7.2.9 High Capacity Service (Cont'd)

(D) Optional Features and Functions

(1) Automatic Loop Transfer

The Automatic Loop Transfer provides protection on a 1xN basis against failure of the facilities between a customer designated premises and the wire center serving that premises. Protection is furnished through the use of a switching arrangement that automatically switches to a spare channel when a working channel fails. **Spare channel priority is given to the lowest numbered slot based upon slot position. Slot position number one is given highest priority.** The spare channel is not included as a part of the option. This option requires compatible equipment at both the serving wire center and the customer premises. The customer is responsible for providing the equipment at its **premises. This feature is not available with 1.544 Mbps channels having the B8ZS line code.**

(1) Automatic Loop Transfer

The Automatic Loop Transfer provides protection on a 1xN basis against failure of the facilities between a customer designated premises and the wire center serving that premises. Protection is furnished through the use of a switching arrangement that automatically switches to a spare channel when a working channel fails. The spare channel is not included as a part of the option. This option requires compatible equipment at both the serving wire center and the customer premises. The customer is responsible for providing the equipment at its premises. Equipment at the customer premises will be provided under tariff only if it existed in the Telephone Company inventory as of November 18, 1983.

(2) Transfer Arrangement

An arrangement that affords the customer an additional measure of flexibility in the use of their access channel(s). The arrangement can be utilized to transfer a leg of a Special Access Service to either a spare or working channel that terminates in either the same or a different customer premises. A key activated or dial-up control service is required to operate the transfer arrangement. A spare channel, if required, is not included as a part of the option.

Automatic Loop Transfer		X				
Central Office Multiplexing:						
DS1 to Voice		X				
DS1 to DSO		X				
DS3 to DS1					X	
DS1C to DS1			X			
Clear Channel Capability		X			X	

7.2.10 Clear Channel Capability

Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.544 Mbps signal with unconstrained information bits to meet pulse density requirements outlined in Technical Reference Publications GR-54 and GR-342. This will allow a customer to transport an all zero octet over a DS1/1.544 Mbps High Capacity channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference Publications GR-54 and GR-342.

(CT)

CCC is provided on DS1/1.544 Mbps High Capacity channels between two customer designated premises and is subject to the availability of facilities. This optional feature may be ordered at the same time the DS1/1.544 Mbps High Capacity channel is ordered, or it may be ordered as an additional feature of an existing channel.

7.2.10 High Capacity Service

(A) Basic Channel Description

1) A high capacity channel is a channel for the transmission of 3.152, 6.312, 44.736 or 274.176 Mbps isochronous serial data. The actual bit rate and framing format is a function of the channel interface selected by the customer. High capacity channels are provided between customer designated premises or between a customer designated premises and a Tele-phone Company Hub.

The customer may provide the Network Channel Terminating Equipment associated with the High Capacity channel at the customer's premises. The interim program for interconnection of such equipment is set forth in Technical Reference PUB AS No. 1.

2) Fractional DS1 channels provide simultaneous, two-way transmission at contiguous bit rates of 128.0, 256.0 and 384.0 kbps. Fractional DS1 channels operate over the combined bandwidth of adjacent channels to create a contiguous bit rate.

A) Basic Channel Description (Cont'd)

Due to technical limitations associated with the provision of Fractional DS1, this service will be offered only in end offices where a compatible channel bank exists and the distance between the central office and the customer designated premises is less than or equal to 12,000 feet.

B) Channel Interfaces

The following channel interface (CIs) defines the bit rate that is available for a High Capacity channel:

<u>CI</u>	<u>Bit Rate</u>
DS-27	274.176 Mbps (DS4)
DS-31	3.152 Mbps (DS1C)
DS-44	44.736 Mbps (DS3)
DS-63	6.312 Mbps (DS2)

Compatible channel interfaces are set forth in 7.3.5(I) following.

(C) Optional Features and Functions

(1) Central Office Multiplexing

(a) DS4 to DS1

An arrangement that converts a 274.176 Mbps channel to 168 DS1 channel using digital time division multiplexing.

(b) DS3 to DS1

An arrangement that converts a 44.736 Mbps channel to 28 DS1 channels using digital time division multiplexing.

(c) DS2 to DS1

An arrangement that converts a 6.312 Mbps channel to four DS1 channels using digital time division multiplexing.

(d) DS1C to DS1

An arrangement that converts a 3.152 Mbps channel to two DS1 channels using digital time division multiplexing.

7.3 Channel Interface and Network Channel Codes

**Network Channel Codes are comprised of four characters. The first and second characters describe the technical specifications package within the service type. The third and fourth characters describe and specify options associated with the service. The Telephone Company abides by nationally accepted standards in its use of Network Channel Codes and are available from the Telephone Company upon request.**

(C)

**Channel Interface Codes describe the electrical characteristics of the interface at the customer's premises. Compatible Channel Interface codes for the requested service must be specified by the customer when ordering the services. Channel Interface codes for each category of Special Access Service can be found in the Technical Reference Publications set forth in 7.2 preceding.**

ACCESS SERVICE

REC'D FEB 09 2000

7. Special Access Service (Cont'd)

7.3 Channel Interface and Network Channel Codes (Cont'd)

7.3.3 Digital Hierarchy Channel Interface Codes (4DS)

Customers selecting the multiplexed four-wire DS1 or higher facility interface option at the customer designated premises will be requested to provide subsequent system and channel assignment data. The various digital bit rates in the digital hierarchy employ the channel interface code 4DS9, 4DS0 or 4DS6, plus the speed option is indicated below:

<u>Interface Code and Speed Option</u>	<u>Nominal Bit Rate (Mbps)</u>	<u>Digital Hierarchy Level</u>
4DS9-15	1.544	DS1
4DS9-31	3.152	DS1C
4DS0-63	6.312	DS2
4DS6-44	44.736	DS3
4DS6-27	274.176	DS4

7.3.4 Service Designator/Network Channel Code Conversion Table

The purpose of this table is to show the relationship between the service designator codes (e.g., VGC, DAL, etc.) and the network channel codes that are used for various administrative purposes:

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. The rates and charges are described as follows:

(A) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

(B) Daily Rates

Daily rates are flat recurring rates that apply to each 24 hour period or fraction thereof that a Program Audio or Video Special Access Service is provided for part-time or occasional use. For purposes of applying daily rates, the 24 hour period is not limited to a calendar day.

The application of daily rates for Program Audio and Video service for consecutive 24-hour periods during a consecutive 30-day period is as follows. Daily rates will be topped at an amount equal to the monthly rate. For each day or part day of usage after the daily rates have been topped, a charge equal to 1/30th of the monthly rate will apply.

(C) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are: installation of service, installation of optional features and functions, and service rearrangements.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(1) Installation of Service

Nonrecurring charges apply to each service installed. The nonrecurring charges for the installation of service are set forth in 7.5 following as a nonrecurring charge for the Channel Termination rate element.

(2) Installation of Optional Features and Functions

Nonrecurring charges apply for the installation of some of the optional features and functions available with Special Access Service. The charge applies whether the feature or function is installed coincident with the initial installation of service or at any time subsequent to the installation of the service.

The optional features and functions for which nonrecurring charges apply are:

- Voice Grade Data Capability
- Voice Grade Telephoto Capability
- Program Audio Gain Conditioning
- Program Audio Stereo

(3) Service Rearrangements

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements as set forth in 5.2.5(E) preceding or a change in the physical location of the point of termination at a customer designated premises. Changes in the type of service or channel termination are treated as disconnects and starts. Changes in the physical location of the point of the termination are treated as moves and are described and charged for as set forth in 7.4.5 following.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.1 Types of Rates and Charges (Cont'd)(C) Nonrecurring Charges (Cont'd)(3) Service Rearrangements (Cont'd)

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Access Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for Access Service).

Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes its name--e.g., AT&T-Long Lines to AT&T Communications),
- Change of customer or customer's end user premises address when the change of address is not a result of a physical relocation of equipment,
- Change in billing data (name, address, or contact name or telephone number),
- Change of agency authorization,
- Change of customer circuit identification,
- Change of billing account number,
- Change of customer test line number,
- Change of customer or customer's end user contact name or telephone number, and
- Change of jurisdiction.

All other service rearrangements will be charged for as follows:

- If the change involves the addition of another leg to an existing multipoint service, the nonrecurring

(C) Nonrecurring Charges (Cont'd)

(3) Service Rearrangements (Cont'd)

- charge for the channel termination rate element will apply. The charge will apply only for the leg that is being added.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that non-recurring charge will apply. (T)
- If the change involves changing the type of signaling on a Voice Grade service, a charge equal to the Voice Grade channel termination rate element nonrecurring charge will apply. The charge will apply per channel termination affected.
- For all other changes, including the addition of optional features without separate nonrecurring charges, a charge equal to a channel termination rate element nonrecurring charge will apply. Only one such charge will apply per service, per change. (T)

7.4.2 Surcharge for Special Access Service

(A) General

In addition to the rates and charges described in 7.4.1 preceding, there is a monthly surcharge that applies to Special Access Service. The Special Access Surcharge compensates the Telephone Company for use of the local exchange network when Special Access Service is connected to a PBX or equivalent device which is capable of interconnecting the Special Access Service with local exchange service.

The Telephone Company will automatically bill the surcharge on each Special Access Service installed irrespective of whether the interconnection capability exists in the customer's premises equipment or in a Centrex-CO type

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.2 Surcharge for Special Access Service (Cont'd)(C) Exemption Certification

- (1) Special Access Services which are terminated as set forth in (B) preceding will be exempted from the Special Access Surcharge if the customer provides the Telephone Company with a written notification certifying exemption. Such notification shall be provided by the customer (1) at the time the Special Access Service is ordered or installed; (2) at such time as the Special Access Service is re-terminated to a device not capable of interconnecting to the local exchange network, or (3) at such time as the Special Access Service becomes associated with a Switched Access Service that is subject to Carrier Common Line charges.
- (2) If written certification is not received at the time the Special Access Service is obtained, the surcharge will be applied. Exempt status will become effective on the certification date indicated by the customer, subject to the regulations in (D) following.
- (3) The exemption certification is to be provided by the customer ordering the service. The certification must be signed by the customer or authorized representative and include the category of exemption, as set forth in (B) preceding, for each termination, and the date which the exemption is effective.
- (4) The customer shall also notify the Telephone Company when an exempted Special Access Service is changed or re-terminated such that the exemption is no longer applicable.

MO. PUBLIC SERVICE COMM.

7.4 Rate Regulations (Cont'd)

7.4.2 Surcharge for Special Access Service (Cont'd)

(E) Application of Rates (Cont'd)

- (2) In the case of multipoint Special Access Service, one Special Access Surcharge will apply for each termination at a customer designated premises.
- (3) The Telephone Company will bill the surcharge to the customer who orders the Special Access Service unless the Service is exempt as set forth in (B) preceding.

7.4.3 Message Station Equipment Recovery Charge

The Message Station Equipment Recovery is a charge to recover that portion of message station equipment that is assigned to Special Access Service.

Pursuant to CC Docket 83-1145 Memorandum Opinion and Order adopted by the Federal Communications on November 8, 1984 and released on November 9, 1984, this charge, is assessed only to those customers to which the Special Access Surcharge applies. The rate for the Message Station Equipment Recovery Charge is set forth in 7.5.10 following.

7.4.4 Minimum Periods

The minimum service period for all services except part-time and occasional Video and Program Audio services is one month. The minimum service period for part-time and occasional Video and Program Audio Services is one day (i.e., a continuous 24 hour period, not limited to a calendar day).

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.5 Moves

A move involves a change in the physical location of one of the following:

- The Point of Termination at the customer's premises
- The customer's premises

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(A) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the nonrecurring (i.e., installation) charge for the Channel Termination affected. There will be no change in the minimum period requirements.

(B) Moves to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established for the new services. The customer will also remain responsible for satisfying all outstanding minimum period charges for the disconnected service.

(T)

7.4.6 Mileage Measurement

The mileage to be used to determine the monthly rate for the Channel Mileage is calculated on the airline distance between the locations involved, i.e., the serving wire centers associated with two customer designated premises, a serving wire center associated with a customer designated premises and a Telephone Company Hub, or two Telephone Company Hubs. The serving wire center associated with a customer designated premises is the serving wire center from which the customer designated premises would normally obtain dial tone.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.6 Mileage Measurement (Cont'd)

Mileage is shown in 7.5 following in terms of mileage bands. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association, *Inc.* Tariff, then find the band into which the computed mileage falls and apply the rates shown for that band. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage band and applying the rates.

(T)

When Hubs are involved, mileage is computed and rates applied separately for each section of the Channel Mileage, i.e., customer designated premises serving wire center to Hub, Hub to Hub and/or Hub to customer designated premises serving wire center. However, when any service is routed through a Hub for purposes other than customer specified bridging or multiplexing (e.g., the Telephone Company chooses to so route for test access purposes), rates will be applied only to the distance calculated between the serving wire centers associated with the customer designated premises.

7.4.7 Facility Hubs

(C)

A customer has the option of ordering Voice Grade facilities or digital high capacity facilities (i.e., Group, Supergroup, Mastergroup, DS1, **DS1C, or DS3**) to a facility Hub for channelizing to individual services requiring lower capacity facilities (e.g., Voice, Program Audio, etc.).

Different locations may be designated as Hubs for different facility capacities, e.g., multiplexing from digital to digital may occur at one location while multiplexing from digital to voice analog may occur at a different location. When ordering, the customer will specify the desired multiplexing Hub(s) selected from the National Exchange Carrier Association, *Inc.* Tariff. This tariff identifies the type(s) of multiplexing functions which are available and the wire centers at which they are available.

(T)

- (1) For IntraLATA Local Exchange Carrier to Local Exchange Carrier traffic, percentages of ownership will be determined by the V&H coordinates located in the Missouri Intrastate IntraLATA Compensation Plan Database.

7.4.7 Facility Hubs (Cont'd)

Some of the types of multiplexing available include the following:

- from higher to lower bit rate
- from higher to lower bandwidth
- from digital to voice frequency channels

End to end services may be provided on channels of these facilities to a Hub. The transmission performance for the end to end service provided between customer designated premises will be that of the lower capacity or bit rate. For example, when a 1.544 Mbps facility is multiplexed to voice frequency channels, the transmission performance of the channelized services will be Voice Grade, not High Capacity service.

The Telephone Company will commence billing the monthly rate for the facility to the Hub on the date specified by the customer on the service order. Individual services utilizing these facilities may be installed coincident with the installation of the facility to the Hub, or may be ordered and/or installed at a later date, at the option of the customer. The customer will be billed for a Voice Grade, High Capacity, Analog or

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.7 Facility Hubs (Cont'd)

digital Channel Termination, Channel Mileage (when applicable), and the multiplexer at the time the facility is installed. Individual service rates (by service type) will apply for a Channel Termination and additional Channel Mileage (as required) for each channelized service. These will be billed to the customer as each individual service is installed. (C)

Cascading multiplexing occurs when a high capacity analog or digital channel is de-multiplexed to provide channels with a lesser capacity and one of the lesser capacity channels is further de-multiplexed. For example, a Supergroup facility is de-multiplexed to five Group facilities, and then one of the Group facilities is further de-multiplexed to individual Voice Grade channels. (C)

When cascading multiplexing is performed, whether in the same or a different Hub, a charge for the additional multiplexing unit also applies. When cascading multiplexing is performed at different Hubbing locations, Channel Mileage charges also apply between the Hubs.

Although not requiring multiplexing, the Telephone Company will designate certain Hubs for Video and Program Audio Services. A customer can order full-time and/or part-time service(s) between customer designated premises and a Hub and will be billed accordingly at the rates set forth in 7.5.4 or 7.5.5 following for the full-time or part-time service, as appropriate. At the request of a customer, the full-time and/or part-time services provided to the Hub may be connected together in the following configurations: full-time to full-time, full-time to part-time or part-time to part-time. The customer will be charged for each such connection made at the rates for Other Labor as set forth in 13.2.6(C) following. The rates that apply for the service between each customer designated premises and the Hub are a Channel Termination and Channel Mileage, if applicable. In addition, for Program Audio services, rates for optional features and functions may be applicable. (T)

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.8 Shared Use of Analog and Digital High Capacity Service

Shared use occurs when Special Access Service and Switched Access Service are provided over the same High Capacity facilities through a common interface. The facility will be ordered, provided and rated as Special Access Service (i.e., Channel Termination, Channel Mileage, as appropriate, and Multiplexer). The nonrecurring charge that applies when the shared use facility is installed will be the nonrecurring charge associated with the appropriate Special Access High Capacity Channel Termination. Individual service (i.e., Switched or Special Access) nonrecurring charges will not apply to the individual channels of the shared use facility. Rating as Special Access will continue until such time as the customer chooses to use a portion of the available capacity for providing Switched Access Service. As each individual channel is activated for Switched Access Service, the Special Access Channel Termination and Channel Mileage rates will be reduced accordingly (e.g., 1/24th for a DS1 service, etc.). The customer must place an order for each individual Switched or Special Access Service utilizing the Shared Use Facilities and specify the channel assignment for each such service.

Switched Access Service rates and charges as set forth in 6.8 preceding will apply for each channel of the shared use facility that is used to provide Switched Access Service. Where Special Access Service is provided utilizing a channel of the shared facility to the Hub, High Capacity rates and charges will apply for the facility to the Hub as set forth preceding and individual service rates will apply from the Hub to the customer designated premises. The rates and charges that will apply to the portion from the Hub to the customer designated premises will (C) be dependent on the specific type of Special Access Service that is provided (e.g., Voice Grade, etc.). The applicable rates and charges will include a Channel Termination and Channel Mileage, if applicable. Rates and charges for optional features and functions, associated with the service, if any, will apply as set forth in 7.5 following.

Shared use occurs when Special Access Service and Switched Access Service are provided over the same United TransLink<sup>SM</sup> or other High Capacity facilities through a common interface. The facility will be ordered, provided and rated as Special Access Service (i.e., Channel Termination, Channel Mileage, as appropriate, and Multiplexer). The nonrecurring charge that applies when the shared use facility is installed will be the nonrecurring charge associated with the appropriate Special Access TransLink<sup>SM</sup> or other High Capacity Channel Termination. Individual service (i.e., Switched or Special Access) nonrecurring charges will not apply to the individual channels of the shared use facility. Rating as Special Access will continue until such time as the customer chooses to use a portion of the available capacity for providing Switched Access Service. As each individual channel is activated for Switched Access Service, the Special Access Channel Termination and Channel Mileage rates will be reduced accordingly (e.g., 1/24th for a DS1 service, etc.). The customer must place an order for each individual Switched or Special Access Service utilizing the Shared Use Facilities and specify the channel assignment for each such service.

Switched Access Service rates and charges as set forth in 6.8 preceding will apply for each channel of the shared use facility that is used to provide Switched Access Service. Where Special Access Service is provided utilizing a channel of the shared facility to the Hub, Widebank Analog, United TransLink<sup>SM</sup> or other High Capacity rates and charges will apply for the facility to the Hub as set forth preceding and individual service rates will apply from the Hub to the customer designated premises. The rates and charges that will apply to the portion from the Hub to the customer designated premises will be dependent on the specific type of Special Access Service that is provided (e.g., Voice Grade, Telegraph, etc.). The applicable rates and charges will include a Channel Termination and Channel Mileage, if applicable. Rates and charges for optional features and functions, associated with the service, if any, will apply as set forth in 7.5 following.

7.4.9 Inside Wire Recovery Charge

The Inside Wire Recovery Charge is a charge to recover that portion of inside wire cost that is assigned to Special Access Service. Inside wire are those facilities as set forth in Part 68 of the Federal Communications Commission's Rules and Regulations. Inside wire may be provided in association with Telegraph Grade, Voice Grade, Program Audio and Digital Data Channel Terminations.

