

On April 16, 2024, Liberty requested the conditional approval be extended an additional year until August 1, 2025. Liberty's motion explained that throughout 2023, it has met with SPP staff and exchanged data concerning preliminary results that were provided in SPP's Regional Cost Allocation Review (RCAR). Liberty stated it is hopeful that the SPP Integrated Transmission Plan 2024 will result in some "meaningful projects" for Liberty's customers. To allow more time for all information to be developed with respect to possible transmission investment in the SPP southeastern seam that would provide benefit to Liberty's customers (as well as customers of other electric providers in the southwest portions of Missouri), Liberty requests the additional one-year extension of its SPP membership approval.

The Commission set a date for any party wishing to respond to Liberty's motion. The Staff of the Commission (Staff) filed a response on April 26, 2024. Staff had no objection to the requested extension being granted with the same terms and conditions as previously ordered by the Commission. No other responses were filed.

Having considered the motion and Staff's response, the Commission determines that an extension of Liberty's authorization is appropriate. The Commission will grant Liberty's motion.

THE COMMISSION ORDERS THAT:

1. Liberty's *Motion for Continuation of Conditional Approval* is granted.
2. The interim and conditional approval, with the same terms and conditions as previously ordered by the Commission, of Liberty's membership in SPP is extended by one year to August 1, 2025.
3. This order shall be effective on July 26, 2024.

BY THE COMMISSION
