RE: FAC Reporting Requirements

Date: May 29, 2024

Pages 10 and 11 of the Non-unanimous Stipulation and Agreement from Case No. ER-2009-0090, require additional FAC information to be submitted to the Missouri Public Service Commission Staff. The Stipulation and Agreements and Orders from Case No.'s ER-2010-0356, ER-2012-0175 and ER-2016-0156 adopt these requirements as well.

A number of these items relate to the reporting of new or changed fuel contracts. Supply has now developed a monthly report which lists all fuels contracts with highlights of the contract terms. Evergy Missouri West will file this monthly report in EFIS.

Attached are the reports for May 2024. Please note that these documents are **CONFIDENTIAL**.