(C)  
(T)

Pursuant to CC Docket 83-1145 Memorandum Opinion and Order adopted by the Federal Communications Commission on March 1, 1985 and released on March 8, 1985, this charge is assessed only to those customers to whom such wiring is provided at a customer designated premises. Accordingly, the charge applies on a per Channel Termination basis for Telegraph Grade, Voice Grade, Program Audio, Digital Data or WATS Access Line Special Access Services unless all such inside wire is provided by the customer.

(C)  
(T)

The rate for the Inside Wire Recovery Charge is set forth in 7.5.11 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.11 Special Access Term Discount Plan

(A) General

The Special Access Term Discount Plan (TDP) applies to Special Access Digital Data **Service** (56.0 and 64.0 kbps), High Capacity DS1(1.544 Mbps) Service and DS1 to DS0 Multiplexing. The TDP provides the customer with discounted rates for the services listed. The customer agrees to a minimum service commitment per service when the TDP is established.

(T)

In order for a circuit to be eligible for TDP pricing, the customer must commit a channel termination and/or multiplexer associated with that circuit to a TDP. The commitment level for a circuit will be based on channel terminations and/or multiplexers. Customers may disconnect or move channel terminations and/or multiplexers within the state and not be subject to termination liability charges as long as the commitment levels are maintained.

(B) Commitment Level

All eligible special access rate elements for a given circuit (channel termination, channel mileage **termination** (fixed), channel mileage facility (per mile), or multiplexing) must be ordered for the same commitment period with the same service date for the same customer. A customer establishes a TDP by **committing** all or a portion of their in-service channel terminations and/or multiplexers to a minimum term of 3 years, up to a maximum term of 5 years. During the term of the selected TDP, the customer must maintain an in-service commitment threshold of not less than 90% nor more than 130% of the committed channel terminations and/or multiplexers.

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.11 Special Access Term Discount Plan (Cont'd)

(B) Commitment Level (Cont'd)

As long as a customer's actual in-service level of channel terminations and/or multiplexers remains within the commitment threshold, the customer will be billed the TDP rate for all eligible rate elements. Additionally, if a customer's in-service level exceeds the initial in-service level by no more than 30%, the customer will be billed the TDP rates for all eligible rate elements. For example, the customer has 200 DS1 channel terminations and/or multiplexers and elects to commit 150 channel terminations and multiplexers to a 3 year TDP. The customer will be billed TDP rates as long as the in service level of the channel terminations and/or multiplexers is equal to or greater than 135 (90% minimum threshold) but not more than 195 (130% maximum threshold).

If the customer's in-service request exceeds the initial service level by more than 30%, the customer will be billed the month-to-month rate for all facilities above the upper limit of the commitment threshold. If the customer's in-service level falls below the minimum commitment threshold, the customer will be billed **liability charges for the number of Channel Terminations and/or multiplexers below the minimum commitment threshold and the customer's commitment level will be decreased to 110 percent of the customer's current in-service level.** For example, a customer whose minimum commitment threshold is 135 Channel Terminations and/or multiplexers (**90% of 150**), but only has 125 in-service, will be billed **termination liability charges for 10 Channel Terminations and/or multiplexers and the customer's commitment level will be decreased to 138 (110% of 125).** The TDP rates billed will be based on the most recently disconnected facilities.

(CT)  
|  
(CT)

Although the commitment level is based upon channel terminations and/or multiplexers, the following rate elements will receive TDP rates:

- Channel Mileage Facility (per mile)
- Channel Mileage Termination (fixed)
- Multiplexing
- Channel Termination

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.11 Special Access Term Discount Plan (Cont'd)

(C) Ordering Provisions

The customer must order a TDP in writing to the Telephone Company. A TDP may be **ordered based** on the following plan options.

**Three (3) Years**

**Five (5) Years**

The customer must specify the plan and the length of the service commitment period and commitment level. The customer agrees to a minimum service commitment level per service in effect at one time. For example, a customer that has a **3 year plan** in effect for **DS1** service may not establish a second **3 year DS1** TDP until the current TDP expires. Once the plan is established, and commitment levels are agreed upon, standard access ordering procedures will be followed. (C) (D) (D) (C) (C)

When a customer converts to a TDP, no access order charges are applied toward facilities in-service at that time. If a customer moves from a month to month plan to a TDP, or upgrades from one TDP to another, no access order charges are applied. (C) (C)

(D) Service Rearrangements

**When a circuit committed to a TDP is rearranged as set forth in 7.4.1(C)(3) preceding, the nonrecurring rearrangement charge associated with the month-to-month rates for that service will apply. Changes in the type of service or service termination are treated as disconnects and starts, and the nonrecurring installation charge associated with the month-to-month rates for that service will apply. Changes in the physical location of the point of termination are treated as moves, as described in 7.4.5 preceding, and will be assessed the nonrecurring charge associated with the month-to-month rates for that service.** (N)

MISSOURI  
Public Service Commission

7.4.11 Special Access Term Discount Plan (Cont'd)

(C) Ordering Provisions

The customer must order a TDP in writing to the Telephone Company. A TDP may be ordered in increments of one month, based on the following plan options.

Plan A:	12 - 23 months
Plan B:	24 - 35 months
Plan C:	36 - 59 months
Plan D:	60 - 84 months

The customer must specify the plan and the length of the service commitment period and commitment level. The customer agrees to a minimum service commitment level per service in effect at one time. For example, a customer that has a 24 month plan for 1.544 Mbps services may not establish a second 24 month 1.544 Mbps TDP until the current TDP expires. Once the plan is established, and commitment levels are agreed upon, standard access ordering procedures will be followed.

When a customer converts to a TDP, no access order charges are applied toward facilities in-service at that time. If a customer moves from a month to month plan to a TDP, or upgrades from one TDP to another, no access order charges are applied.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7. Rate Regulations (Cont'd)

7.4.11 Special Access Term Discount Plan (Cont'd)

(E) 90 Day Review Period

No adjustments in monthly billing for a TDP, for being above or below the commitment level described in 7.4.11(B) preceding, will take place until 90 days after Telephone Company written notification to the customer that the **commitment threshold has** been exceeded or has not been met. This will ensure that customers will not be penalized for aberrations in channel termination **and/or multiplexer** counts caused by timing differentials in disconnection and installation.

Customer's bills will not be adjusted for being outside the threshold described in 7.4.11(B) preceding during the 90 day review period. Additionally, customers will continue to be billed the adjustments (following the 90 day review period) for being outside the described threshold until the commitment level is met or re-established. A new 90 day review period will be initiated if the customer's actual in-service level subsequently falls outside the described threshold.

(T)

(T)

(F) Increasing the TDP Commitment Level

Customers may increase their commitment level at any time by notifying the Telephone Company in writing. An increase in the commitment level will not change the expiration date of the TDP.

When a commitment level is increased, the actual in-service channel termination and/or multiplexer level at the time of the increase will be used to calculate the new **commitment threshold as** described in Section 7.4.11(B) preceding.

Upon written notification to the Telephone Company, customers may elect to have all future channel terminations and/or multiplexers installed during a commitment period automatically placed on the designated TDP.

Customers may request, upon written notification to the Telephone Company, that the Telephone Company automatically increase the customer's TDP commitment level when the 130% commitment threshold, as set forth in 7.4.11(B) preceding, is exceeded. The adjusted commitment level will be the actual channel terminations and/or multiplexers in service under the TDP at the time the 130% threshold is exceeded. The expiration date of the customer's TDP will not be affected by this change.

(T)

The customer may rescind its request to automatically add future channel terminations and/or multiplexers, or to automatically increase its commitment level when the 130% threshold is exceeded, by notifying the Telephone Company in writing.

MISSOURI  
Public Service Commission (T)

(E) 90 Day Review Period

No adjustments in monthly billing for a TDP, for being above or below the commitment level described in 7.4.11(B) preceding, will take place until 90 days after Telephone Company written notification to the customer that the commitment level has been exceeded or has not been met. This will ensure that customers will not be penalized for aberrations in channel termination counts caused by timing differentials in disconnection and installation.

Customer's bills will not be adjusted for being outside the **threshold** described in 7.4.11(B) preceding during the 90 day review period. Additionally, customers will continue to be billed the adjustments (following the 90 day review period) for being outside the described **threshold** until the commitment level is met or re-established. A new 90 day review period will be initiated if the customer's actual in-service level subsequently falls outside the described **threshold**. (T)

(F) Increasing the TDP Commitment Level

Customers may increase their commitment level at any time by notifying the Telephone Company in writing. An increase in the commitment level will not change the expiration date of the TDP. (T)

When a commitment level is increased, the actual in-service channel termination **and/or multiplexer** level at the time of the increase will be used to calculate the new commitment level as described in Section 7.4.11(B) preceding. (C)

*Upon written notification to the Telephone Company, customers may elect to have all future channel terminations and/or multiplexers installed during a commitment period automatically placed on the designated TDP.* (N)

*Customers may request, upon written notification to the Telephone Company, that the Telephone Company automatically increase the customer's TDP commitment level when the 130% commitment threshold, as set forth in 7.4.11(B) preceding, is exceeded. The adjusted commitment level will be the actual channel terminations and/or multiplexers in service under the TDP at the time the 130% threshold is exceeded. The expiration date of the customer's TDP will not be affected by this change.*

*The customer may rescind its request to automatically add future channel terminations and/or multiplexers, or to automatically increase its commitment level when the 130% threshold is exceeded, by notifying the Telephone Company in writing.* (N)

(D) 90 Day Review Period

No adjustments in monthly billing for a TDP, for being above or below the commitment level described in 7.4.11(B) preceding, will take place until 90 days after Telephone Company written notification to the customer that the commitment level has been exceeded or has not been met. This will ensure that customers will not be penalized for aberrations in channel termination counts caused by timing differentials in disconnection and installation.

Customer's bills will not be adjusted for being outside the parameters described in 7.4.11(B) preceding during the 90 day review period. Additionally, customers will continue to be billed the adjustments (following the 90 day review period) for being outside the described parameters until the commitment level is met or re-established. A new 90 day review period will be initiated if the customer's actual in-service level subsequently falls outside the described parameters.

(E) Increasing the TDP Commitment Level

Customers may increase their commitment level at any time by notifying the Telephone Company in writing. An increase in the commitment level will not change the expiration date of the TDP.

When a commitment level is increased, the actual in-service channel termination level at the time of the increase will be used to calculate the new commitment level as described in Section 7.4.11(B) preceding.

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.11 Special Access Term Discount Plan (Cont'd)

(G) Decreasing the TDP Commitment Level and Termination Liabilities

Customers may only decrease their commitment level by paying termination liability charges on the number of channel terminations and/or multiplexers by which the commitment level is decreased. Termination liabilities will apply to applicable services covered by the TDP. For example, a customer has a commitment level of 150 channel terminations and/or multiplexers. The Customer then decreases their commitment level to 125. The customer must pay a **termination** liability on the most recently disconnected 25 facilities, inclusive of all associated rate elements as listed above.

(T)  
(T)

If a customer disconnects any portion of their TDP service prior to the expiration of the commitment period, the customer will be billed 50% of the monthly TDP charges for the remaining portion of the committed term. For example, a customer disconnecting in the 12th month of a 3 year plan will be charged 50% of the remaining 24 months of billing.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.11 Special Access Term Discount Plan (Cont'd)**(H)** Rate Changes (T)

In this section, the term "rate" refers to the charges associated with the entire circuit covered by a TDP. Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP. If a Telephone Company initiated rate increase causes a customer's rates to **increase by 10% or more at any one time**, the customer may cancel the TDP without incurring termination liability charges. (C)

**(I)** Extension of TDP Commitment Period (T)

TDP commitment periods can be extended by the customer at any time during the term of the plan, up to a maximum of **5 years**. The number of months accrued in the current plan will apply toward the new plan selected. For example, a customer having completed 15 months of a **3 year** commitment can extend the commitment to **5 years** and no additional charges will be assessed. The first payment will be considered the 16th payment under the new **5 year** Plan. (C)

**(J)** Upgrading a TDP Service (C)

When a customer upgrades a Digital Data Service being billed TDP rates to a **DS1** Service, the Digital Data TDP commitment level will be reduced at the customer's request (up to a maximum of 24) and no termination liability charge will apply. If the same customer has a TDP for **DS1** Service, the **DS1** Service TDP commitment level will be increased if the customer requests that it be increased. (C)

(G) Rate Changes

In this section, the term "rate" refers to the charges associated with the entire circuit covered by a TDP. Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP. If a Telephone Company initiated rate increase causes a customer's rates to exceed the original rates in effect at the beginning of the TDP, the customer may cancel the TDP without incurring termination liability charges.

(H) Extension of TDP Commitment Period

TDP commitment periods can be extended by the customer at any time during the term of the plan, up to a maximum of 84 months. The number of months accrued in the current plan will apply toward the new plan selected. For example, a customer having completed 15 months of a 20-month commitment can extend the commitment to 30 months and no additional charges will be assessed. The first payment will be considered the 16th payment under the new 30-month Plan.

(I) Upgrading a TDP Service

When a customer upgrades a Digital Data Service being billed TDP rates to High Capacity Service, the Digital Data TDP commitment level will be reduced at the customer's request (up to a maximum of 24) and no termination liability charge will apply. If the same customer has a TDP for High Capacity Service the High Capacity Service TDP commitment level will be increased if the customer requests that it be increased. (T) (T) (T) (T) (T)

ACCESS SERVICE

8. Billing and Collection Services

The Telephone Company will provide the following Billing and Collection Services:

- (A) Recording and Message Processing Service,
- (B) Bill Processing Service,
- (C) Billing Analysis Service, and
- (D) Billing Information Service.

8.1 Recording and Message Processing Service

The Telephone Company will provide Recording and Message Processing Service in association with the offering of Feature Groups C and D Switched Access Service for customer messages that can be recorded by Telephone Company provided automatic message accounting equipment or that are chargeable to a customer's end users located within the operating territory of the Telephone Company. In addition, where the Telephone Company provides operator service and records the customer messages on manual tickets, the Telephone Company will provide Recording and Message Processing Service for the manual tickets. Further, at the request of a customer and when technically capable, the Telephone Company will provide Recording and Message Processing Service in association with Feature Group A Switched Access service offerings.

The Telephone Company will provide Recording and Message Processing Service in its operating territory. The minimum territory for which the telephone Company will provide Recording and Message Processing Service is that served by all appropriately equipped offices in a state operating territory for which the customer has ordered Feature Group A, C, or D Switched Access Service.

The term "customer message" used herein denotes a completed call originated by or chargeable to a customer's end user. An originating customer message begins when answer supervision from the premises of the ordering customer is received by Telephone Company recording equipment indicating that the called party has answered. An originating customer message ends when disconnect supervision is received by Telephone Company recording equipment from either the premises of the ordering customer or the customer's end user from which the call originated. Chargeable customer message include both originating customer messages or customer messages chargeable to customer's end users, including administrative messages, located within the operating territory of the Telephone Company.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.1 General Description

Recording and Message Processing Service is the recording and transformation of recorded customer call details into rated messages in preparation for billing. Recording and Message Processing Service includes the recording, editing and assembly, rating, and, at the customer's request, provision of rated messages to the customer or other entities.

Recording is the entering on magnetic tape or other acceptable media the details of customer messages originated through Switched Access Service for which appropriate answer and disconnect supervision has been received. Recording is provided 24 hours a day, 7 days a week.

Editing and assembly is the aggregation of the recorded customer message details to create individual messages and the verification that the data required for rating, in accordance with the standard format established by the Telephone Company, is present.

Rating (message processing) of customer messages is the computing of applicable charges for each customer message based on the customer provided schedule of rates. Rating also includes the preparation of customer message detail for input to Bill Processing Service, the customer, or other entities.

Further, rating is always performed and editing may be performed coincident with the implementation of a change in the customer's schedule of rates.

Message Provisioning is the processing required to generate message detail in a format mutually agreeable to the customers, the verification that all data required for input into the customers processing is available and the establishment of all processes and controls required to provision this message detail to the customers.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.1 General Description (Cont'd)

Provision of customer message detail is the provision of magnetic tapes containing the rated customer message detail and when requested by the customer and agreed to by the Telephone Company, transferring or data transmitting the rated customer message detail to the customer. Except for lost or damaged records, the recorded detail will be available to the customer not more than five business days after the date all the detail requested by the customer was processed by the Telephone Company.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.2 Undertaking of the Telephone Company

- (A) The Telephone Company will record all customer messages carried over Feature Groups C and D Switched Access Service that are available to Telephone Company provided recording equipment or operators. Unavailable customer messages (i.e., certain Feature Group C operator and TSPS messages) will not be recorded. The recording equipment will be provided at locations selected by the Telephone Company. Editing and assembly, and rating will be performed on all customer messages recorded during the billing period established by the Telephone Company.
- (B) A standard format for the provision of the rated customer message detail will be established by the Telephone Company and provided to the customer. If, in the course of Telephone Company business, it is necessary to change the format, the Telephone Company will notify the involved customers six months prior to the change.
- (C) At the request of the customer and, to the extent possible, the sorting of customer's messages and customer name and address will be provided as set forth in 8.4 following. Where address information is not available in the Telephone Company data base or not readily available as a function of message recording, the Telephone Company will work cooperatively with the customer to provide the necessary detail.
- (D) Rated customer message detail will be provided to a customer as set forth in (N) and (O) following. The Telephone Company will determine the number of magnetic tapes or data files required to provide the rated message detail to the customer.

ISSUED:

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.2 Undertaking of the Telephone Company (Cont'd)

(E) At the request of a customer, magnetic tapes containing the rated customer message details will be provided to the customer as part of Recording and Message Processing Service. The Telephone Company will supply the magnetic tapes. Unless specified otherwise by the customer, the magnetic tapes will be sent to the customer via first class U.S. Mail Service. However, the customer may pick up the magnetic tapes at a location designated by the Telephone Company or request that the detail on the magnetic tapes or in a data file be data-transmitted to the customer. When the rated customer message details are data-transmitted to a customer premises, the data transmission charges will be determined on an individual case basis. When the customer does not wish to receive the rated customer message details, and the Telephone Company receives notice from the customer at least two weeks prior to the date the details would be sent to the customer, the charge as set forth in 8.1.7(B) and (C) following does not apply.

Rated customer message detail will be provided in a format similar to that used by the Telephone Company as input to Bill Processing Service. All rated customer message detail available to the Telephone Company will be provided to the customer.

(F) At the customer's request, the Telephone Company will make every reasonable effort to recover rated customer message detail previously made available to the customer, and make it available again for the customer. The charges as set forth in 8.1.7(B), (C), (N) or (O) following will apply for all such detail provided. Such requests must be made within a period of time as mutually agreed to by the Telephone Company and a customer.

(G) The Telephone Company will provide Recording and Message Processing Service for customer messages recorded within or chargeable to customer's end users located within the operating territory of the Telephone Company.

