Adjudication staff marked each exhibit, and on November 19, 2020, the Commission’s data center filed each of the marked exhibits specified above in the Commission’s electronic filing and information system (EFIS).

The Commission will now direct the parties to submit any corrections to the filed exhibits identified above by no later than November 23, 2020. This process is intended to verify that the correct documents are marked and filed in EFIS in full. This process will not include additional substantive argument about the case.

During the hearing, some parties offered corrections to proposed exhibits, particularly pre-filed testimony. The Commission will direct the filing of corrected testimony to clarify the record. Correction of pre-filed testimony avoids the necessity of cross-reference to the hearing transcript.

A correction to pre-filed testimony can be offered under this order by filing in EFIS corrected testimony that incorporates the corrections testified to at hearing.

Testimony offered as a correction in written form at hearing, such as Exhibit 202 above, requires no additional correction to clarify the record. Likewise, “corrected” exhibits 1, 100, 100C and 300 have been marked and filed under this order. All exhibits listed above are subject to objection, pursuant to this order, to verify the correct documents are marked and filed in EFIS in full.

THE COMMISSION ORDERS THAT:

1. Proposed corrections to the filed exhibits identified above, including corrections of pre-filed testimony, shall be filed no later than November 23, 2020. Such corrections shall be proposed by filing a statement of the basis of the correction with a copy of the proposed corrected exhibit attached to the filing.

2. Any response to any such proposed corrections shall be filed no later than November 30, 2020.

3. This order shall be effective when issued.
