight decreases.

The following table provides a comparison based on your historical kWh usage from July 2014 to June 2015. The second row indicates the actual amount paid for service to the current electric utility provider <Ameren Missouri/Three Rivers>. The bottom row indicates the amount that would have been paid, if the proposed electric utility provider <Three Rivers/Ameren Missouri> had provided the service. The charges indicated on the chart include each company's monthly customer charge.