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

## ACCESS SERVICE

8. Billing and Collection Services (Cont'd)8.1 Recording and Message Processing Service (Cont'd)8.1.2 Undertaking of the Telephone Company (Cont'd)

- (H) A record of customer call details is required to provide Recording and Message Processing Service. Where the customer provides the call details, the records must be in the standard format established by the Telephone Company. If the customer provided records must be converted by the Telephone Company to the standard format, and the Telephone Company agrees to make the conversion, the program development charges as set forth in 8.1.7(P) and (Q) following apply for the hours required to design, develop, test and maintain the necessary programs in addition to all other charges for all such details converted by the Telephone Company. The Telephone Company will provide to the customer the precise details of the required standard format. If, in the course of Telephone Company business, it is necessary to change the standard format, the Telephone Company will provide notification to the involved customers six months prior to the change. If the customer requests the customer provided call details be reprocessed by the Telephone Company because of a customer error, the Telephone Company will reprocess the customer provided call details and the appropriate charges as set forth in 8.1.7 following will apply.
- (I) Where the customer subscribes to Bill Processing Service in 8.2 following and the customer provides call details for customer messages not originated within the Telephone Company territory, but chargeable to customer end users located within Telephone Company territory, all applicable Recording and Message Processing charges as set forth in 8.1.7 following apply.
- (J) Upon acceptance by the Telephone Company of a Special Order for Recording and Message Processing Service from a customer, the Telephone Company will determine the period of time to implement such service on an individual order basis.
- (K) If the Telephone Company must develop the customer's schedule of rates into a rating program, program development charges, as set forth in 8.1.7(P) and (Q) following, apply for the hours required to design, develop, test, and maintain the necessary programs.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.2 Undertaking of the Telephone Company  
(Cont'd)

- (L) Changes in the rate levels of customer charges to be billed will normally be implemented within 30 days after receipt of a Special Order from the customer requesting such changes. Such changes will require modifications of the rating program. Program development charges, as set forth in 8.1.7(P) and (Q) following, apply for the hours required to design, develop, test, and maintain the necessary program changes. If any customer message detail must be reprocessed in order to apply the rate changes, the appropriate message processing charges as set forth in 8.1.7(A), (F) and (G) following apply for all customer messages reprocessed.
- (M) Changes in the rate structure for customer services to be billed also require a change in the rating program. When the Telephone Company determines that it can accommodate the changes, the conditions and the period of time required to make such changes will be determined on an individual order basis. Program development charges, as set forth in 8.1.7(P) and (Q) following, apply for the hours required to design, develop, test, and maintain the necessary program changes. If any customer message detail must be reprocessed in order to apply the rate changes, the appropriate message processing charges as set forth in 8.1.7(F) and (G) following apply for all customer messages reprocessed.
- (N) Where the Telephone Company has rated customer messages which are to be billed to an end user by another Exchange Telephone Company, the Telephone Company will enter the messages on magnetic tape or data file which can be used for data transmission of the details. When the customer has so arranged with an involved Exchange Telephone Company, the Telephone Company will deliver the rated message details to the other Exchange Telephone Company for billing to end users in its operating territories via first class U.S. Mail Service. When the customer does not have billing arrangements with an Exchange Telephone Company, rated messages for billing to the end users of such an Exchange Telephone Company will be delivered to the customer. The Recording and Message Processing charges as set forth

8.1.2 Undertaking of the Telephone Company (Cont'd)

(N) (Cont'd)

in 8.1.7(A) through (I) following apply to rated messages that are delivered to the customer. The charges as set forth in 8.1.7(N) and (O) following apply if the message details are transferred or data-transmitted to a location designated by the customer and the charges set forth in 8.1.7(J) through (M) apply if transferred or transmitted to other Exchange Telephone Company locations. When the customer message details are data-transmitted to the customer location, the data transmission charges will be determined on an individual case basis. Program development charges as set forth in 8.1.7(P) and (Q) following apply for the hours required to design, develop, test, and maintain any necessary programs.

(O) Where the rates for customer services have been implemented under an accounting order pending final approval from a regulatory agency, the Telephone Company will, upon written request from the customer, keep such records as may be required to make any adjustments to the end users as may be ordered by the regulatory agency. The charges for such a service will be determined on an individual case basis.

(P) Customer messages which the Telephone Company processes that cannot be rated in accordance with the customer rate schedule will be reviewed by Telephone Company message investigation groups. Upon completion of the review, rated customer messages will be delivered to the customer when the customer orders such service or to Bill Processing Service when the customer orders such service. Unrated messages will be handled in accordance with instructions that have been mutually determined by the Telephone Company and the customer. At the request of the customer, the unrated customer messages will be reviewed for unauthorized use of the customer service by Telephone Company message investigation groups for a period of up to 90 days after the customer message was processed. The appropriate charges, as set forth in 8.1.7 following, will apply.

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.3 Liability of the Telephone Company

Notwithstanding 2.1.3 preceding, the Telephone Company liability for Recording and Message Processing Service is as follows:

(A) If rated customer message detail is not available because the Telephone Company lost or damaged tapes or incurred recording or processing system outages, the Telephone Company will attempt to recover the lost customer message detail. If the lost customer detail cannot be recovered, the Telephone Company will estimate the volume of lost customer messages and associated revenue based on previously known values. This estimated customer message volume will be included along with the customer message detail provided to the customer and/or provided for Bill Processing Service. Appropriate credit adjustments will be made to the customer amounts due to account for the unbillable revenue.

(B) When the Telephone Company is notified that, due to error or omission, incomplete data have been provided to a customer, the Telephone Company will make every reasonable effort to locate and/or recover the data at no additional charge. Such request to recover the data must be made within 30 days from the date the rated message details were initially made available to the customer.

(C) In the absence of gross negligence or willful misconduct, no liability for damages to the customer or other person other than that set forth in (A) or (B) preceding shall attach to the Telephone Company.

8.1.4 Obligations of the Customer

(A) The Customer shall order Recording and Message Processing Services (rating) under a Special Order for each state where service is desired. The minimum period for which Recording and Message Processing Service is provided is one month for each state in which the service is ordered.

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.4 Obligations of the Customer (Cont'd)

- (B) When Recording and Message Processing Service is ordered, the customer shall furnish the Telephone Company, for each state and for the period covered by the order, an estimate of the number of messages (message capacity), including those messages which may be bulk billed, to be processed. When Recording and Message Processing Service is ordered for more than one month, the customer shall furnish the Telephone Company message capacity estimates by calendar month.
- (C) The customer shall order provision of rated customer message detail at least one month prior to the date when the message detail is to be processed if it wishes to receive the rated customer message detail.
- (D) The premises of the ordering customer shall provide such signals as may be required for the proper operation of the Telephone Company's automatic message accounting equipment used to perform the detail recordings.
- (E) When rated customer messages are to be billed by an entity other than the Telephone Company, the customer shall furnish written instructions as to how the rated customer messages are to be provided to that other entity. If the customer does not furnish complete instructions, all resulting unbillable messages will be delivered to the customer. The instructions shall be furnished by the customer in a timely manner.

8. Billing and Collection Services (Cont'd)

8.1 Recording and Message Processing Service (Cont'd)

8.1.4 Obligations of the Customer (Cont'd)

(F) The customer shall furnish to the Telephone Company a written schedule of its rates and charges in sufficient time to allow the Telephone Company to establish a rating program. The customer's rate structure must be consistent with established Telephone Company rating methodologies. The interval required to establish a rating program must be mutually agreeable to the Telephone Company and the customer.

(G) When the customer furnishes customer detail for Recording and Message Processing Service, it shall retain a copy of the detail furnished for at least 90 days.

8.1.5 Payment Arrangements and Audit Provision

(A) Audit Provision

Upon reasonable written notice by the customer to the Telephone Company, the customer shall have the right through its authorized representative, to examine and audit, during normal business hours and at reasonable intervals as determined by the Telephone Company, all such records and accounts as may under recognized accounting practices contain information bearing upon the amount payable to the customer. Adjustments shall be made by the proper party to compensate for any errors or omissions disclosed by such examination or audit. Neither such right to examine and audit nor the right to receive such adjustment shall be affected by any statement to the contrary, appearing on checks or otherwise, unless such

statement expressly waiving such right appears in a letter, signed by the authorized representative of the party having such right and delivered to the other party.

Any information received or reviewed by the customer or its authorized representative during the audit is to be considered confidential and is not to be distributed, provided, or disclosed in any form to anyone not involved in the audit, nor is such information to be used for any other purpose.

(B) Subscription Period

The subscription period for which Recording and Message Processing Service is provided and for which charges apply is one month or longer.

If the service is discontinued prior to the end of the period ordered, monthly charges as specified in (C) following, apply.

(C) Minimum Monthly Charges

Recording and Message Processing Service is subject to minimum monthly charges. The minimum monthly charges are the product of the monthly message capacity as furnished by the customer as set forth in 8.1.4(B) preceding and the Recording, Editing and Assembly, and Rating Charge rate times 0.5 for each month of the period ordered.

8.1 Recording and Message Processing Service (Cont'd)

8.1.5 Payment Arrangements and Audit Provision  
(Cont'd)

(D) Cancellation of a Special Order

A customer may cancel a Special Order for Recording and Message Processing Service prior to the date the Telephone Company is scheduled to enter the initial order details into its order distribution system, and no charges will apply. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be canceled. The verbal notice must be followed by written confirmation within ten days.

When a customer cancels a Special Order for Recording and Message Processing Service after the date the Telephone Company is scheduled to enter the initial order details into its order distribution system, the minimum period charges will apply.

(E) Changes to Special Orders

When a customer requests material changes to a pending Special Order for Recording and Message Processing Service, the pending Special Order will be canceled and the requested changes will be undertaken if the changes can be accommodated by the Telephone Company under a new Special Order. Material changes to a pending Special Order include changes in the location and/or number of Telephone Company recording locations, provision of data transmission to a customer location of customer recorded message detail, and changes in schedules, dates or intervals for receipt of customer recorded message detail. When a customer requests non-material changes to a pending Special Order, the changes will be incorporated into the pending Order if the Telephone Company can accommodate the request. Non-material changes to a pending Special Order include changes in customer name, customer address and customer requests to receive Recording Service output at the Telephone Company location

(Cont'd)

(E) Changes to Special Orders (Cont'd)  
instead of through U.S. Mail. All  
cancellation charges as set forth in (D)  
preceding will apply to canceled Special  
Orders.

8.1.6 Rate Regulations

(A) The Recording and Message Processing Service  
charges for recording, editing and assembly,  
and rating apply per message rated whether  
or not the customer's schedule of rates  
specifies billing on a per message basis or  
any other basis.

(B) During any monthly period in which the  
actual messages rated exceeds by 50% the  
message capacity ordered for that month, the  
additional rating charge applies to all  
messages exceeding the message capacity  
ordered.

(C) When message detail is transferred or  
transmitted to or received from an Exchange  
Telephone Company location by the Telephone  
Company, a charge as set forth in 8.1.7(J)  
through (M) following, on a per record basis  
will apply. Also, a per tape charge applies  
for each tape as set forth in 8.1.7(I). A  
record is a logical grouping of information  
as described in the program that processes  
the information and loads the magnetic tape  
or data file used to supply the message  
detail which is transmitted or received.  
The Telephone Company will determine this  
charge based on its count of the records  
transmitted.

(D) When message detail is entered on a data  
file or magnetic tape for provision of  
message detail to a customer, the per tape  
charge applies for each data file or tape  
prepared, and the per record charge applies  
for each detail record entered on the data  
file or tape. The Telephone Company will  
determine the charges based on the number of  
data files or magnetic tapes prepared and on  
its count of the records entered thereon.

8.2 Billing Service

At the request of a customer, the Telephone Company (C)  
with reasonable notice and reasonable effort will  
provide Billing Service.

The Telephone Company will provide Billing Service in (C)  
its operating territory. The minimum territory for  
which the Telephone Company will provide Billing  
Service is its state operating territory when the  
Telephone Company supplies the input records at the  
customer's request. When the customer supplies the  
input records, the Telephone Company will process the  
input records supplied by the customer as set forth in  
8.2.1 following.

The Telephone Company will provide Billing Service  
only on the condition that it purchase the accounts  
receivable, if any, from the customer as set forth in  
8.2.2 following.

The Telephone Company will not render bills under this  
tariff for the provision and/or delivery of telegrams,  
flowers, gifts, wine or other like services that a  
customer offers.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.2 Billing Service (Cont'd)

8.2.1 Bill Processing Service (Cont'd)

(A) General Description

Bill Processing Service is the preparation of bills for message-billed service and bulk billed service, mailing of statements of the amounts due for services received from the customer and the collection of monies due from the end users. Bill Processing Service options include: Message-billed and bulk-billed account establishment, posting of rated messages and rate elements, rendering of bills, collection of monies, message inquiry, inquiry support service, receiving payments, maintenance of accounts, treatment of accounts, message investigation, bill messaging, bill insertion and record keeping, manual exchange carrier (EC) memo, mechanized exchange carrier (EC) memo, pre-billing message investigation, bill inquiry & collection (BAC) interface, billed revenue marketing information system (BRMIS) interface, and market analysis of revenue and customers (MARC) interface.

- (1) Message-Billed service is a billing service for an end user account where individual customer messages are posted to the account and are listed on the bill rendered to the end user.
- (2) Bulk-Billed service is a billing service for an end user account with a WATS Access Line or WATS-type Access Line where individual customer messages are not posted to the account and are not listed on the bill rendered to the end user.

A Bulk-Billed billing item is one unit of billable charges of the customer Bulk-Billed service offerings, such as each individually rated service or equipment components, or access lines, on a recurring or nonrecurring basis, which are separately identified on the end user bill.

8. Billing and Collection Services (Cont'd)

8.2 Billing Service (Cont'd)

8.2.1 Bill Processing Service (Cont'd)

(A) General Description (Cont'd)

- (3) Posting of rated messages is the processing for billing of rated messages. Application of appropriate customer rates and charges to all such rate elements is also included when requested by the customer. The rating may be performed by the Telephone Company, another entity or the customer.
- (4) Rendering of bills is the preparation and mail-ing of statements of the deposits and amounts due from the end user for customer message-billed and bulk-billed services. These state-ments may, at Telephone Company choice, be included as part of the regular monthly bill for local telephone exchange service mailed to the end user.
- (5) Account establishment is the preparation of a customer's end user record so that a bill can be sent to that end user.
- (6) Message inquiry is the answering of end user questions about charges billed for customer services and applications of credits and adjust-ments to end user ac-counts and review of customer messages removed from an end user's bill.
- (7) Inquiry Support service is the answering of questions from and providing investigative support to the customer's service centers, as well as providing for the proper application of credits and adjustments to the customer's end user accounts.
- (8) Manual Exchange Carrier (EC) memo is a document provided by the customer which gives the Tele-phone Company authority to establish or alter billing information on the customer end user accounts, i.e., set up billing for calling plans, credit cards, adjust old denied toll from customer accounts.

8.2.1 Bill Processing Service (Cont'd)

(A) General Description (Cont'd)

(14) Bill Messaging is customer provided information that printed to the customer end users bill page. Bill messages will only appear on end user's bill pages where charges have been incurred for the current month. The customer is responsible for delivering the Bill Message information in the form in which it is to be printed to the location specified by the Telephone Company. Bill Messaging is comprised of the following message types:

(a) Marketing Message is the printing of the customer provided message in the Customer Information Area of the customer's end user bill.

(b) Comparative Messaging is the printing of customer provided information in other areas of the customer's end user bill.

(15) Bill Insert is the inclusion of customer provided information into the customer's end user bill mailings.

(16) Record Keeping is the updating and retention of customer accounts established by telephone companies for a customer. This service will be provided for all customers for which the Telephone Company provides Bill Rendering service to a customer.

(17) Billing Inquiry and Collection (BAC) Interface is the transmission of data to the IC for customers who receive bills from the Telephone Company for the IC's services or products.

In addition, the Telephone Company will, in accordance with Telephone Company deposit regulations, determine and collect a deposit from the end user for the customer service. The Telephone Company will, when necessary in accordance with the Telephone Company deposit regulations, determine and collect the service deposit when an end user account is established or for established accounts when the first customer message is posted to the end user account.

The Telephone Company will, when necessary in accordance with the Telephone Company deposit regulations, maintain a deposit balance for each end user account. Service deposits will not be maintained by individual customer accounts but will be maintained for the end user account in general. The Telephone Company will provide the customer a copy of its service deposit regulations upon request from the customer.

(2) The Telephone Company will provide Bill Processing Service for message-billed service, bulk-billed service and related rate elements which are posted to end user accounts located within the operating territory of the Telephone Company only. The Telephone Company will separate the rated customer messages into a message-billed group and a bulk-billed group for application of rates as set forth in 8.2.1(G) following.

(3) Rated customer messages are required to provide Bill Processing Service. If the customer subscribes to Recording and Message Processing Service as set forth in 8.1 preceding, the rated customer messages may be used as the input. If the customer provides the rated customer messages, those customer messages must be in

the standard format established by the Telephone Company. Such customer provided rated message data must identify the end user account to be billed. If the customer provided rated messages must be converted by the Telephone Company to the standard format and the Telephone Company agrees to make the conversion, program development charges as set forth in 8.2.1(G)(17) and (18) following apply for the hours required to design, develop, test and maintain the necessary programs. The recording, editing and assembly, and rating charges, as set forth in 8.1.7(A), (F) and (G) preceding, applies in addition to all other charges for rated customer messages converted by the Telephone Company. The Telephone Company will provide to the customer the precise details of the required format. If, in the course of Telephone Company business, it is necessary to change the format, the Telephone Company will notify the involved customers six months prior to the change. If the customer requests the customer provided rated messages be reprocessed by the Telephone Company because of a customer error, the Telephone Company will reprocess the customer provided rated messages and the appropriate charges as set forth in 8.2.1(G) following will apply.

(4) For end user accounts in its operating territory where the customer has ordered Bill Processing Service, the Telephone Company will bill all rated customer messages provided by the customer. The bill format will be determined by the Telephone Company.

(C) Liability of the Telephone Company (Cont'd)

(4) In the absence of gross negligence or willful misconduct, no liability for damages to the customer or other person or entity other than that as set forth in (1), (2) and (3) preceding shall attach to the Telephone Company.

(D) Obligations of the Customer

(1) The customer shall order Bill Processing Services under a Special Order for each state where service is desired. The customer shall be responsible for all balances due from end users that exist prior to ordering Bill Processing Service.

At the time Bill Processing Service is initially ordered, the customer shall order the service for a minimum of 18 calendar months. There-after, upon six months' written notice, additional service may be ordered for one calendar year at the rates and charges as set forth in 8.2.1(G) following. Not later than six months prior to the end of an order period, the customer shall notify the Telephone Company in writing if any service is to be discontinued at the end of the period. If no notice is received from the customer, the Telephone Company will automatically extend the services for another calendar year, using the most recent 12 months of capacity provided. The customer will be notified by the Telephone Company when such an extension is made. All appropriate charges, as set forth in 8.2.1(G) following, for another year will apply and the minimum charges will be based on the most recent 12 months of message capacity and/or bill capacity provided.

(2) When Bill Processing Service is ordered, the customer shall furnish the Telephone Company, for each state and for the calendar year or fraction thereof, an

estimate of the number of messages (message capacity), including those messages which will be bulk-billed, to be processed. The customer, at its option, may order additional message capacity required to bill the additional messages subject to the subscription period of service of one full calendar year (at the additional level of capacity ordered).

In addition, when Bill Processing Service is ordered, the customer shall furnish the Telephone Company, for each state and for each calendar year or fraction thereof, an estimate of the number of end user bills (bill capacity) for which billing is to be provided.

(3) The customer shall furnish all information necessary for the Telephone Company to provide the Bill Processing Service, including any per month service charges applicable to an end user and an affidavit that states whether the customer service is subject to any Federal taxes and/or State taxes.

(4) Reserved For Future Use

(5) The customer shall be responsible for all contact and arrangements, including customer deposits and prior customer balances due from end users, with its end users concerning the provision and maintenance of the customer's service.

(6) The customer shall furnish to the Telephone Company written instructions, which are agreeable to the Telephone Company, for the handling of end user questions about bills.

(7) The customer will immediately redeem all customer gift certificates the Telephone Company receives in payment for end user charges. The customer agrees to use a gift certificate format which is agreeable to the Telephone Company.

(8) When the customer furnishes recorded and/or rated customer message detail for Bill Processing Service, it shall be responsible to deliver the detail to the location specified by the Telephone Company and it shall retain a copy of the detail furnished for at least 90 days.

