2. GENERAL REGULATIONS – CONDITIONS OF OFFERING**2.1 DEFINITIONS (Cont'd)**Contributory Services

Those services that contribute towards the overall commitment but are not discountable according to the master discount schedule (ie. Qwest Total Advantage). By contributing towards the overall commitment level, these services will increase the discount level that is applied to the Discount Eligible category of services under the contract. These services will continue to receive discounts as designated in individual service contracts. Contribution levels will be based on Monthly Recurring Charges (MRCs) for these services.

CPE

Customer-Provided Equipment (CPE) Telecommunication devices, equipment, and associated wiring located on the customer's side of the protector/Standard Network Interface (SNI).

Customer

Any person, firm, partnership, corporation, municipality, cooperative organization, governmental agency or other entity to whom the Company agrees to furnish communications service under the provisions and regulations of this Tariff.

Deposit

Any payment held as security for future payment or performance to be returned after the customer establishes a record of satisfactory credit.

Discount Eligible Service

Discount Eligible Services contribute toward the overall commitment level (ie. Qwest Total Advantage). Discount eligible products that bill on the same billing system can aggregate towards predetermined discount levels, meaning the more spent on this common group of products, the higher the customer's discount will be. Contribution levels will be based on monthly recurring charges (MRCs), counted towards the contract commitment levels and receive term and volume discounts where applicable.

2. GENERAL REGULATIONS – CONDITIONS OF OFFERING**2.3 ESTABLISHING AND FURNISHING SERVICE****2.3.1 APPLICATION FOR SERVICE****A. Refusal**

The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously furnished, until the indebtedness is satisfied. The Company may refuse to furnish or may deny service to any person, business or entity on whose premises exists any telecommunications related facility which shows any evidence of tampering, manipulating, or operation, or use of any device whatsoever, for the purpose of obtaining service without payment of the charges applicable to the service rendered. The Company may refuse to offer service where, in the Company's judgment, a service cannot reasonably be made available to a customer.

B. Cancellations and Deferments

When the Company advises a customer that ordered services are available on the requested due date, and the customer is unable or unwilling to accept service at that time, the facilities will be held available for the customer for a 30 calendar day grace period. If after 30 calendar days the customer still has not accepted service, the customer will be contacted and regular monthly billing for the ordered service shall begin if the customer requests that facilities continue to be held for their future use. 2.3.2 OBLIGATION TO FURNISH SERVICE

- A. Facilities and lines furnished by or through the Company on the premises of a customer, authorized user or agent of the customer are the property of the Company and are provided upon the condition that such facilities and lines must be installed, relocated, rearranged and maintained by the Company, and that the Company's employees and agents may enter said premises at any reasonable hour to test and inspect such facilities and lines in connection with such purposes, or upon termination or cancellation of the service, to remove such facilities and lines.
- B. The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.
- C. The Company's obligation to furnish service or to continue to furnish service is dependent on the customer's prompt payment record with the Company and its actual payments for existing service. For a new customer, it is based on credit worthiness, which will be determined in an equitable and nondiscriminatory manner.

2.3.3 LIMITED COMMUNICATION

The Company reserves the right to limit use of communication services when emergency conditions cause a shortage of facilities.

2.3.4 PAYMENT ARRANGEMENTS

The customer is responsible for payment of all charges for services furnished by the Company to the customer and/or authorized users. A. Work On Customer's Premises

It is contemplated that all work on customers' premises can be performed during regular working hours. If a customer requests that work be performed during hours which results in overtime or premium rates of pay, a charge may apply in addition to other rates and charges which may be applicable, based on the amount of overtime or premium time required, as determined on an individual case basis.

It is also contemplated that all installation, removals, service connections, moves and changes requested by a customer be performed without the Company incurring unusual costs. If a customer requests that work be performed in a special manner or at a special time which results in unusual costs, a charge equal to the amount of unusual costs may apply in addition to other applicable rates and charges, as determined on an individual case basis.

B. Special Arrangements

1. The rates and charges quoted in this Tariff contemplate the use of standard arrangements, that is, the arrangement normally used by the Company to provide the type of service involved.
2. For special service arrangements to be provided by this Company, and not specifically covered in this Tariff, including but not limited to services, features, and combinations of services and features not normally offered or combined, monthly rates and the one-time charges, such as installation, nonrecurring and construction charges will apply based on the circumstances in each case. C. Special Promotions

The Company may, from time to time, offer promotional programs for its services which may include waiving or reducing the applicable rates and charges for the promoted service. The promotional offerings may be limited as to the duration, the date, and times of the offerings and the locations where the offerings are made or other reasonable limitations. The Company may also offer incentives, benefits or gifts to customers to encourage the purchase or retention of any such service or product. The Company will provide tariff notification to the Commission prior to the commencement of each promotion identifying the promotion, the exchange(s) within which the promotion will be offered, and the start and end dates of the promotion. The Company will offer all promotions in a nondiscriminatory manner.

D. Trials

The Company may offer, from time to time, limited trials for services which may include the waiving or reducing of all rates and charges for the service that is the subject of the trial and for services that are provided as part of the trial. 2.3.6 TERMINATION OF SERVICE

A. Initial Service Periods

1. The initial service period for service and facilities is one month (30 days), except as otherwise specified.
2. Initial service periods for service or facilities of any class will be greater than those specified herein whenever that is required in order for the Company to protect itself from making an unwarranted investment because the customer's location or the character of the service required is such that upon termination of the customer's contract the facilities which have been constructed or installed to render the service are not likely to be useful for furnishing service to any other customer.
3. Service may be terminated prior to the expiration of the initial service period upon payment of all charges due for service which has been furnished plus the termination charges as specified in this Tariff, or in the terms of the service agreement. In the case of service for which the initial period is one month, the charges due are for the balance of the month.

B. Termination Liability/Waiver Policy

Services provided via service agreements may include the Termination Liability/Waiver Policy. This policy applies only to services that specifically reference this Termination Liability/Waiver Policy as described in the Tariff.

1. Minimum Billing Level will be established for use in calculating discontinuance charges. The Minimum Billing Level is 100% percent of the total monthly rates for the service provided under the terms of the customer's service agreement, unless otherwise specified.
2. Minimum Service Period is the period of time that the factor of the Termination Liability Charge would apply.

B. Termination Liability/Waiver Policy (Cont'd)

3. If the customer chooses to completely discontinue service, at any time during the term of the agreement, a termination charge will apply, unless the customer satisfies the conditions specified in the Waiver Policy. The termination charge is 100% of the rates for the Minimum Service Period, if applicable, plus the Minimum Billing Level multiplied by the termination liability percentage of 50% or the rate specified in the service agreement, for the remaining term of the agreement.[1]
4. If the customer discontinues a portion of their service, and that causes the customer's monthly billing level to fall below the Minimum Billing Level of the agreement, a termination charge will apply to the portion of the service agreement that is below the Minimum Billing Level.
5. Waiver Policy

A termination charge will be waived when the customer discontinues their contracted service(s), provided all of the following conditions are met:

- The customer signs a new service agreement for any other Company provided service(s);
- Both the existing and the new service(s) are provided solely by the Company;
- The order to discontinue the existing service(s) and the order to establish the new service(s) are received by the Company at the same time;
- The new service(s) installation must be completed within thirty calendar days of the disconnection of the old service(s), unless the installation delay is caused by the Company;

[1] For example: Customer disconnecting in month 12 of a 36 month agreement with MRC of \$100. Termination charge is \$100 (minimum billing level) x 24 months (minimum service period) x 50% (Termination Liability Percentage) = \$1,200.
