The purpose of this Accessible Letter is to provide CLECs with the information necessary to determine the wire center impairment status for DS1 and DS3 loops.

On February 18, 2005, SBC<sup>1</sup> filed a list of the wire centers that satisfy the non-impairment thresholds for DS1 and DS3 loops with the FCC. Wire centers are identified on the list by their eight character CLLI code. SBC has also posted this information on CLEC Online. See <https://clec.sbc.com/clec>. Select CLEC Handbook. Select Handbook/Region of choice. Select Ordering.

Should you have any questions regarding this accessible letter, please contact your Account Manager.