(9) The customer agrees to permit the Telephone Company to, when necessary in accordance with Telephone Company deposit regulations, determine and collect customer service deposits from all end users of the customer's services for which the Telephone Company provides billing for the customer. The customer will notify its end users through its tariffs or other means that the Telephone Company will collect customer service deposits. The customer will also include in its tariff and service arrangements and obtain regulatory concurrence for the Telephone Company deposit regulations that the Telephone Company will use to collect end user service deposits.

(E) Payment Arrangements and Audit Provision

(1) Audit Provision

Upon written notice by the customer to the Telephone Company, the customer shall have the right, through its authorized representative, to examine and audit, during normal business hours and at reasonable intervals determined by the Telephone Company, all such records and accounts as may under recognized accounting

practices contain information bearing upon the amount payable to the customer. Adjustment shall be made by the proper party to compensate for any errors or omissions disclosed by such examination or audit. Neither such right to examine and audit nor the right to receive such adjustment shall be affected by any statement to the contrary, appearing on checks or otherwise, unless such statement expressly waiving such right appears in a letter signed by the authorized representative of the party having such right and delivered to the other party.

Any information received or reviewed by the customer or its authorized representative during the audit is to be considered confidential and not to be distributed, provided or disclosed in any form to anyone not involved in the audit, nor is such information to be used for any other purpose.

(2) Subscription Period

The subscription period for which Bill Processing Service is provided and for which charges apply is 18 months. If the customer orders Bill Processing Service to begin on other than January 1, the subscription period expires one year from the subscription date.

If the service is discontinued prior to the end of the period ordered, monthly charges as specified in (3) following apply for each remaining month and fraction of a month.

(Cont'd)

(3) Minimum Monthly Charges

Bill Processing Service is subject to minimum monthly charges. For message-billed service processing, the minimum monthly charge is the product of one-twelfth of the largest message capacity per calendar year, or annualized for fractions of a year, furnished by the customer as set forth in (D)(2) preceding and the message-billed service processing rate times 0.5 for each month of the period ordered. For invoice billing and collection processing, the minimum monthly charge is the product of one-twelfth of the largest bill capacity per calendar year, or annualized for fractions of a year, furnished by the customer as set forth in (D)(2) preceding and the invoice billing and collection processing rate times .75.

(4) Cancellation of a Special Order

A customer may cancel a Special Order for Bill Processing Service prior to the date the Telephone Company is scheduled to enter the initial order details into its order distribution system, and no charges will apply. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be canceled. The verbal notice must be followed by written confirmation within ten days.

When a customer cancels a Special Order for Bill Processing Service after the date the Telephone Company is scheduled to enter the initial order details into its

order distribution system, but prior to the start of service, a charge equal to the program development costs and any nonrecoverable capital costs incurred by the Telephone Company will apply to the customer.

(5) Changes to Special Orders  
When a customer requests changes to a pending Special Order for Bill Processing Service, such changes will be undertaken if they can be accommodated by the Telephone Company. A charge equal to any costs incurred by the Telephone Company because of the change will apply.

(F) Rate Regulations

(1) The Bill Processing Service message charges apply to all messages billed by the Telephone Company. For the purpose of determining the charges applicable to bulk-billed service for Bill Processing Service, a bulk-billed message is a customer message which is used by the Telephone Company to develop the customer bulk-billed charge.

(2) During any monthly period in which the actual customer messages or invoices billed exceeds by 50% of one-twelfth of the capacity ordered by the customer, additional charges apply. For message-billed service processing, the additional message-billed service processing charge applies to all messages exceeding one-twelfth of the message capacity ordered. For invoice billing and collection processing, the additional invoice billing and collection processing charge applies to all invoices exceeding one-twelfth of the bill capacity ordered.

(2) (Cont'd)

The customer, at its option, may order additional message or bill capacity required to bill the additional messages subject to the subscription period and minimum monthly charges as set forth in (E)(2) and (E)(3) preceding.

(3) The invoice billing and collection processing message-billed service charge applies each month that one or more messages or related rate elements are billed to an end user. When both interstate and state customer messages are billed by the Telephone Company to the end user on the same bill for the customer, the invoice billing and collection processing-message-billed service charge times 0.5 applies each month.

(4) An invoice billing and collection processing bulk-billed service charge applies each month that one or more bulk-billed charges are billed to an end user. When both interstate and state customer bulk-billed charges are billed by the Telephone Company to the end user on the same bill for the customer, the invoice billing and collection processing bulk-billed service charge times 0.5 applies each month.

(5) The end user account activity charge applies whenever an end user account is established or changed pursuant to a customer order or whenever a nonrecurring or recurring customer rate element is added or changed in the account.

An end user account is a record for message-billed service or a bulk-billed service which has a unique name and address and billing identification number, assigned by the Telephone Company, to which a bill is rendered.

- (6) The basic per hour rate and the premium per hour rate for program development is for the use of one hour of one Telephone Company programmer's time.
- (7) The Telephone Company will keep a count of the hours and fraction thereof used by Telephone Company personnel to provide program development and will bill the customer in accordance with these records. The hours for each service ordered will be summed and then rounded to the nearest hour, except that when the total is less than one hour, one hour will be used to determine the charges.
- (8) The Marketing Message charge applies for all invoices processed by the Telephone Company, whether they are included on the invoice or not.
- (9) In the event the carrier requests data for Message Investigation that has previously been successfully provided by the Telephone Company, the data will be provided at a charge.

8.2 Billing Service (Cont'd)

8.2.2 Purchase of Accounts Receivable (Cont'd)

The Telephone Company's purchase of a customer's accounts receivable shall be with recourse adjustments as set forth in (B) following to account for amounts due the customer that the Telephone Company is unable to collect from the end users which use the customer's services. The amounts due the customer for the purchase of its accounts receivable will be determined as follows:

(A) Total Current Amount Billed

The Telephone Company for each end user bill day (i.e., the billing date on a bill for an end user of a customer's service) will determine from its records the total current amount lawfully billed to the customer's end users for customer services, including all taxes applicable to such services. A Total Current Amount Billed will be determined for each customer for each end user bill day.

(B) Recourse Adjustments

For each bill day, the Telephone Company will make recourse adjustments to the Total Current Amount Billed as follows:

(1) End User Adjustments

For each bill day, the Telephone Company will subtract from the Total Current Amount Billed the lawfully billed amounts which the Telephone Company removes from end users balances due in accordance with customer inquiry instructions. In addition, under terms mutually agreed to by both the customer and the

(B) Recourse Adjustments (Cont'd)

(1) End User Adjustments (Cont'd)

Telephone Company, the Telephone Company may subtract from the Total Current Amount Billed an amount that equals the face value of any customer gift certificates (or its predecessor company's gift certificates) the Telephone Company has in its possession. The customer gift certificates the Telephone Company possesses will be returned to the customer.

(2)

Telephone Company and Customer Adjustments

For each bill day, the Telephone Company may make adjustments to the Total Current Amount Billed to account for amounts on statements received from the customer for additions or subtractions to an end user balance due for services billed in prior periods. Also, each bill day, the Telephone Company may make adjustments to the Total Current Amount Billed to account for additions and subtractions for customer or Telephone Company prior billing period errors.

(3) Uncollectible Adjustments

For each bill day, the Telephone Company will subtract from the Total Current Amount Billed an amount for uncollectibles. Uncollectibles are amounts billed by the Telephone Company to end users that are unpaid and have been added to the uncollectible accounts of the Telephone Company. The Telephone Company will perform periodic studies to adjust the customer uncollectible factor for end user payment experience.

8.2.2 Purchase of Accounts Receivable (Cont'd)

(C) Payments of Net Purchase Amount to the Customer

(1) The Telephone Company will purchase accounts receivable from the customer on each end user bill day for an amount (purchase amount) which equals the Total Current Amount Billed as set forth in (A) preceding after known adjustments as set forth in (B) preceding have been made. On the date (payment date) determined by adding 31 days to the end user bill day, except as provided herein, the Telephone Company will remit payment to the customer for the purchase amount less additional adjustments as set forth in (B)(1) and (B)(2) preceding (net purchase amount) received by the Telephone Company prior to the payment date. Payment will be made in immediately available funds. If such payment date would cause payment to be due on a Saturday, Sunday or National Holiday (i.e., New Year's Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, the second Tuesday in November and a day when Washington's Birthday, Memorial Day or Columbus Day is legally observed), payment for the net purchase amount will be due to the customer as follows:

If such payment date falls on a Sunday or on a Holiday which is observed on a Monday, the payment date shall be the first non-Holiday day following such Sunday or Holiday. If such payment date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday or Friday, the payment date shall be the last non-Holiday day preceding such Saturday or Holiday.

(2) Also, if any adjustment that reduces an end user balance due is received by the Telephone Company from the customer after the date the Telephone Company billed the charges to be adjusted to the end user plus 31 days (billed plus date), then a late payment penalty shall be due the Telephone Company. The late payment penalty shall be the adjustment amount times a late factor. The late factor shall be the lesser of:

8.2 Billing Service (Cont'd)

8.2.2 Purchase of Accounts Receivable (Cont'd)

Upon request from the customer, the Telephone Company will provide a copy of its methods and procedures used to determine the amounts named in this section (i.e., 8.2.2 Purchase of Accounts Receivable) to the authorized representative of the customer who is responsible for auditing these amounts.

8.3 Billing Analysis Service

At the request of a customer, the Telephone Company upon reasonable notice and with reasonable effort will provide Billing Analysis Service for detection, investigation and deterrence of billing evasion activities.

The term "billing evasion activities" used herein denotes Message Billing Abuse and/or Network Abuse. Such abuse is the use of an access line (e.g., end user line or trunk, Pay Telephone line or other access line or trunk provided by the Telephone Company) where there is intent to circumvent or evade the proper charges in whole or in part for use of telecommunications services over the access line, or to conceal the points of origin or termination of telecommunications services.

Such activities include bypass or circumvention of Telephone Company billing equipment, unauthorized use of Telephone Company and customer service offerings, and unauthorized use of Telephone Company facilities.

8.3.1 General Description

Billing Analysis Service is the provision of detection, investigation and deterrence of billing evasion activities.

Detection is the provision of equipment by the Telephone Company to identify and collect information on Network Abuse. Such equipment may be located in Telephone Company premises or offices or may be attached to access lines.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.3 Billing Analysis Service (Cont'd)

8.3.1 General Description (Cont'd)

Investigation is the provision of investigative services to collect evidence to document that billing evasion activities are occurring, prepare reports, preserve evidence and supply expert witness analysis and testimony. Investigation also includes provision of services to coordinate the investigative activities between Exchange Telephone Companies and/or law enforcement agencies.

Deterrence is the contacting and interviewing of parties identified in billing evasion activities, the recovery of devices or materials used in billing evasion activities (where legally permitted), the service review for possible suspension of service over access lines identified in billing evasion activities and publicity assistance in publicizing billing evasion deterrence.

8.3.2 Undertaking of the Telephone Company

(A) When Billing Analysis Service is ordered under a Special Order by an authorized Security representative of the customer the Telephone Company will provide any one or all of the services as set forth in (B) through (D) following at rates and charges as set forth in 8.3.7 following.

(B) Detection Service will be provided for Network Abuse at any central office switch equipped to recognize and record irregular key pulse and multi-frequency signals upon receipt of a Special Order from a customer specifying the central office where detection service is requested. Subject to the agreement of the Telephone Company, special construction for the provision of central office equipment to recognize and record irregular key pulse and multi-frequency signals may be undertaken at the request of the authorized Security representative of the customer to meet the needs of the customer. Such special construction will be provided as set forth in Section 14. of this tariff.

8. Billing and Collection Services (Cont'd)

8.3 Billing Analysis Service (Cont'd)

8.3.2 Undertaking of the Telephone Company (Cont'd)

(C) (Cont'd)

The Telephone Company will, at the request of the customer, provide investigation service on a premium time basis. When investigation service is provided on such a basis, premium time charges apply.

(D) Deterrence services will be provided at any location in the operating territory of the Telephone Company that Telephone Company Security personnel can safely and legally enter. Deterrence services will be provided, at the request of the authorized Security representative of the customer, by written or tele-phonc notice. A telephone notice received from the authorized Security representative of the customer, must be followed by written confirmation within one day. Deterrence services will be provided only after an investigation service has been provided by the Telephone Company and billing evasion activity is found to warrant such actions. Deterrence service includes the contacting and interviewing of parties identified by the Telephone Company as being involved in billing evasion activities, the recovery of devices and/or materials associated with billing evasion activities, service review for possible suspension of Telephone Company service, and publi-city assistance for publicizing billing evasion activity deterrence.

(1) Contacting and interviewing of parties is the written or verbal notification to, or a face-to-face discussion with, a party or parties by Telephone Company Security personnel in order to deter further billing evasion activities. Contacting and interviewing is provided at loca-tions identified by law enforcement agencies, the customer or the Telephone Company.

(2) Recovery of devices or materials is the attempt by Telephone Company Security personnel to recover devices or materials which are used in association with Telephone Company facilities in billing evasion activities. Such recovery is provided at locations identified by the Tele-phonc Company, law enforcement agencies or the customer.

8.3 Billing Analysis Service (Cont'd)

8.3.2 Undertaking of the Telephone Company (Cont'd)  
(D) (Cont'd)

(3) Service Review for possible suspension of Telephone Company service is the request for authority to suspend service from appropriate Telephone Company officers, notification to the end user that service will be suspended and, after review of the end user response, or lack thereof, suspension of service, if warranted, in the Telephone Company's judgment.

(4) Publicity assistance for publicizing billing evasion activity deterrence is the provision of information and personnel to aid in publicizing billing evasion activity deterrence. The Telephone Company will determine what information it will provide, if any, and will select the per-sonnel and media, if any, to provide this service.

8.3.3 Liability of the Telephone Company  
Notwithstanding 2.1.3 preceding, in the absence of gross negligence or willful misconduct, no liability for damages to the customer or other person or entity shall attach to the Telephone Company for its action or the conduct of its employees in providing Billing Analysis Service.

8.3.4 Obligations of the Customer

(A) The authorized Security representative of the customer shall order all Billing Analysis Service under a Special Order. The authorized Security representative of the customer shall order those Billing Analysis Services it wishes to receive.

(B) With each order, the customer shall designate and identify its authorized Security representative who will be responsible to protect the information and to whom the Billing Analysis Service information will be provided. The customer shall assure and take every effort to make sure the Billing Analysis Service information is provided to and used only by author-ized personnel involved in billing evasion activity matters.

8. Billing and Collection Services (Cont'd)

8.3 Billing Analysis Service (Cont'd)

8.3.4 Obligations of the Customer (Cont'd)

- (C) When Billing Analysis Service Investigation is ordered, the authorized Security representative of the customer shall furnish all known details of the billing evasion activities, including the access lines, parties or messages to be investigated, and shall furnish all necessary end user information it possesses to the Telephone Company Security personnel. The specification of the access line, party or message to be investigated shall be in writing by the authorized Security representative of the customer.
- (D) When law enforcement agencies are to be brought into the investigation, the authorized Security representative of the customer shall secure their participation or authorize the Telephone Company in writing to obtain and coordinate such law enforcement agency participation.
- (E) When evidence collected by the Telephone Company is to be produced in connection with a judicial proceeding, the customer shall notify the Telephone Company of such a requirement in a timely manner.
- (F) When the customer requests that service be suspended for unauthorized use, the customer shall furnish a written request authorized by an officer of the customer. The request shall state the reason for the request and tariff, contract or legal provision permitting such suspension and shall correctly identify the end user, the end user telephone number and the location of the end user service to be suspended.
- (G) All inquiries from the customer's end user concerning services provided under this tariff are to be handled by the customer. Any questions to the Telephone Company shall be made by the authorized Security representative of the customer.
- (H) Except as set forth in 8.3.2(D)(4) preceding, publicizing of actions resulting from services provided under this tariff shall be the responsibility of the customer. The customer shall not publicize that the Telephone Company assisted the customer unless the customer has written permission to do so from the Telephone Company.

8.3 Billing Analysis Service (Cont'd)

8.3.4 Obligations of the Customer (Cont'd)

(I) When the authorized Security representative of the customer orders detection service or a detection and documentation scan of an individual line, it shall specify in writing the offices, lines or parties to be included in the scanning and reports the Telephone Company will provide.

(J) When provision of expert witness analysis is ordered by the customer, the customer shall be responsible for furnishing the evidence to be analyzed.

(K) When provision of expert witness testimony is ordered by the customer, the customer shall include the name, if any, of the Telephone Company expert it desires and when and where the testimony is needed.

8.3.5 Payment Arrangements

(A) Minimum Periods

The minimum period for which Billing Analysis detection service continuous scanning is provided and for which charges apply is one week.

(B) Cancellation of a Special Order

A customer may cancel a Special Order for Billing Analysis Service prior to the date the Telephone Company is scheduled to enter the initial order details into its order distribution system, and no charges will apply.

When a customer cancels a Special Order for Billing Analysis Service after the date the Telephone Company is scheduled to enter the initial order details into its order distribution system but prior to the start of service, a charge equal to expenses incurred shall apply.

8. Billing and Collection Services (Cont'd)

8.4 Billing Information Service

At the request of the customer, the Telephone Company will provide information to the customer from its end user records, billing files and account data base.

8.4.1 General Description

Billing Information Service is the provision of information to the customer from Telephone Company record systems. Such Billing Information Service will be limited to the provision of information to a customer relating exclusively to end user services provided by that customer. Information relating to services provided by any other entity will not be provided.

Information is defined as any entry in the record system which is not listed as proprietary to the Telephone Company. Any entry listed as proprietary to the Telephone Company will not be provided.

8.4.2 Undertaking of the Telephone Company

(A) When Billing Information Service is ordered by the customer, the Telephone Company will provide information on a request by request basis as follows in (B) through (F) following at the rates and charges as set forth in 8.4.7 following.

ACCESS SERVICE

8. Billing and Collection Services (Cont'd)

8.4 Billing Information Service (Cont'd)

8.4.2 Undertaking of the Telephone Company (Cont'd)

- (B) Upon request from a customer, and when the customer has ordered message processing service, the Telephone Company will provide information from its records as follows:
  - (1) message detail for a message end user
  - (2) account detail for a message end user
  - (3) service and equipment detail for a message end user.

Message detail is message-billed records in exchange message record (EMR) format.

Account detail is data that furnishes the end user name, billing address and billing parameters other than message detail and/or service and equipment detail.

Service and equipment detail is data associated with the customer's rate elements.

A message end user is an account with customer message or bulk-billed detail (for a bill period), or an account which is marked, as set forth in (H) following, established as an end user of the customer's message or bulk-billed services.

Message detail, account detail and/or service and equipment detail which is confidential due to legal, national security, end user or other appropriate requirements will not be provided. If the customer requires this information in order to bill its services, it shall secure written permission from the end user to obtain the information from the Telephone Company. The customer shall furnish the Telephone Company the end user's written permission for the information to be released.

- (C) Upon request from an authorized supervisor of the customer for end user information when automatic number identification (ANI) service is provided to the customer by the Telephone Company or when the customer offers a telecommunications service for which the billing is based on authorized calling or

called parties, the Telephone Company will provide information from its records. Only current information which resides in the data base will be provided.

- (D) An end user account will not be identified as a customer account unless there are customer message details associated with the account for the bill period for which message detail is ordered by the customer. Customer bulk-billed message end user accounts are counted as customer accounts.
- (E) Upon acceptance by the Telephone Company of a Special Order for Billing Information Service from a customer, the Telephone Company will determine the period of time to implement such service on an individual order basis.
- (F) Upon request from an authorized supervisor of the customer who furnishes the account code assigned by the Telephone Company, the Telephone Company will provide name and town information from its records. The name and town data, but not street address, will be provided only when the customer needs the information to authorize a call, to bill a call, or to handle an emergency situation. The information will be provided on a request by request basis by voice telecommunications. Name, town and state will be provided for a telephone number. A request includes the handling of one call and providing the data for one telephone number. End user address information will be provided to the customer by the Telephone Company as defined in 8.4.2(B) preceding. The Telephone Company will specify the location where requests are to be received and the format in which the request is to be made. If the name and address associated with the telephone number is restricted due to the request of the end user, legal authority or law enforcement agency, no name or town location will be provided.

(F) (Cont'd)

At the request of the customer, written confirmation of the name and town location will be sent to the authorized supervisor making the request by first class U.S. Mail service.

(G) Where Telephone Company facilities are available, Customer Name and Address (CNA) information may be provided on an interrogation basis at the request of the customer.

The interrogation basis will permit the customer to access the Telephone Company's office which has the information and, after verification that the information is authorized for the customer's use, receive the end user information. The interrogation capability will be provided during normal Telephone Company business hours. The end user information will be updated after each billing cycle.

(H) The Telephone Company will, at the request of the customer, mark any message-billed message end user account, other than end user accounts with customer credit cards or rate elements, as a user of the customer's message services. After marking is ordered, the end user account will be marked as a customer end user account at the time the first message is posted to the end user account. If not marked at the request of the customer, such an end user account will not be identified as a customer account unless there are customer message details associated with the account for the bill period for which message detail is ordered by the customer. The mark will be removed at the request of the customer. Charges to mark the account and maintain the mark in future months as set forth in 8.4.7(G) and (H) following apply. Customer bulk-billed end user accounts and message end user accounts with customer credit cards or customer rate elements are counted as customer accounts.

8.4.3 Liability of the Telephone Company

Notwithstanding 2.1.3 preceding, in the absence of willful misconduct, no liability for damages to the customer or other person or entity shall attach to the Telephone Company for its action or the conduct of its employees in providing Billing Information Service.

8.4.4 Obligations of the Customer

(A) The customer shall order Billing Information Service under a Special Order. The customer shall order those Billing Information Services for the states where it wishes to receive the services and shall specify how often it wishes the service to be provided.

(B) With each order, the customer shall identify the authorized individual and address to receive the Billing Information Service output. When billing information service is ordered, the customer will identify in writing and include the account codes assigned by the Telephone Company of all authorized individuals who will contact the Telephone Company for name and town information.

(C) The customer shall take every effort to make sure that Billing Information Service output and interrogation capability is provided only to authorized personnel. The customer shall agree, in writing to the Telephone Company, that the customer will not provide the Billing Information Service outputs to third parties for use by such third parties except for work for the customer and which is under complete control of the customer.

(D) The customer shall be responsible for all contacts and inquiries from its end users concerning Billing Information Service.

(E) The customer shall not publicize or represent to others that the Telephone Company jointly partici-pates with the customer in the development of the customer's end user records, accounts, data bases or market data, records, files and data bases or other systems it assembles through the use of Billing Information Service.

(F) The customer shall furnish to the Telephone Company, when interrogation service is ordered, all informa-tion necessary to allow the Telephone Company to establish an interrogation program. In addition, the customer shall furnish the Telephone Company an estimate of the number of requests per business day that the Telephone Company will be asked to handle.

8.4.5 Payment Arrangements

(A) Cancellation of a Special Order

A customer may cancel a Special Order for Billing Information Service prior to the date the Telephone Company is scheduled to enter the initial order details into its order distribution system and no charges will apply.

When a customer cancels a Special Order for Billing Information Service after the date the Telephone Company is scheduled to enter the initial order details into its order distribution system but prior to the start of service, charges as listed following shall apply:

- (1) For any service, the appropriate per hour rate for all hours expended by the Telephone Company to provide the service.
- (2) For any service, any expense for equipment obtained for the service where such equipment cannot be reused within six months.

Start of service occurs when the Telephone Company notifies the customer that the Telephone Company is ready to provide Billing Information Service reports.

8.4.5 Payment Arrangements (Cont'd)

(B) Changes to Special Orders

When a customer requests changes for a pending Special Order for Billing Information Service, they will be undertaken if they can be accommodated by the Telephone Company. Any additional time required on the part of the Telephone Company personnel will be billed to the customer at the appropriate hourly charges.

(C) Minimum Periods and Minimum Monthly Charges

The minimum period for which Billing Information Service is provided and for which charges apply is one year. The minimum monthly charges for interrogation are the charges for the total number of requests per business day furnished by the customer or set forth in 8.4.4(F) preceding times 18 (i.e., 20 business days per month times 0.9). When the customer discontinues the service prior to the end of the one-year minimum period, the minimum monthly charge for the data base interrogation will apply for each remaining month and fraction of month.

8.4.6 Rate Regulations

(A) The number and type of records for which charges apply as set forth in 8.4.7 following will be accumulated by the Telephone Company and the Telephone Company will bill the customer in accordance with these accumulations. A record is a logical grouping of information as described in the programs that process the information, print the paper output, and load the magnetic tape or data file used to supply the detail which is transferred or data-transmitted. For each service and type of output ordered, the number of

records processed by the Telephone Company to prepare the output will be used to determine the charges. The number of records processed will be determined using the number of records input to or the number of records output from the programs that process the information, print the paper output and load the magnetic tape or data file, whichever number of records is higher.

(B) The number of hours and fraction thereof for which charges apply as set forth in 8.4.7 following will be accumulated by the Telephone Company. The per hour rate is for the use of one hour of one Telephone Company programmer. The Telephone Company will bill the customer for hourly charges in accordance with these accumulations. The accumulated hours for each order will be summed and rounded to the nearest hour, except that when the total is less than one hour, one hour will be used to determine the charges.

(C) When a CNA request is received, the Telephone Company will keep a count of the requests. The Telephone Company will bill the customer in accordance with these records even though the Telephone Company was not able to provide a name and town location for all requests.

(D) When records are entered on a data file or magnetic tape in order to provide information to a customer, the per tape charge applies for each data file or tape prepared. In addition, the per record charge applies for each record entered on the data file or tape. The Telephone Company will determine the charges based on the number of data files or tapes prepared and on its count of the records entered on the data file or tape.

(E) When marking of message end user accounts is ordered, the marking charge applies for each end user account marked. Once an account is marked, the maintenance of mark charge applies for each month following the month the account is marked until the customer requests the mark be removed. No charges apply to remove the mark.

ACCESS SERVICE

9. Directory Assistance Service

The Telephone Company will provide Directory Assistance (DA) Service to a customer from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment, and use of DA operators to provide telephone numbers.

9.2 Undertaking of the Telephone Company

- (A) A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in 9.6 following. The Telephone Company's contact with the customer's end user shall be limited to that effort necessary to process an customer's end user's request for a telephone number; and the Telephone Company will not transfer, forward or redial an customer's end user call to any other location for any purpose other than provision of DA Service.
- (B) A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.
- (C) A telephone number which is not listed in DA records will not be available to the customer's end user.
- (D) The Telephone Company will specify the DA location which provides the DA Service for each numbering plan area code (NPA). The DA locations are as shown in EXCHANGE CARRIER ASSOCIATION TARIFF F.C.C. NO. 2.

When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the involved customers six months prior to the change. For such changes, the regulations as set forth in 2.1.7 preceding apply.

- (E) When DA Service is ordered, Directory Access Service will be provided between the customer premises and the DA location by the Telephone Company at rates and charges as set forth in 9.6 following.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)

9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(1) General

Each Directory Access Service will consist of the following:

- A Switched Access Service with one of the following Switched Access Service Local Transport Premises Interface Codes:

4DS9-15	6EA2-E	4RV2-0
4DS9-31	6EA2-M	4AH5-B
4DS0-63	6EX2-B	4AH6-C
4DS6-44	4SF3	4AH6-D
4DS6-27	2RV3-0	

- Directory Transport between the premises serving wire center and the DA location.

When required by the Telephone Company, a separate trunk group will be provided for DA Service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's end user desires DA information.

(2) Local Transport Premises Interface Code

The Switched Access Service Local Transport Premises Interface Codes are provided as set forth in 6. preceding. Further, when an access tandem is provided, the Directory Access Service will be provided, at Telephone Company choice, either as a separate trunk group or in association with Feature Group C or D Switched Access Service. Except as set forth in 9.4 (A) following, the Local Transport Premises Interface Codes provided under a Special Order for Directory Access Service are subject to the order conditions as set forth in 5. preceding. For purposes of applying the order regulations, a DA location is considered to be a customer's end user's serving wire center.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)

9.2 Undertaking of the Telephone Company (Cont'd)

(E) (Cont'd)

(3) Directory Transport

Directory Transport provides the transmission facilities and transport termination between the premises of the ordering customer and the DA location. For purposes of determining Directory Transport mileage, distance will be measured from the wire center that normally serves the customer premises to the DA location(s).

Directory Transport is a two-way voice frequency transmission path composed of facilities determined by the Telephone Company. The two-way voice frequency path transports calls in the terminating direction (from the premises of the ordering customer to the DA location). The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

The Telephone Company will determine whether the Directory Access Service is to be routed directly to a DA location or through an appropriately equipped access tandem switch when such an access tandem switch is available. If the customer desires the traffic routing to be other than that selected by the Telephone Company, it may request a cooperative effort to determine if the customer specified traffic routing can be used in lieu of the Telephone Company selected traffic routing.

When Directory Transport is provided using a direct route to the DA location, no address signaling is provided. When Directory Transport is provided with the use of an access tandem switch, wink start-start pulsing signaling is provided at the access tandem switch. The customer will be notified by the Telephone Company when access tandem routing is provided and the customer shall address each call to the DA location using NPA + 555 + 1212. Only NPA codes handled by the DA location served by the access tandem switch will be processed.

(3) Directory Transport (Cont'd)

The number of Directory Transport transmission paths provided is based on the customer's order and is determined by the Telephone Company in a manner similar to Switched Access Service transmission paths as set forth in 6.5.5 preceding.

Directory Transport may, at the option of the customer, be provided for both intrastate and interstate communications. When the customer requests such mixed access, the intrastate DA charges will be determined by the Telephone Company using the reports furnished by the customer as set forth in 2.3.14 preceding.

Except as set forth in 9.4 (A) following, Directory Transport provided under a Special Order is subject to all order conditions as set forth in 5. preceding.

Directory Transport is provided with a Local Transport Interface Group as set forth in 6.1.3(B) preceding. Only Local Transport Interface Groups 2, 6 and 9 will be provided. (C)

(4) Special Facilities Routing

A customer may request that Directory Access Service be provided via Special Facilities Routing. The regulations, rates and charges for Special Facility Routing (Avoidance, Diversity and Cable Only) are as set forth in 11. following.

ACCESS SERVICE

9. Directory Assistance Service (Cont'd)

9.3 Obligations of the Customer (Cont'd)

- (A) The customer shall determine and order the Directory Access Services it needs for DA Service.
- (B) When Directory Assistance Service is initially ordered, the customer shall order the service for at least six months. Thereafter, additional service may be ordered for a minimum of six months. Not later than three months prior to the end of the six month period, the customer shall notify the Telephone Company if the service is to be discontinued at the end of the six month period. If no notice is received from the customer, the Telephone Company will automatically extend the service for another six months and all appropriate charges as set forth in 9.6 following for another six months will apply.
- (C) The customer facilities at the premises shall provide the necessary on-hook and off-hook supervision.
- (D) When requested by the Telephone Company, the customer shall order a separate trunk group for DA Service for each NPA. The conditions when the customer will be requested to order separate trunk groups for each NPA are set forth in 9.2(E)(1) preceding.
- (E) When the customer bills its end users, the customer shall be responsible for all contacts and arrangements with its end users concerning the provision and maintenance of, and the billing and collecting of charges, for DA services furnished to its end users. When the Telephone Company bills the customer's end users at the request of the customer, contacts and arrangements with customer's end users concerning the billing and collecting of charges will be as set forth in 8.2 preceding.
- (F) The customer understands that DA operators will respond to only two (2) telephone number requests per call and will not transfer, forward or redial the call to another location for any purpose other than the provision of DA Service.

## ACCESS SERVICE

9. Directory Assistance Service (Cont'd)9.4 Payment Arrangements(A) Minimum Periods

The minimum period for which DA Service and the Directory Access Service is provided and for which charges apply is six months. A minimum period of six months applies for each additional period of service ordered or extended.

If DA Service is discontinued prior to the end of each six month period, the charges that apply for the remaining months are the non-recoverable costs. Such costs include the non-recoverable cost of equipment and material ordered, provided or used, plus the non-recoverable cost of installation and removal including the costs of engineering, labor, supervision, transportation, rights-of-way and other associated costs less estimated net salvage.

(B) Cancellation of a Special Order

A customer may cancel a Special Order for DA Service on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the Special Order is to be canceled. The verbal notice must be followed by written confirmation within 10 days.

When a customer cancels a Special Order for DA Service after the order date but prior to the start of service, the appropriate charges as set forth in 5.2.3(C)(4) preceding apply for the Directory Access Service ordered. In addition, a charge equal to any unrecoverable capital costs incurred by the Telephone Company will apply to the customer.

(C) Changes to Special Orders

When a customer requests changes to a pending order for DA Service, such changes will be undertaken if they can be accommodated by the Telephone Company. Charges as set forth in 5. preceding apply for the Directory Access Service changed. In addition a charge equal to any other costs incurred by the Telephone Company because of the change will apply.

## 9.4 Payment Arrangements (Cont'd)

(D) Moves

A move involves a change in the physical location of the point of termination at the customer premises or of the customer premises. Moves will be treated as set forth in 6.7.7 preceding and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in 6.7.7 preceding. The customer will also remain responsible for satisfying all outstanding minimum period charges for the disconnected service.

(E) DA Service Rearrangements

Nonrecurring charges apply for service rearrangements. Service rearrangements are as set forth in 6.7.1(C)(3) preceding. The Service Rearrangement Charges are as set forth in 6.7.1(C)(3) for the type of change provided by the Telephone Company.

9.5 Rates and Regulations

- (A) The charge for Directory Assistance as set forth in 9.6(A) applies as long as such connections are provided by the Telephone Company and are maintained exclusively by the interexchange carrier that offers message telephone service (MTS) in accordance with Part 69 Rules.
- (B) The charge for Directory Assistance will be modified as follows, if and when, such connections are provided to additional interexchange carriers to reflect the relative use of such Directory Assistance by such carriers.
- A charge per call to Directory Assistance.
  - A charge for Directory Access Installation.

ACCESS SERVICE

10. Special Federal Government Access Services

10.1 General

This section covers Special Access Services that are provided to a customer for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security.

Services for command and control communications and for national security and emergency preparedness sometimes require short notice and short duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made, or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company or customer.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").

- Efforts to protect endangered U.S. personnel or property both in the U.S. and abroad. (Includes space vehicle recovery and protection efforts.)
- Communications requirements resulting from hostile action, a major disaster or a major civil disturbance.
- The director (Cabinet level) of a Federal department, Commander of a Unified/Specified Command, or head of a Military department has certified that a communications requirement is so critical to the protection of life and property or to the National Defense that it must be processed immediately.
- Political unrest in foreign countries which affect the national interest.
- Presidential service.

10.3 Intervals to Provide Service

Services provided under the provisions of this section of the tariff are provided on an individual case basis. Therefore, orders for such service shall be placed under the Negotiated Interval provisions set forth in 5.2.1(B) preceding.

ACCESS SERVICE

10. Special Federal Government Access Services (Cont'd)

10.5 Safeguarding of Service (Cont'd)

10.5.2 Facility Availability

In order to insure communications during periods of emergency, the Telephone Company will, within the limits of good management, make available the necessary facilities to restore service in the event of damage or to provide temporary emergency service.

In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary, to provide service.

10.6 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government will be billed in arrears. However, this provision does not apply to other customers that obtain services under the provisions of this tariff to provide their services to the Federal Government.

10.7 Reserved for Future Use

10.8 Service Offerings to the Federal Government

The following services are provided to a customer for use only by agencies or branches of the Federal Government, other authorized users and state emergency operations centers. The rates and charges for these services shall be developed on an individual case basis and shall be consistent with the rates and charges for services offered in other sections of this tariff.

ACCESS SERVICE

- 10. Special Federal Government Access Services (Cont'd)
- 10.8 Service Offerings to the Federal Government (Cont'd)

10.8.1 Type and Description

(A) Voice Grade Special Access Services

(1) Voice Grade Secure Communications Type I

Approximate bandwidth of 10-50,000 Hertz. Furnished for two-point secure communications on two-wire or four-wire metallic facilities between a customer premises location and an end user's premises. Services are conditioned as follows:

T-3 Conditioning - The absolute loss (referenced to 1 milliwatt) with respect to frequency shall not exceed:

- 15 dB at 10 Hz
- 13 dB at 100 Hz
- 9 dB at 1,000 Hz
- 20 dB at 10,000 Hz
- 30 dB at 50,000 Hz

Additional conditioning (available in one or two directions on four-wire facilities only) to provide the following characteristics:

The absolute loss (referenced to one milliwatt) with respect to frequency shall not exceed:

- 0 dB at 1,000 Hz
- ± 1 dB between 1,000 Hz and 40,000 Hz
- ± 2 dB between 10 Hz and 50,000 Hz
- (+ means more loss)

The net loss of the conditioned service (with or without additional conditioning) shall not vary by more than four dB at 1,000 Hz from the levels specified above. Voice frequency signaling or supervisory tones can be transmitted.

ACCESS SERVICE

- 10. Special Federal Government Access Services (Cont'd)
- 10.8 Service Offerings to the Federal Government (Cont'd)
- 10.8.3 Rates and Charges (Cont'd)

(C) Move Charges

- (1) When service without a maximum termination liability charge associated with it, as set forth in (A) and (B) preceding, is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the non-recurring charge applies.
- (2) When service with a maximum termination liability charge associated with it, as set forth in (A) and (B) preceding, is moved and is reinstalled at a new location, the customer may elect:
  - to pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability for such service at the new location, or
  - to continue service subject to the unexpired portion of the maximum termination liability, if any, and pay the estimated costs of moving such service, provided that the customer requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration, and any other specific items of cost directly attributable to the move.

11. Special Facilities Routing of Access Services

11.1 Description of Special Facilities Routing of Access Services

The services provided under this tariff are provided over such routes and facilities as the Telephone Company may elect. Special Facilities Routing is involved when, in order to comply with requirements specified by the customer, the Telephone Company provides Switched Access Service, Special Access Service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

11.1.1 Diversity

Two or more services must be provided over not more than two different physical routes.

11.1.2 Avoidance

A service must be provided on a route which avoids specified geographical locations.

11.1.3 Cable-Only Facilities

Certain Voice Grade services are provided on Cable-Only Facilities to meet the particular needs of a customer.

Service is provided subject to the availability of Cable-Only facilities. In the event of service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

Avoidance and Diversity are available on Switched Access Service as set forth in 6.1.4 preceding; Voice Grade Special Access Services as set forth in 7.2.3 preceding and Special Federal Government Access Services as set forth in 10.8 preceding. Cable-Only Facilities are available with Switched Access Service as set forth in 6.1.4 preceding; Voice Grade Special Access Services as set forth in 7.2.3 preceding, and Special Federal Government Access Services as set forth in 10.8 preceding. ACCESS SERVICE

11. Special Facilities Routing of Access Services (Cont'd)

11.1 Description of Special Facilities Routing of Access Services (Cont'd)

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering customer. If requested by the customer, this information will be provided when service is installed and prior to any subsequent changes in routing.

The offering of Special Facilities Routing of Access Services contemplates the use of existing facilities. Should facilities not be available, it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations, as set in Section 14, following apply. However, the applicable rates and charges shall be filed in this section of this tariff, not the Special Construction section. In either case of (1) or (2) preceding, the rates and charges for administration and any other specific items of cost directly attributable to the provision of this service shall be filed in this section also.

The rates and charges for Special Facilities Routing of Access Services as set forth in 11.2 following are in addition to all other rates and charges that may be applicable for services provided under other sections of this tariff.

11.2 Rates and Charges for Special Facilities Routing of Access Service

The rates and charges for Special Facilities Routing of Access Services are as follows:

11.2.1 Diversity

For each service provided in accordance with 11.1.1 preceding, the rates and charges will be developed on an individual case basis and filed following:

USOC  
SYD++

ACCESS SERVICE

12. Specialized Services or Arrangements

12.1 General

Specialized Services or Arrangements may be provided by the Telephone Company, at the request of a customer, on an individual case basis if such service or arrangements meet the following criteria:

- (A) The requested service or arrangements are not offered under other sections of this tariff.
- (B) The facilities utilized to provide the requested service or arrangements are of a type normally used by the Telephone Company in furnishing its other services.
- (C) The requested service or arrangements are provided within an exchange.
- (D) The requested service or arrangements are compatible with other Telephone Company services, facilities, and its engineering and maintenance practices.
- (E) This offering is subject to the availability of the necessary Telephone Company personnel and capital resources.

12.2 Move Charges

- (A) When service without a maximum termination liability charge associated with it is moved to a different building, the nonrecurring charge applies; when moved to a new location in the same building, a charge of one-half the nonrecurring charge applies.
- (B) When service with a maximum termination liability charge associated with it is moved and is reinstalled at a new location, the customer may elect:
  - To pay the unexpired portion of the maximum termination liability charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new maximum termination liability charge for such service at the new location, or
  - to continue service subject to the unexpired portion of the maximum termination liability charge, if any, and pay the estimated costs of moving such service, provided that the

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

In this section normally scheduled working hours are an employee's scheduled work period in any given calendar day (e.g., 7:00 a.m. to 4:00 p.m.) for the application of rates based on working hours.

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- (A) A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.5 and 7.1.6 preceding.
- (B) Additional engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service as set forth in 7.2 preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken.

13.3.3 Presubscription

- (A) Presubscription is a procedure whereby an end user may select and designate to the Telephone Company an IC to access, without dialing an access code, for interLATA and/or intraLATA calls. This IC is referred to as the end user's primary IC. The presubscription procedure also allows the agent\* representing a pay telephone to select and designate to the Telephone Company an IC to access, without dialing an access code, for intrastate calls only. InterLATA Presubscription is available only to End Users served by end offices that have been converted to provide Feature Group D (equal access). IntraLATA Presubscription is available only to End Users served by end offices that have been converted to provide Feature Group D (equal access) and are technically equipped.
- (B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan. The plan with all appendices is available for inspection at the main building of the Federal Communications Commission in the Public Reference Room of the Tariff Division. Copies may be obtained from the Federal Communications Commission's Commercial Contractor.

The same detailed provisions also apply to pay telephone InterLATA presubscription for end offices converting to equal access after February 10, 1990.

1+ IntraLATA Equal Access will not be available in Community Optional Service (COS) target exchanges and their associated EAS exchanges until the Missouri Public Service Commission issues its Final Order in Case No. TW 97-333.

Pay telephone InterLATA presubscription for end offices converted to equal access prior to February 10, 1990, will follow a transition schedule. After that date, pay telephone lines will be included in the standard presubscription time line for the end office.

Principal provisions of the Allocation Plan and associated Telephone Company provisions are as follows:

(B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan. The plan with all appendices is available for inspection at the main building of the Federal Communications Commission in the Public Reference Room of the Tariff Division. Copies may be obtained from the Federal Communications Commission's Commercial Contractor.

The same detailed provisions also apply to pay telephone presubscription for end offices converting to equal access after February 10, 1990.

1+ IntraLATA Equal Access will not be available in Community Optional Service (COS) target exchanges and their associated EAS exchanges until the Missouri Public Service Commission issues its Final Order in Case No. TW 97-333.

(N)

(N)

Pay telephone presubscription for end offices converted to equal access prior to February 10, 1990, will follow a transition schedule. After that date, pay telephone lines will be included in the standard presubscription time line for the end office.

Principal provisions of the Allocation Plan and associated Telephone Company provisions are as follows:

\* An agent is the person or persons who have the legal authority to give the Telephone Company permission to place pay telephones on their premises and who control access to or usage of the pay telephone.

13.3.3 Presubscription

(A) Presubscription is a procedure whereby an end user may select and designate to the Telephone Company an IC to access, without dialing an access code, for interLATA intrastate calls. This IC is referred to as the end user's primary IC. The presubscription procedure also allows the agent\* representing a pay telephone to select and designate to the Telephone Company an IC to access, without dialing an access code, for intrastate interLATA calls. (T)

(B) Presubscription of residence and business lines and/or trunks is furnished in accordance with the detailed provisions of the Federal Communications Commission's Allocation Plan. The plan with all appendices is available for inspection at the main building of the Federal Communications Commission in the Public Reference Room of the Tariff Division. Copies may be obtained from the Federal Communications Commission's Commercial Contractor.

The same detailed provisions also apply to pay telephone presubscription for end offices converting to equal access after February 10, 1990. (T)

13.3.3 Presubscription (Cont'd)  
(B) (Cont'd)

- (1) End User and Agent Notification, Equal Access Balloting Process and Interexchange Carrier End User and Agent Lists.

The Telephone Company will notify end users and agents of the availability of InterLATA equal access (Feature Group D) and after August 8, 1997 notify end users of the availability of IntraLATA equal access through the mailing of an Equal Access Ballot or a direct mail piece if InterLATA equal access was previously available. The mailing of the initial ballots will occur approximately 90 days, but in no case later than 85 days, prior to the conversion of the end office serving the end users and agents. End users and agents will be encouraged to return their respective ballot to the Telephone Company or to their selected primary IC within 30 days of its receipt.

(C)  
|  
(C)

A single line end user may select only one IC as a primary InterLATA IC and only one IC as a primary IntraLATA IC. A single line end user also has the option to select one IC as a primary InterLATA and IntraLATA IC, provided that the IC selected is authorized to carry InterLATA calls.

(N)  
|  
(N)

Multi-line end users and multi-line hunt group end users have two options in selecting a primary IC. Under option one, an end user may select one IC for all its lines. Under option two, an end user may indicate a desire to designate specific lines to different ICs. When option two is selected, the end user will be contacted by the Telephone Company, or provided a special ballot which will allow a line-by-line designation of ICs. For each line under either option, only one IC may be selected as a primary InterLATA IC and only one IC as a primary IntraLATA IC. However, one IC may be selected as primary InterLATA and IntraLATA IC for each line, provided that the IC selected is authorized to carry InterLATA calls.

(C)  
|  
(C)  
|  
(C)  
|  
(N)  
|  
(N)

Agents have the same options as multi-line and multi-line hunt group end users for selecting a primary IC.

(N)  
|  
(N)

An IC obtaining service commitments from end users and agents directly must provide an IC End User and Agent List to the Telephone Company accompanied by document certifying that the IC does have end user and agent signed statements, or has taken steps to obtain signed letters of agency, containing the required information or a signed ballot from each end user and agent on the list. The Telephone Company will process all IC End User and Agent Lists that are received 20 days prior to conversion of an end office to equal access.

(2) Allocation Process (Cont'd)

The Telephone Company will tabulate the initial ballots and the IC End User and Agent Lists received by the initial ballot deadline and determine the percentage of lines presubscribed to each IC participating in the allocation process. ICs participating in the allocation process will have nonpresubscribing end users and agents assigned, at random, in proportion to the results of the first ballot response for a particular serving end office.

Should an IC listed on the initial ballot elect not to participate in the allocation process, then nonpresubscribing end users' and agents' lines will be allocated to the remaining ICs in relative proportion to their initial results.

Specific InterLATA and IntraLATA allocation processes will be established by residence and business end users. (C)  
(C)

(3) End User Choice Discrepancy

When a discrepancy is determined regarding an end user's or an agent's designation of a primary IC, the following applies depending upon the situation described:

- (a) When an end user or agent indicates more than one IC choice per line on a ballot, or returns an illegible ballot, the Telephone Company will contact the end user or agent for clarification.
- (b) When the Telephone Company identifies a conflict between a ballot and an IC list, or between lists submitted by two or more ICs, the Telephone Company will notify, within 10 days, all affected ICs via a conflict report.

Telephone Exchange Service. A confirming notice will be mailed to the new end user or agent when an IC is verbally chosen. New end users or agents who return confirmation notices within **thirty (30)** days identifying an IC different from that given verbally will have such selections processed without charge.

New end users or agents will be offered a list of participating carriers to aid in their selection of a primary IC. There will be no charge for this initial selection.

After the end user's or agent's initial primary IC selection, for any change thereafter, a charge, as set forth in (E) following, applies.

(2) End users may designate that they do not want a primary IC. This choice is considered a valid selection and a Presubscription Charge will apply to any subsequent change. This "no Primary IC" designation is not available to pay telephone agents.

(3) Should an IC elect to discontinue Feature Group D service in an end office converting to equal access prior to the conversion date, or within two (2) years after the introduction of Feature Group D in the converted end office, the IC shall contact in writing all end users and agents who selected, or were allocated to, the cancelling IC as their designated IC. Such written notification must advise these end users

Telephone Exchange Service. A confirming notice will be mailed to the new end user or agent when an IC is verbally chosen. New end users or agents who return confirmation notices within 30 days identifying an IC different from that given verbally will have such selections processed without charge.

New end users or agents will be offered a list of participating carriers to aid in their selection of a primary IC. There will be no charge for this initial selection.

After the end user's or agent's initial primary IC selection, for any change thereafter, a charge, as set forth in (C) following, applies.

Existing end users selecting their initial IntraLATA primary IC, will have the charge waived for 180 days following the availability of IntraLATA equal access. Existing end users selecting an IntraLATA primary IC outside of the balloting process or beyond 180 days following the initial implementation will be assessed a charge as set forth in Section 13.3.3 (C), following.

End users changing their primary InterLATA IC and primary IntraLATA IC to the same IC on the same order whether taken directly from a customer or through an IXC will be charged 50% of the rate for each. In effect, only one presubscription charge will apply.

and agents of the IC cancellation, request that the end users or agents select a new IC, and state that the canceling IC will pay the change charge.

For a period of two years following the IC's discontinuance of Feature Group D service, the Telephone Company will bill the canceling IC the change charge for each end user and agent that is currently designated to the IC at the time of discontinuance.

(e) The Telephone Company will make post conversion changes in the end user's or agent's primary IC assignment pursuant to an IC provided list of customers, accepted by the Telephone Company under the conditions set forth in (1) and (3) preceding. Should an end user or agent dispute authorization of the change in primary IC assignment, and if the IC cannot produce a letter of agency or confirmation from the end user or agent, the IC will be billed two primary IC charges: one for the change to the disputed IC, and one for restoring the end user's prior IC assignment. If the IC produces the letter of agency or confirmation of choice within 15 days of the Telephone Company's request, the end user or agent will be billed two primary IC charges in lieu of the IC. Charges are only applicable if a change in an end user's or agent's IC selection has actually been implemented in the switch.

13.3.3.A Equal Access End User Restriction Service

- (A) Equal Access End User Restriction Service is an offering whereby an end user's ability to access the facilities of an Interexchange Carrier (IC) may be restricted at the request of the IC. This service blocks an end user from making 1+ and 101XXXX calls on the subscribing IC's facilities, but does not restrict the end user's ability to reach other ICs by 101XXXX dialing. An end user's local exchange service is not affected by this service, nor is the end user's ability to direct dial intraLATA calls or to make 1+ TFC and 1+ 900 calls. (CT)

(B) Undertaking of the Telephone Company

The Telephone Company will provide Equal Access End User Restriction Service only in suitably equipped equal access end offices. Due to technical limitations, this service is limited to three (3) interexchange carriers per end user access line and will be provided on a first come-first served basis.

Equal Access End User Restriction Service is available only where a corresponding interstate offering has been approved.

Equal Access End User Restriction Service is not available to ICs who have full billing and collection services contracts in effect with the Telephone Company.

The Telephone Company will activate Equal Access End User Restriction Service only upon written request from the subscribing IC.

The Telephone Company will restore an end user's access to the subscribing IC upon the verbal request of the IC which requested activation of Equal Access End User Restriction Service. Such verbal restore request shall be confirmed in writing by the IC.

13.3.3 Equal Access End User Restriction Service (Cont'd)

(B) Undertaking of the Telephone Company (Cont'd)

The Telephone Company will provide an intercept recording to advise the end user that 1+ and 101XXXX calls cannot be completed to the subscribing IC's facilities.

(CT)

(C) Liability of the Telephone Company

The IC shall defend, indemnify, and save harmless the Telephone Company from and against any suits, claims, losses or damages, including punitive damages, attorney fees, and court costs by end users arising out of the IC's use of this service.

The Telephone Company shall not be liable for any act or omission concerning the implementation of Equal Access End User Restriction Service, unless the damage is caused by the Telephone Company's negligence.

The Telephone Company's liability to the IC, absent knowing and willful misconduct, shall not exceed an amount equal to the nonrecurring charges associated with the restriction and/or restoral of an end user's service.

MO. PUBLIC SERVICE COMM.

13.3.3.A Equal Access End User Restriction Service (Cont'd)

(D) Obligations of the Interexchange Carrier

Equal Access End User Restriction Service will be provided only in situations where the IC has represented to the Telephone Company that nonpayment, bad credit, or toll fraud is involved.

The IC must contact the Telephone Company to review initial implementation time frames and operational procedures for provision of Equal Access End User Restriction Service.

The IC is responsible for compliance with any applicable regulations concerning service restriction and must notify the end user in writing by Certified U.S. Mail at least five (5) days prior to implementation of Equal Access End User Restriction Service. Such notification shall include specific information to enable the end user to contact the IC for additional information concerning service restriction.

The IC shall process end user payments upon receipt and, if service restoral is desired, shall submit request for end user service restoral to the Telephone Company. In the event that the IC elects to continue blocking an end user's access to its facilities, it is the responsibility of the subscribing IC to notify the end user in writing by Certified U.S. Mail of such continued service restriction.

(E) Rate Regulations

When ordering Equal Access End User Restriction Service, the IC may request standard or expedited service restriction as set forth below:

(1) Standard Equal Access End User Restriction Service

The restriction or restoral of an end user's 1+ and 101XXXX calls from the subscribing IC's facilities will be processed within three working days of receipt of the request. Standard service is required for an IC's initial request for Equal Access End User Restriction Service.

(CT)

(2) Expedited Equal Access End User Restriction Service

The restriction or restoral of an end user's 1+ and 101XXXX calls from the subscribing IC's facilities will be processed within twenty-four hours of receipt of the request. Such requests must be received by the close of business on the current working day in order for the request to be processed by the close of business on the following day, excluding weekends and holidays. Expedited Service is available only for activation of Equal Access End User Restriction Service subsequent to the IC's initial request.

(CT)

The nonrecurring charge associated with the provision of Equal Access End User Restriction Service, as set forth in (F) following, applies each time an end user's ability to access an IC's facilities is restricted or restored.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services  
(Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following.

(A) Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service, (b) tests which are performed after acceptance of such access services by a customer which are without charge, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (No Telephone Company or customer technicians involved), on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises), or a manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer premises).

Nonscheduled tests are performed by the Telephone company "on demand". which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at Telephone company offices and at the customer's premises.

(1) Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s) and the

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services (Cont'd)

(A) Switched Access Service (Cont'd)

(1) Additional Cooperative Acceptance Testing  
(Cont'd)

customer provision of a technician at its premises, with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for example, consist of the following tests:

- . Impulse Noise
- . Phase Jitter
- . Signal to C-Notched Noise Ration
- . Intermodulation (Nonlinear) Distortion
- . Frequency Shift (Offset)
- . Envelope Delay Distortion
- . Dial Pulse Percent Break

(2) Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of Switched Access Service (Feature Groups B, C, and D), where the customer provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-message noise tests and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance test, the customer may also order, at additional charges, gain-slope and C-notched noise testing.

## ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services  
(Cont'd)13.3 Miscellaneous Charges (Cont'd)13.3.5 Testing Services (Cont'd)(A) Switched Access Service (Cont'd)(2) Automatic Scheduled Testing (Cont'd)

With Feature Group B Switched Access Service, AST is only provided to customer who orders it, i.e., AST is provided on an optional basis as tests are not normally conducted for Feature Group B services. Charges in 13.3.5(C) apply. However, with Feature Groups C and D, AST for basic test is provided on a nonoptional basis and at no charge. With Feature Group C, where AST is not available in a Telephone Company office. Cooperative Scheduled Testing (CST) will be provided on a nonoptional basis at no charge. With Feature Group D, CST or Manual Scheduled Testing (MST) may be specified by the customer in lieu of AST and provided by the Telephone Company at no charge. Trunks from a Telephone Company digital switch to a customer digital switch utilizing digital facilities are excluded from mandatory routine testing.

The Telephone Company will provide a monthly AST report that lists the trunks within each exchange access group that failed to meet established requirements. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis. On an optional basis, a monthly report that lists the test results for each trunk tested may be provided to the customer at an additional charge as set forth in 13.3.5(C)(1)(f) following.

(3) Cooperative Scheduled Testing.

Cooperative Scheduled testing (CST) of Switched Access Services (Feature groups B, C, and D and Directory Access Service not routed through an access tandem), where the Telephone company provides a technician at its office (s) and the customer provides a technician at its

premises, with suitable test equipment to perform the required tests, will consist of quarterly loss and C-message noise tests and annual balance tests. However, the customer may specify a more frequent schedule of tests. In addition to the loss/noise/balance measurements, the customer may also order, at additional charges, gain-slope and C- notched noise testing.

With Feature Group B Switched Access Service CST is only provided to customers who order it, i.e., CST is provided on an optional basis as test are not normally conducted for Feature Group B services. Charges in 13.3.5(C)(1)(c) apply. However, with Feature Groups C and D, CST for basic test may be provided as an alternative to the nonoptional AST at no charge. Trunks from a Telephone Company digital switch (e.g., 4E, 5E or DMS10) to a customer digital switch utilizing digital facilities are exclude form mandatory routine testing.

The Telephone Company will provide, on a quarterly basis, a CST report that lists the test results for each trunk tested. Trunk test failures requiring customer participation for trouble resolution will be provided to the customer on an as-occurs basis.

(4) Manual Scheduled Testing

Manual Scheduled Testing (MST) of Switched Access Services (Feature Groups B, D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and at the customer's premises, will

13. Additional Engineering, Additional Labor and Miscellaneous Services  
(Cont'd)

13.3 Miscellaneous Charges (Cont'd)

13.3.5 Testing Services (Cont'd)

(A) Switched Access Service (Cont'd)

(5) Nonscheduled Testing (Cont'd)

- the Telephone Company provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s) and/or at the customer's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled Tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

(6) Obligations of the Customer

(A) The customer shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in 13.3.5(A)(2) preceding or as set forth in 13.3.5(A)(5) preceding.

(B) The customer shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

(B) Special Access Service

The Telephone company will, at the request of a customer, provide assistance in performing specific test requested by the customer.

(1) Additional Cooperative Testing (ACT)

When a customer provides a technician at its premises, or at an end user's premises, with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Testing on voice grade services. At the customer's request, the Telephone Company will provide a technician at the customer's premises or at the end user's premises. These tests may consist of the following:

- Attenuation Distortion (i.e., Frequency Response)
- Intermodulation Distortion (i.e., Harmonic Distortion)
- Phase Jitter
- Impulse Noise
- Envelope Delay Distortion
- Frequency Shift
- Echo Control

(2) Nonscheduled Testing (NST)

When a customer provides a technician at its premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the customer's request, the Telephone Company will provide a technician at the customer's premises. Nonscheduled tests may consist of any tests, e.g., loss, noise, slope, envelope delay, which the customer may require.

(3) Obligation of the Customer

When the customer subscribes to Testing Service as set forth in this section, the customer shall make the facilities to be tested available to the Telephone Company at time mutually agreed upon.

13.3.8 Controller Arrangement

This arrangement enable the customer to control up to 48 transfer functions at a Telephone company central office via a CPE remote keyboard terminal capable of either 300 or 1200 bps operation. Included as part of the Controller Arrangement is a dial-up data station located at the Telephone Company central office to provide access to the Controller Arrangement. The dial-up data station consists of a 212A DATAPHONE data set and an appropriate Telephone company provided channel.

The Controller Arrangement must be located in the same Telephone Company central office as the transfer functions which it controls.

Transfer Arrangements, as set forth in 7.5.3(E)(10), 7.5.8(E)(2), or 7.5.9(D)(3) preceding, are required in addition to the Controller Arrangement in order to obtain a complete operational service.

## ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services  
(Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.9 Telecommunications Service Priority (TSP) System(A) Regulations

- (1) The TSP System was developed to satisfy the requirements of the National Communications System (NCS) of the Federal Government and provides the regulatory, administrative and operational procedures authorizing the priority installation and/or priority restoration of National Security Emergency Preparedness (NSEP) telecommunications services. TSP applies only to NSEP telecommunications services, and authorizes the Telephone Company to take priority action in the provision and restoration of such services.
- (2) Priority installation and/or priority restoration of NSEP telecommunications services shall be provided in accordance with the Federal Communications Commission's (FCC's) Rules and Regulations, and in accordance with the guidelines set forth in the Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP).
- (3) The customer requesting TSP service must be the same customer for which the associated access service is provided.
- (4) Certain conditions may require that one or more customer services with a lower or no restoration priority be preempted in order to install or restore NSEP telecommunications service(s) of a higher priority. When such preemption is necessary, the Telephone Company will make every reasonable effort to notify the preempted customer of the action to be taken. Credit allowances for such service preemption shall be made according to the provisions set forth in 2.4.4(E) preceding.

## ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services  
(Cont'd)13.3 Miscellaneous Services (Cont'd)13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)(A) Regulations (Cont'd)

- (5) If a vendor receives more than one Emergency TSP Service request from different service users, the service vendor will provision them in order of receipt. However, if one service user submits multiple Emergency TSP Service requests, the service user may specify the sequence of provisioning.
- (6) In obtaining TSP, the customer authorizes the Telephone Company to provide certain customer record information to the Manager, NCS, of the Federal Government so that the Government can maintain and administer its TSP System. This customer record information will include only the customer's name, TSP authorization code, Telephone Company circuit ID, customer telephone number and customer mailing address.
- (7) In order to provide priority restoration service in compliance with of the FCC's Rules and Regulations, the Telephone Company may be unable to notify the customer in advance where additional labor charges apply, as set forth in 13.3.2 preceding, before the required additional labor is undertaken. The customer, in obtaining a restoration priority, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain access services will cause unnecessary delays and, as a result, would be contrary to the aforementioned Rules and Regulations. In subscribing to TSP, the customer recognizes this condition and grants the Telephone Company the right to quote charges after the restoration has been completed.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(A) Regulations (Cont'd)

- (8) When an assigned restoration priority is discontinued or revoked, and the associated access service is continued in service, no charge applies for such a discontinuance.
- (9) Credit allowance provisions for an interruption in priority restoration are the same as those for the access service with which it is associated, as set forth in 2.4.4 preceding.
- (10) When a customer requests that a priority installation be expedited (i.e., essential and emergency services), **any applicable expedite charges will apply in addition to the priority installation charges set forth in 13.3.9(B) following.**
- (11) In the event that the Telephone Company must utilize specially constructed facilities in the priority installation of an access service, the regulations, rates and charges set forth in 14, following for the service for which priority installation is required shall also apply.
- (12) The activities performed by the Telephone Company in the provision of TSP are included in the following rate elements:
  - (a) Priority Installation - includes provision of confirmation information to the Manager, NCS, of the Federal Government, verification of TSP code assignments, and installation preemption, if necessary.
  - (b) Priority Restoration Implementation - includes provision of confirmation information to the Manager, NCS, of the Federal Government and verification of TSP code assignment.

MO. PUBLIC SERVICE COMM.

13.3.9 Telecommunications Service Priority (TSP) System (Cont'd)

(A) Regulations (Cont'd)

- (8) When an assigned restoration priority is discontinued or revoked, and the associated access service is continued in service, no charge applies for such a discontinuance.
- (9) Credit allowance provisions for an interruption in priority restoration are the same as those for the access service with which it is associated, as set forth in 2.4.4 preceding.
- (10) When a customer requests that a priority installation be expedited (i.e., essential and emergency services), the regulations, rates and charges set forth in 5.2.2(C) preceding for the service for which the priority installation is required shall also apply.
- (11) In the event that the Telephone Company must utilize specially constructed facilities in the priority installation of an access service, the regulations, rates and charges set forth in 14, following for the service for which priority installation is required shall also apply.
- (12) The activities performed by the Telephone Company in the provision of TSP are included in the following rate elements:
  - (a) Priority Installation - includes provision of confirmation information to the Manager, NCS, of the Federal Government, verification of TSP code assignments, and installation preemption, if necessary.
  - (b) Priority Restoration Implementation - includes provision of confirmation information to the Manager, NCS, of the Federal Government and verification of TSP code assignment.

ACCESS SERVICE

14. Special Construction

14.1 General

This section contains regulations, rates, charges and liabilities applicable for the special construction of intrastate facilities.

When special construction of facilities is required, the provisions of this tariff apply in addition to all regulations, rates and charges set forth in the appropriate service section of this tariff.

14.2 Regulations

14.2.1 Filing of Charges

Rates, charges and liabilities for special construction to provide facilities for use for one month or more are filed in Section 14.2.6 following, as appropriate.

Rates, charges and liabilities for the construction of facilities for use for less than one month are filed in supplements to this tariff.

14.2.2 Ownership of Facilities

The Telephone Company providing specially constructed facilities under the provisions of this tariff retains ownership of all such facilities.

14.2.3 Interval to Provide Facilities

Based on available information and the type of service ordered, the Telephone Company will establish a completion date for the specially constructed facilities. If the scheduled completion date cannot be met due to circumstances beyond the control of the Telephone Company, a new completion date will be established and the customer will be notified.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.4 Special Construction Involving Both Intrastate and Interstate Facilities

When special construction involves facilities to be used to provide both interstate and intrastate services, charges for the portion of the construction used to provide intrastate service shall be in accordance with this tariff. Charges for the portion of the construction used to provide interstate service shall be in accordance with the appropriate interstate tariff.

14.2.5 Payments for Special Construction

14.2.5.1 Payment of Charges

All bills associated with special construction charges are due in accordance with the regulations in the appropriate service section of this tariff.

14.2.5.2 Start/End of Billing

Billing of recurring charges for specially constructed facilities starts on the day after the facilities are made available for use. Billing accrues through and includes the day that the specially constructed facilities are discontinued.

14.2.5.3 Reserved for Future Use

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.5 Payments for Special Construction (Cont'd)

14.2.5.4 Credit Allowance for Service Interruptions

In the event of a service interruption involving a specially constructed facility, the customer shall receive a recurring monthly charge credit in accordance with the credit allowance provisions in the appropriate service section of this tariff associated with the affected services.

When an interruption continues due to the failure of the customer to authorize the replacement of facilities subject to a Replacement Charge, as specified, in 14.2.6.4(B)(4) following, the credit allowance will be terminated on the seventh calendar day after the Telephone Company has provided the customer with written notification of the need for replacement. The credit allowance will resume on the day after the Telephone Company receives written authorization for the replacement from the customer.

14.2.6 Liabilities and Charges for Special Construction

14.2.6.1 General

This section describes the various charges and liabilities that may apply when the Telephone Company provides special construction of facilities in accordance with an order for service. Written approval of all liabilities and charges must be provided to the Telephone Company prior to the start of construction.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction(Cont'd)

14.2.6.2 Conditions Requiring Special Construction

Special construction is required when 1) facilities are not available to meet an order for service, and 2) the Telephone Company constructs facilities, and 3) one or more of the following conditions exist:

- The Telephone Company has no other requirement for the facilities requested.
- It is requested that service be furnished using a type of facility, or via a route, other than that which the Telephone Company would normally utilize in furnishing the requested service.
- More facilities are requested than would normally be required to satisfy an order.
- It is requested that construction be expedited, resulting in added cost to the Telephone Company.

14.2.6.3 Development of Liabilities and Charges

Special construction charges and liabilities will be developed based on estimated costs, except when actual costs are requested in writing prior to the start of special construction.

In order to meet a scheduled service date when actual costs are requested, an initial special construction filing may be based on estimated costs. Such a filing will be revised when actual costs are available.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

Depending on the specifics associated with each individual case, one or more of the following special construction charges and/or liabilities may be applicable:

- (A) Reserved for Future Use
- (B) Nonrecurring Charge

A nonrecurring charge always applies and includes one or more of the following components:

(1) Case Preparation Charge

A nonrecurring charge always includes a case preparation charge component to cover the administrative expenses associated with preparing a special construction case and the associated tariff filing.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(B) Nonrecurring Charge (Cont'd)

(2) Expediting Charge

A nonrecurring charge may include an expediting charge when it is requested that special construction be completed on an expedited basis. The charge equals the difference in estimated cost between expedited and nonexpedited construction.

(3) Optional Payment

An optional payment charge may be included in the nonrecurring charge in association with a type of facility or route other than that which the Telephone Company would normally use in furnishing the requested service if lower recurring monthly charges are desired for the specially constructed facilities. This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less. This election must be made in writing before special construction starts. If this election is coupled with the actual cost option, the optional payment charge will reflect the actual cost of the specially constructed facilities.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(B) Nonrecurring Charge (Cont'd)

(4) Replacement Charge

If any portion of specially constructed facilities for which an optional payment charge has been paid requires replacement involving capital investment, a replacement charge will apply. This charge will be in the same ratio to the total replacement cost as the initial optional payment charge was to the installed cost of the original specially constructed facilities. If any portion of the facilities subject to the replacement charge fails, service will not be restored until notification is provided in writing that replacement is required and such replacement is ordered.

(5) Rearrangement Charge

If the Telephone Company is requested to rearrange existing specially constructed facilities, a nonrecurring charge equal to the cost of any additional special construction will apply.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(B) Nonrecurring Charge (Cont'd)

(6) Special Construction of Facilities for Use for less than One Month

When the Telephone Company is requested to construct facilities to provide service for less than one month, a nonrecurring charge only applies. In addition to the case preparation charge component, this nonrecurring charge recovers all elements of cost, including engineering, shipping of equipment, equipment installation, line-up, equipment leasing, space rental, equipment removal, and any other costs associated with the construction of the facilities.

(C) Maximum Termination Liability and Termination Charge

A Maximum Termination Liability is equal to the nonrecoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a Termination Charge if all specially constructed facilities were discontinued before the Maximum Termination Liability expires.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(C) Maximum Termination Liability and Termination Charge (Cont'd)

The liability period is equal to the average life of the account associated with the specially constructed facilities. The liability period is generally expressed in terms of an effective and expiration date.

The Maximum Termination Liability is filed with the initial tariff filing in decreasing amounts at ten-year intervals over the average account life of the facilities. In the event that the average account life of the facilities is not an even multiple of ten, the last increment will reflect the appropriate number of years remaining.

Example Illustrating a 27-Year Average Account Life

<u>Maximum Termination Liability</u>	<u>Effective Date</u>	<u>Expiration Date</u>
\$10,000	6/1/84	6/1/94
7,000	6/1/94	6/1/04
3,000	6/1/04	6/1/11

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(C) Maximum Termination Liability and Termination Charge (Cont'd)

Prior to the expiration of each liability period, the customer has the option to (A) terminate the special construction case and pay the appropriate charges, or (B) extend the use of the specially constructed facilities for the new liability period.

The Telephone Company will notify the customer six months in advance of the expiration date of each ten-year liability period. The customer must provide the Telephone Company with written notification at least 30 days prior to the expiration of the liability period if termination is elected. Failure to do so will result in an automatic extension of the special construction case to the next liability period at the filed Maximum Termination Liability amount.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges(Cont'd)

(C) Maximum Termination Liability and Termination Charge (Cont'd)

A Termination Charge may apply when all services using specially constructed facilities which have a tariffed Maximum Termination Liability are discontinued prior to the expiration of the liability period. The charge reflects the unamortized portion of the nonrecoverable costs at the time of termination, adjusted for net salvage and possible reuse. Administrative costs associated with the specific case of special construction and any cost for restoring a location to its original condition are also included. A Termination Charge may never exceed the filed Maximum Termination Liability.

A partial termination of specially constructed facilities will be provided, at the election of the customer. The amount of the Termination Charge associated with such partial termination is determined by multiplying the termination charge which would result if all services using the specially constructed facilities were discontinued, at the time partial termination is elected, by the percentage of specially constructed facilities to be partially terminated. A tariff filing will be made following a partial termination to list remaining Maximum Termination Liability amounts and the number of specially constructed facilities the customer will remain liable for.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges(Cont'd)

(C) Maximum Termination Liability and Termination Charge (Cont'd)

Example

A customer with a filed Maximum Termination Liability of \$100,000 for 3600 specially constructed facilities requests a partial termination of 900 facilities. The Termination Charge for all facilities, at the time of election, is \$60,000. The partial termination charge, in this example, is \$60,000 x 900/3600, or \$15,000.

(D) Annual Underutilization Liability and Underutilization Charge

Prior to the start of special construction, the Telephone Company and the customer will agree on (1) the quantity of facilities to be provided, and (2) the length of the planning period during which the customer expects to place the facilities in service. The planning period is hereinafter referred to as the Initial Liability Period (ILP). The ILP is listed in the tariff with an effective and expiration date.

Underutilization occurs only if, at the expiration date of the ILP and annually thereafter, less than 70 percent of the specially constructed facilities are in service at filed tariff service rates.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges(Cont'd)

(D) Annual Underutilization Liability and Underutilization Charge (Cont'd)

An annual underutilization liability amount is filed on a per unit basis (e.g., per cable pair) for each case of special construction. This amount is equal to the annual per unit cost and includes depreciation, maintenance, administration, return, taxes and any other costs identified in the supporting documentation provided at the time the special construction case is filed.

Upon the expiration of the ILP, the number of underutilized facilities, if any, are multiplied by the annual underutilization liability amount. This product is then multiplied by the number of years (including any fraction thereof) in the ILP to determine the underutilization charge.

Annually thereafter, the number of underutilized facilities, if any, existing on the anniversary of the ILP expiration date will be multiplied by the annual underutilization liability amount to determine the underutilization charge for the preceding 12 month period.

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges(Cont'd)

(D) Annual Underutilization Liability and Underutilization Charge (Cont'd)

Example

A customer orders 100 services and the special construction of a 600 pair building riser cable is agreed to, based on the customer's 5 year facility requirements. The ILP, in this example, would be filed at 5 years. The annual underutilization liability is filed at \$2.00 per pair. If 400 pairs were in service at the end of the ILP, there would be an underutilization of 20 pairs, i.e.,  $420 (70\% \text{ of } 600) - 400 = 20$ . The total underutilization charge for the first 5 years would be \$200.00, or \$2.00 per pair x 20 pairs x 5 years.

If 420 pairs are in service at the end of the 6th year, there is no underutilization, i.e.,  $420 - 420 = 0$ .

(E) Recurring Monthly Charges

(1) Reserved for Future Use

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

ACCESS SERVICE

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(E) Recurring Monthly Charges (Cont'd)

(2) Charge for Route or Type other than Normal

When special construction is requested using a route or type of facility other than that which the Telephone Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring costs of the facilities the Telephone Company would have normally used.

- (a) When an Optional Payment Charge as set forth in 14.2.6.4(B)(3) preceding has been elected, the recurring monthly charge will be reduced to include specially constructed facility operating expenses only.
- (b) If the actual cost option as set forth in 14.2.6.3 preceding has been elected, the recurring charge will be adjusted to reflect the actual cost of the new construction when the costs have been determined. This adjusted recurring charge is applicable from the start of service.

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

14.2 Regulations (Cont'd)

14.2.6 Liabilities and Charges for Special Construction (Cont'd)

14.2.6.4 Types of Liabilities and Charges (Cont'd)

(F) Lease Charge

This charge applies when the Telephone Company leases equipment in order to meet service requirements. The amount of the charge is equal to the net added cost to the Telephone Company caused by the lease.

(G) Cancellation Charge

If a service order with which special construction is associated is canceled prior to the start of service, a cancellation charge will apply. The charge will include all nonrecoverable costs incurred by the Telephone Company in association with the special construction up to and including the time of cancellation.

14.2 Regulations (Cont'd)

14.2.7 Deferral of Start of Service

The Telephone Company may be requested to defer the start of service which will use specially constructed facilities subject to the provisions set forth in the service section of this tariff under which service is being provided. Requests for special construction deferral must be in writing and are subject to the following regulations:

14.2.7.1 Construction Has Not Begun

If the Telephone Company has not incurred any installation costs before receiving a request for deferral, no charge applies.

14.2.7.2 Construction Has Begun

If the construction of facilities has begun before the Telephone Company receives a request for deferral, charges will vary as follows:

(A) All Services Are Deferred

When all services which will use specially constructed facilities are deferred, a charge based on the costs incurred by the Telephone Company during each month of the deferral will apply. Those costs include the recurring costs for that portion of the facilities already completed and any other costs associated with the deferral. The cost of any components of the nonrecurring charge which have been completed at the time of deferral will also apply.

14.2.7.2 Construction Has Begun (Cont'd)

(B) Some Services Are Deferred

When some services which will use the specially constructed facilities are deferred, the construction case will be completed and all special construction charges will apply.

14.2.7.3 Construction Complete

If the construction of facilities has been completed before the Telephone Company receives a request for deferral, all special construction charges will apply.

14.2.8 Definitions

Actual Cost - The term "Actual Cost" denotes all costs charged against a specific case of special construction, including any appropriate taxes.

Annual Underutilization Liability - The term "Annual Underutilization Liability" denotes a per unit amount which may be billed annually if fewer services are in use utilizing specially constructed facilities at filed tariff rates than were originally specially constructed.

Estimated Cost - The term "Estimated Cost" denotes all estimated costs that will be incurred in providing a specific case of special construction, including any appropriate taxes.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.8 Definitions (Cont'd)

Facilities - The term "Facilities" denotes any cable, poles, conduit, microwave or carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide interstate services.

Initial Liability Period - The term "Initial Liability Period" denotes the initial planning period during which the customer expects to place specially constructed facilities in service.

Installed Cost - The term "Installed Cost" denotes the total investment (estimated or actual) required by the Telephone Company to provide specially constructed facilities.

Maximum Termination Liability - The term "Maximum Termination Liability" denotes the maximum amount which may be billed if all services using specially constructed facilities are terminated prior to the expiration of the Maximum Termination Liability Period.

Maximum Termination Liability Period - The term "Maximum Termination Liability Period" denotes the length of time for which a termination charge may apply if all services using specially constructed facilities are terminated.

Net Salvage - The term "Net Salvage" denotes the estimated scrap, sale, or trade-in value, less the estimated cost of removal. Cost of removal includes the costs of demolishing, tearing down, or otherwise disposing of the material and any other applicable costs. Since the cost of removal may exceed salvage value, net salvage may be negative.

ACCESS SERVICE

14. Special Construction (Cont'd)

14.2 Regulations (Cont'd)

14.2.8 Definitions (Cont'd)

Nonrecoverable Cost - The term "Nonrecoverable Cost" denotes the cost of specially constructed facilities for which the Telephone Company has no foreseeable use should the service be terminated.

Normal Construction - The term "Normal Construction" denotes all facilities the Telephone Company would normally use to provide service in the absence of a requirement for special construction.

Normal Cost - The term "Normal Cost" denotes the estimated cost to provide services using normal construction.

Permanent Facilities - The term "Permanent Facilities" denotes facilities providing service for one month or more.

Recoverable Cost - The term "Recoverable Cost" denotes the cost of the specially constructed facilities for which the Telephone Company has a foreseeable reuse, either in place or elsewhere, should the service be terminated.

Termination Charge - The term "Termination Charge" denotes the portion of the Maximum Termination Liability that is applied as a nonrecurring charge when all services are discontinued prior to the expiration of the specified liability period.

ACCESS SERVICE

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services

15.1 Line Information Data Base (LIDB) Access Service

15.1.1 General

Line Information Data Base (LIDB) Access Service provides the customer the ability to access billing validation data contained on the Telephone Company's LIDB located in Johnson City, Tennessee and Bristol, Tennessee. The LIDB is accessed through the Telephone Company SS7 network which utilizes American National Standards Institute (ANSI) signaling protocol. Access to the Telephone Company's LIDB provides customers the ability to provide toll fraud protection by validating calling card and toll billing exception data and performing pay telephone checks.

15.1.2 Description

LIDB Access Service is provided by the Telephone Company to its customers in support of alternate billing services. LIDB Access Service provides access to billing validation data which resides on the Telephone Company data base for use with alternate billing services. Alternate billing services allow customer's end users the ability to bill calls to an account not necessarily associated with the originating line. LIDB Access Service supports alternate billing services such as Calling Card, Collect Calls, and Third Number Billing.

Customers participating in LIDB Access Service for purposes of obtaining billing validation data, which resides on the Telephone Company data base, originate queries to the LIDB from an operator services system (OSS) identified by an originating point code (OPC). The LIDB query is routed through one of two Telephone Company interconnecting Signaling Transfer Points (STPs), located in Johnson City, Tennessee and Bristol City, Tennessee, to the Telephone Company Regional Service Control Point (SCP) where the LIDB resides.

The requested billing validation data, in the form of signaling information, is passed back via either one of the two Telephone Company interconnecting STPs to the customer's designated OSS where the LIDB query was originated. The Telephone Company LIDB will receive and respond to Calling Card Service and Billed Number Screening queries as defined in Technical Reference **Publications GR-246, FR-271, GR-905 and GR-954.**

ACCESS SERVICE

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data Base Services

15.1 Line Information Data Base (LIDB) Access Service

15.1.2 Description (Cont'd)

LIDB Access Service will provide the following functions on a per query basis:

- Validation of a telecommunications calling card stored on LIDB.
- Determination of whether the billed line automatically rejects certain calls billed as collect or third number.
- Determination of whether the billed line in the Billed Number Screening Query is a public telephone number using the "Service or Equipment Indicator" in the LIDB.

All access to the Telephone Company's LIDB will occur through two Telephone Company interconnecting STPs located in Johnson City, Tennessee and Bristol, Tennessee.

15.1.2.1 Limitations

Unless expressly authorized in writing by the customer and the Telephone Company, LIDB Access Service is not to be used for purposes other than those LIDB functions described in 15.1.2 preceding. LIDB Access Service is to be used for those services only on a call-by-call basis and data accessed on LIDB may not be stored elsewhere for future use.

15.1 Line Information Data Base (LIDB) Access Service

(Cont'd)

15.1.3 Undertakings of the Telephone Company (Cont'd)

15.1.3.1 LIDB Data Specifications

The Telephone Company's LIDB will contain a record for every working line number and Billed Number group served by the Telephone Company. Other exchange carriers who may store their data in the Telephone Company LIDB are requested to provide this data as well.

The Telephone company will administer its LIDB update process by use of a Data Base Administration System (DBAS). Updates contain information for calling card, collect and bill-to-third Alternate Billing Services (ABS) verification.

The Telephone Company generates customer record service order update activity which is electronically transferred to LIDB from the DBAS system. Mechanized updates (e.g. add, delete, modify customer accounts as customers move, order new service, disconnect service, or become delinquent on their account) are processed daily, 6 days per week, Monday through Saturday. Emergency updates for calling cards reported lost, stolen or otherwise compromised will be made 7 days per week, 24 hours per day.

ABS query usage within LIDB is monitored for unusual patterns which may be indicators of abuse or attempted fraud. By using a threshold method, when validation queries for a specific LIDB record reach the Telephone Company established usage threshold level, the number is placed on an exception list and an investigator will determine the validity of the usage. If the usage is determined to be invalid, the investigator will immediately deactivate the record in LIDB.

## ACCESS SERVICE

15. Common Channel Signaling/Signaling System 7 (CCS/SS7) Data  
Base Services15.1 Line Information Data Base (LIDB) Access Service

(Cont'd)

15.1.3 Undertakings of the Telephone Company (Cont'd)15.1.3.1 LIDB Data Specifications (Cont'd)

Usage thresholds will be established by the Telephone Company. Thresholds may vary by class of end user account (e.g. residence, business). Usage thresholds are applied uniformly within LIDB, and will monitor combined query usage from all LIDB Access Service Customers. If a calling card is automatically disabled and the usage is determined valid, the calling card will be reactivated in LIDB. The Telephone Company will also establish usage thresholds which, when met by query activity to a calling card record, will automatically disable the record in LIDB. The number is placed on an exception list and an investigator will determine validity of the usage.

The Telephone Company will administer its LIDB to insure the provision of acceptable service levels to all customers. During periods of LIDB congestion, an automatic call gapping procedure will be utilized to control such congestion. The automatic call gapping procedure signals the switch and identifies the gap (how long the switch should wait before sending another query) and the duration (how long the switch should continue to perform gapping) according to the level of congestion. For example, during an overload condition, the automatic call gapping procedure will signal the switch when to begin to drop one out of three of the queries received. This call gapping procedure will be applied uniformly to all users of the Telephone Company's LIDB service.

The Telephone Company maintains the right to invoke manual intervention of the automatic call gapping procedure to preserve the integrity of the network.

(Cont'd)

15.1.3 Undertakings of the Telephone Company (Cont'd)

15.1.3.2 Provisions of Billing Information

LIDB Access Service Queries received at the SCP are accumulated and records are generated identifying the number of queries processed by the originating point code (OPC) of the customer's Operator Service System (OSS) location. This information is delivered to the accounting office via tape or by tele-processing for processing and billing. The query charges will be accumulated and billed to the LIDB Access Service customer each month.

The Telephone Company will provide sufficient information with the bill to enable the customer to determine how the billed amount was calculated. Included on the bill will be separate entries displaying the Billed Number Screening queries and the Calling Card Number queries.

Other reports may be provided as mutually agreed upon. Such agreements, provided on an individual case basis, may involve additional charges or conditions.

15.1.4 Obligations of the Customer

In addition to the obligations of the customer set forth in Section 2, preceding, the customer has certain specific obligations pertaining to the use of LIDB Access Service. These obligations are as follows:

15.1.4.1 LIDB Access Service PIU Report

The customer shall provide to the Telephone Company a LIDB Access Service Percent Interstate Usage (PIU) Report in accordance with the provisions specified in Section 2, preceding.

15.1.5 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for LIDB Access Service.

15.1.5.1 Description of Rates and Charges

There are two types of rates and charges that will apply to LIDB Access Service. These are usage rates and nonrecurring charges. These rates and charges are applied as set forth in (A) and (B) following. For billing purposes, each month is considered to have 30 days.

(A) Usage Rates

The usage rates (Query Transport and Query) for LIDB Access Service are applicable on a per query basis as described in 15.1.5.2 following.

(B) Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific activity (i.e.,

(B) Nonrecurring Charges (Cont'd)  
change to an existing service.)  
The nonrecurring charges that  
apply for service rearrange-  
ments are described below.  
Service Rearrangements  
Service Rearrangements are changes  
to existing services which do not  
result in either a change in the  
minimum period requirements as set  
forth in Section 5.2.5 preceding  
or a change in the location  
designated by the OPC.  
Changes which result in the  
establishment of new minimum  
period obligations are treated as  
a discontinuance of the existing  
service and establishment of a new  
service and all applicable  
nonrecurring charges will apply.

## ACCESS SERVICE

16. Operator Services16.1 Operator Services Description

Operator Services includes the service categories of Operator Transfer and Operator Inward Assistance. Operator Transfer and Operator Inward Assistance services are provided from Operator Services System (OSS) Tandems to the customer's premises in conjunction with the rules and regulations of the specified Access Services found in Sections 2, 3, 5, and 6 preceding. Operator Services are unavailable in certain LATAs due to existing trunking arrangements. In locations where the provider of operator services is not the Telephone Company, availability of operator services is at the discretion of the operator services provider. If operator services are available, the Telephone Company rates are applicable and billed by the Telephone Company. In locations where the Telephone Company is the provider of operator services for other telephone companies, availability of operator services is contingent on the availability of operator services tariffs of that telephone company. The OSS Tandem locations are provided in National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

16.1.1 Operator Transfer Service (OTS)

Operator Transfer is an originating service that provides call routing of 0- (the digit "0" with no additional digits) calls to a participating customer as requested by the calling end user. An Operator Transfer call is routed to the Telephone Company's OSS operator for completion to a destination outside the originating LATA when the calling party dials "0" and waits for an operator to assist with the call. The Telephone Company operator will, upon request, transfer the call to the calling end user's participating customer (i.e., the Telephone Company's Operator Transfer Service customer) of choice. If the calling end user has no specific customer preference, the OSS operator will consult reference information and offer to the calling party the name of a participating customer. The reference information is arranged to give all participating customers an equal opportunity of being offered to and chosen by the calling end user. After a selection is made by the calling end user the operator will then key in the selected customer's Carrier Identification Code (CIC) and transfer the call.

ACCESS SERVICE

16. Operator Services (Cont'd)

16.1 Operator Services Description (Cont'd)

16.1.2 Operator Inward Assistance (OIA) Service

Operator Inward Assistance provides operator service functions on inward calls received from customers. Operator Inward Assistance is provided when a customer's operator contacts a Telephone Company operator requesting line status verification or verification with call interruption. Inward Assistance functions will be performed for only one telephone number per inward call received. The Inward Assistance service functions available are detailed as follows:

- (A) Busy Line Verification - The operator will check the status of the requested telephone line to verify if there is conversation on the line and advise the requesting customer of the line status.
- (B) Verification with Call Interruption - After verification of a conversation on the requested line is made, and upon request, the operator will interrupt and inform the called party of the waiting call. The operator only interrupts the ongoing call and does not complete the subsequent telephone call for the customer.

16.2 Manner of Provisioning

- (A) Operator Services trunking between the customer's premises and the OSS Tandem is provisioned as either Switched Access Feature Group B, Feature Group C, or Feature Group D service and may be arranged, per the customer's request, as either 1-way or 2-way service. These trunk groups are established as final trunks and will be assigned data registers to obtain usage, peg count, and overflow attempt information. If a trunk(s) does not currently exist between the customer's premises and the OSS Tandem(s), the customer must establish Feature Group B or Feature Group D service to the Telephone Company's OSS Tandem(s). The Telephone Company will provide trunk side switching along with trunk answer and disconnect supervisory signaling to the customer.

State Executive, External Affairs

CANCELLED - Missouri Public Service Commission - 06/04/2006 - TN-2006-0416 - YI-2006-0841

ACCESS SERVICE

16. Operator Services (Cont'd)

16.2 Manner of Provisioning (Cont'd)

(B) When the OSS Tandem also functions as the Message Toll Service (MTS) Access Tandem, the customer may combine Operator Services traffic with its MTS Switched Access traffic between the OSS Tandem and the customer's premises provided the trunk group has the same signaling and routing requirements as specified for Operator Transfer or Operator Inward Assistance. However, Operator Services traffic may not be combined with MTS Switched Access traffic if the customer provides operator functionality or coin control.

16.2.1 Operator Transfer

(T)

(A) The customer must order sufficient capacity between the OSS Tandem(s) and the customer's premises to serve Operator Transfer traffic originating from those end offices. The Telephone Company OSS Tandems send 10-digit ANI (NPA + 7-digit telephone number) for Feature Group D trunk groups with Equal Access signaling or Operator Services Address signaling and Feature Group C trunk groups with Traditional signaling. However, the Telephone Company OSS Tandems send 7-digit ANI for Feature Group C trunk groups with Operator Services signaling. Therefore, if the customer requires Operator Transfer calls separately identified by the originating NPA for the Feature Group C trunk group with Operator Services signaling, the customer must utilize a separate and final trunk group, from the OSS Tandem to their customer's premises, for each NPA served by that OSS Tandem.

(B) In order for the customer to provide full operator functionality (e.g., Operator Recall, Sequence Dialing, Time and Charge Quotation, and Emergency Ring-back) or coin control, the customer must order Operator Trunk - Pay Telephone for Feature Group C service or Operator Trunk - Full Feature for Feature Group D service. Full operator functionality is not required to provide operator transfer service. When coin control is provided, the customer must establish a separate and final trunk group for each type of end office operator/coin signaling (i.e., inband, expanded inband, and multiwink) existing in the end offices served by the OSS Tandem. Operator Transfer is not available for coin sent-paid traffic.

## ACCESS SERVICE

16. Operator Services (Cont'd)16.2 Manner of Provisioning (Cont'd)16.2.4 Design Blocking

Trunks between the customer's premises and the OSS Tandem will follow the normal Feature Group B, C, or D blocking criteria as set forth in 6.5.7 preceding. The Telephone Company will perform routine measurement functions to inform the customer that an adequate number of transmission paths are in service to meet the normal Feature Group B, C, or D design blocking levels. However, capacity levels and trunk quantities will be the responsibility of the customer.

16.2.5 Testing

Acceptance testing for Operator Services will be provided as set forth in 6.1.6 preceding. Testing Capabilities for Feature Group B, Feature Group C, and Feature Group D services utilized in conjunction with Operator Services will be provided as set forth in 6.2.2(D), 6.2.3(D) and 6.2.4(D) preceding.

16.2.6 Interface Groups and Transmission Parameters

Operator Services will utilize the same interface groups and transmission specifications as specified in 6.2.2(C), 6.2.3(C) and 6.2.4(C) preceding.

16.2.7 Ordering and Billing Options and Conditions

(A) Operator Transfer Service is ordered under the access order provisions as set forth in Section 5 preceding. Access Order Charges applicable for Switched Access will apply per Access Order - one per state - for the installation, addition, change, or rearrangement of Operator Transfer Service. In addition, other Access Order Charges (i.e., Service Date Change Charges, etc.) may apply. No access order is required to receive Operator Inward Assistance services.

## ACCESS SERVICE

16. Operator Services (Cont'd)16.2.7 Ordering and Billing Options and Conditions  
(Cont'd)

(B) Billing for all Operator Services will occur on a monthly basis as other billing is performed, but will be rendered on a statement detailing the flat-rated charges for the entire state applicable to that customer for the specified monthly period.

16.3 Liability of the Telephone Company

In addition to the liability statements as set forth in Section 2 preceding, the following also applies.

- (A) The Telephone Company's liability, if any, for its gross negligence or willful misconduct is not limited by this Tariff. With respect to any other claim or suit, by a customer or any others, for damages arising out of negligent mistakes, omissions, interruptions, delays or errors, defects in transmission, omission from or defects in the applicable list of customers or transfer to customers occurring in the course of furnishing service hereunder, the Telephone Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period of time during which such mistake, omission, interruptions, delays, errors, defects in transmission or service, omissions from or defects in the applicable list of customers or transfers to customers continues. However, any such mistakes, omissions, interruptions, delays, errors, or defects in transmission or service, omissions from or defects in the applicable list of customers or transfers to customers which are caused by or contributed to by the negligent omission or willful act of the customer provided facilities or equipment shall not result in the imposition of any liability whatsoever upon the Telephone Company. The Telephone Company expressly disclaims and express or implied warranty for the aforesaid service or offering including no warranty of merchantability or warranty of fitness for any particular purpose. It is expressly acknowledged for all subscribers to the aforesaid service that errors, mistakes and omissions can and will occur and that the Telephone Company neither warrants nor guarantees faultless or perfect service or transmission.

16. Operator Services (Cont'd)

16.3 Liability of the Telephone Company (Cont'd)

(B) The customer indemnifies and saves the Telephone Company harmless against claims for libel, slander, or infringement of copyright and trademark arising from the information transmitted over facilities furnished hereunder and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.

(C) The customer indemnifies and saves the Telephone Company harmless against claims or suits for damages arising where the connection between the calling end user and a local emergency agency is in some way faulty or impaired, due in whole or in part to the negligent mistake or delay of the Telephone Company. Examples of this may include, but are not limited to, instances in which the Telephone Company, through negligent mistake or delay, may provide an incorrect local emergency agency number, delay in locating a local emergency agency number, or disconnect an in-progress call between a calling end user and a local emergency agency.

16.4 Obligations of the Customer

In addition to the general regulations as set forth in Section 2 preceding, the following also applies.

(A) The customer shall provide the necessary on-hook, off-hook, answer supervision, and disconnect supervision at the customer's premises.

(B) Jurisdictional reporting will apply as required in Sections 2.3.14(A) and 2.3.14(B) for determining the Percent Intrastate Usage.

16.5 Rate Regulations

16.5.1 Description and Application of Rates and Charges

(A) Operator Transfer Service

The Operator Transfer charge is a flat-rated charge applicable per call transferred to the subscribing customer. In addition to the Operator Transfer charge, Switched Access rates apply as set forth in 6.8 preceding and Carrier Common Line (CCL) charges as set forth in 3.8 preceding apply for usage originating from all end offices served by the OSS Tandem. Nonrecurring Switched Access charges are applicable as specified in 6.7 and 6.8 preceding.

(B) Operator Inward Assistance Service

The Operator Inward Assistance flat-rated charges are specific to the operator function performed and are applied per attempt to the requesting customer. The charges include all operator work time and equipment necessary to perform the requested operator function. The specific charges for Inward Assistance are shown below:

- (1) Busy Line Verification - applicable per busy line verify attempt.
- (2) Verification with Call Interrupt - applicable per busy line verify/call interrupt attempt.

Switched Access rates, including CCL charges and nonrecurring charges, are applicable for Operator Inward Assistance services.

ACCESS SERVICE

STATEMENT OF MAXIMUM ALLOWABLE RATES

Presented in this section are the Maximum Allowable Rates that Sprint Missouri, Inc. may charge for its services for the 12 month period beginning December 18, 2003 and ending December 17, 2004, pursuant to Section 392.245 RSMo. Under Section 392.245 RSMo the maximum allowable rates for basic services are adjusted annually by the change in the Telephone Services component of the Consumer Price Index. The maximum allowable rates for non-basic services are adjusted annually by 8%. The actual rates for Sprint's services are found in the applicable sections of this tariff as referenced below. (C)

Service	Service Classification	Tariff Reference	Maximum Allowable Rate	
			Per Access Minute	NRC
1. Carrier Common Line Access Service				
1.1 InterLATA				
1.1.1 Terminating	Basic	3.8	\$ 0.054133	N/A (R)
1.1.2 Originating	Basic	3.8	\$ 0.035917	N/A (R)
1.2 IntraLATA				
1.2.1 Terminating	Basic	3.8	\$ 0.054133	N/A (R)
1.2.2 Originating	Basic	3.8	\$ 0.035917	N/A (R)
			<u>Monthly</u>	<u>NRC</u>
2. Ordering Options for Switched and Special Access Service				
2.1 Service Date Change Charge per order	Non-Basic	5.2.2(A)	N/A	\$13.85
2.2 Design Change Charge, per order	Non-Basic	5.2.2(C)	N/A	\$13.85
